# 1. OBJECTIVE

The Revenue Policy provides the parameters under which Council develops its annual budget.

# 2. SCOPE

The policy must cover the following principles:

- Rates and charges including levying, concessions and recovery methods
- Cost recovery methods
- Developer charges

The policy forms part of the budget documents and must be adopted before the annual budget. The revenue statement is developed using the principles set out in this policy.

# 3. DEFINITIONS

The definitions for the terms rates and charges, concessions and cost recovery used in this policy can be found in the *Local Government Act 2009* and the *Local Government Regulation 2012*.

The definition of developer charges relates to those charges that can be applied by Council on developments as set out in the Planning Act 2016.

# 4. ROLES AND RESPONSIBILITIES

# **General Principles**

The general principles for revenues set by the Council are:

- Simple methods for levying rates and charges that reflect a contribution to services provided;
- Provide equity of contribution based on the economic situation of the community;
- Owners and occupiers of the land that are serviced by Council are easily identified;
- Council can demonstrate the provision of service delivery; and
- Decisions are made based on the whole of the Council area.

# Principles for levying rates and charges

- having regard to its long-term financial forecast when setting rates and charges;
- seek to minimise the revenue required to be raised from rates and charges by:
  - o maximising income from available grants and subsidies, and

Page 2 of 3

- imposing cost recovery in respect of services and activities for which it believes cost-recovery is appropriate.
- have regard to the prevailing local economic conditions, and when possible, limit increases in an attempt to avoid significant price escalation in any one year.

# Principles and purposes for granting concessions for rates and charges

- Concessions may be granted where Council is satisfied payment of the rates or charges will cause hardship to the landowner.
- Concessions may be granted where Council is satisfied another provision of S120 of the *Local Government Regulation 2012* is applicable.

### Principles for setting cost recovery fees

- Council may establish cost recovery fees for regulatory and other services;
- Insetting its cost-recovery fees, Council will be cognizant of the requirement that such a fee must not be more than the cost to Council of providing the service or taking the action to which the fee applies.
- However, Council reserves the right to cost the services below full costs recovery when considering the method of charging and the level of contribution;
- Council may decide by resolution to remit all or part of a cost recovery fee;
- Affordability and grants contribution levels should be considered when setting these fees.

### Principles for setting developer charges

- Mechanisms for the planning and funding of infrastructure for urban growth are contained within the *Planning Act 2016*.
- Pursuant to the provisions of this Act, and the Flinders Shire Council Planning Scheme, developers may
  be requested to contribute to any development works that impact on the ability for Council to deliver
  services.

### Principles for recovering overdue rates and charges

- Council will monitor overdue rates and charges on a regular basis;
- Council will be open and transparent with its recovery process;
- Council will provide adequate up front information about the consequences of non payment of rates and charges;
- Council may resolve to apply interest on overdue rates and charges.

## 1. OBJECTIVE

To ensure compliance with the *Local Government Regulation* 2012, Section 192 as well as ensuring that appropriate forward financial planning is undertaken.

### 2. SCOPE

This policy applies to the use of loan borrowing by Council to fund infrastructure and other capital projects.

# 3. POLICY

### 3.1 Purpose of Borrowings

Loan funds can be raised to finance a range of infrastructure assets over the maximum time frames stated.

The types of projects that are funded by loan borrowings are those that will have a financial impact over a number of years. This method ensures that the shire's ratepayers are not burdened by unrealistic expenditure levels. The repayment for these capital works creates an asset for Council, which can then be repaid over the years relating to the life of the asset, where appropriate.

Council will not use long-term debt to finance operating activities or re-current expenditure of Council.

### 3.2 Repayment Term

When council finances capital projects through borrowings, it will repay the loans in a term not exceeding the useful life of those assets or the terms stated below:

General - Up to 20 Years
Water - Up to 20 Years
Sewerage - Up to 20 Years
Cleansing - Up to 20 Years

All external borrowings will be raised at the most competitive rates available, in accordance with the requirements of the State Government.

When seeking long-term funding for the construction of infrastructure assets, Council will, wherever possible, avail itself of its own internal reserves (where such utilisation would not cause any financial impediment to the reserves' requirements).

### 3.4 Loan Drawdown's

Queensland Treasury Corporation (QTC) and the Department of State Development, Infrastructure, Local Government and Planning approve proposed borrowings for a particular financial year. In order to minimise finance costs, loan draw-down should be deferred as long as possible after taking into consideration Council's overall cash flow requirements.

# 3.5 Working Capital Facility

QTC's Working Capital Facility combines a low-cost overdraft facility with an interest-earning cash management facility, allowing clients to manage short-term deficit and surplus balances through one account. Funds are easy to access and there are no facility, transaction or establishment fees.

### 1. OBJECTIVE

In accordance with section 191(1) of the *Local Government Regulation 2012*, the Council must prepare and adopt an investment policy.

The intent of this document is to provide Flinders Shire Council with an investment policy which outlines investment objectives, risk tolerance philosophies and portfolio performance measures, within statutory framework of all associated legislation.

# 2. SCOPE

This policy applies to the investment of surplus funds in accordance with Category 1 investment power under Part 6 of the *Statutory Bodies Financial Arrangement Act 1982*. Category 1 investments include a range of investments either at call or for a fixed term of not more than one year. At call refers to simple investments where the investment can be redeemed and the monies invested can be retrieved by the investor from the financial institution within twenty-four hours without penalty.

### 3. INVESTMENT OBJECTIVES AND EXPECTATIONS

Flinders Shire Council is risk averse and therefore adopts a passive investment approach where the overall objective is to ensure a return on capital commensurate with the risk taken. In priority, the order of investment activities shall be preservation of capital, liquidity and return.

Council may invest surplus funds in a capital guaranteed cash fund or any approved cash management product which it deems will provide the greatest benefit. Surplus funds are the cash balance that is in excess of operating cash requirements. Operating cash not required for immediate use can also be invested in at call deposits to maximise returns in the short term.

Operating cash is the cash required to fund operating activities for the immediate short term (less than one month). It takes into account cash inflows (e.g. debtor and other receipts) and outflows (eg creditor payments, wages etc.) for that time.

For the purposes of this policy, investable funds are the surplus monies available for investment at any one time and currently include Flinders Shire Council's NAB General Account, NAB Investment Account and QTC Capital Guaranteed Cash Fund.

Page 2 of 3

### 4. AUTHORISED INVESTMENTS

Without specific approval from Council or Chief Executive Officer (CEO) as delegated by Council, investments are limited to –

- QTC Cash Fund:
- QTC Capital Guaranteed Cash Fund, debt offset facility, fixed rate deposit (up to 6 months and QTC Working Capital Facility);
- NAB Term Deposits (up to 6 months); and
- NAB at call deposits.

### 5. PROHIBITED INVESTMENTS

The following investments are prohibited by this investment policy -

- Commercial paper;
- Bank accepted/endorsed bank bills;
- · Bank negotiable certificates of deposit;
- Short term bonds;
- Floating rate notes;
- · Derivative based investments;

# 1. REVENUE STATEMENT

This Revenue Statement is in accordance with Section 104 of the *Local Government Act* 2009 and Section 172 of the *Local Government Regulation* 2012.

### 2. GENERAL RATES

Physical and Social infrastructure costs for new development are to be funded by General Rates, Grants, Loans and User Pay charges for the development.

It is intended to maintain the current operating capability of the Flinders Shire to ensure current services are maintained for the community.

Depreciation and other non-cash expenses are fully funded by Council.

Council generally increases rates in line with the CPI, LGAQ and Construction Index and does not limit rate changes via rate capping.

Flinders Shire Council has a policy of making and levying Differential General Rates for the financial year ending 30 June 2024. The Council will levy Differential General Rates on all rateable properties in each category of land where the minimum General rate does not apply.

The Council is required to raise an amount of revenue it sees as being appropriate to maintain and provide services to the Shire as a whole. In deciding how that revenue is raised, the Council is able to take into account the following factors -

- The rateable value of the land and the rates that would be payable if only one General Rate were adopted;
- The level of services provided to that land and the cost of providing the services compared to the rate burden that would apply under a single General Rate;
- The use of the land in so far as it relates to the extent of utilisation of Council services; and
- The economic circumstances affecting the land.

## 2.1 Categorisation of Land

That in accordance with the *Local Government Regulation 2012*, Section 81, subsections (1), (2) and (3), Flinders Shire Council adopts the rating categories for rateable land, and the description for those categories, as per Column 1 and Column 2, respectively, of the Rate Code Tables above.

Further, in accordance with section 257 of the *Local Government Act 2009*, Council delegates to the CEO the power in the *Local Government Regulation 2012*, section 81, subsections (4) and (5), to identify the rating category to which each parcel of rateable land belongs. In performing this task, the CEO may have regard to the land use codes (produced by the Department of Resources) identified in Column 3 of the Rate Code Tables above.

In determining that differential general rating should be applied, Council has had regard to a number of factors including: -

- The valuation of the Shire applying to the 2023-2024 financial year would lead to rating inequities and a
  distortion of relativities in the amount of rates paid in the various areas of the Local Government area if
  only one General Rate were adopted;
- The level of services provided to that land and the cost of providing the services compared to the rate burden that would apply under a single general rate; and
- Forty eight categories of land have been identified in accordance with criteria determined by Council in accordance with Section 81 of the *Local Government Regulation 2012*.

Owners of rateable land will be informed that they have the right of objection to the category their land is included in. All objections shall be to the Chief Executive Officer, Flinders Shire Council and the only basis for objection shall be that at the date of issue of the rate notice having regard to the criteria adopted by Council the land should be in another category.

Combined with our now growing population, the Flinders Shire is set to become a major economic driver in the North West.

To ensure we capture the opportunities and overcome our challenges, we need to appropriately plan and prioritise where to invest our energy and resources.

We live in a time of opportunity for the Flinders Shire, and with a renewed focus on economic and community development we have a clear set of priorities to grow our region. On behalf of my fellow Councillors, it is my pleasure to present the Corporate Plan for 2023-28.

Jane McNamara

For me, it is more than a legislative requirement for local government, it is an opportunity to confirm the community's vision and understand their expectations on Council in realising this vision.

This Corporate Plan translates the community's vision for the Flinders Shire and sets out clear objectives and outcomes, providing clear guidance of what needs to be done by the Flinders Shire Council in order to realise the opportunity that lays ahead of the community.

Thank you to all who participated in the formation of this new Corporate Plan. Your input has been essential in establishing our priorities, our future action areas and outcomes we need to achieve.

I'm looking forward to working with our elected councillors, council staff and the general community over the coming years as we deliver on this Corporate Plan.

FLINDERS SHIRE COUNCIL | Corporate Plan

shortest travel route from the Far North (i.e., Cairns) to the South (i.e., Melbourne), enabling freight and leisure tourism opportunities.

Major beef breeding region

Growing drive and adventure tourism markets

High value irrigation opportunities

Renewable energy powerhouse

### **Our Community**

We are a growing shire, with our population increasing through positive regional migration, showing our communities are places people are choosing to live in and establish businesses and grow their families.

1,521 residents

Average age 40.8

Experiencing net migration growth

11.3% Aboriginal and Torres Strait Islander

### Economic Concentration

0.....

The Flinders Shire is largely driven by one industry: cattle grazing. This heavy reliance on the success of one industry means fluctuations in the market conditions for beef, and seasonal climatic fluctuations, both positive or negative, have significant implications for the economy in Flinders.

### Ageing Population

Like most regional communities, our population is aging. With 21% of the population over the age of 65, there are increasing need for health and community services that have been traditionally difficult to provide. An ageing population also means a decline in the working-age population, another challenge for the local economy.

# Long-term Financial Sustainability

0.....

The Flinders Shire Council is highly reliant on State and Federal Government support to deliver essential services. To secure the long-term financial sustainability of our community, Council needs to identify new revenue opportunities to ensure it can continue to pay for essential infrastructure and services into the future.

### Developing new industries

0.....

The Flinders Shire has a number of natural resources that can support economic diversification. From irrigated agriculture to high-value tourism, road freight, health services and large-scale renewable energy generation, the region has considerable potential to develop and sustain new industries.

### Population Growth

Supporting population growth within Flinders is key to realising growth opportunities in our Shire. An increase in population will not just provide workers to existing industry, but will also support an overall increase in business activity and job growth.

### Delivering catalytic infrastructure

Delivering catalytic infrastructure will support the diversification of the local economy and increase job opportunities. If done on commercial terms, Council can generate new revenue that can be used to fund new community services while enabling new economic activity in the Flinders Shire.

Date	Resolution Number	Reference Number
2023 – 2024	3884	R23/5707
2023 – 2024 Quarter 1 Reporting		
2023 – 2024 Quarter 2 Reporting		
2023 – 2024 Quarter 3 Reporting		
2023 – 2024 Quarter 4 Reporting		

Discovery o Opportunity o Lifestyle

### **LEGISLATION**

Under section 104(5) of the *Local Government Act 2009*, Council must adopt an Operational Plan each financial year. This plan sets out the work Council plans to do to contribute to the Corporate Plan 2023 - 2028. Council may amend the Operational Plan at any time by resolution. Council must discharge responsibilities in a way consistent with its Annual Operational Plan. Council must monitor progress against its Operational Plan and present updates to Council at least quarterly.

The Local Government Regulation 2012 (section 175) states that the Operational Plan must:

- · Be consistent with it's Annual Budget
- State how the local government progress the implementation of the Corporate Plan
- Manage Operational Risks

### **OPERATIONAL PLANNING**

Council's Corporate Plan 2023 - 2028 is a five year plan which outlines how Council will progress.

The Operational Plan 2023-2024 is an important part of Council's strategic planning. The activities and projects in the Operational Plan 2023-2024 are funded from the annual budget. This plan is based around the outcomes and strategies in the Flinders Shire Council Corporate Plan and has been developed alongside the development of the 2023-2024 budget. This plan includes capital projects which are also monitored through the capital expenditure program.

This plan highlights what Council plan to deliver in the 2023-2024 financial year, towards achievement of the long term objectives and outcomes stated in the Corporate Plan. The Operational Plan is not intended to include every activity Council undertakes, in that many of the standard operations or initiatives of Council support the delivery of the Corporate Plan. The intention of the Operational Plan is to highlight the key projects planned for 2023-2024 which will specifically progress the implementation of the Corporate Plan 2023-2028.

### **MANAGING RISK**

Council has a comprehensive Enterprise Risk Management Framework which sets out how Council manages its risks. Council maintains risk registers for strategic, operational and activity level risks and these are reviewed and updated quarterly before being approved by Council. In developing the Operational Plan, managers were asked to consider operational risks and what actions were needed to address these risks. Accordingly, the projects in the 2023-2024 Operational Plan address a broad number of Council's Operational Risks.

### **COUNCIL'S COMMERCIAL BUSINESS UNITS**

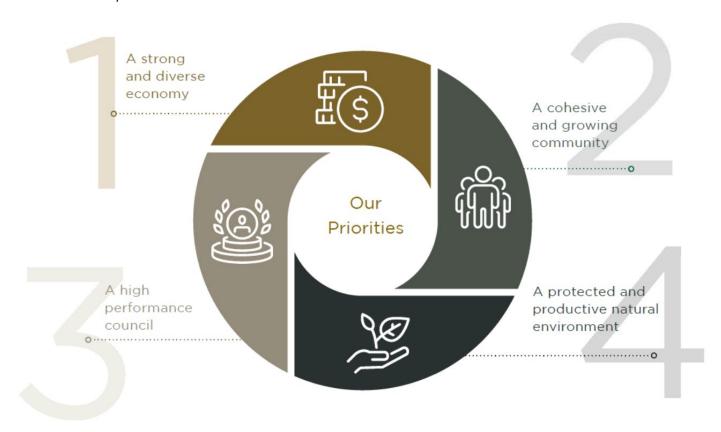

The Local Government Regulation 2012 requires Council to include an annual performance plan for each commercial business unit. Council does not operate any commercial business units.

#### MONITORING IMPLEMENTATION OF THIS PLAN

Under section 104(7) Council must carry out a review of the implementation of the Operational Plan annually. The Operational Plan will be monitored and quarterly reports on the progress against this plan will be presented to Council. These reports will provide an update on progress with the implementation of the projects within the plan.

The Flinders Shire Operational Plan for 2023-2024 is an important element in the overall strategic planning framework. This plan links relevant operational activities scheduled for the 2023-2024 period straight to the actions outlined in the 5 year Corporate Plan. These are all aimed at helping Council achieve the vision for the future of the Flinders Shire.

The Operational Plan 2023-2024 shows a range of strategies, outcomes, activities and targets grouped within four guiding principles. These guiding principles from the Corporate Plan, as listed below are reflected across into the structure of the Operational Plan.

#### PROJECTS AND PERFORMANCE INDICATORS

This section outlines the key projects and key performance indicators that Council has identified for the 2023-2024 financial year. These are in response to the following priority focus areas as outlined in the 2023-2028 Corporate Plan:

#### **DELIVERING THE PRIORITIES**

The Flinders Shire Council's Operational Plan is a key plan for the Shire. It translates our priorities and services, set out in our five year Corporate Plan, into measurable actions for the financial year. Progress is reported to the council and the community quarterly and is available on our website.

Reporting over the four quarters of the financial year provides us with the opportunity to respond more effectively to significant changes in our operating environment: Social, Economic, Environmental, Workplace Health and Safety, Public Safety or internal changes that affect our organisation's capacity to deliver on these actions.
