2. REPORTS

2.01 CHIEF EXECUTIVE OFFICER

2.01.01 31 GRAY STREET MULTI-DWELLING HOUSING PROJECT - PROJECT ESTABLISHMENT AND EXPRESSION OF INTEREST

Author: Chief Executive Officer
Authorising Officer: Chief Executive Officer
Disclosure of Interest: The Author and Authorising Officer declare that they do not have any conflicts of interest in relation to this item.

OFFICER'S RECOMMENDATION
That Council:

1. Notes the correspondence dated 23 September 2026 from the Deputy Under Treasurer, Energy and GOCs, confirming approval for Flinders Shire Council to fully allocate $4.285 million from the Community Benefits Fund towards the proposed multi-dwelling housing development at Lot 8SP288611, 31 Gray Street, Hughenden.

2. Notes that the funding approval is subject to Council demonstrating through its procurement process that the final proposal represents value for money and can be delivered within the approved funding envelope and obtaining all necessary planning and other approvals.

3. Endorses the establishment and progression of the project through:

a. appointment of a client-side Project Development Manager and completion of limited pre-EOI due diligence:
b. a public Expression of Interest process to obtain market-generated design concepts, dwelling mixes, dwelling yields and delivery options;
c. a further Council decision on the EOI evaluation outcomes, preferred market responses and proposed shortlist;
d. a closed invitation to tender issued to shortlisted EOI respondents; and
e. a further Council decision on whether to enter into a construction contract.

4. Authorises the Chief Executive Officer to procure and appoint a suitably qualified client-side Project Development Manager with demonstrated property development, planning, procurement and construction delivery experience, in accordance with Council's Procurement Policy and the *Local Government Regulation* 2012.

5. Authorises the Chief Executive Officer, supported by the Project Development Manager, to undertake or commission the limited investigations and professional services necessary to inform the EOI, including project governance; survey, title and site information; preliminary planning, flood, geotechnical, civil infrastructure and utility services due diligence; identification of known site, access, servicing and approval constraints; Council's minimum functional, performance and asset-management requirements; EOI procurement and evaluation documentation; probity controls; and project budget, risk and grant-reporting controls.

6. Notes that the purpose of the pre-EOI phase is to provide sufficient site, planning, servicing and performance information to support informed market responses and is not to develop or prescribe Council's own concept design or fixed dwelling mix.

7. Resolves, pursuant to section 228(3) of the *Local Government Regulation 2012*, that it is in the public interest to invite Expressions of Interest before inviting written tenders for the proposed multi-dwelling housing development because:

a. the final dwelling yield, dwelling mix, concept design and delivery methodology are intended to be informed by market capability and innovation;
b. Council seeks to test conventional, modular, prefabricated, hybrid and other suitable turnkey delivery options;
c. market testing is required to demonstrate value for money and determine whether an acceptable project outcome can be delivered within the approved $4.285 million funding envelope;
d. the project involves specialist regional housing design, manufacture, transport, servicing, installation and construction considerations;
e. an EOI will enable Council to assess market capability, proposed concepts, delivery methodologies, indicative costs, programmes, risks and qualifications before finalising the detailed tender requirements; and
f. shortlisting suitably qualified respondents will enable a more focused and competitive subsequent tender process.

8. Authorises the Chief Executive Officer, following appointment of the Project Development Manager and completion of the necessary EOI documentation and preliminary site information, to invite Expressions of Interest in accordance with section 228 of the *Local Government Regulation* 2012, including publication on Council's website for at least 21 days and reasonable additional steps to notify the relevant market, including through VendorPanel.

9. Notes that the EOI will invite respondents to propose an indicative concept and site layout; dwelling mix and yield; construction and delivery methodology; approvals pathway; indicative turnkey cost information; programme; utility servicing approach; assumptions, exclusions and risks; and evidence of capability, experience, financial capacity and proposed local and community benefits.

10. Notes that the EOI will invite respondents to propose, at a minimum:

a. an indicative concept design and site layout;
b. a recommended dwelling mix and dwelling yield responding to the Housing Strategy and site context;
c. the proposed construction and delivery methodology;
d. the proposed planning and approval pathway;
e. an indicative fixed-price turnkey cost or cost-confidence range;
f. an indicative design, approval, manufacture, construction and completion programme;
g. the proposed approach to water, sewerage, electricity and NBN connections;

h. relevant assumptions, exclusions, qualifications and risks; and
i. the respondent's capability, experience, financial capacity and proposed local and community benefits.

11. Requires a further report to Council following the EOI process, presenting the market-generated concepts, dwelling mixes, yields and delivery models; the evaluation outcomes and recommended shortlist; a comparative assessment of indicative costs, programmes, approvals pathways, servicing approaches, qualifications and risks; an updated assessment of deliverability within the approved funding envelope; the proposed scope, contract model and evaluation methodology for the closed invitation to tender; the updated risk and contingency position; and a recommendation on whether to proceed to the closed tender stage.

12. Notes that Council's consideration of the EOI outcomes and approval of any shortlist will not constitute acceptance of an EOI response, approval of a final design or an agreement to enter into a construction contract.

13. Authorises the Chief Executive Officer to complete and execute the administrative documents required to establish and administer the project through the Department of Local Government, Water and Volunteers eGrants portal, provided those documents do not materially alter the approved project purpose or funding allocation.

14. Notes that no construction contract will be entered into until the EOI and subsequent tender processes have been completed; the final proposal has been demonstrated to represent value for money and be deliverable within the approved funding envelope; Council has considered the tender evaluation and resolved whether to award the construction contract; and any consultation or approval required from QIC or Queensland Treasury has occurred. The construction contract must appropriately allocate responsibility for necessary planning, building and other approvals, and construction must not commence until the approvals required for that work are in place.

Executive Summary

Queensland Treasury has approved Flinders Shire Council to fully allocate $4.285 million from the Community Benefits Fund towards the proposed multi-dwelling housing development at 31 Gray Street, Hughenden. The approval is subject to Council demonstrating through procurement that the final proposal represents value for money and can be delivered within the approved funding envelope, and obtaining all necessary planning and other approvals.

This report seeks Council endorsement to establish the project, appoint a suitably qualified client-side Project Development Manager and proceed to a statutory Expression of Interest process before inviting written tenders. The Project Development Manager will coordinate limited pre-EOI due diligence and prepare and administer an outcome-based EOI. The market, rather than Council's adviser, will be invited to propose the concept, dwelling mix, yield and delivery methodology.

The EOI results will be reported to Council before any shortlist is approved and before a closed invitation to tender proceeds. A separate Council decision will also be required before Council enters into the major construction contract.

Background

Council developed a proposal for permanent multi-dwelling housing on Council-owned land at Lot 8SP288611, 31 Gray Street, Hughenden, in response to the housing shortage identified through the Draft Flinders Housing Strategy and the opportunity presented by the CopperString Community Legacy funding initiative.

The site is vacant, approximately 2,876 square metres, located on the corner of Gray and Stansfield Streets and within the Centre Zone under the Flinders Shire Planning Scheme. The site is partly affected by the Flood Hazard Overlay. A development permit may be required dependent upon the ultimate use of the development, to be confirmed at a later date.

Council's proposal initially contemplated approximately 8 to 10 dwellings. The final yield and dwelling mix have deliberately not been fixed. The project development and market testing process should determine the mix of one, two and/or three-bedroom dwellings, or other suitable configurations, that best responds to the Housing Strategy, site context, planning requirements, long-term asset management and value for money.

Council forwarded a formal project proposal to QIC for consideration. By letter dated 23 September 2026, the Deputy Under Treasurer, Energy and GOCs, notified Council that it had been approved to fully allocate $4.285 million from the Community Benefits Fund to the project. A copy of the approval letter is included as Attachment A.

The approval letter confirms that final dwelling yield, scope and delivery arrangements remain subject to market testing. It requires Council to demonstrate value for money and deliverability within the approved funding envelope through its procurement process, and to obtain all necessary planning and other approvals. If market testing indicates that the project cannot deliver an acceptable outcome within the funding envelope, Council is to consult QIC and Queensland Treasury before materially changing the scope or entering into a construction contract.

It is proposed that Council establish the project, appoint an experienced Project Development Manager, complete sufficient preliminary due diligence to support informed market responses and proceed to a public EOI. The market will propose concepts, dwelling mixes, yields and delivery methodologies. The EOI outcomes will then return to Council before any shortlist is approved and a closed invitation to tender proceeds.

The Project Development Manager will coordinate the preliminary due diligence and prepare and administer an outcome-based EOI process. Through the EOI, the market will be invited to propose dwelling mixes, dwelling yields, concept designs and delivery methodologies responding to the Housing Strategy, site context and available funding. The EOI outcomes will then be reported to Council before any closed invitation to tender is issued.

Statutory/Compliance Matters

Local Government Act 2009
Section 104 requires Council's financial management system to ensure regard is had to the sound contracting principles when entering contracts for goods, services or works. The principles include value for money; open and effective competition; development of competitive local business and industry; environmental protection; and ethical behaviour and fair dealing.

Local Government Regulation 2012
The engagement of the Project Development Manager and other advisers must be undertaken in accordance with Council's Procurement Policy and the applicable quotation, tender or exception requirements under Chapter 6, Part 3 of the Regulation. The eventual Design and Construct contract will be a large-sized contractual arrangement.

Section 228 permits Council to invite Expressions of Interest before inviting written tenders only after Council resolves that doing so is in the public interest and records its reasons in the minutes. The EOI invitation must be published on Council's website for at least 21 days and Council must take reasonable steps to notify the public. After considering the EOI responses, Council may prepare a shortlist and invite written tenders from the shortlisted respondents. The proposed resolution states the public-interest reasons and authorises the statutory EOI process.

Planning Act 2016 and Planning Regulation 2017
The project may require development assessment and all necessary statutory approvals. Council must maintain appropriate separation between its role as project proponent and any statutory assessment functions, and the procurement process must not fetter the exercise of those statutory functions.

Building Act 1975 and *Queensland Building and Construction Commission Act 1991*
The completed development will require applicable building approvals, certification and appropriately licensed building work. Contract documentation will need to clearly allocate responsibility for design, certification, construction compliance, commissioning and handover.

Work Health and Safety Act 2011
Council and its contractors will be required to manage applicable work health and safety duties throughout project development, design and construction.

Grant conditions and Council policy
Project establishment and delivery must comply with the funding approval, the final Project Funding Schedule or funding agreement, Council's Procurement Policy, budget controls, delegations, records management requirements and any reporting or acquittal requirements administered through the eGrants portal.

Financial / Budget Implications

Queensland Treasury has approved Council to fully allocate $4.285 million from the Community Benefits Fund to the 31 Gray Street multi-dwelling housing project.
The current preliminary cost planning approach is to maintain allowances for client-side project development and project management, a turnkey Design and Construct contract, and a Council-

controlled contingency. These allocations remain preliminary and will be validated through the project development, cost planning and market testing process.

The costs of the Project Development Manager, site investigations, specialist advice, procurement support and contract administration are proposed to be met from the approved project funding, subject to confirmation of eligible costs in the Project Funding Schedule or funding agreement. The EOI is not a construction contract award. The EOI outcomes will return to Council before the closed tender stage, and the final tender evaluation will return to Council before any construction contract is awarded.

Consultation/engagement

- Queensland Treasury, including correspondence from the Deputy Under Treasurer, Energy and GOCs.
- Queensland Investment Corporation as administrator of the Fund.
- Department of Local Government, Water and Volunteers in relation to eGrants administration.
- Elected Members through the previous project inception briefing.
- Internal consultation with Executive Leadership Team, Finance, Procurement, Engineering and Infrastructure, Planning and Governance will occur during project establishment.
- External market engagement will be undertaken following preparation and approval of the project's procurement strategy.

Risk Implications

The principal risks at project establishment are:

- Scope and affordability risk: the final dwelling yield and mix may not be achievable within the approved funding envelope. The EOI and subsequent tender will test market concepts, cost confidence and deliverability before construction commitment.
- Procurement and probity risk: an inadequately designed market process may not demonstrate value for money or satisfy the funding condition. This will be managed through a documented procurement plan, clear evaluation methodology, conflict declarations, controlled communications and appropriate approvals.
- Planning and site risk: flood, geotechnical, access, parking, stormwater and servicing constraints may affect proposed concepts, programme and cost. Limited pre-EOI due diligence will provide known information without prescribing Council's own concept.
- Utility connection risk: availability, capacity, authority lead times and connection costs for water, sewerage, electricity and NBN may affect delivery. The turnkey construction scope is intended to place responsibility for obtaining and delivering connections on the successful contractor, supported by adequate pre-tender information and risk allocation.

- Governance and capability risk: Council does not have dedicated internal property development capacity for a project of this nature. Engagement of an experienced client-side Project

  Development Manager will provide project controls, technical coordination and delivery oversight while Council retains strategic and statutory decision-making responsibility.

- Funding and change-control risk: a material change to project scope or evidence that an acceptable outcome cannot be delivered within budget may require consultation with QIC and Queensland Treasury before Council proceeds.
- Programme risk: Queensland Treasury expects timely delivery and milestone updates. A Project Management Plan, baseline programme and regular reporting cycle will be established during project inception.
- Whole-of-life asset risk: the project will create an additional Council-owned asset with ongoing operating, maintenance, tenancy and renewal obligations. These costs and the intended operating model require consideration before final scope approval.

Strategic Impacts

Corporate / Operational Plan Connection:
The project supports Council's strategic objectives relating to community liveability, workforce attraction and retention, economic development, responsible asset investment and effective use of external funding.

Draft Flinders Housing Strategy Connection:
The project responds to the identified need for additional and more diverse housing in Hughenden and advances the Strategy's proposed Council-led response to structural housing supply constraints.

The project is also intended to provide permanent housing infrastructure that supports Hughenden's capacity to benefit from CopperString and other regional economic activity.

Conclusion

The funding approval provides Council with a significant opportunity to deliver permanent housing infrastructure at 31 Gray Street. It also creates a clear obligation to demonstrate value for money, remain within the approved funding envelope and obtain all necessary approvals.

The recommended next step is to establish the project, appoint a suitably qualified Project Development Manager, complete limited pre-EOI due diligence and proceed to a public EOI. The Project Development Manager will not prepare Council's own concept design. The market will propose the available concept, dwelling-mix and delivery options, which will be evaluated and reported to Council before the closed tender stage.

The Project Development Manager will not prepare Council's own concept design. The market will propose the available concepts, dwelling mixes, yields and delivery options, which will be evaluated and reported to Council before the closed tender stage. A further Council decision will be required before any construction contract is awarded.

DELIVERING FOR QUEENSLAND | Queensland Government

Queensland Treasury

Our Ref: QT03025-2026

Ms Kylie Davies
Chief Executive Officer
Flinders Shire Council

Email: Ceo@flinders.qld.gov.au

Dear Ms Davies

I refer to correspondence of 16 February 2026 from the Honourable David Janetzki MP, Treasurer, Minister for Energy and Minister for Home Ownership, advising the Flinders Shire Council of an approved allocation of $4.285 million under the Community Benefits Fund.

Thank you for your ongoing engagement with QIC, as Fund administrator, to further develop the Council's proposal.

From that engagement, I am writing to notify that Flinders Shire Council has been approved to fully allocate $4.285 million from the Fund towards the multi-dwelling housing development at 31 Gray Street, Hughenden.

As the final dwelling yield, scope and delivery arrangements remain subject to market testing, funding will be subject to the Council:

- demonstrating through its procurement process that the final proposal represents value for money and can be delivered within the approved funding envelope; and
- obtaining all necessary planning and other approvals.

If market testing indicates that the project cannot deliver an acceptable outcome within the approved funding envelope, the Council should consult QIC and Queensland Treasury before materially changing the scope or entering into a construction contract.

Funds will be distributed through the DLGWV's eGrants portal. QIC and DLGWV will be in contact to assist with the funds administration process.

I reiterate the Treasurer's earlier expectation this initiative can be delivered in a timely manner and invite you to keep Queensland Treasury updated of key project milestones.

2.01.02 FLINDERS SHIRE PLANNING SCHEME REVIEW AND PROPOSED AMENDMENT

Author: Chief Executive Officer
Authorising Officer: Chief Executive Officer
Disclosure of Interest: The Author and Authorising Officer declare that they do not have any conflicts of interest in relation to this item. [Confirm prior submission.]

OFFICER'S RECOMMENDATION
That Council:
1. receive and note the Flinders Shire Planning Scheme Review Report (October 2026), provided as Attachment 1;
2. propose to amend the Flinders Shire Planning Scheme under section 18 of the *Planning Act 2016*;
3. delegate authority to the Chief Executive Officer to prepare and progress the proposed amendments to the Planning Scheme in accordance with the *Planning Act 2016*, Planning Regulation 2017, Minister's Guidelines and Rules and any section 18 notice.

Executive Summary

This report presents the findings of the statutory review of the Flinders Shire Planning Scheme and seeks Council direction to commence a targeted planning scheme amendment. The review concludes that the current Planning Scheme provides a workable statutory framework, but requires updating to respond to housing needs, economic and major infrastructure investment, and contemporary State planning policy.

The review recommends that the amendment focus on:
- facilitating housing availability and diversity;
- reviewing industrial and employment opportunities;
- reducing unnecessary regulation; and
- updating provisions and mapping.

Background

Council applied for funding under the State Government Scheme Supply Fund (SSF) and was successfully awarded funds to facilitate better housing outcomes for Flinders Shire via an amendment to the Flinders Shire Planning Scheme (Planning Scheme).

The Planning Scheme commenced on 2 October 2017; Version 1.1 commenced on 28 February 2018. A review of the Planning Scheme has been undertaken under section 25 of the *Planning Act 2016* (the Act), which requires periodic review of planning schemes and a decision by Council on whether to amend, replace or retain the planning scheme.

The review considered population and development trends, State, regional and local policy, engagement outcomes with Council, and the operational effectiveness of the Planning Scheme.

The review recommends that Council amend the Planning Scheme to:

- update the Strategic Framework to recognise housing, agriculture, industry, energy, CopperString and other infrastructure and economic opportunities;
- review housing provisions to facilitate housing diversity, infill development and appropriately located residential growth;
- adopt the Queensland Housing Code and only where appropriate include specific alternate solutions;
- review industrial zoning and development provisions to facilitate existing and emerging industries, including opportunities associated with agriculture, energy, major infrastructure and technology;
- review zoning, Tables of Assessment and development codes;
- simplify development standards, including car parking and landscaping requirements, where justified by local circumstances;
- review heritage, biodiversity and other State-derived overlay provisions and mapping, subject to applicable State interests; and
- incorporate contemporary flood information after Council determines its preferred risk-based policy approach.

It is proposed that the appropriate amendment pathway, is a tailored amendment process under section 18 of the Act, which is a specified pathway under the SSF funding guidelines. This allows for a timelier and more efficient process. The process will be subject to a notice from the chief executive administering the Act and will involve a number of statutory steps including for example State Interest Review, public consultation, consideration of submissions and Ministerial approval for final adoption.

The intended project milestone is preparation of the proposed amendment for State Interest Review by 30 June 2027, with adoption targeted for late 2027, subject to the statutory process and State timeframes.

Statutory/Compliance Matters

The statutory planning scheme review has been undertaken in accordance with section 25 of the Act.

It is proposed that the amendment be undertaken in accordance with section 18 of the Act. Preparation and progression of the amendment will need to comply with the Act, Planning Regulation 2017, applicable Minister's Guidelines and Rules, relevant State interests and the terms of any section 18 notice.

The State Planning Policy 2017 is currently operative. The Draft State Planning Policy 2026 and the review of the North West Regional Plan are emerging policies which should be considered.

Financial / Budget Implications

The review and proposed amendment preparation are supported by Queensland Government Scheme Supply Fund funding.

Consultation/Engagement

Workshops were held with Council's Executive on 22 September 2026 and the Mayor and Councillors on 23 September 2026.

Key themes included facilitating housing and economic development, reducing unnecessary regulatory requirements, reviewing industrial and other zoning, responding to major energy and infrastructure investment, rationalising State-derived mapping and establishing a risk-based flood planning response.

The workshops identified the need for a further flood workshop involving Council, flood consultants and planning specialists. Council has not yet determined its preferred flood risk tolerance or final planning response for Hughenden, Prairie and other affected areas.

Further engagement is proposed with relevant State agencies, affected landowners, the Housing Advisory Committee and the broader community. Statutory consultation will be undertaken in accordance with the approved amendment process.

Risk Implications

Statutory and policy risk: The State may require changes to the proposed amendment during State Interest Review, or the amendment process may be delayed. This risk will be managed through early engagement and compliance with the applicable statutory process.

Flood risk: Further technical review and Council direction are required before final drafting. Community and landowner risk: Proposed zoning and overlay changes may affect landowners and generate submissions. Targeted early engagement and statutory public consultation will provide opportunities to identify and address concerns.

Financial and delivery risk: Technical investigations and statutory timeframes may affect costs and delivery milestones. Project scope, budget and timing should be monitored.

Strategic Impacts

The proposed amendment supports the direction of Council's Corporate Plan, Economic Development Strategy, Local Housing Action Plan and Flinders Housing Strategy 2026 by facilitating housing supply and diversity, supporting investment and emerging industries, and improving coordination between land use and infrastructure.

It also provides an opportunity to make the Planning Scheme more practical and proportionate for a regional local government area while retaining appropriate controls for natural hazards, infrastructure and land use compatibility.

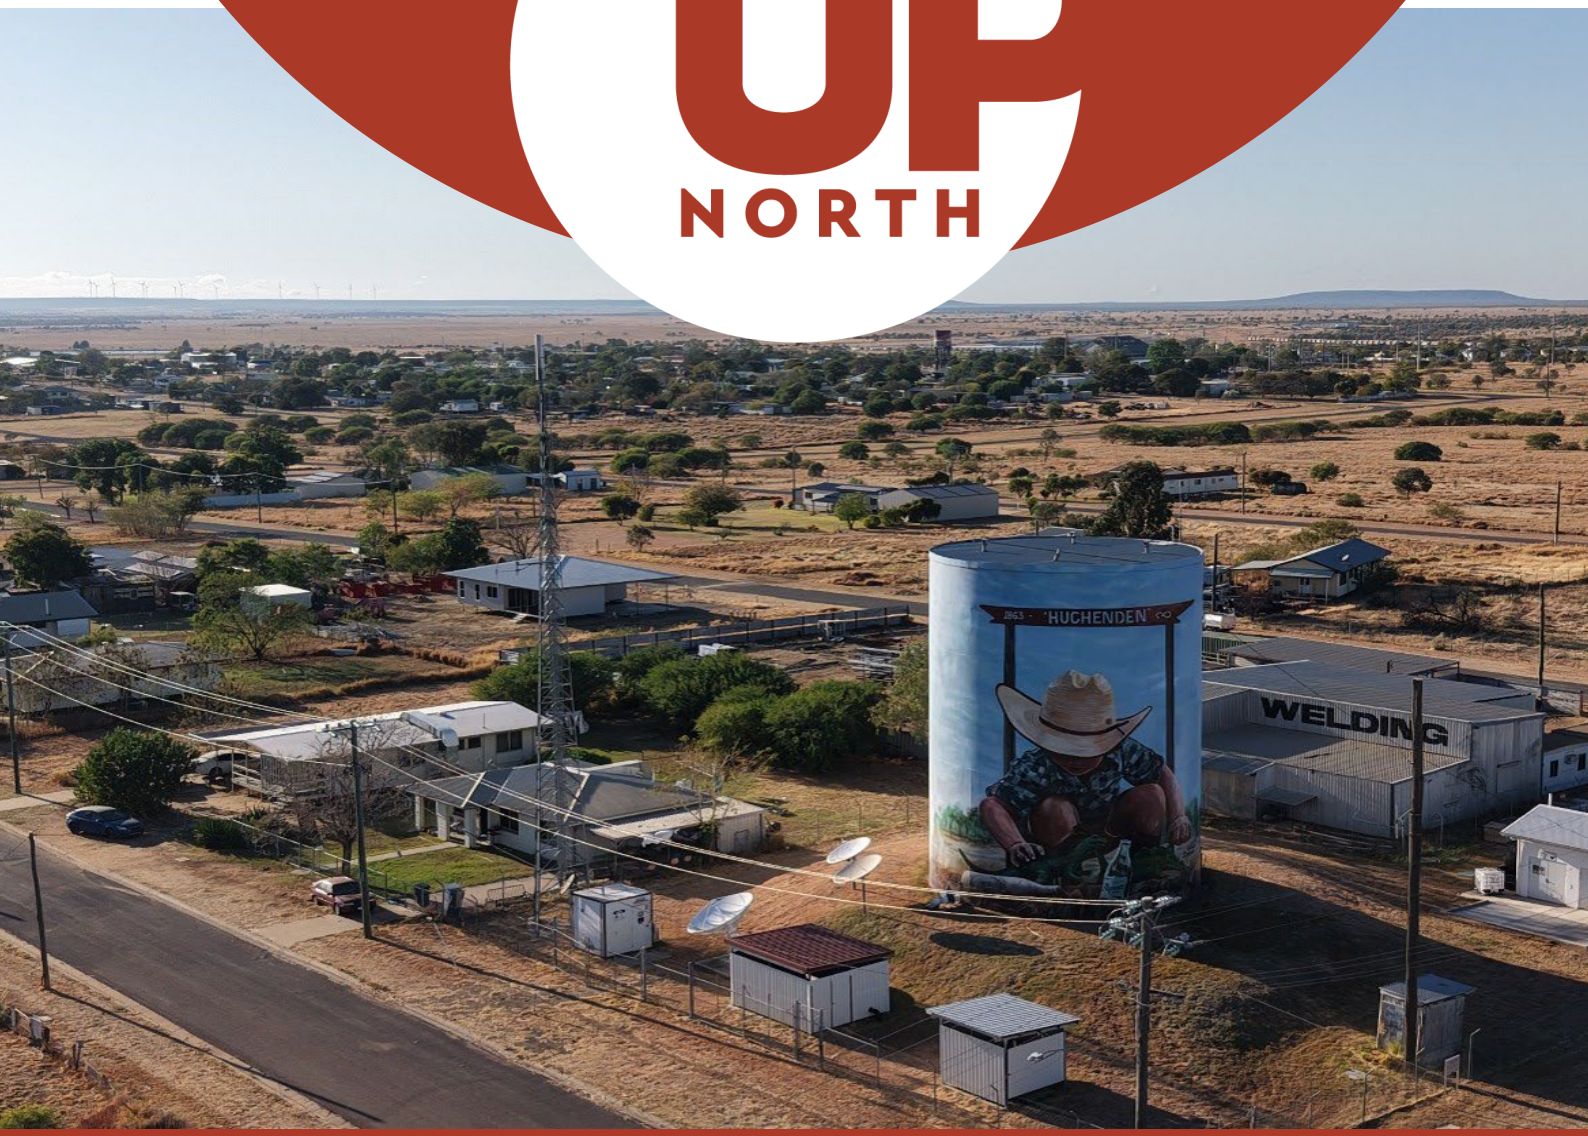

Conclusion

The statutory review concludes that the Flinders Shire Planning Scheme remains a suitable foundation for land use planning but requires targeted updating. A section 18 amendment process is recommended to progress the identified changes, subject to State requirements, further investigations and consultation. Council is asked to receive the review, determine that the Planning Scheme should be amended, and authorise progression of the proposed amendment.

Executive summary

Urban Planning North Group (UP North) has been engaged to partner with Flinders Shire Council to undertake a review of the Flinders Shire Planning Scheme (Planning Scheme). The review is funded through the Queensland Government Scheme Supply Fund (SSF).

This statutory review has been undertaken in accordance with section 25 of the *Planning Act 2016* and considers whether the Planning Scheme remains contemporary and responsive to current community needs, State and regional planning policy, Council's strategic direction and more recent technical and planning information.

The Planning Scheme commenced in 2017 and was amended in 2018. The Planning Scheme provides an established framework for managing land use and development across Flinders Shire. However, changes in State planning policy, Council's strategic priorities, housing demand, economic conditions and major infrastructure investment have created a need to ensure the Planning Scheme remains contemporary, practical and responsive to the Shire's future needs.

The review has considered population and development trends, consultation outcomes with Councillors and Council's Executive, relevant State legislation and policy, Council's strategic documents, and the existing Planning Scheme provisions, mapping and development assessment requirements.

Key findings of the statutory review are outlined below.

Housing supply and diversity
The Flinders Housing Strategy (2026) identifies significant housing pressures, including limited rental availability, ageing housing stock and demand for additional housing associated with workforce requirements and economic growth.

The Strategy indicates that the availability of appropriately zoned land and the Planning Scheme itself are not the principal constraints on housing delivery. Nevertheless, opportunities exist to facilitate development through more flexible residential provisions, greater housing diversity, identification of suitable and serviceable land, and the removal of unnecessary regulatory requirements.

Economic development and investment
Flinders Shire is experiencing significant opportunities associated with energy, major infrastructure projects, agriculture, industry and tourism.

The Planning Scheme's Strategic Framework should be updated to recognise these opportunities and provide an appropriate basis for future investment and development. The review also identifies opportunities to reconsider industrial zoning, development assessment requirements and the availability of suitable employment land.

Flood hazard and risk management
The May 2026 flood studies provide updated information relevant to land use planning in Hughenden and Prairie.

Incorporating this information into the Planning Scheme is a key priority. However, further technical consideration and Council direction are required to establish the preferred approach to acceptable, tolerable and intolerable flood risk before finalising flood hazard mapping and associated development provisions.

DRAFT

Development assessment and regulatory requirements
The review identifies opportunities to simplify development assessment requirements and ensure that development standards remain proportionate to the scale and circumstances of Flinders Shire.

Particular matters include residential and industrial development provisions, levels of assessment, landscaping and car parking requirements, rural subdivision and short-term accommodation.

Consideration should also be given to the application of the Queensland Housing Code, with a preference for minimising unnecessary alternative local requirements.

Consideration and review of planning scheme policies should be undertaken as a separate exercise.

Overlays and mapping
The review identifies a need to update and rationalise Planning Scheme mapping and overlay provisions, including flood hazard, biodiversity, heritage and other State-derived mapping.

The objective should be to ensure that mapping remains current, relevant and consistent with applicable State interests while avoiding unnecessary duplication of matters regulated through other legislative processes.

State and regional planning policy
The Planning Scheme should continue to appropriately integrate relevant State interests under the operative State Planning Policy.

The review has also considered emerging changes associated with the Draft State Planning Policy 2026 and the review of the North West Regional Plan. These changes should be monitored and incorporated into the amendment process as appropriate, having regard to their statutory status and commencement.

Engagement outcomes
Engagement undertaken with Council's Executive and Councillors in September 2026 reinforced a preference for an enabling, flexible and proportionate Planning Scheme that facilitates appropriate housing and economic development while reducing unnecessary regulation.

The workshops identified priorities relating to housing, industry, energy and infrastructure investment, development assessment requirements, zoning and land supply, flood risk management and the relevance of existing overlay mapping.

Further engagement with State agencies, affected landowners, stakeholders and the community will be required during preparation of the Planning Scheme amendment.

Conclusion and recommendation
The review concludes that the existing Flinders Shire Planning Scheme provides a suitable foundation for managing land use and development and does not require wholesale replacement.

However, targeted amendments are warranted to address contemporary planning issues, reflect Council's strategic priorities and improve the effectiveness and usability of the Planning Scheme.

It is recommended that Flinders Shire Council resolve to amend, rather than replace, the existing Planning Scheme, with the amendment focusing on:

- Updating the Strategic Framework to reflect housing, economic development, energy and infrastructure priorities.

- Facilitating housing supply and diversity through appropriate zoning, assessment provisions and reduced regulatory barriers.
- Reviewing industrial and employment land provisions to support existing and emerging economic opportunities.
- Incorporating updated flood hazard information and establishing a risk-based approach to land use planning.
- Reviewing development assessment requirements and codes to simplify regulation where appropriate.
- Updating and rationalising overlay mapping and provisions, consistent with applicable State interests.
- Improving the clarity, consistency and usability of the Planning Scheme.

A targeted amendment will enable Council to retain the effective elements of the existing Planning Scheme while establishing a more contemporary and locally responsive planning framework that supports housing delivery, economic development, investment and the long-term sustainability of Flinders Shire.

1 Introduction

1.1 Flinders Shire

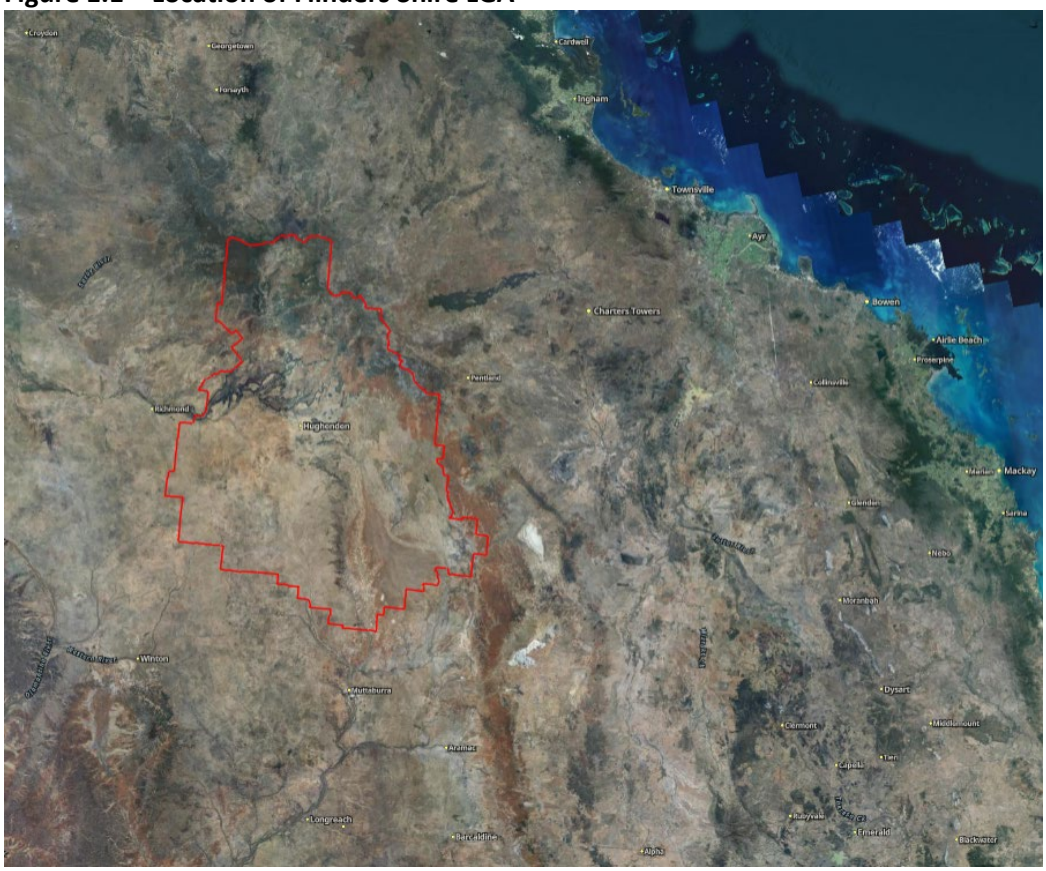

Flinders Shire is located in north-west Queensland and covers an area of approximately 41,600 square kilometres. The Shire is characterised by extensive rural landscapes, agricultural activities, natural and cultural heritage values, and a network of small rural communities.

Hughenden is the Shire's principal administrative, commercial and service centre, with smaller communities including Prairie, Stamford and Torrens Creek. The Shire's economy has traditionally been supported by agriculture, particularly grazing, together with tourism, transport, government services and local businesses.

The Shire is experiencing emerging opportunities associated with investment in renewable energy, electricity transmission infrastructure, agriculture and other major projects. These activities have the potential to support economic diversification, employment opportunities and population growth, while also increasing demand for housing, infrastructure and community services.

1.2 Scope

Urban Planning North Group (UP North) has been engaged to partner with Flinders Shire Council to review the Flinders Shire Planning Scheme (Planning Scheme) so as to update the Planning Scheme and address opportunities for better housing outcomes for Flinders Shire, as well as other economic and infrastructure considerations. This review is funded under the Queensland Government Scheme Supply Fund (SSF).

The Flinders Shire Planning Scheme provides the statutory framework for regulating land use and development across the Shire. The current Planning Scheme commenced on 2 October 2017. Amendment Version 1.1 commenced on 28 February 2018.

Since its preparation, changes in the legislative and policy framework, economic conditions, development activity and the availability of updated flood hazard information have created a need to review the Planning Scheme to ensure it remains contemporary, practical and responsive to the Shire's needs.

This review of the Flinders Shire Planning Scheme has been undertaken in accordance with section 25 of the *Planning Act 2016* (the Act) and the relevant State guidance material 'Planning scheme monitoring and undertaking a 10-year review - Guidance for local governments' (DSDILGP, November 2021).

Section 25 of the Act states that Council must review its planning scheme within ten years after the planning scheme was made or was last reviewed. This requirement ensures planning schemes are well-maintained and remain contemporary, responsive and relevant to informing and guiding the future of the local government area. Based on the review, Council must decide whether to amend or replace the planning scheme or whether the Planning Scheme should remain the same.

The purpose of this review is to assess the ongoing suitability and effectiveness of the Flinders Shire Planning Scheme and identify matters that should be addressed through a future planning scheme amendment.

The review considers:

- Population and development trends: Demographic characteristics, housing demand, and economic and development opportunities.
- Legislative and policy context: Changes to relevant State planning legislation, statutory instruments, State interests and regional planning policy.
- Local policy context: Council's strategic priorities, including housing, economic development, infrastructure and community resilience.
- Planning Scheme provisions: The effectiveness and relevance of the Strategic Framework, zoning, Tables of Assessment, development codes, overlays and mapping.
- Natural hazards: The implications of updated flood studies and contemporary risk-based land use planning approaches.
- Consultation: Matters identified through engagement with Council's elected representatives and officers.
- Opportunities for improvement: Measures to simplify assessment requirements, remove unnecessary regulation, facilitate appropriate development and improve the clarity and usability of the Planning Scheme.

The review has a particular focus on ensuring that the Planning Scheme supports housing delivery, economic development and investment while appropriately managing land use compatibility, infrastructure requirements and natural hazards.

The review also considers the implications of emerging State planning policy, recognising that proposed changes must be distinguished from the statutory requirements currently in effect.

The findings will inform Council's decision on whether to amend or replace the Planning Scheme and provide a basis for identifying the scope and priorities of any subsequent amendment process.

1.3 Report structure

This Planning Scheme Review report is structured as follows:

- Executive Summary

- Section 1 – Introduction
- Section 2 – Population and Development Trends
- Section 3 - Engagement
- Section 4 – State Legislative and Policy Context
- Section 5 – Local Policy Context
- Section 6 – Flinders Shire Planning Scheme
- Section 7 – Conclusion
- Appendix 1 – State Planning Policy Alignment Assessment.

2 Population and development trends

2.1 Introduction

Population characteristics, demographic change and development activity provide an important context for reviewing the Flinders Shire Planning Scheme. These factors influence demand for housing, employment land, infrastructure, community facilities and services.

The Australian Bureau of Statistics (ABS) 2021 Census provides a baseline for understanding the Shire's demographic characteristics. This information should be considered alongside more recent population estimates, economic conditions, development activity and the findings of the Flinders Housing Strategy (2026).

The Shire has historically experienced population decline and relatively modest development activity. However, recent economic investment, particularly in agriculture, renewable energy and major infrastructure projects, has created opportunities for population and employment growth. These changes are placing additional pressure on the local housing market and highlight the importance of ensuring that the Planning Scheme can accommodate future development.

2.2 Population and demographic characteristics

The 2021 Census and Queensland Regional Profiles identify a relatively small population, with household characteristics that differ from the Queensland average.

Of particular relevance is the proportion of smaller households. In 2021, Flinders Shire recorded 545 households, including 188 lone-person households (34.5%), compared with 24.7% across Queensland. The average household size was 2.3 persons, compared with 2.5 persons for Queensland.

The Shire also recorded 344 families, of which 48.0% were couple families without children and 37.5% were couple families with children, refer to **Table 2.1 Selected Census Indicators**.

Table 2.1 Selected Census Indicators

Selected Census indicator	Flinders Shire, 2021
Families	344
Households	545
Average household size	2.3 persons
Lone-person households	34.5%
One-family households	60.7%
Couple families without children	48.0% of families
Couple families with children	37.5% of families

Source: Queensland Regional Profiles, Flinders (S) LGA, ABS Census of Population and Housing 2021.

These characteristics suggest a need for a range of dwelling types, including conventional detached houses and smaller housing options suitable for single-person households, couples and older residents.

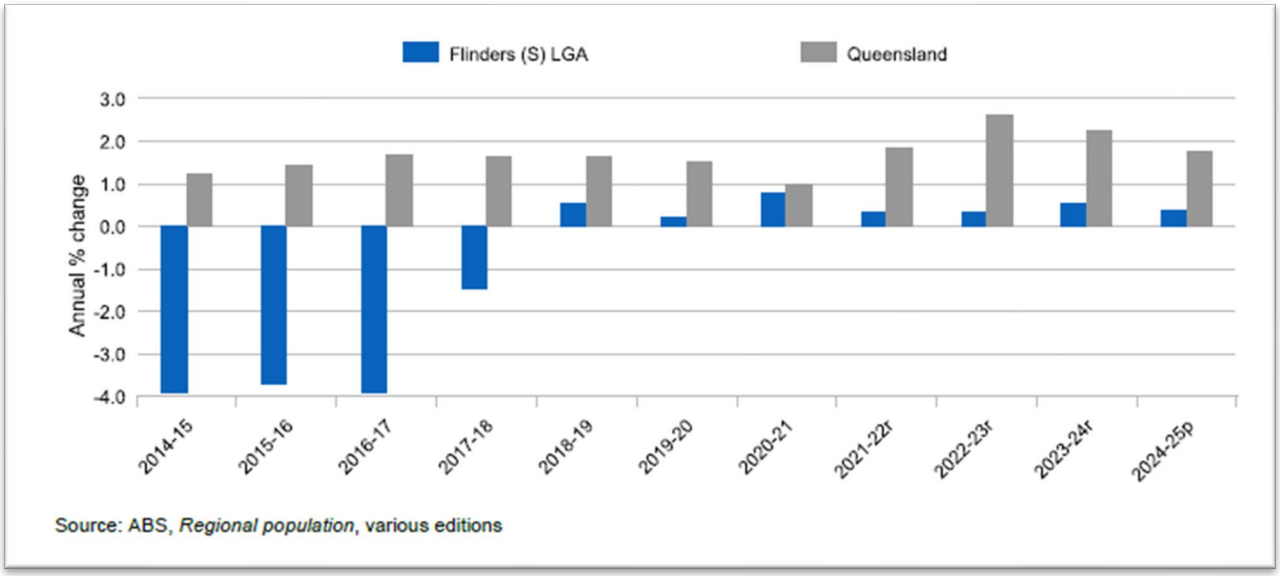

2.3 Population change and projections

Population trends within Flinders Shire have historically been influenced by agricultural activity, employment opportunities and broader regional economic conditions.

The Flinders Housing Strategy (2026) identifies a period of population decline before the COVID-19 pandemic, followed by renewed growth associated with investment in irrigated agriculture, manufacturing and energy projects.

Population trends are shown in **Figure 2.1 Estimated resident population growth**.

Figure 2.1 Estimated resident population growth

Source: ABS, *Regional population*, various editions

The population is expected to grow based on a low growth rate of 0.1% to 2046 from 1,521 person in 2021 to 1,563 persons in 2046, as shown in **Figure 2.2**.

Queensland Regional Profiles: Resident Profile: Flinders (S) LGA (ASGS 2021)

Future population change will be influenced by the delivery of major infrastructure and energy projects, the availability of employment and housing, and the Shire's capacity to attract and retain permanent residents. Given the Shire's small population, relatively modest changes in employment or household numbers can have a significant effect on housing demand, infrastructure requirements and local services.

2.4 Employment and economic activity

The Shire's economy is supported by agriculture, public administration, construction, education, transport, tourism and other service industries.

The 2021 Census recorded 732 employed residents. Public administration and safety accounted for 14.5% of employment, with construction representing 7.8%, education and training 7.7%, and retail trade and health care and social assistance each accounting for 6.1%.

These industries demonstrate the importance of government services, agriculture-related activity and local businesses in supporting the Shire's population and economy.

The Flinders Housing Strategy identifies a substantial pipeline of major projects, particularly energy transmission and renewable energy developments, including CopperString 2032 and the Mount James Wind Farm. These projects have the potential to generate significant construction employment and associated demand for accommodation and services.

While construction-related employment may be temporary, ongoing operational employment and associated economic activity may support longer-term population growth and housing demand.

2.5 Housing and residential development trends

Housing within Flinders Shire is predominantly characterised by detached dwellings, reflecting the Shire's rural and regional settlement pattern.

The Flinders Housing Strategy (2026) identifies a constrained housing market, with limited rental availability, ageing housing stock and relatively little new residential construction. The Strategy identifies an existing housing shortfall of approximately 35–37 dwellings, which could increase to 86–93 dwellings by 2030 without intervention. These figures represent estimated housing need rather than population projections.

Although demand is expected to remain predominantly for detached housing, the Strategy identifies opportunities for greater housing diversity, including duplexes, triplexes and multiple dwellings.
The Strategy also identifies approximately 154 hectares of vacant land within Hughenden, including 86 hectares of vacant Centre and Residential zoned land. However, not all land is readily developable due to flooding, drainage, infrastructure servicing and other constraints.

Accordingly, future residential development will depend on the availability of appropriately zoned land, and also on the capacity to deliver serviced, affordable and suitable housing.

2.6 Development pressures and opportunities

Hughenden is the principal urban centre and the focus of residential, commercial, community and infrastructure investment within Flinders Shire. Smaller settlements, including Prairie, Stamford and Torrens Creek, provide important local functions and may experience development opportunities associated with agriculture, tourism and major projects.

Emerging development pressures and opportunities include:

- Residential development: Increased demand for permanent housing, rental accommodation and a greater diversity of dwelling types.
- Major projects: Temporary workforce accommodation requirements and opportunities to secure lasting housing and infrastructure benefits.
- Industrial and economic development: Demand for appropriately located land to support existing businesses, construction activities and emerging industries.
- Tourism: Opportunities for visitor accommodation and tourism-related development.
- Infrastructure: The need to coordinate development with water, wastewater, transport and drainage infrastructure.
- Natural hazards: The importance of ensuring development is appropriately located and designed in response to flood risk.

These opportunities will need to be considered within the context of the Shire's relatively small population, extensive rural area and the financial and practical constraints associated with infrastructure delivery.

2.7 Implications for the Planning Scheme Review

Population and development trends indicate that the Planning Scheme should provide sufficient flexibility to accommodate changing housing needs, economic opportunities and major project investment.

Overall, the demographic and development trends suggest that the Planning Scheme should adopt a facilitative and proportionate approach to development, reflecting the Shire's rural and regional context while maintaining appropriate safeguards relating to infrastructure, land use compatibility and natural hazards.

3 Engagement

3.1 Overview

Engagement with Flinders Shire Council was undertaken to inform the Planning Scheme Review and identify Council's priorities for future land use and development.

Workshops were held with Council's Executive on 22 September 2026 and the Mayor and Councillors on 23 September 2026.

The workshops considered Council's strategic direction, housing and economic development opportunities, the existing zoning framework, development assessment requirements, natural hazards, infrastructure and emerging State planning policy.

The engagement identified a clear preference for a contemporary and enabling Planning Scheme that facilitates appropriate housing and economic development, reduces unnecessary regulation and reflects the circumstances of a small regional community.

The principal outcomes are summarised below.

3.2 Engagement Outcomes

Housing and residential development
Housing supply, affordability and diversity were identified as priorities. Council expressed a preference for simplifying development requirements and facilitating more affordable housing, including as appropriate adoption of the Queensland Housing Code.

Opportunities for rural residential development with self-sufficient water, wastewater and energy infrastructure were also discussed, together with the need to review existing rural subdivision requirements.

Economic development and industry
Council identified opportunities associated with agriculture, industry, energy, major infrastructure projects, rail transport, remote working and emerging industries, including data centres.

The workshops highlighted the need to update the Strategic Framework to recognise these opportunities and review industrial zoning and assessment requirements to facilitate appropriate development.

Zoning and land supply
Council considered that there is generally sufficient zoned land within the Shire. However, several locations warrant further investigation regarding their suitability for future development, including land within and surrounding Hughenden, industrial areas and land at Prairie and Torrens Creek.

The suitability of these areas will depend on land ownership, infrastructure availability, flood risk, existing land uses and other development constraints.

Flood hazard and risk management
Flood risk was identified as a significant matter requiring further technical consideration and Council direction.

The May 2026 flood investigations provide updated information for Hughenden and Prairie. However, Council has not yet established its preferred approach to acceptable, tolerable and intolerable flood risk.

A further workshop involving Council, the flood consultants and planning specialists was identified as necessary to establish Council's preferred risk-based planning approach before finalising flood overlay mapping and associated development provisions.

Development assessment and regulatory requirements
Council expressed a preference for reducing unnecessary regulatory requirements and facilitating development where impacts can be appropriately managed.

Particular matters identified for review included levels of assessment, landscaping and car parking requirements, residential and industrial development provisions, rural subdivision and short-term accommodation. The objective is to ensure that development requirements remain proportionate to the scale and circumstances of Flinders Shire.

Overlays and State mapping
Council identified opportunities to review existing biodiversity, heritage and other State-derived overlay mapping and provisions. A preference was expressed for avoiding unnecessary duplication of matters regulated by the State, including environmental and agricultural matters.

The continued need for existing heritage provisions was also questioned, given that the only heritage place identified in the Planning Scheme has been destroyed by fire.

Any proposed changes will need to consider applicable State interests and statutory requirements.

Infrastructure and strategic planning
The workshops identified the importance of aligning land use planning with infrastructure capacity and investment, including water, wastewater, transport and energy infrastructure.

The Strategic Framework should also be reviewed to reflect major energy and infrastructure projects, emerging economic opportunities and the North West Regional Plan, which is under review.

3.3 Implications for the Planning Scheme Review

The engagement outcomes reinforce Council's preference for a more flexible, enabling and proportionate planning framework.

The key matters to be addressed through the Planning Scheme amendment include:

- Updating the Strategic Framework to reflect contemporary housing, economic development and infrastructure priorities.
- Facilitating housing supply and diversity, including consideration of adoption of the Queensland Housing Code.
- Reviewing zoning and development provisions to support appropriate residential, commercial and industrial development.
- Simplifying development assessment requirements and removing unnecessary regulatory barriers.
- Incorporating updated flood information following further technical assessment and Council consideration of its preferred flood risk management approach.
- Reviewing overlay mapping and provisions to ensure they remain relevant, proportionate and consistent with State interests.
- Reviewing infrastructure and servicing requirements to support development feasibility and investment.

The engagement undertaken to date provides an important basis for the findings and recommendations of this review. It also identifies matters requiring further investigation or Council direction before detailed amendment provisions can be finalised.

Further engagement will be undertaken during preparation of the Planning Scheme amendment, including consultation with relevant State agencies, affected landowners, stakeholders and the broader community.

As part of the formal statutory process, formal public consultation will also be undertaken.

4 State legislative and policy context

The Planning Scheme operates within Queensland's broader statutory and policy planning framework. Since the planning scheme commenced in 2017, there have been changes to State planning policy, building and housing requirements and the strategic context applying to the Shire. Further changes are currently emerging through the review of the State Planning Policy and North West Regional Plan.

The statutory review provides an opportunity to ensure that the planning scheme remains consistent with the current legislative framework while also anticipating, where appropriate, emerging State policy.

4.1 Planning Act 2016

The *Planning Act 2016* provides the overarching legislative framework for land use planning and development assessment in Queensland. The Act establishes the system for State and local planning instruments, including planning schemes, and provides the statutory processes for making and amending those instruments.

Section 25 of the *Planning Act 2016* requires a local government to review its planning scheme within 10 years after the planning scheme was made or, if it has previously been reviewed, within 10 years after the previous review was completed. Following the review, Council must decide whether to retain, amend or replace the planning scheme.

The Flinders Shire Planning Scheme commenced on 2 October 2017. The current review therefore provides an opportunity to consider whether the scheme remains fit for purpose and whether its strategic framework, zoning, assessment provisions, development requirements and mapping continue to provide an appropriate planning framework for the Shire.

The review has identified that the existing scheme remains a workable foundation. However, changes in housing needs, economic development opportunities, major infrastructure and energy investment, flood information and State policy indicate that targeted amendments are warranted. Consultation with Council has also identified a preference for a simpler and more enabling planning framework which facilitates appropriate development and avoids regulatory requirements that are disproportionate to the scale and circumstances of Flinders Shire.

4.2 Planning Regulation 2017

The *Planning Regulation 2017* supports the operation of the *Planning Act 2016* and establishes matters including regulated requirements for planning schemes, development assessment requirements, State assessment and referral arrangements, prohibited development and other statutory requirements.

Any amendment to the Flinders Shire Planning Scheme will need to comply with the regulated requirements and other applicable provisions of the Regulation. This is particularly relevant when reviewing definitions, categories of development and assessment, assessment benchmarks and the relationship between local planning provisions and matters regulated by the State.

An important consideration for the review is avoiding unnecessary duplication of matters already adequately regulated through State legislation, State assessment processes or other regulatory mechanisms. This is consistent with Council's preference for a planning scheme that focuses its regulation on matters where a local planning response is necessary and adds value.

4.3 Minister's Guidelines and Rules

The Minister's Guidelines and Rules (MGR) prescribe processes for making and amending local planning instruments under the Planning Act 2016. Any planning scheme amendment arising from this review will need to follow the applicable MGR process, including State interest review and public consultation where required.

The Queensland Government is currently reviewing the MGR alongside the Draft State Planning Policy 2026. Proposed changes include updated terminology to reflect the revised State interests and changes intended to improve the clarity and efficiency of plan-making processes. The proposed MGR also contemplates an expanded minor amendment pathway for incorporating State hazard mapping into planning schemes.

This project is funded under the SSF which anticipates a section 18 tailored amendment process.

4.4 State Planning Policy 2017

The State Planning Policy July 2017 (SPP 2017) remains the current State Planning Policy. It expresses the State's interests in land use planning and development and provides the principal State policy framework against which local planning instruments are prepared and reviewed.

When the Flinders Shire Planning Scheme was prepared, all State interests relevant to Flinders Shire were identified as appropriately integrated. The review considers whether the scheme's treatment of those interests remains appropriate having regard to the passage of time, changed circumstances, updated information and contemporary State policy.

The detailed assessment contained in **Appendix 1 – State Planning Policy Alignment Assessment** concludes that the scheme continues to provide a reasonable foundation for addressing the majority of relevant State interests. However, a number of matters warrant review or updating.

Of particular significance are:

- Housing supply and diversity, reflecting contemporary housing needs, housing supply and workforce accommodation pressures;
- natural hazards, risk and resilience, particularly the incorporation of the 2026 flood investigations and a contemporary risk-based approach to flood planning;
- energy and infrastructure, reflecting significant new investment and development affecting the Shire;
- economic and industrial development, including the suitability and availability of employment land and opportunities associated with agriculture, resources, energy and emerging industries;
- transport infrastructure, including the strategic role of road, rail and freight infrastructure; and
- updating or reconsidering State-derived mapping and provisions where these are outdated, no longer relevant or unnecessarily duplicate State regulation.

The detailed SPP assessment is provided in **Appendix 1**.

4.5 Draft State Planning Policy 2026

The Queensland Government released a Draft State Planning Policy 2026 for consultation in August 2026. Consultation remains open until 26 October 2026. The Draft SPP is not currently a statutory instrument and therefore does not replace the SPP 2017 for the purposes of this review. It nevertheless provides an important indication of the likely future direction of State planning policy.

The Draft SPP proposes six overarching strategic aspirations:

1. Build more housing and strong communities;
2. Promote efficient land use patterns;
3. Drive connected and productive regions;
4. Deliver responsive infrastructure;
5. Support existing economic drivers; and
6. Attract emerging industries.

These aspirations are particularly relevant to Flinders Shire. They broadly align with Council's identified priorities of facilitating housing, economic development, infrastructure investment and emerging industries while maintaining a planning framework proportionate to the Shire's circumstances.

The Draft SPP also proposes substantial restructuring of the State interests, including:

- a strengthened Housing interest;
- new or restructured interests addressing Economic Land, Energy and Water;
- a new Environment, heritage and efficient growth interest; and
- a revised Natural hazards and safety interest.

It also proposes moving State development assessment benchmarks from the SPP into the *Planning Regulation 2017.*

Housing and economic development

The Draft SPP places greater emphasis on housing supply, well-located housing, housing choice and workforce accommodation. It also seeks to maintain an adequate supply of employment and industrial land and provide greater flexibility for emerging industries and economic development opportunities.

These directions are directly relevant to Flinders Shire. Council consultation identified housing supply and affordability, industrial development, agriculture, energy and infrastructure projects, rail, remote working and emerging industries such as data centres as matters that should receive greater recognition in the planning scheme.

The emerging State policy direction therefore supports a broader review of the Strategic Framework and development provisions to ensure the scheme facilitates appropriate housing and economic opportunities rather than creating unnecessary regulatory barriers.

Natural hazards and safety
The Draft SPP proposes a more explicitly risk-based approach to natural hazards. This is particularly relevant to the current review because Council has completed contemporary flood investigations for Hughenden and Prairie.

The emerging approach supports consideration of the level of risk associated with different development types and locations, rather than relying solely upon a single flood event or hazard extent.

The planning scheme amendment should therefore incorporate contemporary flood information but should do so through a proportionate, risk-based framework established following Council consideration of its preferred risk tolerance.

Environment and heritage
The Draft SPP proposes to consolidate a number of existing environmental and heritage policies within a new Environment, Heritage and Efficient Growth State interest. While the structure is proposed to change, the Queensland Government indicates that the underlying environmental policy intent is largely retained.

For Flinders Shire, implementation should be proportionate to the local context. Council has identified a reduced need for the existing heritage provisions following the loss of the only heritage place presently identified by the scheme.

The amendment should therefore determine the most effective local planning response required to appropriately address applicable State interests while avoiding unnecessary duplication and regulation.

Energy and infrastructure
The proposed standalone Energy interest is particularly relevant given major energy and transmission investment affecting Flinders Shire. The Draft SPP seeks both to facilitate energy infrastructure and protect existing and planned energy infrastructure and corridors from incompatible development.

This provides a basis for stronger recognition within the Strategic Framework of energy infrastructure, associated economic opportunities and the relationship between major projects, workforce accommodation, industrial land, transport and infrastructure servicing.

Overall, the Draft SPP is broadly consistent with the direction emerging from the Flinders Shire review: facilitating housing and economic opportunities, supporting existing and emerging industries, coordinating infrastructure and adopting regulation that is responsive and proportionate to risk.

As the Draft SPP remains subject to consultation and may change before finalisation, its implications should continue to be monitored during preparation of the planning scheme amendment.

4.6 North West Regional Plan

Flinders Shire is within the area covered by the North West Regional Plan 2010. The regional plan is currently under review.

The Queensland Government advises that the renewed regional plan is intended to be a contemporary, integrated land use and infrastructure plan, with the review focused particularly on housing supply and economic growth. The revised approach is intended to be more streamlined and targeted, with an associated North West Infrastructure Plan being prepared as an appendix to the regional plan.

The emerging regional planning direction is highly relevant to Flinders Shire given current and anticipated investment in energy, transmission, transport, agriculture and other economic activity. Council has also provided input concerning its preferred strategic narrative for the region, which can be reflected in the Strategic Framework.

The final status and content of the North West Regional Plan should therefore be monitored as the planning scheme amendment progresses. Where timing permits, the amended Strategic Framework should align with the emerging regional policy direction without unnecessarily delaying the local amendment process.

4.7 Queensland Housing Code

The Queensland Housing Code (QHC) commenced on 1 September 2026 and establishes updated design and siting standards for detached housing. A transition period applies until 1 September 2029. During this period, the QHC applies within a local government area when the planning scheme is amended to specify how it applies; otherwise, the former QDC Parts 1.1 and 1.2 or applicable alternative planning scheme provisions continue to operate.

The QHC addresses matters including building height, setbacks, privacy, car parking, site cover and private open space. Its introduction provides an opportunity to simplify residential development requirements and improve consistency between local and State housing regulation. Subject to further consultation the planning scheme amendment can reflect whether Council adopts the QHC and whether any alternate provisions are required.

Energy-efficiency requirements applying to new dwellings arise principally through building legislation and the building code framework rather than the planning scheme. Council's concerns regarding the cost and suitability of those requirements are therefore more appropriately pursued through advocacy to the State and Australian Governments, rather than through additional or alternative planning scheme provisions.

4.8 Implications for Planning Scheme Review

The State legislative and policy review indicates that the Planning Scheme remains a suitable foundation but requires updating to respond to changed State policy and contemporary local circumstances.

The principal implications for the planning scheme amendment are to:

- facilitate additional housing supply and diversity and remove unnecessary barriers to housing delivery;
- strengthen the strategic recognition of economic development, agriculture, industry, energy, major infrastructure and emerging industries;
- incorporate contemporary flood information;
- review industrial and employment land and associated transport and infrastructure requirements;
- subject to consultation adopt the Queensland Housing Code with minimal locally specific variations unless a clear planning justification exists;

- review existing biodiversity, heritage and other State-derived overlays; and
- monitor the finalisation of the Draft SPP and North West Regional Plan and incorporate relevant emerging policy where appropriate.

This approach would enable the planning scheme to continue to appropriately integrate State interests while establishing a more contemporary, enabling and locally responsive framework for development in Flinders Shire.

5 Local policy context

Council's contemporary strategic documents provide an important local policy context for the Planning Scheme review. In particular, the Corporate Plan, Economic Development Strategy, Local Housing Action Plan and Flinders Housing Strategy identify priorities relating to housing, economic development, infrastructure, population attraction and retention, and facilitating private investment.

Collectively, these documents support a planning scheme that facilitates appropriate development and investment while ensuring that growth is directed to suitable locations and appropriately serviced.

5.1 Corporate Plan

The Flinders Shire Council Corporate Plan establishes Council's overarching strategic direction and provides the framework within which its more detailed strategies, programs and investment decisions operate.
For the Planning Scheme review, the Corporate Plan is particularly relevant to the relationship between population growth, economic development, infrastructure, housing and community liveability.

The Planning Scheme can support these objectives by:

- facilitating housing and residential development;
- supporting economic development and private investment;
- providing opportunities for industry, business and emerging economic activities;
- recognising major infrastructure and energy investment;
- supporting established industries, including agriculture and tourism;
- coordinating development with infrastructure; and
- maintaining the liveability and identity of Hughenden and the Shire's smaller communities.

The review provides an opportunity to ensure that the Strategic Framework reflects Council's current corporate direction and that the regulatory framework remains appropriate to the scale and development context of Flinders Shire.

5.2 Economic Development Strategy

The Economic Development Strategy identifies economic development and diversification as important priorities for Flinders Shire.

The Shire's established agricultural, tourism and service industries remain important, while significant infrastructure and energy investment creates opportunities for additional employment, investment and population growth. The Planning Scheme should provide sufficient flexibility to respond to these opportunities while ensuring that suitable land and infrastructure are available to accommodate development.

The Housing Strategy recommends that Council update the Economic Development Strategy to reflect the significant changes in the Shire's economic fundamentals since 2021. This reinforces the need for the Planning Scheme to be sufficiently adaptable to accommodate emerging economic opportunities.

5.3 Local Housing Action Plan

The Local Housing Action Plan (LHAP) provides an earlier framework for identifying local housing issues and actions available to Council, the Queensland Government and other stakeholders.

The LHAP remains relevant to the Planning Scheme review; however, it should now be read together with the more detailed Flinders Housing Strategy (2026).

5.4 Flinders Housing Strategy 2026

The Flinders Housing Strategy (2026) provides a 20-year assessment of housing need within Flinders Shire, considering housing and land supply, market conditions, population and employment growth, major projects and infrastructure capacity. It identifies an existing housing shortfall of approximately 35–37 dwellings, potentially increasing to 86–93 dwellings by 2030, with demand concentrated primarily in Hughenden.

The Strategy finds that the Shire has sufficient land zoned for residential development and that the Planning Scheme is not a significant constraint on housing delivery. Housing supply is affected by factors including development feasibility, access to finance, construction costs and workforce availability, ageing housing stock, infrastructure requirements and flooding and drainage constraints.

The Strategy identifies opportunities for the Planning Scheme to better facilitate housing delivery and diversity, including identifying preferred residential growth areas, promoting infill development, supporting greater housing diversity, identifying opportunities for rural lifestyle living, and streamlining planning processes where appropriate.

5.5 Implications for the Planning Scheme Review

The Planning Scheme has an important enabling role for housing and economic development. To be more facilitatory amendments to the Planning Scheme can focus on:

- identifying preferred residential areas;
- facilitating infill development and housing diversity within Hughenden;
- coordinating residential development with infrastructure capacity and investment;
- reviewing levels of assessment for appropriate residential development;
- considering opportunities for rural residential lifestyle development;
- reducing unnecessary regulatory requirements;
- appropriately responding to flood and other development constraints; and
- ensuring the Strategic Framework recognises anticipated housing, workforce and economic changes associated with major projects.

6 Flinders Shire Planning Scheme

6.1 Introduction

The Planning Scheme provides the statutory framework for regulating land use and development across the local government area. The planning scheme establishes the strategic direction for growth and development and includes zoning, development assessment requirements, development codes and overlays addressing natural hazards and other planning considerations.

The Planning Scheme commenced in 2017 and was amended in 2018. The Planning Scheme includes a Strategic Framework, Tables of Assessment, zone codes, overlay codes and development codes.

This review identifies key policy and regulatory matters for consideration in preparing a planning scheme amendment.

6.2 Strategic Framework

The Strategic Framework establishes the long-term planning direction for Flinders Shire and provides the overarching policy basis for land use and development decisions. The current Strategic Framework addresses settlement, economic development, infrastructure, tourism and the natural environment. These themes remain relevant; however, there is an opportunity to review the strategic outcomes and land use strategies to better reflect Council's current priorities and the findings of the Housing Strategy.

Settlement and housing
The Strategic Framework should provide clear support for residential growth within Hughenden and other established townships, where development can be appropriately serviced and natural hazard risks managed.

The review should consider strengthening provisions relating to:

- The availability of suitable residential land.
- Housing diversity, including smaller dwellings, multiple dwellings and accommodation for key workers.
- Opportunities for infill development and efficient use of existing infrastructure.
- The provision of housing to support population retention, workforce attraction and economic development.
- Appropriate residential development in rural and township locations.

The Strategic Framework should recognise that housing availability is important to the economic and social sustainability of the Shire.

Economic development
Council has identified economic development and investment attraction as important priorities. The Strategic Framework should support a broad range of appropriate business, industrial, tourism and rural economic activities.

There is an opportunity to strengthen the relationship between land use planning and economic development by encouraging new and emerging industries, small businesses and development associated with major regional projects.

Specific consideration can be given to the provisions relating to Medium Impact Industry Zone and the appropriate location of meat processing facilities and ancillary cattle yards and feedlots.

Infrastructure and servicing
The Strategic Framework should recognise the importance of infrastructure availability and affordability in facilitating development.

Greater emphasis could be placed on the efficient use of existing infrastructure, prioritising development in serviced locations and supporting infrastructure investment that enables additional residential and industrial land supply.

Transport infrastructure should be reviewed including updating the mapping for the Hughenden Bypass and removing mapping where it is no longer relevant.

Natural environment and hazards
The Strategic Framework should continue to address relevant State interests and natural hazard risks while ensuring that environmental provisions are proportionate and do not unnecessarily constrain appropriate development.

In particular, the review should consider the relationship between environmental protection objectives, updated mapping and Council's preference for reducing unnecessary regulation.

Heritage
Review the Strategic Framework to recognise protection of indigenous and non-indigenous heritage, whilst noting that there are no existing specific places of cultural significance identified in the Planning Scheme.

6.3 Zoning and Land Use Provisions

The Planning Scheme establishes 11 zones, including the General residential, Township, Rural residential, Rural, Centre, Low impact industry and Medium impact industry zones. These provide the principal framework for managing residential, commercial, industrial and rural development.

The Zone maps for Hughenden and Prairie are shown in **Figures 6.1** and **6.2**.

Figure 6.1 Hughenden Zone Map

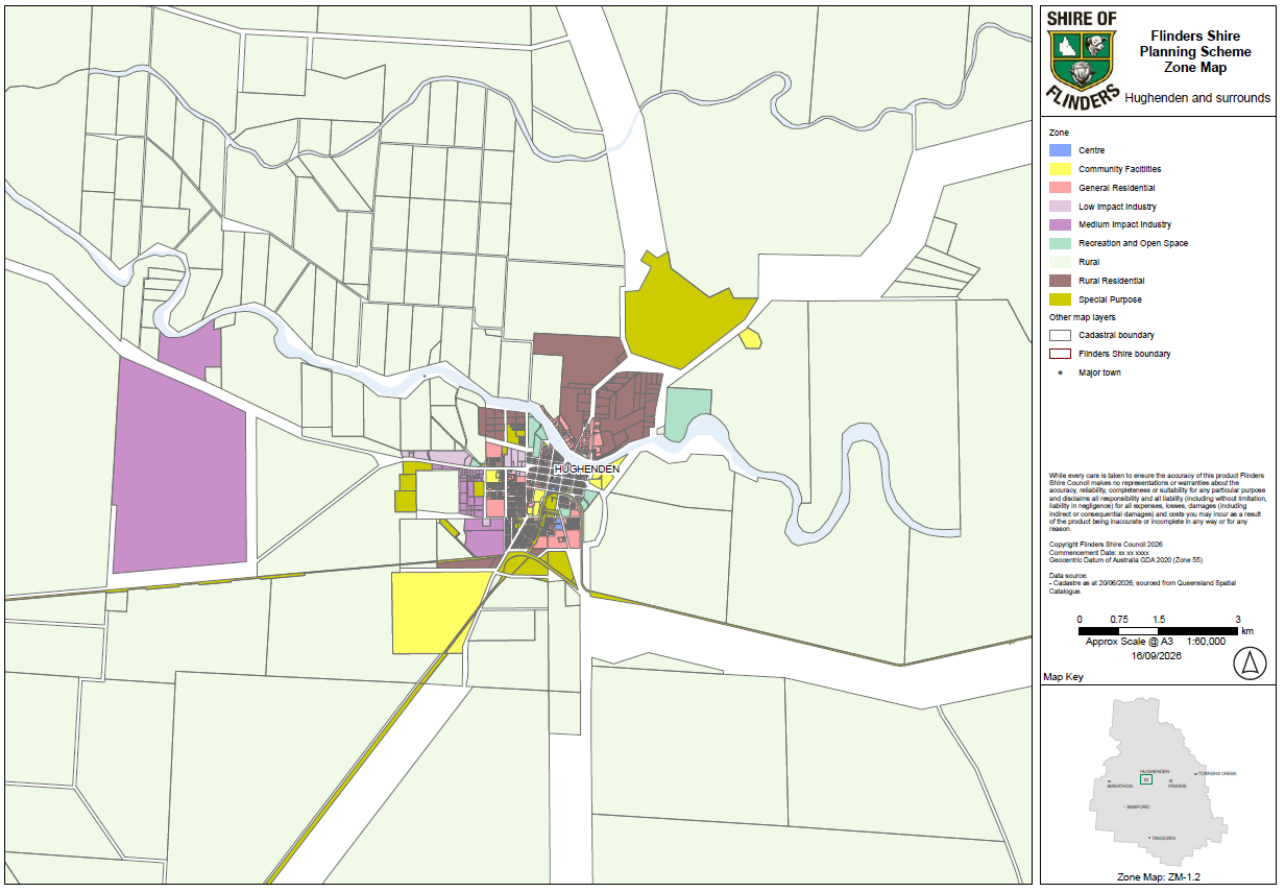

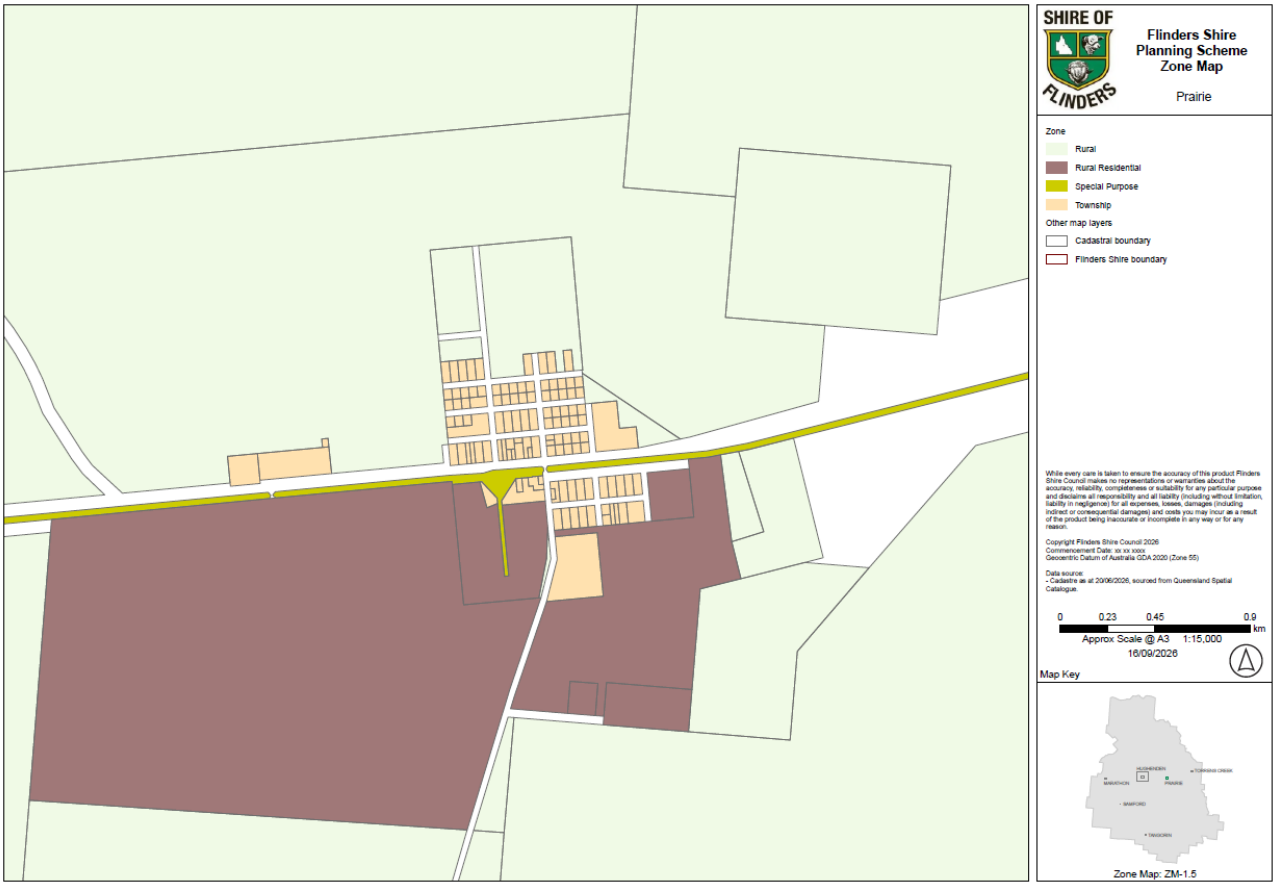

Figure 6.2 Prairie Zone Map

Residential development
The General residential zone provides the principal planning framework for residential development within established urban areas.

The review should consider whether the current zoning and associated provisions provide sufficient flexibility to accommodate a broader range of housing types, particularly smaller dwellings, multiple dwellings and accommodation required to support local employment and service delivery.

Consideration should be given to the current zoning pattern and whether undeveloped land in other urban zones may be better suited for residential development to accommodate future housing needs, having regard to land suitability, infrastructure availability and natural hazards.

Township and rural residential development
The Township and Rural residential zones provide opportunities for residential development outside the principal urban area.

The review should consider whether the current provisions appropriately support housing and compatible economic activities within these locations, including whether development requirements are proportionate to the scale and nature of proposed development.

Business and industrial development
The Centre, Low impact industry and Medium impact industry zones provide opportunities for commercial and industrial development. Council's preference for facilitating economic opportunities supports a review of these provisions to identify whether a broader range of compatible uses could be accommodated without unnecessary development assessment requirements. This may include reviewing opportunities for small-scale industry, service businesses, rural industries and other activities that support employment and economic diversification.

Several specific areas warrant further investigation including land included in the:

- Medium Impact Industry Zone west of Hughenden that was previously associated with abattoir/feedlot proposals.
- Low Impact Industry Zone and Medium Impact Industry Zone near the solar farm.
- Centre Zone south of McLay Street, Hughenden.
- Special Purpose Zone associated with the airport.

6.4 Tables of Assessment and Definitions

Part 5 of the Planning Scheme establishes the categories of development and assessment for material changes of use, reconfiguring a lot, building work and operational work. It also identifies circumstances where overlays affect development assessment. The review should examine levels of assessment and seek to reduce unnecessary regulation where appropriate.

It is noted that the Planning Scheme currently provides a range of residential opportunities in the General Residential Zone. Dwelling house and Dual occupancy are 'Accepted development subject to requirements' and a range of higher density residential uses such as Multiple dwelling, Residential care facility, Retirement facility and Rooming accommodation are subject to code assessment.

Consideration could be given to lowering the level of assessment from impact to code for workforce accommodation of a certain size, to facilitate this type of use.

Any proposed changes should be assessed against the regulated requirements of the Planning Regulation 2017. In addition, proposed changes can include updating definitions in accordance with the Planning Regulation 2017.

6.5 Development Codes

Part 9 of the planning scheme contains development codes addressing residential, commercial, industrial, rural and other activities, together with operational works and reconfiguring a lot. These codes establish assessment benchmarks for development within the Shire.

The review should consider whether the existing provisions remain appropriate for the local development context and whether requirements can be simplified without compromising essential standards relating to safety, amenity and infrastructure. Particular attention should be given to the Residential activities code, Reconfiguring a lot code and Industry and infrastructure activities code.

Opportunities may include:

- Ensuring infrastructure and servicing standards are proportionate to development scale and location.
- Reducing unnecessary duplication between planning scheme requirements and other legislation or standards.
- Simplifying provisions for small-scale business, industry and tourism activities.
- Amending the Planning Scheme to reflect Council's position in relation to the new Queensland Housing Code.

6.6 Overlays and Development Constraints

The planning scheme includes six overlays addressing biodiversity, bushfire hazard, flood hazard, heritage, major infrastructure, and wetlands and waterway corridors.

Council has identified opportunities to review the extent and application of these overlays, particularly where updated information is available or existing provisions may unnecessarily constrain development.

Flood hazard
There is an opportunity to update the Flood Hazard Overlay Code and mapping, based on the recent Hughenden Flood Risk Management Study and Prairie Flood Risk Management Study completed in May 2026. These studies can inform Council's preferred flood risk tolerance and final planning response for Hughenden, Prairie and other affected areas. At the time of writing of this report, workshops with Council are planned to address this issue.

Biodiversity and environmental overlays
The Biodiversity overlay currently identifies Matters of State Environmental Significance, including protected areas, wildlife habitat and regulated vegetation. The overlay code seeks to avoid or minimise development impacts on these values. The review should consider whether the existing mapping and provisions remain appropriate, whether they duplicate State regulatory requirements, and whether a more targeted approach could achieve relevant State interests without imposing unnecessary additional requirements.

Heritage overlay
The planning scheme includes a Heritage overlay and associated development assessment provisions for local heritage places. These provisions can affect the assessment category for development involving demolition, relocation or removal of a listed place. The only local heritage place identified in the planning scheme has been destroyed by fire and no longer exists. There is an opportunity to review the continued need for provisions relating to heritage places.

Other overlays
The Bushfire hazard, Major infrastructure and Wetland and waterway corridor overlays should be reviewed to ensure the mapping and assessment requirements remain current, relevant and proportionate.

6.7 Infrastructure

The planning scheme does not include a Local Government Infrastructure Plan. However, the planning scheme should support efficient and affordable infrastructure provision while maintaining appropriate health, safety and environmental standards.

Particular consideration should be given to:

- Infrastructure capacity within existing and proposed residential and industrial areas.
- Requirements for servicing development in township and rural locations.

The Housing Strategy (Regional Economic Advisory and Urban Planning North, 2026) notes that:

- Hughenden's water infrastructure is sourced via bores and treated at the Saleyards Road Water Treatment Plant; recent condition assessments indicate that the network is suitable for current demand but would require upsizing of critical mains, booster pump adjustments, and other long-term upgrades to support projected growth.
- The understanding is that Council has committed to implementing the recommendations of the sewer condition and capacity assessment. Pump stations 1 and 2 will be upgraded in the short term to support the CopperString 500-person workers accommodation, this infrastructure project will provide additional sewer capacity for the Hughenden network and in turn support future development. Accordingly, it is understood that sewer capacity will not present a barrier to future residential development in the short term.

6.8 Planning Scheme Policies

The Planning Scheme includes policies addressing engineering standards, preferred plant species and rural subdivision. These policies should be reviewed to ensure they remain contemporary, consistent with relevant technical standards and appropriate to the development context of Flinders Shire.

Particular consideration should be given to updating engineering standards for roads, access, stormwater drainage, water supply and wastewater infrastructure, together with reviewing servicing requirements for rural and rural residential subdivisions.

It is recommended that Council's engineering, infrastructure and environment officers undertake a technical review of the existing Planning Scheme Policies to identify necessary updates, including references to current standards and infrastructure specifications.

This review could be undertaken alongside preparation of the Planning Scheme amendment.

6.9 Development Application Audit

A review of available Council meeting records identified five development applications for Material Change of Use (MCU) and Reconfiguring a Lot (ROL) considered by Council between May 2024 and April 2026. Four applications were confirmed as approved subject to conditions, while the final decision for one application could not be verified. All five applications were code assessable. It is noted that, no MCU/ROL development-application decisions were located in the online agendas/minutes for 2020, 2021, 2022 or 2023, and agendas/minutes before 2020 are not published online.

The limited number of applications reflects the relatively low level of development activity in the Shire and highlights the importance of facilitating housing and economic development opportunities. The audit was limited to applications identified in available Council meeting records and does not represent a complete register of development approvals.

Table 6.1 – Summary of Development Applications

Application	Proposed development	Decision
FSC102	ROL – One lot into four rural lots, Torver Valley Road, Hughenden	Approved – May 2024
FSC103	ROL – One lot into four residential lots, Dalrymple Road, Hughenden	Approved – May 2024

6.10 Summary of Key Findings

The review identifies opportunities to update the planning scheme to better reflect Council's current priorities for housing, economic development and reduced regulation.

The proposed amendments should seek to establish a more flexible and contemporary planning framework that facilitates appropriate development while addressing relevant State interests and natural hazard risks.

Table 6.2 – Summary of Planning Scheme Review Findings

Planning scheme component	Key issue or opportunity	Recommended amendment
Strategic Framework	Greater emphasis required on housing supply, economic development and investment attraction.	Update strategic outcomes and land use strategies to reflect Council's current priorities and Housing Strategy.
Residential zoning	Opportunities to facilitate housing diversity and additional residential development.	Review residential zoning and provisions to support a broader range of housing types and suitable development locations.
Township and rural zones	Potential for greater flexibility in accommodating appropriate development.	Review permitted land uses and assessment requirements.
Business and industry	Council seeks to encourage investment and economic diversification.	Review zoning, land use provisions and assessment requirements to facilitate compatible commercial and industrial development.
Tables of Assessment	Opportunities to reduce unnecessary development assessment.	Review categories of development and assessment, with greater use of accepted development and code assessment where appropriate.
Development codes	Some requirements may be unnecessarily prescriptive or disproportionate to local development circumstances.	Simplify provisions and remove unnecessary duplication with other regulatory requirements.
Flood hazard	Existing mapping requires review against the May 2026 flood study.	Update flood mapping and associated provisions following confirmation of the appropriate flood risk methodology.
Biodiversity	Review environmental regulation.	Review mapping and provisions to ensure State interests are addressed without unnecessary duplication or regulation.
Heritage	The only identified local heritage place no longer exists.	Review and update heritage listing, mapping and associated provisions.
Other overlays	Need to ensure mapping and provisions remain current and relevant.	Review overlay mapping and assessment requirements.
Infrastructure	Infrastructure availability and costs may constrain development.	Review relevant provisions to support efficient infrastructure delivery and development feasibility.
Planning Scheme Policies	Update planning scheme policies	Update engineering standards, review need for and content of plant species and rural subdivision policies. Undertake as a separate exercise.

7 Conclusion

The review of the Flinders Shire Planning Scheme has been undertaken in accordance with section 25 of the Planning Act 2016, with a particular focus on facilitating housing supply and diversity, supporting economic development and ensuring the Planning Scheme remains contemporary, practical and responsive to the needs of Flinders Shire.

The Planning Scheme provides a suitable foundation for managing land use and development. However, changes in State planning policy, Council's strategic priorities, housing demand, economic development opportunities and the availability of updated flood information warrant amendments to ensure the Planning Scheme remains fit for purpose.

The Flinders Housing Strategy (2026) identifies significant housing pressures, although the Planning Scheme and the availability of appropriately zoned land are not considered the principal constraints on housing delivery. Nevertheless, opportunities exist to adopt the Queensland Housing Code with minimal alternate provisions, facilitate housing supply and diversity and reduce regulatory requirements where appropriate.

Engagement with Council's Executive and Councillors reinforced a preference for an enabling and proportionate planning framework that facilitates appropriate development and investment while avoiding unnecessary regulation. The review identifies opportunities to strengthen the Strategic Framework to recognise major energy and infrastructure investment, emerging industries and economic development opportunities, together with reviewing zoning, development assessment requirements and infrastructure planning.

A priority is the incorporation of the May 2026 flood studies into the Planning Scheme. This will require further technical consideration and Council direction regarding its preferred approach to managing flood risk, including acceptable, tolerable and intolerable risk, before the flood overlay mapping and associated development provisions can be finalised.

The review has also identified opportunities to simplify development assessment requirements, review development codes and update overlay mapping and provisions to ensure they remain relevant, proportionate and consistent with applicable State interests. The planning scheme policies should be reviewed and updated as a separate excersise.

It is therefore recommended that Flinders Shire Council resolve to amend the existing Planning Scheme. The amendment should focus on the priorities identified in this report, particularly housing, economic development, flood risk management and opportunities to reduce unnecessary regulation.

Further engagement with relevant State agencies, affected landowners, stakeholders and the broader community will inform the preparation and finalisation of the amendment.

A targeted amendment will enable Council to retain the effective elements of the existing Planning Scheme while establishing a more contemporary, enabling and locally responsive planning framework that supports the long-term sustainability and prosperity of Flinders Shire.

2.02 CORPORATE AND FINANCE SERVICES

2.02.01 MONTHLY FINANCE REPORT – PERIOD ENDED 30 SEPTEMBER 2026

Author: Director of Corporate and Financial Services
Authorising Officer: Chief Executive Officer
Disclosure of Interest: The Author and Authorising Officer declare that they do not have any conflicts of interest in relation to this item.

OFFICER'S RECOMMENDATION
That Council:
In accordance with Section 204 of the *Local Government Regulation 2012*, Council receives the financial report, which includes the following statements, for the period ending 30 September 2026.

i. Statement of financial performance;
ii. Statement of financial position;
iii. Statement of cash flows;
iv Statement of changes in Equity.

Executive Summary

The Financial Report for the quarter ended 30 September 2026 provides Council with an overview of year-to-date financial performance, financial position and liquidity against the adopted 2026/27 budget.

Council has commenced the financial year from a strong balance-sheet and cash position. At 30 September 2026, Council held total assets of $332.8 million, net community assets of $317.0 million and cash and cash equivalents of $48.4 million. Unrestricted cash was $21.4 million after allowing for the commitments identified in the unrestricted cash reconciliation.

Year-to-date operating revenue was $17.01 million against operating expenditure of $11.08 million, producing an operating surplus of $5.94 million. Capital revenue of $2.23 million increased the reported net result to a surplus of $8.17 million.

The four key reporting observations are:

- Rates, levies and charges have reached 50% of the annual budget, sales revenue 81% and operating grants and contributions 35%;
- Materials and services expenditure is at 42% of the annual budget, while employee benefits are at 17%;
- Operating activities generated a net cash inflow of $1.80 million and total cash increased by $4.86 million during the quarter;
- The reported result currently excludes depreciation and amortisation, which must be considered when interpreting expenditure performance and the year-to-date surplus.

The year-to-date result is therefore favourable but remains influenced by the timing of revenue, expenditure and accounting recognition. Comparative figures for the year ended 30 June 2026 are finalised, subject to any adjustments arising from completion of the 2025/26 external audit.

Background

As Council meets monthly, section 204(2)(b) of the *Local Government Regulation 2012* requires the Chief Executive Officer to present the financial report at a meeting of Council once a month.

This report presents Council's financial performance and position as at 30 September 2026, including progress against the adopted 2026/27 budget, cash flows and movements in community equity.

The September reporting period represents the first quarter of the 2026/27 financial year. The accompanying statements should be read with regard to the timing of revenue and expenditure recognition and the current exclusion of depreciation from the year-to-date result.

The following analysis highlights the principal movements and matters requiring ongoing management attention.

Statutory/Compliance Matters

The report is prepared in accordance with the *Local Government Regulation 2012* & relevant Australian Accounting Standards.

There are no statutory or compliance issues identified.

Financial / Budget Implications

Operating revenue of $17.01 million represents 47% of the adopted annual budget.

- Operating expenditure of $11.08 million represents 26% of the adopted annual budget; however, depreciation has not yet been recognised.
- The resulting operating surplus is $5.94 million, with capital revenue of $2.23 million bringing the reported net surplus to $8.17 million.
- Revenue performance reflects strong early recognition of rates, sales revenue, grants and other income. Expenditure performance is principally driven by materials and services, which has reached 42% of the annual budget at the end of the first quarter.
- The timing of revenue and expenditure, together with the current exclusion of depreciation, means the year-to-date surplus should not be treated as a forecast of the full-year result.

Statement of Financial Position – 30 September 2026

- Total assets are $332.8 million.
- Total liabilities are $15.8 million.
- Net community assets total $317.0 million.
- Retained surplus is $196.4 million.
- Asset revaluation surplus is $120.6 million.

Cash Position

- Cash and cash equivalents total $48.4 million, an increase of approximately $4.86 million from $43.6 million at 30 June 2026.
- The movement comprises a $1.80 million operating cash inflow, a $3.30 million investing cash inflow and a $0.24 million financing cash outflow.
- After allowing for the commitments identified in the unrestricted cash reconciliation, unrestricted cash totals $21.4 million, supporting Council's operational requirements and planned priorities.

Statement of Changes in Equity

- Opening community equity at 1 July 2026 was $308.8 million.
- The year-to-date net surplus of $8.17 million increased total community equity to $317.0 million at 30 September 2026.

Consultation/engagement

Not Applicable.

This report is presented to Council as a statutory financial reporting requirement.

Risk Implications

Financial risk is assessed as low, supported by Council's sound balance sheet and strong liquidity position. The year-to-date operating result should be considered in the context of the timing of revenue and expenditure recognition and the fact that depreciation expense has not yet been recognised.

The principal matters requiring ongoing monitoring are:

- Materials and services expenditure, currently at 42% of the adopted annual budget;
- Recognition of depreciation expense in future monthly reporting; &
- Ongoing management of unspent grant funding totalling $8.24 million, including compliance with the applicable funding conditions.

Council officers will continue to monitor budget performance, liquidity, grant obligations and expenditure commitments, with emerging variances to be addressed through monthly reporting and the budget review process.

Strategic Impacts

Council's sound balance sheet and liquidity position provide a strong platform for the continued delivery of services, capital works and strategic priorities under the Corporate Plan, Operational Plan and Long-Term Financial Forecast. Ongoing financial discipline will remain essential to convert the current position into a sustainable full-year outcome.

2.02.02 ANNUAL REVIEW – REGISTER OF DELEGATIONS FROM COUNCIL TO THE CHIEF EXECUTIVE OFFICER

Author: Director of Corporate and Financial Services
Authorising Officer: Chief Executive Officer
Disclosure of Interest: The Author and Authorising Officer declare that they do not have any conflicts of interest in relation to this item.

OFFICER'S RECOMMENDATION
That Council:
1. Note the annual review of the *Register of Delegations from Council to the Chief Executive Officer*, undertaken in accordance with section 257(4) of the *Local Government Act 2009*; and
2. Pursuant to section 257(1)(b) of the *Local Government Act 2009*, delegate to the Chief Executive Officer the powers identified in the attached *Register of Delegations – Council to Chief Executive Officer*, subject to the limitations and conditions specified in the *Register*.

Executive Summary

An administrative review of the *Register of Delegations from Council to the Chief Executive Officer* has been completed to ensure delegated powers remain current, appropriate and consistent with applicable legislative requirements.

Section 257(4) of the *Local Government Act 2009* requires delegations from Council to the Chief Executive Officer to be reviewed annually by the local government. The updated *Register* is presented to Council for consideration and for the delegation of the powers identified in the *Register*, subject to the specified limitations and conditions.

Background

Section 257(1) of the *Local Government Act 2009* provides that a local government may, by resolution, delegate a power under that Act or another Act to the Chief Executive Officer.

Under section 257(2), Council must not delegate a power that an Act requires to be exercised by resolution.

Section 257(4) requires a delegation to the Chief Executive Officer to be reviewed annually by the local government. Council maintains a *Register of Delegations from Council to the Chief Executive Officer* to identify delegated powers and any limitations or conditions applying to those delegations.

The *Register* is reviewed periodically to ensure delegated powers remain current and appropriate, including consideration of legislative and operational changes. The *Register* has been subject to ongoing review since its previous adoption by Council on 28 May 2025, with the current consolidated update now presented to Council for formal consideration. The current review is presented to Council in accordance with the annual review requirement under section 257(4) of the *Local Government Act 2009*.

The review supports the effective administration of Council business by ensuring appropriate decision-making authority is clearly established while maintaining Council's governance and accountability responsibilities.

Statutory/Compliance Matters

The review and maintenance of Council's *Register of Delegations* supports compliance with:

Local Government Act 2009 (Qld)
Section 257(1) of the *Local Government Act 2009* provides that Council may, by resolution, delegate powers under that Act or another Act to the Chief Executive Officer.

Section 257(2) prevents the delegation of a power that an Act requires to be exercised by resolution.

Section 257(4) requires delegations to the Chief Executive Officer to be reviewed annually by the local government.

The proposed resolution records Council's consideration of the annual review and delegates the powers identified in the attached *Register*, subject to the limitations and conditions specified in the *Register*.

Financial / Budget Implications

The review and adoption of the updated *Register of Delegations* has no direct financial or budget implications. Maintaining appropriate delegations supports efficient administrative decision-making and effective governance across Council.

Consultation/engagement

External resources considered:

- Resources addressing delegation and legislative updates available through the Congruent platform accessed via the Local Government Association of Queensland member portal.

Internal consultation has been undertaken with:

- Director of Corporate and Financial Services
- Director People, Safety & Governance
- Director of Community Services and Wellbeing

Risk Implications

Maintaining a current *Register of Delegations* reduces governance, compliance, and operational risks by clearly identifying the powers delegated to the Chief Executive Officer and the limitations and conditions applying to those powers.

Failure to review and maintain the *Register* may result in decisions being made without appropriate authority, reliance on outdated legislative provisions, or uncertainty regarding the scope of delegated decision-making.

Conclusion

The review of the *Register of Delegations from Council to the Chief Executive Officer* supports clear, lawful and efficient decision-making and reinforces Council's governance and accountability framework.

The updated *Register* is presented to Council for consideration and for the delegation, by resolution, of the powers identified in the *Register*, subject to the specified limitations and conditions.

	(b) each electrical circuit at the mine is protected against overload, short circuit and earth fault under all operating conditions to effectively:- (i) interrupt the electricity supply; and (ii) isolate faults.			
Chief Executive Officer	Power, as an operator, to ensure that the electricity supply to the plant identified in section 23 is capable of interruption from an accessible position remote from the plant.	*Section 23 Mining and Quarrying Safety and Health Regulation 2017*	30/10/2026 #0000	
Chief Executive Officer	Power, as an operator, to ensure:- (a) each automatic, programmable or computerised electrical control system at the mine operates safely under all operating conditions, including power supply instability or failure; and (b) the emergency stopping systems and safety alarms at the mine remain effective if there is a fault or failure in a system mentioned in paragraph (a).	*Section 24 Mining and Quarrying Safety and Health Regulation 2017*	30/10/2026 #0000	
Chief Executive Officer	Power, as an operator, to ensure each earthing system at the mine is installed and maintained at sufficiently low impedance and has sufficient capacity to ensure:- (a) reliable operation of electrical protective systems and devices; and (b) adequate protection against contact with conductive parts that have become live under fault conditions.	*Section 25 Mining and Quarrying Safety and Health Regulation 2017*	30/10/2026 #0000	
Chief Executive Officer	Power, as an operator, to ensure the mine has earth leakage protection for each electrical circuit exceeding extra low voltage that:- (a) is in a portable, transportable or mobile apparatus; or (b) has an outlet for, or supplies electricity to, a trailing cable or flexible lead.	*Section 26 Mining and Quarrying Safety and Health Regulation 2017*	30/10/2026 #0000	
Chief Executive Officer	Power, as an operator, to ensure each item of electrical equipment used at the mine has a full current isolation facility in a location that is easily accessible by a person required to carry out the isolation.	*Section 27(1) Mining and Quarrying Safety and Health Regulation 2017*	30/10/2026 #0000	

DELEGATE	DESCRIPTION OF POWER DELEGATED	LEGISLATION	DATE & RES NO.	CONDITIONS TO WHICH THE DELEGATION IS SUBJECT
Chief Executive Officer	Power, as an operator, to ensure the isolator is clearly marked or labelled and compatible with the mine's isolation and lock-out procedures.	*Section 27(2) Mining and Quarrying Safety and Health Regulation 2017*	30/10/2026 #0000	
Chief Executive Officer	Power, as an operator, to ensure electrical equipment exceeding extra low voltage used at the mine has a device or feature for preventing a person inadvertently contacting live parts of the equipment.	*Section 29 Mining and Quarrying Safety and Health Regulation 2017*	30/10/2026 #0000	
Chief Executive Officer	Power, as an operator, to ensure the prospective touch voltage at the mine is limited to a level necessary to achieve an acceptable level of risk.	*Section 30 Mining and Quarrying Safety and Health Regulation 2017*	30/10/2026 #0000	
Chief Executive Officer	Power, as an operator, to ensure voltage rise in an electrical installation at the mine caused by lightning strike, static electricity, voltage surges and other transient voltages is limited to a level necessary to achieve an acceptable level of risk	*Section 31 Mining and Quarrying Safety and Health Regulation 2017*	30/10/2026 #0000	
Chief Executive Officer	Power, as an operator of a mine mentioned in subsection (2), to provide adequate resources at the mine to ensure the effectiveness and implementation of the emergency response plan.	*Section 35(3) Mining and Quarrying Safety and Health Regulation 2017*	30/10/2026 #0000	
Chief Executive Officer	Power, as a person who has an obligation under the Act to manage risk in relation to ground control at a mine during the mine's design, operation or abandonment, to ensure appropriate measures are taken to prevent or control local and area failures in ground integrity.	*Section 44 Mining and Quarrying Safety and Health Regulation 2017*	30/10/2026 #0000	
Chief Executive Officer	Power, as a person who has an obligation under the Act to manage risk at a mine in relation to the mine layout, design and construction, to ensure the layout, design and construction is carried out having regard to the matters listed in section 45.	*Section 45 Mining and Quarrying Safety and Health Regulation 2017*	30/10/2026 #0000	
Chief Executive Officer	Power, as a person who has an obligation under the Act to manage risk at a mine in relation to the design and construction of the mine's roads, to ensure the specification for the design and construction enables the safe movement of vehicles about the mine.	*Section 46 Mining and Quarrying Safety and Health Regulation 2017*	30/10/2026 #0000	

DELEGATE	DESCRIPTION OF POWER DELEGATED	LEGISLATION	DATE & RES NO.	CONDITIONS TO WHICH THE DELEGATION IS SUBJECT
Chief Executive Officer	Power, as a person who has an obligation under the Act to manage risk in relation to ventilation at a mine, to ensure appropriate measures are taken to ensure the ventilating air in a place where a person may be present at the mine is of a sufficient volume, velocity and quality to achieve a healthy atmosphere.	*Section 48 Mining and Quarrying Safety and Health Regulation 2017*	30/10/2026 #0000	
Chief Executive Officer	Power, as a person who has an obligation under the Act to manage risk in relation to storing and handling hazardous chemical or dangerous goods, to ensure they are handled and stored in the manner prescribed under section 56.	*Section 56 Mining and Quarrying Safety and Health Regulation 2017*	30/10/2026 #0000	
Chief Executive Officer	Power, as a person who has an obligation under the Act to manage risk in relation to selecting explosives for use at the mine, to ensure the explosives comply with the requirements of section 65.	*Section 65 Mining and Quarrying Safety and Health Regulation 2017*	30/10/2026 #0000	
Chief Executive Officer	Power, as a person who has an obligation under the Act to manage risk at a mine in relation to the selection and design of plant, to ensure that the selection and design of plant complies with the requirements of sections 100, 101 and 102.	*Sections 100, 101 and 102 Mining and Quarrying Safety and Health Regulation 2017*	30/10/2026 #0000	
Chief Executive Officer	Power, as an operator, to ensure plant used or intended for use, at the mine is manufactured, constructed, stored, transported and installed in accordance with any applicable specifications and instructions.	*Section 104(1) Mining and Quarrying Safety and Health Regulation 2017*	30/10/2026 #0000	
Chief Executive Officer	Power, as an operator, to ensure for fixed plant:- (a) the plant is installed in a location and environment that is compatible with the plant and its use; and (b) the mine layout incorporates appropriate facilities and adequate space for:- (i) access to and egress from the plant during emergencies; and (ii) the plant's operation, monitoring servicing and maintenance.	*Section 104(2) Mining and Quarrying Safety and Health Regulation 2017*	30/10/2026 #0000	
Chief Executive Officer	Power, as an operator, to ensure plant is commission in its operating environment at the mine before it is used to ensure those matters listed in subsections (1) and (2).	*Section 105 Mining and Quarrying Safety and Health Regulation 2017*	30/10/2026 #0000

2.02.03 QUARTERLY PROGRESS REPORT – 2025/2026 ANNUAL OPERATIONAL PLAN

Author: Records and Business Services Coordinator
Authorising Officer: Director of Corporate & Financial Services
Disclosure of Interest: The Author and Authorising Officer declare that they do not have any conflicts of interest in relation to this item.

OFFICER'S RECOMMENDATION
That Council:
1. Receive and adopt the Quarterly Progress Report for the *2025/2026 Annual Operational Plan* for the quarter ended 30 June 2026; and
2. Note the assessment of Council's progress towards implementing the *2025/2026 Annual Operational Plan*, as presented in accordance with section 174(3) of the *Local Government Regulation 2012*.

Executive Summary

This report presents the Quarterly Progress Report for the *2025/2026 Annual Operational Plan* for the quarter ended 30 June 2026 for Council's review and adoption.

The quarterly report assesses progress against the adopted plan's objectives, actions and initiatives. It supports legislative reporting, performance monitoring, transparency and accountability.

Background and Reporting Period

The *Annual Operational Plan* sets out the actions and activities Council intends to deliver during the financial year to achieve the Corporate Plan's objectives.

The attached report summarises activities, achievements and progress against adopted operational actions for the fourth quarter of the 2025/2026 financial year, ended 30 June 2026. It enables Council to monitor operational delivery and progress towards strategic outcomes.

Statutory and Compliance Requirements

Section 174(3) of the *Local Government Regulation 2012* requires the Chief Executive Officer to present a written assessment of Council's progress towards implementing the *Annual Operational Plan* at regular intervals.

This report is presented to Council for consideration as part of that reporting process.

Financial and Budget Implications

Adopting this report has no direct financial implications. The report is presented for monitoring and governance purposes.

Consultation and Engagement

Internal consultation has been undertaken with:

- Chief Executive Officer
- Director of Corporate and Financial Services
- Director of Community Services and Wellbeing
- Director of Engineering / Infrastructure
- Director People, Safety & Governance

Risk Implications

Regular monitoring and reporting help manage governance and organisational performance risks by enabling Council to:

- Track delivery of planned actions and initiatives.
- Identify emerging issues and delays.
- Assess organisational performance against adopted objectives.
- Maintain transparency and accountability to the community.

Strategic Alignment

The Quarterly Progress Report tracks delivery of the priorities and objectives in the *2025/2026 Annual Operational Plan* and their contribution to the Corporate Plan's long-term outcomes.

Conclusion

The attached report assesses progress against the adopted *Annual Operational Plan* for the fourth quarter of 2025/2026. Council's review and adoption support the legislative reporting process, accountability and ongoing performance monitoring.

SHIRE OF FLINDERS

DELIVERING THE PLAN

We recognise that our resources are limited. Risks such as climate events, funding pressures and workforce constraints can impact delivery. For this reason, the Operational Plan focuses on actions that are achievable within our capacity and are regularly reviewed under Council's risk management framework.

Finally, these plans come to life through the services Council provides every day. We keep the community informed through quarterly performance reports and an Annual Report, ensuring transparency and accountability for the commitments we make

MANAGING OUR RISKS

Council has a comprehensive **Enterprise Risk Management Framework** which sets out how Council manages its risks. Council maintains risk registers for strategic, operational and activity level risks and these are reviewed and updated quarterly before being approved by Council.

In developing the Operational Plan, executives were asked to consider operational risks and what actions were needed to address these risks. Accordingly, the projects in the 2025-2026 Operational Plan address a broad number of Council's Operational Risks.

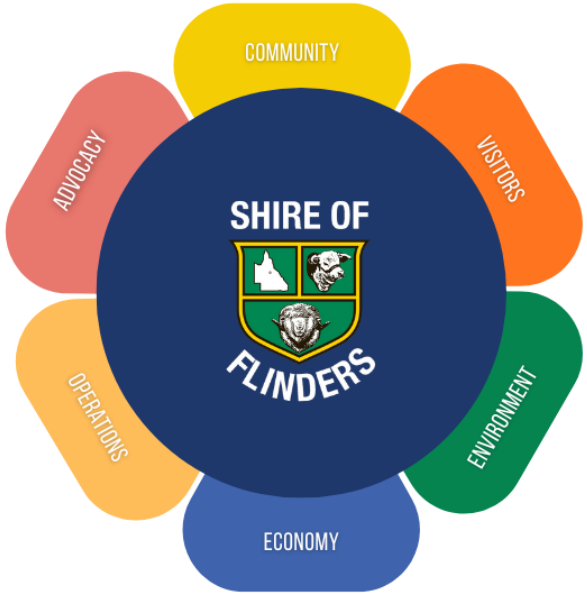

OUR STRATEGIC PILLARS

The Operational Plan is structured around our six Strategic Pillars. These pillars provide the framework for all actions undertaken in 2025–26, guiding the Council's priorities and shaping the way we invest in our community's future to achieve our Vision.

Council understands that our financial and workforce resources are limited. This means we must carefully prioritise, taking only those actions that we can realistically deliver and afford. The 2025-2026 Annual Budget ensures that each initiative outlined in this plan is matched with sustainable funding and available resources. This balances and prioritises the need to maintain essential services, as well as invest in long-term growth.

Together, the Operational Plan and Budget provide a clear and transparent picture of how Council will direct its efforts and resources this year to achieve meaningful progress against the Corporate Plan.

Develop Flinders Shire as a vibrant community where our environment and heritage inspire, ambition drives opportunity for generational prosperity, and innovation sustains tangible benefits and an improved quality of life.

2.02.04 QUARTERLY PROGRESS REPORT – 2026/2027 ANNUAL OPERATIONAL PLAN

Author: Records and Business Services Coordinator
Authorising Officer: Director of Corporate & Financial Services
Disclosure of Interest: The Author and Authorising Officer declare that they do not have any conflicts of interest in relation to this item.

OFFICER'S RECOMMENDATION
That Council:
1.Receive and adopt the Quarterly Progress Report for the *2026/2027 Annual Operational Plan* for the quarter ended 30 September 2026; and

2.Note the assessment of Council's progress towards implementing the *2026/2027 Annual Operational Plan*, presented in accordance with section 174(3) of the *Local Government Regulation 2012*.

Executive Summary

This report presents the assessment of progress against Council's *2026/2027 Annual Operational Plan* for the first quarter, covering 1 July to 30 September 2026.

The attached Quarterly Progress Report outlines progress against the adopted operational actions and provides a basis for Council to monitor delivery and consider matters requiring attention. Council is requested to receive and adopt the attached report.

Background

The Annual Operational Plan sets out the actions and activities Council intends to undertake during the financial year to advance the objectives of the Corporate Plan.

The attached report assesses progress against the adopted operational actions for the first quarter of the 2026/2027 financial year.

Statutory/Compliance Matters

Section 174(3) of the *Local Government Regulation 2012* requires the Chief Executive Officer to present a written assessment of progress towards implementing the Annual Operational Plan at Council meetings held at regular intervals of not more than three months.

This quarterly assessment is presented to Council for consideration under that provision.

- *Local Government Regulation 2012, section 174(3).*

Financial / Budget Implications

There are no direct financial implications arising from the adoption of this report. The report is presented for monitoring and governance purposes.

Consultation/engagement

Internal consultation has been undertaken with:

- Chief Executive Officer
- Director of Corporate and Financial Services
- Director of Community Services and Wellbeing
- Director of Engineering / Infrastructure
- Director People, Safety & Governance

Risk Implications

Regular assessment of progress against the Annual Operational Plan supports the identification of delivery delays, emerging issues and actions requiring corrective attention.

Council's consideration of the quarterly report provides oversight of these matters and assists in determining whether further information or follow-up is required.

Strategic Impacts

The quarterly assessment enables Council to monitor delivery of the *2026/2027 Annual Operational Plan* and its contribution to the long-term objectives of the Corporate Plan.

Conclusion

The attached report presents the first-quarter assessment of progress against the *2026/2027 Annual Operational Plan* for the quarter ended 30 September 2026.

MESSAGE FROM THE MAYOR AND CEO

It is my pleasure to present the Flinders Shire Council Operational Plan for 2026–2027.
This plan outlines the practical steps we will take over the next 12 months to support our community, maintain essential infrastructure, and strengthen the Shire's future. It reflects Council's commitment to delivering outcomes that are realistic, responsible, and aligned with community priorities.
While we continue to face challenges, we also have genuine opportunities to build on our strengths and grow with confidence. Council remains focused on advocating for our region, working in partnership, and ensuring the best possible outcomes for our community.
On behalf of Council, I thank our staff, community members, and stakeholders for their ongoing support and contribution.

Kate Peddle
Mayor,
Flinders Shire Council

It is a privilege to present the Flinders Shire Council Operational Plan for 2026–2027.
This plan reflects a clear and disciplined focus on delivering practical outcomes for our community. It has been developed with careful consideration of our financial capacity, workforce constraints, and the need to prioritise what we can deliver well. While challenges remain, there are also significant opportunities ahead. Our focus is on ensuring Council is well-positioned to respond—through sound planning, strong governance, and a capable organisation.
I would like to acknowledge the leadership of the Mayor and Councillors, and thank our staff for their professionalism and commitment. Together, we are working to deliver meaningful results for the community and position Flinders Shire for the future.

Kylie Davies
Chief Executive Officer,
Flinders Shire Council

OUR VISION

Develop Flinders Shire as a vibrant community where our environment and heritage inspire, ambition drives opportunity for generational prosperity, and innovation sustains tangible benefits and an improved quality of life.

OUR MISSION

To exercise principled leadership, forge productive partnerships, foster stakeholder collaboration, and deliver service excellence while effectively managing community risks.

OUR FOCUS

Community **Growth** **Service**

OUR VALUES AND PRINCIPLES

AMBITION

The courage to pursue opportunities to achieve growth whilst preserving the Shire's identity and heritage.

HONESTY

Do the right thing based on strong moral principles and ethical conduct.

TRANSPARENCY

Sincere and genuine in our interactions, build confidence and trust in our community, and with each other.

INTEGRITY

Ensure our processes are clearly communicated and decision-making is in the public interest.

RESPECT

Through words and actions, value our community, its cultural diversity, and the view-points of others.

ACCOUNTABLE

Take responsibility for our actions and decisions, accept responsibility for our performance and results.

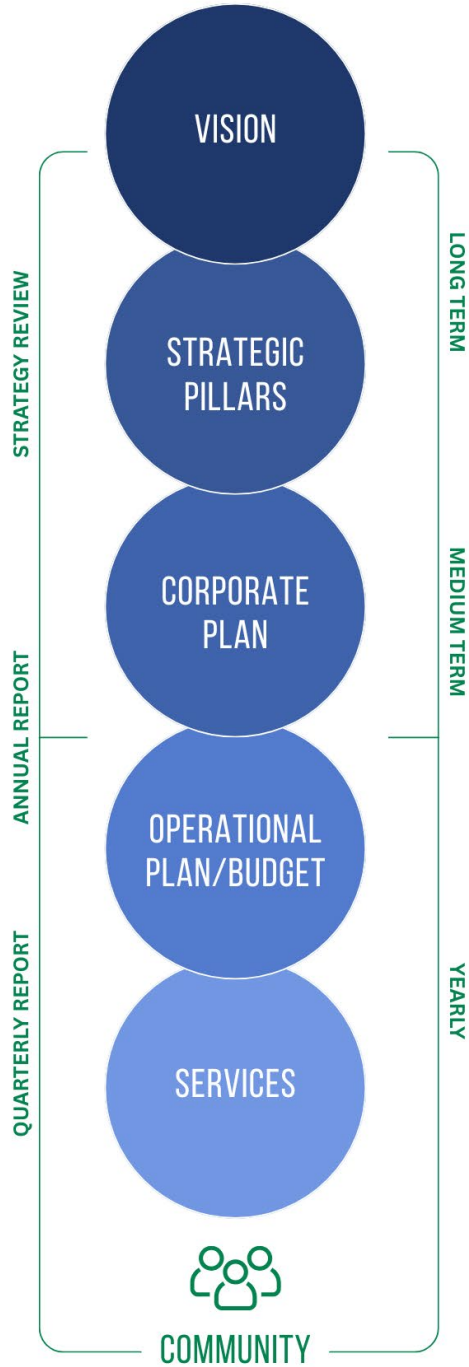

OUR PLANNING FRAMEWORK

The Annual Operational Plan 2025–2026 outlines the specific projects, programs, and activities Council will deliver over the next year. These initiatives translate the strategic priorities of the Corporate Plan 2025–2030 into action and support the achievement of our shared vision for the Shire of Flinders.

The plan incorporates Council's detailed budget, revenue policy, and financial commitments to ensure the effective delivery of services, programs, and projects. It also establishes performance measures that enable us to track progress, evaluate outcomes, and remain accountable to our community.

This plan has been developed using the best and most up-to-date information available at the time of publication.

DELIVERING THE PLAN

We recognise that our resources are limited. Risks such as climate events, funding pressures and workforce constraints can impact delivery. For this reason, the Operational Plan focuses on actions that are achievable within our capacity and are regularly reviewed under Council's risk management framework.

Finally, these plans come to life through the services Council provides every day. We keep the community informed through quarterly performance reports and an Annual Report, ensuring transparency and accountability for the commitments we make

MANAGING OUR RISKS

Council has a comprehensive **Enterprise Risk Management Framework** which sets out how Council manages its risks. Council maintains risk registers for strategic, operational and activity level risks and these are reviewed and updated quarterly before being approved by Council.

In developing the Operational Plan, executives were asked to consider operational risks and what actions were needed to address these risks. Accordingly, the projects in the 2025-2026 Operational Plan address a broad number of Council's Operational Risks.

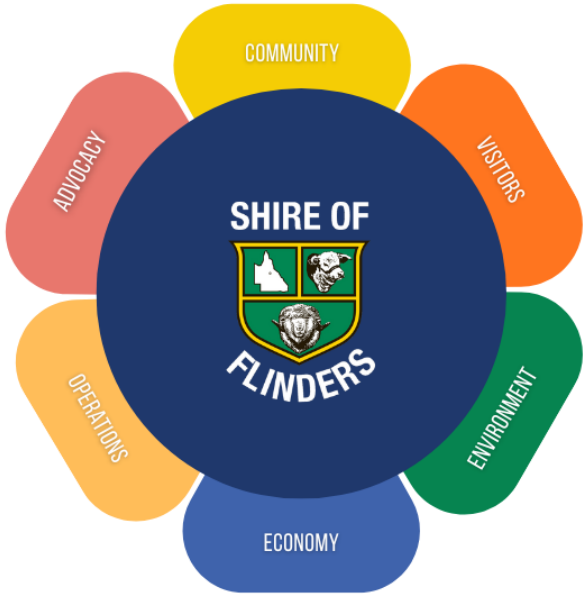

OUR STRATEGIC PILLARS

The Operational Plan is structured around our six Strategic Pillars. These pillars provide the framework for all actions undertaken in 2025–26, guiding the Council's priorities and shaping the way we invest in our community's future to achieve our Vision.

Council understands that our financial and workforce resources are limited. This means we must carefully prioritise, taking only those actions that we can realistically deliver and afford. The 2025-2026 Annual Budget ensures that each initiative outlined in this plan is matched with sustainable funding and available resources. This balances and prioritises the need to maintain essential services, as well as invest in long-term growth.

Together, the Operational Plan and Budget provide a clear and transparent picture of how Council will direct its efforts and resources this year to achieve meaningful progress against the Corporate Plan.

Develop Flinders Shire as a vibrant community where our environment and heritage inspire, ambition drives opportunity for generational prosperity, and innovation sustains tangible benefits and an improved quality of life.

2.03.01 EXTENSION OF SWIMMING POOL MANAGEMENT CONTRACT

Author: Engineering Administration Officer
Authorising Officer: Director of Engineering
Disclosure of Interest: The Author and Authorising Officer declare that they do not have any conflicts of interest in relation to this item.

OFFICER'S RECOMMENDATION
That Council:
1. Approves the extension of Contract No. 102.2024.7, Management of the Hughenden Memorial Swimming Pool, with LSM Swimming NQ Pty Ltd for a further 12-month period commencing 27 February 2027 and expiring 26 February 2028, on the existing contract terms and conditions.
2. Authorises the Chief Executive Officer to issue and execute the written notice of extension and any associated documentation required to give effect to the extension.

Executive Summary

The current contract for the management and operation of the Hughenden Swimming Pool is due to expire on 26 February 2027. Council has the option to extend the existing agreement with LSM Swimming NQ Pty Ltd in accordance with the contract provisions for a further 12 months.

A review of the contractor's performance, including available operational reporting, facility inspections, water-quality compliance, staffing arrangements and contract administration records, found that the services have generally been delivered satisfactorily. No unresolved performance issue has been identified that would prevent Council exercising the available extension option.

Background

The contractor is responsible for the day-to-day management of the facility, including:
- Pool operations and supervision;
- Water quality monitoring and compliance;
- Cleaning and maintenance;
- Staffing and customer service;
- Ensuring compliance with relevant safety and legislative requirements.

The current contract contains provisions allowing Council, at its discretion, to extend the agreement for one further period of up to 12 months by providing written notice to the supplier before the current end date.

Statutory/Compliance Matters

The proposed extension is consistent with the extension provisions of the existing contract, which permit Council to extend the agreement for one further period of up to 12 months by giving written notice before the current end date.

Financial / Budget Implications

The extension will be funded from Council's operational budget allocations for swimming pool management. Based on the existing contract rates, the management fee for the 12-month extension is $144,800 excluding GST. Appropriate budget provision will be required across the relevant financial years.

Consultation / Engagement

Consultation has been undertaken with relevant Council officers responsible for overseeing the swimming pool operations. Feedback received supports the continuation of the current management arrangement.

Risk Implications

The principal risks associated with the extension are contractor performance, continuity of qualified staffing, water-quality compliance, public safety, insurance currency and interruption to pool operations. These risks are managed through the existing contractual requirements, operational reporting, facility inspections, qualification requirements, insurance obligations and Council's contract administration arrangements. Subject to confirmation that all required insurances, licences and staff qualifications remain current, the residual risk is considered low.

Strategic Impacts

The proposed extension of the Swimming Pool Management Contract supports Council's strategic objectives by ensuring the continued provision of a safe, accessible and well-managed facility for our community as well as visitors.

Conclusion

Council's current Swimming Pool Management Contract is due to expire on 26 February 2027. The contractor has demonstrated satisfactory performance throughout the contract term and has continued to provide reliable management and operation of the facility as per the contract requirements.

The proposed extension is consistent with the extension provisions of the existing contract and will ensure the continued delivery of swimming pool services without interruption. Extending the contract will provide operational certainty, maintain service standards, minimise procurement and transition risks, and support Council's commitment to delivering efficient and reliable swimming pool services to the community.

Accordingly, it is considered appropriate and in the best interests of Council to approve the proposed contract extension with LSM Swimming NQ Pty Ltd for the recommended term.

2.03.02 102.2026.14 – 2025/2026 FLOOD DAMAGED ROADS RESTORATION ROADWORKS PANEL CONTRACT

Author: Engineering Administration Officer
Authorising Officer: Director of Engineering
Disclosure of Interest: The Author and Authorising Officer declare that they do not have any conflicts of interest in relation to this item.

OFFICER'S RECOMMENDATION
That Council:

1. Accepts the recommendation of the Tender Evaluation Panel and establishes Contract No. 102.2026.14 – Roadworks Panel Contract with the contractors listed in the officer's report.
2. Delegates authority to the Director of Engineering to approve and award individual work order packages with a value not exceeding $200,000 excluding GST, subject to adopted budget availability, the terms of the panel contract, Council's Procurement Policy and the officer's applicable financial delegation.
3. Authorises the Chief Executive Officer to approve and award individual work order packages exceeding $200,000 excluding GST, subject to adopted budget availability, the terms of the panel contract, Council's Procurement Policy and any applicable statutory or Council-imposed limits.
4. Authorises the Chief Executive Officer to finalise and execute the panel agreements and associated documentation required to give effect to the resolution.
5. Notes that the allocation of Work Order Packages will be determined on a case-by-case basis, having regard to contractor ranking, capability, capacity, availability, geographic location, previous performance, local content outcomes, and demonstrated value for money.

Executive Summary

Council released a Request for Tender (RFT) Contract No. 102.2026.14 – Roadworks Panel Contract seeking submissions from suitably qualified contractors to establish a panel for the provision of road construction, maintenance, rehabilitation, flood restoration, Disaster Recovery Funding Arrangements (DRFA) works, and other associated civil infrastructure services across the Shire.

The RFT was released via the Vendor Panel portal which closed at 2:00pm on Thursday, 17 September 2026.

Background

Council invited submissions for the establishment of a Roadworks Panel Contract to provide a flexible and scalable delivery model for road restoration, maintenance and infrastructure recovery works across the Flinders Shire road network.

A total of nineteen (19) submissions were evaluated by a panel comprising representatives from Shepherd and Flinders Shire Council. Evaluation was undertaken against the approved criteria of:

- Rates, Price and Value for Money (50%)*
- Local Content (10%)
- Capability, Capacity, Resources and Personnel (20%)
- Management Systems and Implementation (10%)
- Previous Experience and Past Performance (10%)

* Pricing was submitted as schedule rates and a comparative price assessment was not undertaken due to the panel-style procurement model. Qualitative and local contribution scoring formed the basis of the final rankings.

Tenderers submitted schedule rates across multiple work categories. As the scope, quantities, locations and treatment types of future work packages were not known at the time of evaluation, a comparative pricing assessment could not be undertaken. Accordingly, the Tender Evaluation Panel assessed respondents against the qualitative and local content criteria to determine panel suitability. Value for money and schedule rates will be considered when allocating individual work order packages under the panel arrangement.

The evaluation identified a mix of local, regional and specialist contractors capable of delivering a broad range of DRFA treatment types across the Flinders Shire road network.

Accordingly, the Evaluation Panel recommends that the following contractors be approved for inclusion in the Roadworks Panel Contract:

- Halloran & Sons Earthmoving Pty Ltd
- Hanss Pty Ltd
- Prairie Services Pty Ltd
- Schultz Contracting Pty Ltd
- Westcott Contracting Pty Ltd
- Hughes Earthmoving Pty Ltd
- Townley Contracting Pty Ltd
- Milray Contracting Pty Ltd
- Durack Civil Pty Ltd
- Gulf Civil Pty Ltd
- Stabilcorp Pty Ltd
- Hiesler Contracting Pty Ltd
- Stabilised Pavements of Australia Pty Ltd
- Townsville Earthmoving Pty Ltd
- Murray Earthmoving NQ Trust
- Unyte Eastern Pty Ltd
- MJC Civil Pty Ltd
- Stratos Civil Pty Ltd
- Smith’s Earthmoving and Civil Pty Ltd

Statutory/Compliance Matters

The procurement was undertaken through Council’s VendorPanel system in accordance with the applicable local government procurement requirements and Council’s Procurement Policy. Tender submissions were evaluated by the appointed Tender Evaluation Panel against the approved evaluation framework. Any work order issued under the panel arrangement will remain subject to adopted budget availability, Council’s procurement requirements, applicable delegations and the terms of the panel contract.

Financial / Budget Implications

Establishment of the panel does not, of itself, guarantee work or commit Council to expenditure with any panel contractor. Expenditure will arise only when individual work orders are approved and issued. Each work order must be supported by an adopted budget or approved external funding allocation and awarded in accordance with the panel contract, Council's Procurement Policy and applicable financial delegations.

The panel is intended to support delivery of Council's DRFA, maintenance and capital works programs.

The establishment of a multi-contractor panel arrangement will provide Council with:

- Increased market capacity to deliver multiple concurrent DRFA and capital work packages.
- Improved flexibility in responding to disaster recovery workloads.
- Access to specialist contractors for treatment-specific works.
- Continued support of local contractor participation.
- Competitive tension throughout the life of the panel arrangement.
- Improved resilience should individual contractor availability become constrained.

Consultation/engagement

Interested tenderers were invited to attend a pre-tender briefing held at the DEC on 2 September 2026. The session provided an opportunity for prospective respondents to discuss the tender requirements, seek clarification on the scope of works, and gain a better understanding of Council's expectations. To ensure accessibility for all interested parties, attendance was available both in person and remotely via Microsoft Teams.

Risk Implications

Key risks include inconsistent work-order allocation, contractor availability, rate competitiveness, contractor performance, WHS and environmental compliance, DRFA eligibility and evidence requirements, management of contractual departures, and the administrative burden associated with a large panel. These risks will be managed through documented work-order allocation procedures, package-specific value-for-money assessments, verification of contractor insurances and competencies, performance monitoring, contract management controls and compliance with applicable DRFA, procurement and delegation requirements. Subject to these controls being implemented, the residual risk is considered manageable.

Strategic Impacts

The establishment of a Roadworks Panel Contract supports Council's strategic objective of maintaining and improving the Shire's transport infrastructure through the efficient delivery of road construction, maintenance, rehabilitation and disaster recovery works. It also supports the effective delivery of Disaster Recovery Funding Arrangements (DRFA) projects by ensuring access to suitably qualified contractors with the necessary resources and expertise.

Conclusion

The evaluation panel considers the establishment of a nineteen-contractor Roadworks Panel to provide Council with the most advantageous balance of local capability, specialist expertise, regional capacity and delivery flexibility. The recommended panel will ensure Council can efficiently deliver current and future DRFA recovery works, maintenance activities and capital road infrastructure projects across the entirety of the Flinders Shire network.

Appointment to the panel does not guarantee any contractor a minimum value or volume of work. Individual work order packages will be allocated in accordance with Council's procurement requirements and available budgets.

2.04 COMMUNITY SERVICES AND WELLBEING

2.04.01 COMMUNITY ADVISORY COMMITTEE MEETING NOTES – TORRENS CREEK

Author: Media and Communications Officer
Authorising Officer: Director Community Services and Wellbeing
Disclosure of Interest: The Author and Authorising Officer declare that they do not have any conflicts of interest in relation to this item.

OFFICER'S RECOMMENDATION
That Council:
1. Receive and note the Community Advisory Committee meeting notes from the meeting held at Torrens Creek on 14 October 2026; and
2. Endorse the recommended actions contained within the meeting notes.

Executive Summary

The Community Advisory Committee met at the Torrens Creek Rural Fire Shed on Wednesday, 14 October 2026. The meeting provided an opportunity for community members to raise local matters and receive updates on Council projects, services and activities.

The meeting notes and recommended actions are presented to Council for consideration and endorsement

Background

Community Advisory Committee meetings provide an opportunity for Council to engage directly with communities across the Shire and discuss local issues, priorities and Council activities.

The Torrens Creek meeting was held on 14 October 2026, with discussion covering a range of local matters.

Statutory/Compliance Matters

There are no specific statutory or compliance implications associated with receiving the meeting notes.

Financial / Budget Implications

There are no immediate financial implications arising from receiving the meeting notes. Any expenditure associated with individual actions will be managed through existing Council budgets or brought back to Council where further approval is required.

Consultation/engagement

The meeting was attended by Councillors, Council officers and members of the Torrens Creek community

Risk Implications

No significant risks are identified from receiving the meeting notes and endorsing the recommended actions.

Strategic Impacts

The Community Advisory Committee supports Council's ongoing engagement with communities across Flinders Shire and provides a mechanism for local issues and priorities to be raised with Council.

Conclusion

The meeting notes are presented to Council for receipt, with the recommended actions presented for endorsement.

- Community Advisory Committee Meeting Notes – Torrens Creek – 14 October 2026.

MEETING MINUTES

COMMUNITY ADVISORY COMMITTEE MEETING

Date: Wednesday 14 October 2026 (Torrens Creek Fire Shed)

Chair: Cr Kate Peddle

Notes from the meeting of the **Community Advisory Committee** (CAC) held at Torrens Creek Fire Shed on Wednesday 14 October 2026 commencing at 10 am.

Attendance

Flinders Shire Council: Cr Kate Peddle (Chair), Cr Niki Flute, Cr Peter Fornasier, Cr Shane McCarthy, Cr Kelly Carter, Kylie Davies (Chief Executive Officer), Misenka Duong (Director of Engineering), Dennis McLeod (Director of People, Safety and Governance), Neva Law (Media and Communications Officer), and Billy Paine (Rural Lands Officer)

Community Attendance: Charlie and Andrea Holzwart, David Rankine

Introduction by Cr Kate Peddle (Chair)

Cr Kate Peddle welcomed attendees and opened the meeting.

The purpose of the Community Advisory Committee meetings was outlined, including providing an opportunity for communities to raise local issues directly with Council, receive updates on Council projects and services, and discuss matters affecting their community

Discussion items:

1. Previous Minutes and Actions

The previous meeting notes had been adopted by Council.

The CAC Action Register was reviewed, with an update provided on completed and outstanding matters. Across all CAC meetings, 38 actions have been recorded, with 21 completed or closed and 17 remaining open or active.

Outstanding Torrens Creek matters discussed included:

- Eaglehawk Creek causeway funding;
- expanded mowing contract scope to the Aramac Road junction;
- Torrens Creek Golf Course community options;
- fire break grading; and
- Torrens Creek water facility upgrade.

2. Grid Policy

Discussion regarding responsibilities and subsidy arrangements relating to grids were discussed, including:

- Maintenance: Producer responsibility.
- Repairs: Council responsibility.
- Subsidy Program: 50:50 contribution up to $3,000

3. Roads and Road Infrastructure

A detailed discussion was held regarding road conditions, construction standards, maintenance and future works.

Matters discussed included:

- road assessments undertaken by Shepherds, which identified roads requiring rebuilding or improvement;
- Shepherds have assisted Council with funding submissions for flood damage restoration works associated with the 2025-2026 flood season.
- Shepherds assisting with contractor development and improved construction standards;
- improving road specifications for future works;
- opening additional borrow pits closer to works;
- preferred supplier/panel arrangements for road contractors;
- future works on LRRS roads;
- the proposed $50 million Flinders Highway upgrade; and
- approximately half a million tonnes of gravel being required for new projects.

Council also provided an update on road recovery, the local road works program and advocacy regarding State-controlled roads.

4. Glentor Road Crossing

Issues raised included:

- the condition of the road and required works;
- cattle on or near sections of unfenced roadway;
- vegetation and suckers close to the roadway potentially obscuring cattle; and
- requirements associated with the proposed new crossing, including environmental and fish habitat considerations.

5. White Cliffs

Concerns were raised regarding the existing 60 km/h speed limit and the ability of heavy vehicles to negotiate the hill. The operational requirements of heavy vehicles and the existing speed environment were discussed.

6. Fire Breaks

Fire break works undertaken in August were discussed.

It was noted that there had been some miscommunication regarding the locations of works and that further work had been undertaken to better define additional areas.

Legislative requirements relating to clearing and fire breaks were also discussed, including reference to the Environment Protection and Biodiversity Conservation Act 1999.

7. Saleyards Update

provided an update following the recent Saleyards Workshop on Monday 12 October 2026.

Discussion included:

- approximately $1 million in previous funding having been received for expansion, but not ongoing maintenance;
- concerns that existing arrangements had not generated sufficient revenue for reinvestment into the facility;
- advocacy regarding the north/south Tick Line; and
- comparison with CTRC yard fees, which were considered high.

Council advised that written feedback on the Saleyards consultation remained open until 20 October 2026.

8. Weeds and Pest Management

The upcoming Weeds and Pests Forum to be held on 9 November was discussed.

Matters raised included:

- research into weeds and pest management; and
- concern regarding the outcomes being achieved from Council's contribution through the Rural Lands Levy.

The regional Weeds and Pests Forum is scheduled for Monday, 9 November 2026, following the Bull Sale at the Hughenden Showgrounds.

9. Renewable Energy Projects and Community Benefits

Discussion was held regarding renewable energy developments and opportunities to achieve long-term community benefits.

Matters included:

- Community Benefit Agreements;
- Completion of Community Needs Assessment;
- opportunities for legacy projects; and
- increased traffic associated with wind farm developments, including dust and interactions with stock on unfenced roads.

Council advised that its Community Benefit Agreement framework was being consolidated across renewable energy projects, with negotiations focused on long-term community value and legacy priorities.

Background regarding a previous visit by Texas delegates was also discussed.

10. Housing

Housing and key worker accommodation were discussed, including.

- $4.285 million in funding from CopperString Legacy Fund;
- proposed key worker accommodation comprising approximately 8 to 10 units; and
- an Expression of Interest process expected to occur shortly.

Council also provided an update on the Housing Strategy adopted in July 2026 and infrastructure planning to support future residential development.

11. Water and Wastewater Infrastructure

Council provided an update on planned water and wastewater infrastructure works, including:

- a $4.8 million for water and wastewater upgrade works associated with the Hughenden WAF;
- water and wastewater infrastructure upgrades;
- new bores;
- a new treatment plant; and
- Phase 2 works, identified as a three-to-four-year project.

The Flinders Full Bore project includes Shire-wide water infrastructure improvements and new bores for Hughenden, Prairie and Torrens Creek

12. Disaster Dashboard

Distribution of flyers relating to 1080 baiting was discussed.

It was reported that Prairie and Torrens Creek had not received the flyers, despite Council having paid for distribution.

Action: Follow up with the relevant distribution provider regarding the non-receipt of flyers in Prairie and Torrens Creek

13. Property Numbering and Signage

A number of property numbering and signage matters were raised, including:

- clarification regarding property numbering at intersections;
- an issue relating to the Prairie slaughter yards; and
- the absence of signage for Rankine Road.

Recommended Action: Council to follow up the signage matters raised.

14. Torrens Creek Fuel Signage

Fuel signage on main road signs was discussed. The signs still indicate fuel available at Torrens Creek.

Recommended Action: Council to investigate whether the relevant signage can be removed.

15. Overgrown and Unsightly Allotments

Concern was raised regarding blocks that had been auctioned several years previously but remained undeveloped and may present a fire hazard if vegetation is not appropriately maintained.

The need to undertake an overgrown and unsightly allotment review in Torrens Creek and Prairie was discussed, together with ensuring overgrown blocks are appropriately addressed during the fire season

16. Next CAC Meeting

The next Community Advisory Committee meeting is scheduled to be held in Prairie on Wednesday, 2 December 2026 from 3.30 pm to 5.30 pm

Recommended Actions List:

No.	Action	Responsibility
1	Follow up property and road signage matters raised at the meeting, including Rankine Road.	Director of Engineering
2	Investigate whether signage indicating fuel availability at Torrens Creek can be removed.	Director of Engineering
3	Undertake an overgrown and unsightly allotment review in Torrens Creek and Prairie.	Local Laws Officer
4	Address maintenance/cutting of overgrown allotments during the fire season.	Local Laws Officer
5	Follow up the non-receipt of 1080 baiting flyers in Prairie and Torrens Creek.	Director of People, Safety and Governance

Officers Recommendation: That the notes from the meeting of the Community Advisory Committee held at the Torrens Creek Rural Fire Shed on Wednesday 14 October 2026 commencing at 10 am be received and that the recommendations contained therein be adopted.

2.04.02 COMMUNITY SERVICES QUARTERLY REPORTS – QUARTER 1 2026/27

Author: Community Services Manager & Community Care Manager
Authorising Officer: Community Services and Wellbeing
Disclosure of Interest: The Author and Authorising Officer declare that they do not have any conflicts of interest in relation to this item.

OFFICER'S RECOMMENDATION
That Council:
Receive and note the Community Services quarterly reports for the period 1 July to 30 September 2026, comprising:
- Community Care;
- Tourism and Events; and
- Library and Country University Centre.

Executive Summary

This report presents the Community Services quarterly reports for Quarter 1 of the 2026/27 financial year, covering the period 1 July to 30 September 2026.
The reports provide Council with an overview of activities, service delivery, projects and key matters across Community Care, Tourism and Events, and the Library and Country University Centre.

Background

Quarterly reporting provides Council with regular information on activities and service delivery across the Community Services portfolio. The detailed Quarter 1 reports are provided as attachments.

Statutory/Compliance Matters

There are no specific statutory or compliance implications associated with Council receiving and noting the quarterly reports.

Any relevant statutory or compliance matters specific to individual service areas are addressed through normal operational and governance processes.

Financial / Budget Implications

There are no direct financial or budget implications arising from receiving and noting the quarterly reports.

Consultation/engagement

The quarterly reports have been prepared using information provided by the relevant Community Services teams.

Risk Implications

There are no significant risks associated with Council receiving and noting the quarterly reports.

Strategic Impacts

Quarterly reporting supports Council's oversight of service delivery, projects and activities undertaken across the Community Services portfolio

Conclusion

The Quarter 1 reports are presented to Council for information and noting.

Community Care

Quarter 1 Report: 1 July – 30 September 2026

Quarter 1 Report: 1 July – 30 September 2026

Service Overview

Flinders Shire Council Community Care provides home and community-based support to older people, people with disability, veterans and other eligible community members, supporting people to remain independent and connected within their community.

Community Care delivers services through:

- Commonwealth Home Support Program (CHSP);
- Support at Home, including clients transitioned from Home Care Packages;
- Queensland Community Support Scheme (QCSS);
- Veterans' Home Care (VHC);
- National Disability Insurance Scheme (NDIS);
- Community Transport;
- Meals on Wheels;
- Care Finder; and
- private services.

At 30 September 2026, Community Care was providing services to 148 individual clients across its programs.

Client Profile

Clients by Program as at 30 September 2026

Program	**Clients / Activity**
Commonwealth Home Support Program	74
Support at Home	**24**
– Transitioned Level 1	0
– Transitioned Level 2	6
– Transitioned Level 3	7
– Transitioned Levels 4–8	11
Veterans' Home Care	1
National Disability Insurance Scheme	3
Queensland Community Support Scheme	1
Community Transport	15
Private clients	14
Care Finder	13
Meals on Wheels	17 clients / 1,043 meals
Total individual clients	**148**

Note: Program totals should not be added together to calculate total clients, as some individuals receive services through more than one funded program.

Service Delivery

Commonwealth Home Support Program

Available CHSP service-delivery data at 30 September 2026 shows differing levels of demand across funded service types.

Service Type	Outputs Delivered Jul–Sep	Annual Target (2026/27)	% of Target
Domestic Assistance	449	2,310	19.4%
Home Maintenance	132.75	810	16.4%
Meals	766	715	107.1%
Personal Care	352	500	70.4%
Social Support Group	964	750	128.5%
Transport	1,597	750	212.9%
Social Support Individual	366	1,164	31.4%

Comments: Demand is not evenly distributed across existing CHSP service categories. Meals, Social Support Group and Transport have already exceeded their stated annual output targets, while Domestic Assistance and Home Maintenance are below the proportional level expected at the end of Quarter 1.
Council is working with its CHSP funding manager to review the activity work plan and determine whether outputs can be realigned between service types to better reflect actual local service demand.
The Commonwealth has confirmed that CHSP has been extended for a further two years to 30 June 2029.

Care Planning and Client Agreements

Care-plan review and documentation has been a key operational focus during the quarter.

The current SMS Alchemy report does not accurately reflect the progress of completed care-plan reviews. A targeted review project is underway, supported by additional project resources.

At the end of the quarter, approximately 60% of identified care plans had been reviewed with clients, updated, signed and filed.

Work is continuing to complete outstanding reviews and update review dates and amendments within SMS Alchemy so that system reporting accurately reflects the current status.

Service Capacity and Unfilled Services

Availability of support workers continued to affect service delivery during the quarter.

Hours recorded as unfilled due to no worker being available reduced from 216.5 hours in the previous quarter to 128 hours in Quarter 1, an improvement of 88.5 hours.

Client cancellations accounted for a further 220 hours during the quarter.

No services were recorded as unfilled due to poor weather during Quarter 1.

Reason	Previous Quarter	Q1 2026/27	Change
No worker available	216.5 hrs	128 hrs	-88.5 hrs
Poor weather	23.25 hrs	0 hrs	-23.25 hrs
Client cancellation	**Data not provided**	220 hrs	–
Current quarter total	–	**348 hrs**	–

Quality, Safety and Governance

Incidents

A total of **22 incidents** were reported between 1 July and 30 September 2026.

Incident Category	Number
Unwitnessed falls	13
Witnessed falls	1
Damage to vehicle	1
Client Medical	1
Missed Medication	1
Other	5
Total	**22**

Comments: Of the 22 incidents, **18 were resolved and four remained subject to follow-up** at the end of the reporting period.
No Category 1 or Category 2 Serious Incident Response Scheme incidents were reported.
Falls represent the largest incident category. Staff undertake falls-prevention training and clients reporting falls are referred for allied health follow-up where appropriate.

Complaints and Feedback

Five complaints or feedback matters were recorded in the information provided:

- three items of positive feedback regarding individual staff members; and
- two items of negative feedback regarding individual staff members.

Feedback has been provided to the relevant staff

Continuous Quality Improvement

Continuous quality improvement activities at the end of the reporting period comprised:

Status	Number
Open	1
In progress	7
Closed	10

Priorities for the next quarter include:

- completing a desktop review against the strengthened Aged Care Quality Standards;
- progressing outstanding care-plan reviews;
- completing registration and audit-readiness activities;
- continuing the review and update of the Community Care policy suite; and
- improving system reporting to provide more reliable compliance and service-delivery data.

The strengthened Aged Care Quality Standards have applied since 1 November 2025. They include requirements relating to organisational governance, risk management, incident management, complaints and feedback, and care and services.

Key Service Risks

The principal operational and service-delivery risks identified during the quarter are:

Risk	Current Response
Aged care reform and regulatory compliance	Policy review, audit preparation, staff education and monitoring of regulatory requirements
Workforce availability	Recruitment, workforce planning, casual staffing and monitoring of service capacity
Outstanding care-plan reviews	Dedicated project resources, review schedule and improved system recording

Limited nursing and allied health access	External referral pathways and engagement with regional health providers
Falls	Risk assessment, incident review, staff training and allied health referrals
Dementia and cognitive decline	Care planning, family/carer engagement and referral pathways
Carer stress and burnout	Monitoring, care planning and referral to available supports
Social isolation	Social support, community participation and transport services

The new regulatory framework is particularly relevant to Community Care. The Aged Care Quality and Safety Commission confirms that registered providers delivering Support at Home are regulated according to their registration categories and applicable strengthened Quality Standards.

Workforce

Community Care continues to experience workforce constraints, particularly within the support-worker workforce.

Workforce Group	Establishment	Current	Resignations during period
Core/team roles	4	3 + 2 temporary roles	1
Support workers	7	5	1
Transport	1	1	0
Volunteers	0	0	0

Comment: The support worker workforce remains below establishment, presenting an ongoing service capacity risk. Recruitment of Support Workers is continuing.

An appointment is in progress to fill the Care Management Officer position. In the interim, locum support has been secured through Rural LAP until 30 November 2026 to maintain care management capacity and support continuity of service.

Temporary administrative support has also been engaged to assist with the backlog of office-based activities and support audit and compliance preparation.

These temporary measures are supporting service continuity while permanent recruitment and broader workforce requirements are progressed.

Workforce Compliance and Training

Nine staff were recorded within the workforce compliance data.

Current information indicates:

- nine current police checks;
- nine staff acknowledged against the Aged Care Code of Conduct;
- nine current driver licences; and
- annual performance reviews are scheduled through Council's normal review cycle.

Mandatory training requiring attention includes:

Training	Staff in Scope	Recorded Overdue	Action
Orientation	2	0	Nil
Fire Safety in home	0	9	Annual training to be scheduled
First Aid	9	3	Training dates being coordinated
CPR	9	6	Training dates being coordinated
Manual Handling	9	9	Booked for 20 October 2026
Infection Control	9	9	Training options being investigated

Comment: Mandatory training completion to remain a priority during Quarter 2, particularly where training is required to support safe service delivery.

Aged Care Reform and Audit Readiness

During the quarter, the Director Community Services & Wellbeing and Community Care Team Leader attended the Aged Care Quality and Safety Commission conference.

Work is continuing with external consultants to support provider registration and audit readiness. This includes:

- review and update of the Community Care policy framework;
- assessment against the strengthened Aged Care Quality Standards;
- review of governance and compliance systems; and
- preparation for registration and audit requirements.

A desktop review has been undertaken, with the findings to inform the service's continuous improvement program.

The strengthened Quality Standards have been in effect since 1 November 2025 under the *Aged Care Act 2024*.

Quarter 2 Priorities

Key priorities for October to December 2026 are:

- complete outstanding care-plan reviews and reconcile SMS Alchemy records;
- progress aged care registration and audit-readiness activities;
- implement the updated Community Care policy suite;
- address outstanding mandatory workforce training;
- continue workforce recruitment and management of service capacity;
- work with the CHSP funding manager to review service outputs against local demand;
- strengthen incident, risk and continuous improvement monitoring; and
- continue implementation of Support at Home arrangements.

Tourism and Festival of Outback Skies

Quarter 1 Report: 1 July – 30 September 2026

Quarter Overview
Quarter 1 coincided with the peak winter tourism season, with activity focused on visitor servicing, destination marketing, tourism product development and planning for the 2027 Festival of Outback Skies.
The Flinders Discovery Centre recorded 9,673 visitors during the quarter, compared with 10,255 visitors for the same period in 2025, a reduction of 582 visitors. August visitation was slightly above the previous year, while July and September were lower.

Key activities included:

- continued Visit Hughenden destination marketing;
- development of a potential fossil and stone visitor experience;
- progression of Australia's Dinosaur Trail partnership arrangements;
- participation in tourism industry development and recognition programs; and
- planning and governance for the 2027 Festival of Outback Skies.

Flinders Discovery Centre Visitation

Measure	Jul–Sep 2025	Jul–Sep 2026	Variance
Total visitors	10,255	9,673	-582
July	4,606	4,117	-489
August	2,950	2,962	+12
September	2,699	2,594	-105

Visitor surveys indicate that more than three-quarters of respondents during the quarter were visiting the region for the first time. Australia's Dinosaur Trail was identified as the primary visitation driver, with exploring North West Queensland also identified as a key travel purpose.

The principal visitor market identified through the survey was couples aged over 50 years, followed by families travelling with children. Extended regional touring holidays were the typical travel pattern reported.

Visit Hughenden Marketing
September marketing results were not available at the time of reporting and will be incorporated into the next quarterly report. Available July and August results are summarised below.

Instagram engagement rate	2.9%	0.8%
Meta advertising spend	$1,824.35	$1,574.67
Meta advertising clicks	3,773	3,647
Average cost per click	$0.48	$0.43

Organic search remained the primary source of Visit Hughenden website traffic, accounting for approximately 65% of website sessions in August. Website traffic reduced in August following strong July results, while Instagram reach increased during August.

Temporary payment issues interrupted Meta advertising during August and contributed to reduced campaign activity. Priorities include maintaining continuity of paid advertising and continuing to refresh content that encourages visitation to the Visit Hughenden website.

Tourism Product Development

Fossil and Stone Workshop

Development commenced on a potential hands-on fossil and stone visitor experience at the Flinders Discovery Centre.

The proposed experience would allow visitors to clean and hand-polish a suitable locally found stone or belemnite and create a small souvenir, such as a necklace or keyring. The concept is intended to complement Hughenden's existing fossil and geological tourism offering.

Initial investigations are being undertaken to identify suitable polishing methods for local stones and belemnites. A pilot is proposed to test demand, safety requirements, equipment, staffing, pricing and potential retail opportunities before broader implementation.

Australia's Dinosaur Trail

Work continued during the quarter to formalise the Australia's Dinosaur Trail partnership between Flinders Shire Council and Richmond Shire Council for 2026–2030.

Industry Development and Recognition

The Flinders Discovery Centre has been named a finalist in the Queensland Tourism Awards – Visitor Information Service category, with the awards scheduled for 6 November 2026.

The Flinders Discovery Centre team is scheduled to attend the QICA Conference from 26 to 30 October 2026, providing opportunities for industry networking, professional development and learning from other visitor information centre operations.

The team also participated in the Best of Queensland Experiences Program, which considers tourism experiences against measures including online presence and reviews.

Festival of Outback Skies 2027

Planning and Governance

Planning for the 2027 Hughenden Festival of Outback Skies progressed during the quarter.
Expressions of interest for the Steering Committee and community working groups opened in September.
A refreshed governance model includes three working groups focused on:

- Bulls & Broncs;
- Dinner Under the Stars; and
- Festival Finale.

The Steering Committee has adopted its Terms of Reference and will guide the overall direction of the Festival, supported by the community working groups.

Funding and Sponsorship

The 2027 Sponsorship Prospectus has been approved and published, including new sponsorship opportunities across the Festival program.

Funding secured for the 2027 Festival includes:

- $20,000 through the Tourism and Events Queensland Monsoon Recovery Events Grant; and
- $25,000 in ongoing Tourism and Events Queensland Homegrown event funding.

Further grant opportunities are being pursued.

Program Development

Planning undertaken to date includes:

- development of refreshed Festival branding and event-specific colours;
- progression of an Outback-inspired concept for Dinner Under the Stars;
- identification of preferred entertainment for Dinner Under the Stars and the daytime program, subject to confirmation;
- development of revised Festival ticketing options; and
- development of three-night camping packages.

Upcoming Milestones

Timing	Milestone
9–11 November 2026	First meetings of the three Festival working groups
November 2026	Festival posters distributed
Mid-December 2026	Target for tickets to go on sale

Timings are indicative and may change as Festival planning progresses.

Priorities for Quarter 2

Key priorities for October to December 2026 include:

- continuing destination marketing and monitoring digital performance;
- progressing development and testing of the proposed fossil and stone visitor experience;
- progressing Australia's Dinosaur Trail partnership arrangements;
- continuing tourism industry development and networking;
- progressing Festival sponsorship and funding opportunities;
- commencing Festival working group meetings;
- confirming Festival entertainment and program elements; and
- progressing ticketing and camping arrangements for the 2027 Festival.

Library and Country Universities Centre Hughenden

Quarter 1 Report: 1 July – 30 September 2026

Service Overview

The Library and Country Universities Centre (CUC) continued to provide a broad range of library, education, study, digital support and community programs during the first quarter of 2026/27.

During the quarter, the facility recorded 1,873 visits, with strong participation across library programs, study services and community activities.

CUC Hughenden currently supports 46 enrolled/registered students, with 340 student attendances recorded during the July to September quarter.

Usage Statistics

Activity	July – September 2026
Door tally	1,873 visits
Physical items loaned	401

Country Universities Centre

Governance, Reporting and Advocacy

During the quarter, the Director Community Services & Wellbeing attended the CUC Central Board Chairs meeting. Discussions focused on:

- development of impact reporting measures and a broader reporting framework;
- ongoing advocacy for the CUC network; and
- affiliation agreements between CUC Central and individual CUC centres.

The CUC Hughenden six-month report to the Department has been submitted, with the Centre's operational plan and budget remaining on track.

The Centre is also exploring opportunities for additional partnership funding through the Department to support future program delivery.

Student Support and Engagement

CUC Hughenden currently supports 46 enrolled/registered students, with 340 student attendances during Quarter 1.

The Library and CUC also celebrated the first anniversary of the shared facility during the quarter. The celebration provided an opportunity for community members to visit the Centre, meet staff and learn more about the study and training opportunities available locally.

Student experiences continue to help demonstrate the value of access to tertiary education support in a remote community. During the quarter, the CUC shared the story of local student Anna Bethel, who is completing a Bachelor of Education through CQUniversity while balancing work, family and study commitments. Her story highlighted the value of having access to a dedicated local study environment and support through CUC Hughenden.

Library and Community Programs

Children and Families

July School Holiday Program
The July school holiday program provided a mix of creative, educational and recreational activities, including papermaking, Pokémon trading and activities involving chickens and egg hatching. First 5 Forever activities were incorporated into the program, with approximately 10 children attending each session.

NAIDOC Week
First 5 Forever participated in local NAIDOC Week activities, including activities at the lake focused on cultural awareness and learning. CUC Central representatives visiting Hughenden also attended local NAIDOC Week activities.

Pyjama Day – Foster Kids with Big Dreams
A special story time was held on 24 July to support Pyjama Day for Foster Kids with Big Dreams, providing an age-appropriate opportunity to raise awareness and encourage understanding.

Indigenous Literacy Day – Trevor Fourmile
Trevor Fourmile visited Hughenden to share children's books, stories and culture with local children. Two sessions were held, with approximately 40 children attending each session.

September School Holiday Program
The September school holiday program attracted an average of 14 children per activity. Activities included cupcake making with allergy-friendly options, plaster craft and a Glow Disco, with the disco attracting 23 children.

Literacy and Community Engagement

Author Visit – Alyssa J. Montgomery
The Library hosted author Alyssa J. Montgomery for a community meet and greet, attended by 12 local residents. The event provided an opportunity for local readers to hear about the author's work and writing. A selection of her novels was subsequently added to the Library collection.

The Stories That Shape Us – Natalie Stockdale
A community memoir-writing workshop was delivered by Natalie Stockdale. The workshop provided participants with practical guidance to reflect on significant life experiences and begin documenting their personal stories.

Seniors and Digital Inclusion

Seniors Morning Tea
Fortnightly Seniors Morning Teas continued during the quarter, attracting **56 attendances across six sessions**.
The program provides an informal opportunity for social connection, with opportunities being considered to introduce guest speakers and information sessions as the program continues to develop.

Savvy Seniors
The Library and CUC continued to jointly deliver Savvy Seniors, providing practical assistance with mobile phones, email, apps, online accounts and other technology.

The program supports participants to build confidence and independence in using technology at their own pace.
CUC Central also featured the Hughenden program through the story *Staying Connected, One Click at a Time*, highlighting the local approach to supporting digital inclusion.

Community Wellbeing

R U OK? Day – Black Dog Ride to the Top

The Library and CUC welcomed participants in the 2026 Black Dog Ride to the Top during their stop in Hughenden.
The visit provided an opportunity to support community awareness of mental health and reinforce the importance of checking in with family, friends and community members.

Future opportunities will be considered to broaden Council and community participation when similar visiting initiatives are hosted in Hughenden.

Quarter 1 Summary

Quarter 1 demonstrated continued use of the Library and CUC as a combined library, education, study and community hub, with 1,873 visits recorded during the reporting period.

CUC Hughenden currently supports 46 enrolled/registered students, while 340 student attendances during the quarter demonstrate ongoing use of the facility as a local study and education support service.

Key priorities for the coming reporting period include:

- continuing CUC student engagement and support;
- progressing CUC impact measurement and reporting arrangements;
- continuing engagement with CUC Central on advocacy and affiliation arrangements;
- exploring additional partnership and program funding opportunities;
- maintaining First 5 Forever, seniors and digital inclusion activities;
- developing further community and literacy programming; and
- continuing to promote access to tertiary education and study support within Hughenden and the wider Flinders Shire.

30 OCTOBER 2026 – 9:00 AM
McNAMARA BOARDROOM

2.04.03 ADOPTION OF CHILD SAFE POLICY SUITE

Author: Community Services Manager
Authorising Officer: Director Community Services and Wellbeing
Disclosure of Interest: The Author and Authorising Officer declare that they do not have any conflicts of interest in relation to this item.

OFFICER'S RECOMMENDATION
That Council:
1. Adopt the following documents comprising the Flinders Shire Council Child Safe Policy Suite:
a. Child Safe Code of Conduct;
b. Child-Focused Complaints Policy;
c. Child Safe Reporting Policy;
d. Child Safety and Wellbeing Policy;
e. Child Safety and Wellbeing Statement of Commitment;
f. Aboriginal and Torres Strait Islander Cultural Safety Statement of Commitment;
g. Child Safety Risk Management Framework; and
h. Supervision and Duty of Care Policy; and

2. Authorise the Chief Executive Officer to make minor administrative amendments to the documents that do not change their intent, including inserting policy numbers, document references, adoption dates, review dates and Council resolution details.

Executive Summary

Queensland's strengthened child safety framework introduces increased expectations for organisations to proactively prevent, identify and respond to risks of harm to children and young people. The reforms include 10 Child Safe Standards aligned with the National Principles for Child Safe Organisations and a Reportable Conduct Scheme. [

Council interacts with children and young people across a range of services, facilities and activities, including libraries, recreation facilities, community events, learning environments, public spaces, work experience arrangements and facilities used by contractors, hirers and community groups. The level of Council responsibility varies across these environments and requires a proportionate, risk-based approach.

The proposed Child Safe Policy Suite establishes an integrated governance framework covering organisational commitment, expected conduct, complaints, reporting, cultural safety, risk management, supervision and duty of care. Adoption of the suite is an important foundation for implementation but will need to be supported by training, updated reporting and complaints processes, risk assessments, contractor and hirer requirements, communication materials, and ongoing monitoring and review

AGENDA
30 OCTOBER 2026 – 9:00 AM
McNAMARA BOARDROOM

Background

A review of Council's readiness for the child safe reforms identified existing strengths, including criminal history checks for staff, Blue Card arrangements within community services and an established incident reporting system. It also identified gaps, including the absence of an integrated Council-wide child safe policy suite, limited role-specific training, incident reporting processes not tailored to child safety matters, and gaps relating to contractors, hirers and community use of Council facilities.
Key operational risks identified through the implementation project included:

- work experience placements and supervision;
- one-to-one transport arrangements;
- after-hours or unsupervised access by young people to Council facilities;
- community event management, participation and photographic consent;
- contractor and volunteer compliance; and
- risk assessments that do not fully address child safety scenarios.

In response, the following eight documents have been developed for adoption:

- **Child Safe Code of Conduct**, which establishes behavioural expectations for Councillors, employees, volunteers, contractors, students, facility hirers and others acting for or on behalf of Council when working with or around children and young people.
- **Child-Focused Complaints Policy**, which establishes child-centred, culturally safe and accessible processes for complaints made by, or on behalf of, children and young people.
- **Child Safe Reporting Policy**, which provides a consistent framework for identifying, responding to, recording and reporting child safety concerns, disclosures, allegations, incidents and reportable conduct.
- **Child Safety and Wellbeing Policy**, which sets Council's overarching commitment, principles, responsibilities and governance framework for child safe practice across its services, programs, facilities, activities, events and online environments.
- **Child Safety and Wellbeing Statement of Commitment**, which publicly states Council's commitment to creating environments where children and young people are safe, respected, valued, included and heard.
- **Aboriginal and Torres Strait Islander Cultural Safety Statement of Commitment**, which establishes Council's commitment to culturally safe, inclusive and respectful environments and acknowledges the importance of culture, identity, family, community and connection to Country.
- **Child Safety Risk Management Framework**, which provides a structured approach to identifying, assessing, treating, escalating, monitoring and reviewing child safety risks across Council operations, facilities and third-party arrangements.
- **Supervision and Duty of Care Policy**, which establishes Council's duty of care obligations, supervision principles and responsibilities for taking reasonable steps to prevent reasonably foreseeable harm.

The suite is designed to apply across Council rather than being limited to Community Services. It recognises that child safety responsibilities arise in directly delivered services as well as public facilities, open-access environments, events, digital settings, contracted activities and community use of Council-controlled spaces

The policies distinguish between settings where Council directly supervises children and open or public environments where parents or carers generally retain supervision responsibility. In both cases, Council must identify and manage foreseeable risks that fall within its responsibility or control.

Statutory/Compliance Matters

The proposed policy suite references relevant legislative and governance requirements, including:

- *Child Safe Organisations Act 2024 (Qld)*;
- *Child Protection Act 1999 (Qld)*;
- *Working with Children (Risk Management and Screening) Act 2000 (Qld)*;
- *Human Rights Act 2019 (Qld)*;
- *Information Privacy Act 2009 (Qld)*;
- *Anti-Discrimination Act 1991 (Qld)*; and
- *Local Government Act 2009 (Qld)*.

The suite is also intended to support practices consistent with the National Principles for Child Safe Organisations and the Queensland Child Safe Standards.

Policy adoption alone will not demonstrate effective implementation. Council will also need to ensure that the requirements are communicated, understood and integrated into operational practices, reporting systems, complaints processes, risk management, contracts, facility hire arrangements, induction and training

Financial / Budget Implications

There is no direct material financial implication arising from adoption of the policy suite. Implementation will require staff time and may involve expenditure associated with workforce training, communication materials, system and form updates, signage, risk assessments and changes to contractual or facility hire documentation. The extent of expenditure will depend on the controls identified through implementation and operational risk reviews.

Where implementation identifies material works, system changes or additional resources outside existing operational budgets, these will be considered through Council's normal budget and approval processes.

Consultation/engagement

The draft Child Safe Policy Suite was reviewed by the Executive Leadership Team on 13 October 2026.

Planning and implementation of the ongoing organisational transition will be coordinated through an internal working group comprising the Child Safe Lead and representatives from relevant Council departments. The working group will support the organisation-wide implementation, communication, monitoring and continuous improvement of Council's child safe policies, procedures and practices

Risk Implications

Adoption of the suite will establish the governance foundation required for Council to manage child safety risks consistently across its operations.

Key risks include:

- **Child safety risk:** Children and young people may be exposed to foreseeable harm if risks are not appropriately identified, controlled, reported and escalated.
- **Compliance risk:** Council may be unable to demonstrate that child safe requirements have been embedded across relevant services, facilities and third-party arrangements.
- **Operational risk:** Responsibilities may remain unclear without supporting procedures, role-specific guidance, training and local risk assessments.
- **Contractor and third-party risk:** Contractors, hirers, tenants and community groups may not understand or apply Council's child safe expectations unless these are incorporated into agreements, inductions and facility use requirements.
- **Reputational risk:** Inadequate prevention or response may reduce community confidence in Council's ability to provide safe and inclusive environments.
- **Implementation risk:** Treating adoption as the completion of the project, rather than the beginning of implementation, would leave identified control gaps unresolved.

These risks will be managed through staged implementation, training, operational risk assessments, updated reporting and complaints pathways, contractor and hirer requirements, monitoring and continuous improvement.

Strategic Impacts

The policy suite supports Council's broader responsibilities for safe, inclusive and accessible community services, facilities, programs and events.
It establishes child safety as an organisation-wide governance and risk management responsibility. The suite also supports stronger organisational accountability, clearer behavioural expectations, accessible reporting and complaints pathways, cultural safety, and more consistent management of risks across Council-controlled and third-party settings

Conclusion

The proposed Child Safe Policy Suite provides Council with an integrated framework for preventing, identifying, reporting and responding to risks affecting children and young people.

Adoption of the eight documents will establish Council's formal governance position and provide the basis for the next stage of work, including implementation planning, workforce training, operational risk reviews, system updates, contractor and hirer integration, communication and ongoing assurance.

APPENDIX A – CHILD SAFE CODE OF CONDUCT TO ACKNOWLEDGE AND SIGN

COUNCIL CHILD SAFE CODE OF CONDUCT DO's AND DON'Ts

Council is committed to providing an open, welcoming and safe environment for all children and young people who take part in the services and activities we offer. This Code of Conduct Statement complements the *Council Child Safe Code of Conduct.* Council's Code of Conduct outlines appropriate standards of behaviour by all Council workers towards children and young people. A child is defined as anyone under the age of 18. Council aims to protect children and young people and to reduce opportunities for abuse or risk of harm to occur. It also helps workers by providing them with guidance on how to best support children and how to avoid or better manage difficult situations.

All Council workers will always ensure that they display appropriate standards of behaviour towards children and young people so that their rights are respected, they feel safe and protected, and their concerns are taken seriously. This always applies when we are performing official duties, including when we are representing Council at programs and events. This also applies to conduct occurring outside of work hours where connected to your employment or engagement with Council. Engaging in any unacceptable behaviour is considered a breach of this Code of Conduct and may result in managerial, disciplinary action and/or termination of employment and/or engagement with Council and will be managed by the relevant organisational, legislative and/or program-specific policies and procedures.

Do	Treat everyone with respect and honesty (this includes staff, volunteers, students, children, young people and parents).
Do	Listen to and value children and young people's ideas and opinions, and respond to them appropriately.
Do	Actively promote cultural safety and inclusion and welcome everyone by being inclusive (this includes staff, volunteers, students, children, young people and parents).
Do	Remember to be a positive role model to children and young people in all your conduct with them.
Do	Set clear boundaries about appropriate behaviour between yourself, children and families. Boundaries help everyone to carry out their roles well.
Do	Follow organisational policy and guidelines outlined in the Safeguarding Children and Young People Policy and Safeguarding Children and Young People Procedure.
Do	Inform management of any conflicts of interest (such as other engagement with a child or young person, secondary employment, or personal/family ties).
Do	Report or raise concerns with management if risks to child safety, including cultural, environmental, and operational risks, are identified.
Do	Respect the privacy of children and young people and their families by keeping all information about child protection concerns confidential once reported.

Do	Gain consent from parents or carers and management when situations arise that need to be safely managed.
Do	Have another adult present or in sight when conducting one-to-one activities, etc.
Do	Advocate for the rights of the child or young person and always prioritise their needs.
Do	Record and act on complaints of abuse and risk of harm.
Do	Comply with all reasonable and lawful instructions.
Do	Attend all Council activities and programs in a fit and proper state, unaffected by alcohol or non-prescription drugs, and if affected by prescription drugs that may impair performance, notify the manager of the circumstances.

Do Not	Overlook or participate in illegal, unsafe, harmful or abusive behaviour towards children, including physical, sexual, or psychological abuse, grooming, ill-treatment, or neglect.
Do Not	Develop any 'special' relationships with children that could be seen as favouritism, such as the offering of gifts or special treatment.
Do Not	Ignore or disregard any concerns, suspicions or disclosures of child abuse or risk of harm and fail to report to relevant authorities.
Do Not	Do things of a personal nature that children can do for themselves, such as assisting them to go to the toilet or change clothes.
Do Not	Engage in personal or professional conduct, including the use of social media, whether during or after work hours, that has the potential to adversely affect the reputation of Council adversely.

RESPONSIBLE DEPARTMENT:	Community Services and Wellbeing

1. OBJECTIVE

To provide a child-centred, culturally safe and trauma-informed process for receiving, assessing and resolving complaints made by, or on behalf of, children and young people.

Council recognises that complaints are opportunities to improve services, strengthen child safety and ensure children and young people feel heard, respected and supported.

2. SCOPE

This policy applies to complaints made by a child or young person, or by a parent, carer, advocate, family member or trusted person on their behalf, relating to:

- Council services, programs, activities, facilities and events;
- Councillors, employees, volunteers and contractors; and
- Any Council-managed environment involving children and young people.

Complaints made by adults that do not involve a child safety concern will be managed in accordance with Council's Complaints Management Policy and Procedure.

Where a complaint involves alleged harm, abuse, neglect, reportable conduct or criminal behaviour, Council will also respond in accordance with the Child Safe Reporting Policy and Procedure and any legislative reporting obligations.

3. DEFINITIONS

Term	Definition
Advocate	A person chosen by a child or young person to support or represent them.
Child	A person under 18 years of age.
Child Safe Complaint	Any concern, allegation, disclosure, incident or complaint relating to the safety, wellbeing or rights of a child or young person.
Child Safe Lead	The Council officer responsible for coordinating child safety advice, escalation and reporting.
Complaint	An expression of dissatisfaction where a response is expected.
Complaint made on behalf of a child	A complaint raised by a parent, carer, advocate, family member or trusted person in the interests of a child or young person.
Council Personnel	Councillors, employees, volunteers, contractors, labour hire staff, students, trainees and any person undertaking work or activities on behalf of Council.

Harm	Physical, psychological, emotional or sexual harm, neglect, exploitation, grooming or any circumstance that places a child at risk.
Reportable Conduct	Conduct defined as reportable conduct under the Child Safe Organisations Act 2024 (Qld).

4. ROLES AND RESPONSIBILITIES

Role	Responsibility
Children and Young People	• Raise concerns or complaints safely. • Choose a support person if desired. • Participate in the complaint process.
Council Personnel	• Listen and respond appropriately. • Support children and young people to make complaints. • Record and report complaints promptly. • Maintain confidentiality and accurate records.
Managers and Child Safe Lead	• Assess complaints and manage risks. • Determine investigation and reporting requirements. • Monitor progress and communicate outcomes. • Ensure records are maintained
Chief Executive Officer	• Provide oversight of the complaint management system. • Ensure compliance with child safe and reporting obligations.

5. POLICY

Council is committed to providing a complaints process that is:

- Child-centred and accessible;
- Culturally safe and inclusive;
- Trauma-informed;
- Fair, impartial and confidential;
- Responsive and timely; and
- Focused on continuous improvement.

Council will:

1. Provide child-friendly and accessible complaint pathways.
2. Treat all complaints seriously and respectfully.
3. Support children and young people to participate in the process.
4. Respond to complaints promptly and fairly.
5. Maintain confidentiality and privacy where appropriate.
6. Record and monitor complaints to identify improvements.
7. Escalate matters involving harm, abuse, neglect, reportable conduct or criminal activity in accordance with legislative requirements and Council procedures.

6. COUNCIL EXCEPTIONS

This policy does not apply to:

- Complaints relating to matters occurring outside a Council service, program, activity, event, facility or Council-managed environment, unless the complaint involves the conduct of Council personnel acting in their Council capacity;

- Human resource or industrial matters involving Council employees; or
- Complaints by adults that do not involve a child safety concern.

These matters will be managed under the relevant Council policy, procedure or legislative framework.

7. IMPLEMENTATION

7.1 Making a Complaint

Complaints may be made:

- In person;
- By telephone;
- By email;
- Through Council's online feedback or complaint process;
- In writing; or
- Through an advocate or support person.

Anonymous complaints may be accepted and assessed where sufficient information is available

7.2 Accessibility

Council will make reasonable adjustments to ensure children and young people can participate in the complaints process, including access to:

- Advocates or support persons;
- Interpreters or translators;
- Communication supports; and
- Culturally appropriate assistance.

7.3 Complaint Handling

Council will:

- Acknowledge complaints as soon as practicable;
- Assess any immediate risks to safety;
- Determine whether investigation is required;
- Consider the child's views and preferred outcomes where appropriate; and
- Keep the complainant informed of progress.

Council will aim to resolve complaints within ten (10) business days. Where additional time is required, updates will be provided regularly.

7.4 Investigations

Investigations must be:

- Fair and impartial;
- Undertaken by an appropriately authorised person;
- Conducted confidentially; and
- Properly documented.

Where appropriate, Council may engage an independent investigator.

7.5 Child Safety Reporting

Where a complaint involves suspected harm, abuse, neglect, reportable conduct or criminal behaviour, Council personnel must immediately follow the Child Safe Reporting Policy and Procedure and any applicable legislative reporting requirements.

7.6 Recordkeeping

All complaints must be recorded and managed within Council's approved records management system.
Access to records will be restricted to authorised personnel and managed in accordance with legislative and recordkeeping requirements.

7.7 Resolution and Review

Council will:
- Communicate outcomes in an age-appropriate manner;
- Implement corrective actions where required;
- Advise complainants of available review options; and
- Monitor complaint outcomes to support continuous improvement.

7.8 Monitoring and Review

Council will review complaint trends, risks and improvement opportunities through its governance processes.
This policy will be reviewed at least every two years or sooner if required by legislative, organisational or operational change.

DATE OF NEXT REVIEW:	30 September 2029
RESPONSIBLE DEPARTMENT:	Community Services and Wellbeing

1. OBJECTIVE

To ensure Flinders Shire Council maintains a consistent and effective framework for identifying, responding to, recording and reporting child safety concerns, disclosures, allegations, incidents and reportable conduct involving children and young people.

This Policy supports Council's commitment to protecting children and young people from harm and ensuring compliance with applicable child safety legislation and reporting obligations.

2. SCOPE

This Policy applies to:

- Councillors;
- Employees;
- Volunteers;
- Contractors and consultants;
- Labour hire personnel;
- Students, trainees and apprentices; and
- Any person engaged by, representing or acting on behalf of Flinders Shire Council

This Policy applies to child safety concerns arising in connection with:

- Council services and programs;
- Libraries and youth activities;
- School holiday programs;
- Community care services involving children and young people;
- Community facilities and venues;
- Recreational and aquatic facilities;
- Community events and festivals;
- Council-managed land and public spaces; and
- Council-operated online environments.

3. DEFINITIONS

Term	Definition
Child	A person under 18 years of age.
Child Safe Lead	The Council officer responsible for coordinating child safety advice, reporting and escalation.

Child Safety Concern	Any concern, suspicion, allegation, complaint, disclosure, incident or observation relating to the safety, wellbeing or rights of a child or young person.
Disclosure	Information provided by a child or another person regarding actual or suspected harm.
Harm	Physical, emotional, psychological or sexual harm, neglect, exploitation, grooming or any conduct placing a child at risk.
Reportable Conduct	Conduct defined under the Child Safe Organisations Act 2024 (Qld).

4. ROLES AND RESPONSIBILITIES

Role	Responsibility
Council Personnel	• Identify and report child safety concerns; • Respond appropriately to disclosures; • Comply with this Policy and associated procedures; and • Maintain confidentiality and accurate records.
Managers and Supervisors	• Support personnel to fulfil reporting obligations; • Manage immediate risks and protective actions; • Escalate concerns appropriately; and • Ensure required records are maintained.
Child Safe Lead	• Provide advice regarding reporting obligations; • Coordinate internal and external reporting processes; • Monitor compliance with child safe reporting requirements; and • Support continuous improvement of reporting practices.
Chief Executive Officer	• Ensure Council maintains systems that support compliance with child safety legislation; • Fulfil the responsibilities of Head of Entity under the Child Safe Organisations Act 2024 (Qld); and • Ensure reportable conduct matters are managed appropriately.

5. POLICY

Flinders Shire Council is committed to ensuring all child safety concerns are recognised, reported and managed promptly, appropriately and consistently.

Council will:

1. Prioritise the safety, wellbeing and best interests of children and young people.
2. Promote a culture where concerns can be raised without fear of reprisal.
3. Encourage the early identification and reporting of child safety concerns.
4. Respond to reports in a timely, respectful and trauma-informed manner.
5. Ensure children and young people are listened to and taken seriously.
6. Provide culturally safe, inclusive and accessible reporting processes.
7. Comply with all legislative reporting requirements.
8. Maintain confidentiality and privacy in accordance with legislative obligations.
9. Monitor reporting trends and implement continuous improvement actions.
10. Support personnel through training, resources and guidance relating to child safety reporting.

All Council Personnel have a duty to report child safety concerns, regardless of whether they believe the concern meets a specific legislative reporting threshold.

6. COUNCIL EXCEPTIONS

This Policy does not apply to:

- Complaints unrelated to child safety matters;
- Human resource or industrial matters that do not involve a child or young person;
- General customer complaints managed under Council's Complaints Management Policy; or
- Matters occurring entirely outside Council services, programs, facilities, events or Council-managed environments where Council has no operational connection or responsibility.

Where a matter falls outside Council's scope, Council may refer the matter to the appropriate agency or authority.

7. IMPLEMENTATION

7.1 Child Safe Reporting Procedure

Council will maintain a Child Safe Reporting Procedure which outlines:

- reporting pathways;
- internal escalation requirements;
- responding to disclosures;
- recordkeeping requirements;
- external reporting obligations; and
- reportable conduct processes.

7.2 Training and Awareness

Council will ensure relevant personnel receive child safety awareness and reporting training appropriate to their role and responsibilities.

7.3 Reporting Systems

Council will maintain systems that enable:

- timely reporting of concerns;
- secure recordkeeping;
- monitoring and oversight of reports; and
- compliance with legislative obligations.

7.4 Continuous Improvement

Council will regularly review child safety reporting data, incidents, complaints and emerging risks to identify improvement opportunities and strengthen child safe practices.

1. OBJECTIVE

Flinders Shire Council is committed to providing environments that support the safety, wellbeing, participation and dignity of children and young people.

This Policy establishes Council's commitment to child safety and wellbeing and sets out the principles, responsibilities and governance framework that guide child safe practice across Council services, programs, facilities, activities and online environments.

Council has zero tolerance for child abuse, neglect, exploitation, grooming and any conduct that places a child or young person at risk of harm.

2. SCOPE

This Policy applies to:

- Councillors;
- Employees;
- Volunteers;
- Contractors and consultants;
- Labour hire personnel;
- Students, trainees and apprentices; and
- Any person engaged by or acting on behalf of Council.

This Policy applies across all Council services, facilities, programs, activities, events and online environments involving or accessed by children and young people.

Council recognises that child safety responsibilities vary across different service environments. This Policy will be applied proportionate to the level of responsibility, supervision and control Council has in each setting.

3. DEFINITIONS

Term	Definition
Child	A person under 18 years of age.
Child Safety and Wellbeing	The actions, systems and practices that support children to be safe, respected, included and heard.
Child Safety Concern	Any concern, disclosure, allegation, complaint, incident or behaviour that may affect the safety or wellbeing of a child.

Council Personnel	Any person engaged by, volunteering for, contracted to, or acting on behalf of Council.
Harm	Physical, psychological, emotional or sexual harm, neglect, grooming, exploitation or any circumstance that places a child at risk.
Third Party	Contractors, consultants, hirers, community groups, partners, tenants, lessees or any external person or organisation engaged with Council activities or facilities.

4. ROLES AND RESPONSIBILITIES

Role	Responsibility
Council	Council is responsible for providing leadership and governance oversight to ensure child safety is embedded across the organisation.
Chief Executive Officer	The Chief Executive Officer is responsible for ensuring appropriate child safe systems, resources and reporting mechanisms are maintained.
Managers and Supervisors	Directors and Managers are responsible for: • implementing this Policy; • identifying and managing child safety risks; • promoting child safe practices; • ensuring personnel understand their responsibilities; and • responding appropriately to concerns.
Child Safe Lead	The Child Safe Lead is responsible for coordinating child safety advice, reporting, monitoring and continuous improvement activities.
Council Personnel	All Council Personnel must: • comply with this Policy; • uphold the Child Safe Code of Conduct; • identify and report child safety concerns; • participate in required training; and • contribute to safe and respectful environments for children and young people.

5. POLICY

5.1 Commitment to Child Safety

Council is committed to creating and maintaining environments where children and young people:

- are safe and protected from harm;
- are treated with dignity and respect;
- are informed of their rights;

- are heard and taken seriously;
- can participate in decisions affecting them; and
- feel welcome, valued and included.

5.2 Child Safe Principles

Council will implement and maintain practices consistent with the National Principles for Child Safe Organisations and Queensland Child Safe Standards.

Council will:

1. Embed child safety in leadership, governance and organisational culture.
2. Support the participation and voice of children and young people.
3. Work collaboratively with families, carers and the community.
4. Promote equity, inclusion and cultural safety.
5. Ensure people working with children are suitable and supported.
6. Maintain child-focused complaint and reporting processes.
7. Provide appropriate education and training.
8. Identify and manage child safety risks.
9. Monitor and continuously improve child safe practices.
10. Maintain policies and procedures that support child safety and wellbeing.

5.3 Cultural Safety

Council recognises the importance of cultural safety for Aboriginal and Torres Strait Islander children and young people and is committed to promoting environments where cultural identity, connection and participation are respected and supported.

5.4 Equity and Inclusion

Council is committed to ensuring all children and young people are treated fairly and have equitable access to participation, support and protection, including children:

- with disability;
- from culturally and linguistically diverse backgrounds;
- who identify as LGBTQIA+; and
- who may be vulnerable due to personal, family or community circumstances.

5.5 People Working with Children

Council will take reasonable steps to ensure people working with or around children are suitable for their role and understand their child safety responsibilities.

This includes:

- recruitment and screening processes;
- Blue Card compliance where required;
- induction and training;
- supervision and support; and
- conduct and accountability requirements.

5.6 Contractors and Third Parties

Council will communicate child safe expectations to contractors, partners, hirers, lessees, user groups and other third parties where children may be involved or present.

5.7 Child Safety Concerns
All child safety concerns must be taken seriously and acted on immediately.

Council Personnel must report concerns in accordance with the Child Safe Reporting Policy, Child Safe Reporting Procedure and Child Safe Complaints Policy.

6. COUNCIL EXCEPTIONS

This Policy does not apply to:

- matters that do not involve children or young people;
- complaints managed solely under Council's Corporate Complaints Policy;
- industrial or employment matters that do not involve child safety issues; or
- matters occurring entirely outside Council services, facilities, programs, events or Council-managed environments where Council has no operational responsibility.

7. IMPLEMENTATION

7.1 Child Safe Governance Framework
Council will maintain a suite of child safe policies, procedures, frameworks, forms and guidance materials that support implementation of this Policy.

7.2 Risk Management
Council will identify, assess and manage child safety risks through its risk management framework and operational planning processes.

7.3 Recruitment, Screening and Training
Council will maintain recruitment, screening, induction and training processes designed to support child safe practice and legislative compliance.

7.4 Reporting and Complaints
Council will maintain child-focused processes for reporting, responding to and managing child safety concerns, disclosures, incidents, allegations and complaints.

7.5 Continuous Improvement
Council will monitor child safety performance, review incidents and feedback, and regularly assess the effectiveness of its child safe systems and controls.

CHILD SAFETY AND WELLBEING STATEMENT OF COMMITMENT

Flinders Shire Council is committed to creating and maintaining environments where children and young people are safe, respected, valued, included and heard.

We recognise that children and young people have the right to feel safe and to participate in community life free from abuse, harm, neglect, exploitation and discrimination.

Council has **zero tolerance** for child abuse, harm, neglect, exploitation, grooming or any behaviour that places a child or young person at risk.

Child safety and wellbeing are embedded in our leadership, governance, culture and decision-making and are a shared responsibility across all levels of Council.

Our Commitment

Flinders Shire Council is committed to:

1) **Protecting Children and Young People:** We will always prioritise the safety, wellbeing and best interests of children and young people and take action to prevent, identify and respond to risks and concerns.

2) **Listening to Children and Young People:**
   - **a)** We respect the rights, views and experiences of children and young people and support them to participate in decisions that affect them.
   - **b)** We encourage children and young people to speak up, ask questions, provide feedback and raise concerns in ways that are safe and accessible.

3) **Creating Inclusive and Culturally Safe Environments:**
   - **a)** We are committed to creating environments that are welcoming, respectful and inclusive for all children and young people.
   - **b)** We recognise and respect the diverse needs, identities and experiences of children and young people, including:
     i) Aboriginal and Torres Strait Islander children and young people;
     ii) children from culturally and linguistically diverse backgrounds;
     iii) children and young people with disability;
     iv) children and young people who identify as LGBTQIA+; and

v) children and young people who may be vulnerable due to their personal, family or community circumstances.

4) **Working in Partnership with Families and Communities:**
   a) We recognise families, carers and communities as important partners in promoting child safety and wellbeing.
   b) We will communicate openly about our child safe approach and welcome feedback to help strengthen our practices.

5) **Supporting Safe and Respectful Behaviour:** We expect all Councillors, employees, volunteers, contractors, consultants and other persons engaged by Council to uphold child safe practices and comply with Council's Child Safe Code of Conduct.

6) **Building Capability:** We will provide training, guidance and support to ensure workers understand their child safety responsibilities and are equipped to identify, prevent and respond to child safety concerns.

7) **Maintaining Safe Physical and Online Environments:** We are committed to identifying, reducing and managing risks to children and young people across Council facilities, services, programs, activities, events and online environments.

8) **Responding to Concerns:**
   a) We take all child safety concerns seriously and support child-friendly, accessible and culturally safe pathways for concerns, complaints, disclosures and allegations to be raised.
   b) We will respond promptly, fairly and appropriately, with the safety and wellbeing of children and young people as our primary consideration.

9) **Continuous Improvement:** We will regularly review our policies, procedures, practices and systems to ensure we continue to meet our child safety obligations and strengthen our child safe culture.

Review Period: Every three years, or earlier if required by legislative change or identified risk.

ABORIGINAL AND TORRES STRAIT ISLANDER CULTURAL SAFETY STATEMENT OF COMMITMENT

1. PURPOSE:

Flinders Shire Council is committed to creating and maintaining culturally safe, inclusive and respectful environments for Aboriginal and Torres Strait Islander peoples, families, communities, children and young people.

This Statement outlines Council's commitment to cultural safety, meaningful engagement and respectful relationships with Aboriginal and Torres Strait Islander peoples. It supports Council's Child Safety and Wellbeing Framework and should be read alongside Council's Child Safety and Wellbeing Policy, Child Safe Code of Conduct and related policies and procedures.

This Statement applies across Council services, facilities, programs, events, workplaces, community engagement activities and online environments.

2. ACKNOWLEDGEMENT OF ABORIGINAL AND TORRES STRAIT ISLANDER PEOPLES:

Flinders Shire Council proudly acknowledges the Yirendali People as the Traditional Owners and Custodians of the lands across the Flinders Shire and pays respect to Elders past, present and emerging.

We recognise the Yirendali People's enduring connection to Country, culture, language, community and tradition, and acknowledge their continuing role in caring for Country and strengthening community.

Council also acknowledges and respects all Aboriginal and Torres Strait Islander peoples who live, work, visit and contribute to the Flinders Shire. We recognise the diversity of Aboriginal and Torres Strait Islander cultures, histories, experiences and communities across Queensland and Australia.

We recognise and value the ongoing contribution of Aboriginal and Torres Strait Islander peoples to the social, cultural, economic and environmental wellbeing of the Flinders Shire and commit to supporting reconciliation, self-determination and equitable participation.

Council acknowledges the ongoing impacts of colonisation, dispossession and intergenerational trauma and recognises that these impacts have not diminished the strength, resilience, cultural authority and enduring connection of Aboriginal and Torres Strait Islander peoples to Country and community.

Council recognises cultural safety as a journey of ongoing learning, reflection, engagement and partnership. Cultural safety is determined by Aboriginal and Torres Strait Islander peoples themselves and is achieved through respect, inclusion, meaningful engagement and shared decision-making.

3. OUR COMMITMENT

Flinders Shire Council acknowledges that meaningful cultural safety requires more than words. It requires action, accountability, listening, learning and genuine partnership.
Council is committed to:

Respect and Recognition

- Recognising and valuing Aboriginal and Torres Strait Islander cultures, histories, knowledge systems and contributions
- Promoting respect for cultural identity, cultural rights and connection to Country
- Supporting reconciliation through respectful relationships and meaningful engagement

Cultural Safety

- Creating culturally safe environments across Council services, facilities and workplaces
- Supporting culturally safe interactions with Aboriginal and Torres Strait Islander children, young people and families
- Embedding the Universal Principle of Cultural Safety throughout Council's Child Safe Framework
- Recognising cultural identity, family, community and connection to Country as protective factors for wellbeing

Self-Determination and Partnership

- Supporting Aboriginal and Torres Strait Islander self-determination and community leadership.
- Engaging in genuine partnership, consultation and co-design
- Recognising local cultural authority, community knowledge and lived experience
- Supporting community-led solutions that reflect local priorities and aspirations

Equity and Inclusion

- Creating inclusive environments where Aboriginal and Torres Strait Islander peoples feel safe, respected and valued
- Identifying and reducing barriers to participation, inclusion and access
- Ensuring Council services and programs are responsive to community needs

Workforce Development

- Creating a culturally safe workplace where Aboriginal and Torres Strait Islander employees are respected, supported and empowered to thrive
- Building cultural capability through ongoing education, training and awareness

- Supporting leadership that actively promotes cultural safety and inclusion

Child Safety and Wellbeing

- Supporting culturally safe environments for Aboriginal and Torres Strait Islander children and young people
- Recognising the importance of culture, identity, family and community in supporting child safety and wellbeing
- Ensuring Aboriginal and Torres Strait Islander children and young people are respected, heard and supported

Continuous Improvement

- Reviewing and strengthening cultural safety practices over time
- Seeking feedback from Aboriginal and Torres Strait Islander peoples and communities
- Using community input, learning and reflection to improve Council's policies, services and practices

4. OUR PRINCIPLES

The following principles guide Council's approach to cultural safety:

1. **Self-Determination:** We recognise the right of Aboriginal and Torres Strait Islander peoples to participate in decisions that affect their lives, communities and futures.
2. **Respect:** We respect cultural identity, cultural authority, knowledge and lived experience.
3. **Equity:** We are committed to fair, inclusive and culturally informed practices that reduce barriers and improve outcomes.
4. **Partnership:** We value genuine relationships built on trust, collaboration and shared learning.
5. **Accountability:** We take responsibility for embedding cultural safety within our governance, services, workplaces and community interactions.
6. **Continuous Improvement:** We recognise that cultural safety is an ongoing journey that requires reflection, learning, review and action.
7. **Accountability and Review:** Council recognises that this Statement must be supported through practical action and continuous improvement.

5. ACCOUNTABILITY AND REVIEW

Council recognises that this Statement must be supported through practical action and continuous improvement.

Council will:

- Consider cultural safety in planning, governance and decision-making processes.
- Support cultural capability development across the organisation.
- Engage with Aboriginal and Torres Strait Islander peoples and organisations when developing initiatives that affect communities.
- Embed cultural safety actions into relevant plans, strategies and operational activities.
- Monitor progress through existing governance and reporting processes.
- Review this Statement at least every two years, or earlier where required.

6. COMMUNICATION AND ACCESSIBILITY

Council will take reasonable steps to ensure this Statement is accessible to employees, contractors, volunteers, community members and stakeholders.

This Statement will be:

- Available on Council's website and intranet.
- Included within Council's Child Safe Framework.
- Communicated through induction, training and awareness activities.
- Reviewed and promoted as part of Council's commitment to cultural safety and inclusion

7. OUR LOCAL COMMITMENT

- Flinders Shire Council acknowledges that the Yirendali People have cared for and maintained connection to Country for countless generations.
- We are committed to building respectful relationships founded on trust, understanding and partnership, and to supporting opportunities for Aboriginal and Torres Strait Islander peoples to participate, lead and thrive within our community.
- Together, we will continue to work towards a culturally safe, inclusive and respectful Flinders Shire where Aboriginal and Torres Strait Islander peoples, children, families and communities are valued, supported and empowered to thrive.

Review Period: Every two years, or earlier if required.

Child Safety Risk Management Framework

Supporting Council's Corporate Risk Management Framework

Purpose of this framework
This specialist framework explains how child safety risks are identified, assessed, controlled, escalated, monitored and reported within Council's existing corporate risk management system. It does not replace or duplicate the Corporate Risk Management Framework.

1. Purpose

This framework provides a consistent approach for managing risks to the safety and wellbeing of children and young people across Flinders Shire Council's operations, services, facilities, programs, events, projects and third-party arrangements.

The framework is intended to:

- embed child safety considerations within Council's existing corporate risk management processes;
- support early identification and proportionate treatment of foreseeable child safety risks;
- clarify responsibilities for risk ownership, escalation, reporting and review;
- support consistent decision-making across directly supervised, open-access, shared-use and third-party environments; and
- provide evidence of monitoring, assurance and continuous improvement.

Key position
Child safety is a shared organisational responsibility. The Child Safe Lead coordinates and

supports the framework, but operational managers and risk owners remain accountable for risks and controls within their areas.

2. Scope

This framework applies where children and young people may be present, participate, access a service or facility, or otherwise be affected by Council activities or decisions.

It applies to:

- Councillors;
- employees, including permanent, temporary and casual employees;
- volunteers;
- contractors, consultants and labour-hire personnel;
- students, trainees, apprentices and work experience participants; and
- other persons engaged by, representing or acting on behalf of Council.

Relevant environments include Council services, public facilities, community events, recreation spaces, online environments, learning and work placement settings, facility hire arrangements, contracted activities and partnerships.

The framework is applied according to Council's level of authority, responsibility and control. The presence of a child in a public place does not automatically mean Council has accepted direct supervision. Council must still identify and manage foreseeable risks within its control.

3. Relationship with Council's Corporate Risk Management Framework

Framework relationship
The Corporate Risk Management Framework remains Council's primary framework for risk governance, risk criteria, ratings, registers, ownership, treatment and reporting. This Child Safety Risk Management Framework provides additional child-specific guidance for applying those arrangements.

Accordingly:

- child safety risks must be recorded and managed using Council's approved corporate risk tools and risk rating methodology;
- corporate consequence, likelihood, control effectiveness and escalation requirements continue to apply;
- child safety risks may be recorded in operational, project, event, facility or corporate risk registers, depending on their nature and significance;
- this framework does not establish a separate competing risk system;
- where this framework identifies a higher child safety expectation, legal reporting duty or immediate protective action, that requirement must also be followed; and

- uncertainty about which framework or process applies must be escalated to the relevant Director, the Child Safe Lead or the officer responsible for corporate risk.

Corporate Risk Management Framework	This supporting framework	Operational application
Sets Council-wide risk governance, appetite, methodology and reporting.	Provides child-specific risk prompts, controls and escalation considerations.	Use the corporate risk process, informed by the child-specific guidance.
Establishes approved risk criteria and matrix.	Explains child safety consequences and circumstances requiring urgent action.	Do not create a separate rating scale unless formally approved.
Assigns risk owners and oversight arrangements.	Clarifies the supporting roles of the Child Safe Lead and internal working group.	Operational owners remain accountable for risks and treatments.
Provides organisation-wide assurance and review.	Adds child safety indicators, themes and implementation assurance.	Include material child safety matters in normal governance reporting.

4. Principles

Best interests and safety: The safety, wellbeing, dignity and rights of children and young people are central to risk decisions.

Zero tolerance: Council has zero tolerance for abuse, grooming, neglect, exploitation, deliberate harmful conduct or failures to act on known or suspected concerns.

Proportionate and practical: Controls must reflect the nature of the activity, the children involved, Council's level of control and the seriousness of foreseeable harm.

Prevention and early action: Council must act on foreseeable risks, warning signs, near misses and control gaps rather than waiting for harm to occur.

Cultural safety and inclusion: Risk assessment and controls must consider cultural safety, disability, communication needs, barriers to participation and barriers to reporting.

Voice and participation: Where appropriate, children, families and communities should inform risk identification, service design and review.

No delay in protective action: Risk documentation and consultation must not delay immediate action to protect a child or meet an external reporting obligation.

Continuous improvement: Incidents, complaints, concerns, feedback, audits and near misses must be used to strengthen controls and practice.

5. Governance and accountability

Role	Key responsibility
Council	Approves this framework; provides governance oversight; considers significant or systemic child safety risks through established reporting arrangements.
Chief Executive Officer	Ensures organisational systems, resources and accountabilities support implementation and compliance; receives escalation of significant matters.
Executive Leadership Team	Oversees implementation across Council; considers significant risks, control gaps and systemic issues; allocates responsibility and resources.
Directors, managers and supervisors	Own and manage child safety risks within their areas; ensure assessments, controls, training, supervision, reporting and review are completed.
Child Safe Lead	Coordinates implementation; provides advice and guidance; supports escalation, monitoring, reporting and continuous improvement; does not replace operational risk ownership.
Internal Child Safe Working Group	Supports cross-Council implementation, consistency, review and organisational transition; monitors actions and identifies issues requiring management attention.
Risk owners	Ensure assigned risks are current, controlled, treated, monitored and escalated in accordance with the Corporate Risk Management Framework.
Council personnel	Identify and report risks and concerns; follow controls, codes, procedures and lawful directions; participate in training and review activities.
Contractors, hirers and third parties	Meet applicable child safety requirements in contracts, agreements, permits, conditions of

	use and Council directions; report concerns and incidents as required.

6. Child safety risk management process

Child safety risks must be managed through Council's approved corporate risk management process. The following child-specific considerations supplement that process.

6.1 Establish the context

- Identify the service, facility, activity, event, project or arrangement.
- Clarify whether Council directly supervises children, provides an open-access environment, or relies on a contractor, hirer or partner.
- Identify the children and young people who may be affected, including age, vulnerability, communication, cultural and accessibility considerations.
- Confirm applicable legislation, service standards, agreements, policies and operational procedures.

6.2 Identify risks

- Consider risks arising from people, behaviour, supervision, physical environments, access, transport, online activity, images and information, contractors, hirers and systems.
- Consider grooming opportunities, isolation, one-to-one contact, restricted visibility, mixed-age settings, inadequate screening, unclear responsibilities and failures to report or respond.
- Use incidents, complaints, near misses, feedback, inspection findings and staff observations as sources of risk information.

6.3 Analyse and evaluate

- Use Council's approved consequence, likelihood and risk matrix.
- Assess inherent and residual risk in accordance with the Corporate Risk Management Framework.
- Test whether existing controls are present, understood, consistently applied and effective.
- Consider both direct harm and the consequence of control failure, delayed response or systemic weakness.

6.4 Treat risks

- Apply the hierarchy and types of controls appropriate to the setting.

- Assign each treatment to a responsible officer with a due date and method of verification.
- Prioritise elimination or reduction of risk where practicable.
- Do not rely on policy alone where practical supervision, environmental, contractual or access controls are required.

6.5 Record and escalate

- Record material risks and treatments in the appropriate Council risk register or approved operational record.
- Immediately escalate urgent concerns, suspected harm, significant control failures and high or extreme risks.
- Follow the Child Safe Reporting Policy and Procedure where the matter involves a concern, disclosure, allegation, incident or suspected reportable conduct.

6.6 Monitor and review

- Review controls at planned intervals and when activities, facilities, staffing, contractors or operating conditions change.
- Review after incidents, complaints, disclosures, near misses, audit findings or repeated concerns.
- Close treatments only when completion and effectiveness have been verified.

6.7 Types of controls

Control type	Examples
Governance	Policies, procedures, role clarity, approvals, delegations and reporting pathways.
People	Recruitment, screening, induction, training, supervision, professional boundaries and workforce support.
Activity	Program design, staffing arrangements, sign-in and handover, transport protocols, consent and emergency planning.
Environment	Visibility, lighting, access control, maintenance, restricted areas, toilets and change rooms, signage and facility design.
Third parties	Contract clauses, hire conditions, screening evidence, induction, reporting obligations, monitoring and enforcement.

Digital and information	Approved communication channels, image consent, privacy controls, account access, moderation and recordkeeping.
Response	Accessible complaints, incident response, first aid, escalation, external reporting and post-incident review.

7. Risk appetite and escalation

Risk appetite and tolerance are governed by Council's Corporate Risk Management Framework. The following child safety position guides its application.

Zero tolerance position
Council has zero tolerance for child abuse, grooming, neglect, exploitation, deliberate harmful behaviour, retaliation against a person raising a concern, or a failure to act on known or suspected child safety concerns.

Some residual risk may remain after reasonable controls are applied in public, open-access, mixed-use or third-party environments. Any residual risk must be assessed, documented, accepted at the appropriate authority level, monitored and reviewed in accordance with the Corporate Risk Management Framework.

Immediate escalation is required where:

- a child or young person is in immediate danger;
- abuse, grooming, neglect, exploitation or criminal conduct is suspected;
- a serious incident, disclosure or allegation has occurred;
- a significant supervision, access, screening or contractor control has failed;
- a risk is assessed as high or extreme under Council's approved methodology;
- the issue may affect multiple children, services or facilities;
- the matter indicates a systemic control weakness; or
- external reporting or regulatory notification may be required.

Emergency response
Where a child or young person is in immediate danger, contact emergency services on 000. Internal notification does not replace any legal obligation to report externally.

8. Integration into Council operations

Child safety risk management must be integrated into existing Council processes rather than treated as a stand-alone compliance exercise.

Council process	Required integration

Planning and projects	Consider child safety during service design, project planning, facility changes, new programs and change management.
Events and activities	Include child safety in event risk assessments, contractor briefings, lost-child arrangements, consent, activity design and incident response.
Facilities and public spaces	Consider visibility, access, signage, supervision expectations, restricted areas, maintenance and reporting pathways.
Procurement and contracts	Include proportionate child safety requirements, evidence obligations, incident notification, monitoring and remedies.
Facility hire and community use	Clarify who supervises children, expected conduct, reporting obligations and Council's right to intervene or terminate access.
Workforce and placements	Apply screening, induction, supervision, professional boundaries and reporting requirements to employees, volunteers, trainees and work experience participants.
Digital communication	Use approved channels and controls for direct communication, images, privacy, moderation and records.
Incident and complaint systems	Ensure child-related concerns can be identified, escalated, securely recorded and reviewed.
Budgeting and asset planning	Consider resources required for controls such as signage, training, environmental changes, access systems and supervision.

9. Monitoring, reporting and assurance

Monitoring and reporting must use Council's established governance and risk reporting arrangements. Child safety reporting should be proportionate and protect privacy and procedural fairness.

Relevant measures may include:

- completion and review of child safety risk assessments;
- progress and effectiveness of treatment actions;

- completion of induction, training and screening requirements;
- contractor, hirer and third-party compliance checks;
- incidents, concerns, complaints, disclosures and near misses;
- timeliness of escalation and response;
- recurring themes, control gaps and systemic risks;
- availability of child-friendly reporting information and public-facing commitments; and
- evidence of consultation, cultural safety and continuous improvement.

Significant risks, repeated control failures, overdue high-priority treatments and systemic issues must be escalated through normal management and governance channels. Reporting to Council should focus on material risk, assurance and improvement without disclosing unnecessary personal or sensitive information.

10. Communication, consultation and continuous improvement

Effective child safety risk management requires clear communication and appropriate consultation. Consultation must be proportionate to the issue and must not delay urgent protective action.

- Council personnel must receive clear information about responsibilities, controls and reporting pathways.
- Contractors, hirers and third parties must receive applicable requirements before activities commence.
- Children and young people should be provided with accessible information about expected behaviour, rights and how to raise concerns where appropriate.
- Families, carers, community groups and relevant stakeholders should be consulted where their knowledge will improve risk identification or controls.
- Cultural safety considerations should be informed by appropriate engagement with Aboriginal and Torres Strait Islander people and communities.
- Lessons from incidents, complaints, near misses, audits and feedback must inform improvements to controls, training, procedures and service design.

11. Review

This framework will be reviewed every three years, or earlier following significant legislative change, a serious child safety incident, a material change to Council operations, a significant audit finding or evidence that the framework is not operating effectively.

Review of this framework must be coordinated with review of the Corporate Risk Management Framework and the broader Child Safe Policy Suite to maintain alignment and avoid duplicate or conflicting requirements.

Appendix 1 – Child safety risk contexts and indicative controls

Setting	Indicative risks	Indicative controls
Libraries and learning spaces	Children attending independently; public access; low-visibility areas; after-hours access; external activity providers.	Local supervision guidance; visibility review; approved communication; contractor requirements; clear reporting pathways.
Pools, splash parks and recreation facilities	Physical hazards; unclear supervision; public change rooms; contractor operations; mixed-age use.	Entry and supervision expectations; signage; contractor controls; emergency response; visibility and access review.
Community events and school holiday activities	Large crowds; lost children; temporary infrastructure; external providers; images; sign-in and handover.	Event-specific risk assessment; lost-child process; consent; provider briefing; activity supervision plan; incident contacts.
Halls, civic centres and hired facilities	Unsupervised hire; unclear responsibility; toilets and	Conditions of hire; role clarity; child safe clauses; behaviour

	restricted areas; third-party child-related activities.	expectations; access controls; reporting obligations.
Work experience, trainees and workers under 18	Power imbalance; isolation; transport; inadequate supervision; unclear reporting options.	Placement risk assessment; named supervisor; boundaries; transport controls; induction; accessible concern pathway.
Parks, playgrounds and open public spaces	No direct supervision; physical hazards; unknown adults; poor visibility; public assumptions about Council supervision.	Safe design and maintenance; supervision signage; inspection; public reporting; staff response guidance.
Digital and online environments	Direct messaging; image sharing; privacy breaches; personal accounts; weak moderation.	Approved platforms; consent; access control; recordkeeping; moderation; no personal social media contact.
Contractors, hirers and partners	Unclear responsibilities; inconsistent screening; delayed reporting; reliance without oversight.	Contractual requirements; evidence checks; induction; reporting timeframes; monitoring; corrective and termination rights.
Community care and mixed-age services	Children present in adult services; transport; privacy; third-party involvement; complex vulnerabilities.	Role clarity; privacy controls; screening where required; transport rules; escalation pathways; service-specific assessment.

Appendix 2 – Risk assessment and escalation guide

Council's approved corporate risk matrix and escalation thresholds must be used. The child safety prompts below support professional judgement and do not replace the corporate methodology.

Assessment element	Child safety prompt
Potential consequence	Consider actual or potential physical, psychological, emotional, cultural or sexual harm; neglect; grooming; exploitation; loss of safety or participation; and the effect of delayed response or systemic failure.
Likelihood	Consider frequency of exposure, duration, access, visibility, prior concerns, near misses, control reliability, supervision, contractor involvement and barriers to speaking up.
Control effectiveness	Confirm the control exists, is suitable, is understood, is consistently applied, can be evidenced and is reviewed.
Escalation	Escalate immediately where there is danger, suspected abuse or crime, serious allegation, significant control failure, high or extreme risk, systemic concern or external reporting obligation.
Treatment priority	Prioritise immediate protective action first, then elimination or reduction of risk,

	strengthened controls, assigned actions, due dates and effectiveness review.
Recordkeeping	Use approved Council systems and restrict sensitive information to authorised personnel. Record decisions, actions, referrals and reasons.

Appendix 3 – Definitions

Term	Definition
Child or young person	A person under 18 years of age.
Child safety concern	Any observation, suspicion, allegation, disclosure, complaint, incident, near miss, behaviour or situation that may affect a child's safety, wellbeing or rights.
Child safety risk	An actual, potential or foreseeable circumstance, behaviour, environment, practice, control gap or systemic issue that may cause or contribute to harm or reduce Council's ability to prevent, identify, respond to or report concerns.
Control	A measure that modifies risk by reducing likelihood, consequence or exposure.
Council personnel	Councillors, employees, volunteers, contractors, consultants, labour-hire personnel, students, trainees, apprentices and others engaged by or acting on behalf of Council.
Cultural safety	An environment or practice in which cultural identity, experience and rights are respected and supported, and a person is not diminished, excluded or made unsafe.

Duty of care	The obligation to take reasonable steps to prevent reasonably foreseeable harm.
Harm	Physical, psychological, emotional, cultural or sexual harm, abuse, neglect, grooming, exploitation or other conduct or circumstance placing a child at risk.
Near miss	An event or circumstance that could have resulted in harm but did not do so on that occasion.
Open-access environment	A Council environment accessible to the public without direct Council supervision or controlled entry at all times.
Reportable conduct	Conduct that must be notified, investigated or otherwise managed under applicable reportable conduct legislation.
Risk owner	The officer accountable for ensuring a risk is identified, assessed, treated, monitored, reviewed and escalated in accordance with Council's risk framework.
Third party	A contractor, subcontractor, hirer, tenant, partner, funded provider, consultant, activity provider or community group whose activity may involve children or Council facilities used by children.

POLICY TITLE:	Supervision and Duty of Care Policy
POLICY NUMBER:	
REVISION NUMBER:	
TRIM REFERENCE:	SF14/411 - R14/
RESOLUTION NUMBER:	N/A
POLICY TYPE:	Administration
APPROVING OFFICER:	Council
DATE OF ADOPTION:	30 October 2026
TIME PERIOD OF REVIEW:	3 Years
DATE OF NEXT REVIEW:	30 October 2029
RESPONSIBLE DEPARTMENT:	Community Services and Wellbeing

1. OBJECTIVE

Flinders Shire Council is committed to providing environments that support the safety, wellbeing and dignity of children and young people.

The purpose of this Policy is to:

- establish Council's duty of care obligations towards children and young people;
- define Council's supervision principles and expectations;
- support the prevention of reasonably foreseeable harm;
- clearly define the responsibilities of Council personnel; and
- support compliance with child safety, work health and safety and other relevant legislative obligations.

This Policy must be read in conjunction with the Supervision and Duty of Care Procedure and Council's other child safe governance documents.

2. SCOPE

This Policy applies to:

- Councillors;
- employees;
- volunteers;
- contractors and consultants;
- labour-hire personnel;
- students, trainees and apprentices; and
- any other person engaged by or acting on behalf of Council.

Collectively, these people are referred to in this Policy as Council personnel.

This Policy applies across Council services, programs, facilities, activities, events and online environments where children and young people participate, attend, access services or may otherwise be present.

The application of Council's duty of care will vary according to:

- the nature of the service, program, facility or activity;
- the level of supervision provided by Council;
- Council's authority, responsibility and control;
- the age, needs and vulnerability of the children involved; and
- the risks associated with the particular environment or activity.

This Policy establishes Council's general duty of care and supervision requirements. It does not replace any specific statutory, regulatory or professional requirements applying to regulated services, facilities or higher-risk activities.

3. DEFINITIONS

Term	Definition
Child or young person	A person under 18 years of age.
Child Safe Lead	The Council officer responsible for coordinating child safety advice, reporting and escalation.
Child Safety Concern	Any concern, allegation, suspicion, disclosure, complaint, incident or behaviour that may affect the safety or wellbeing of a child or young person.
Council personnel	Any person engaged by, volunteering for, contracted to, or acting on behalf of Council, including Councillors, employees, volunteers, contractors, consultants, labour-hire personnel, students, trainees and apprentices.
Duty of care	The obligation to take reasonable steps to prevent reasonably foreseeable harm.
Harm	Physical, emotional, psychological or sexual harm, neglect, grooming, exploitation or other conduct creating risk to a person.
Reasonable steps	Actions that are sensible, proportionate and appropriate in the circumstances to reduce foreseeable risk.
Supervision	The monitoring, guidance, oversight and support provided to reduce risks and maintain safety

4. ROLES AND RESPONSIBILITIES

Role	Responsibility
Council	Council is responsible for: • providing governance oversight; • supporting the implementation of Council's child safe governance framework; and • ensuring appropriate resources are available to support compliance with Council's child safety obligations.
Chief Executive Officer	The Chief Executive Officer is responsible for: • organisational implementation of this Policy; • ensuring appropriate systems and resources are in place; • supporting compliance with relevant legislative and regulatory obligations; and • promoting an organisational culture that prioritises child safety and wellbeing.
Managers and supervisors	Managers and supervisors must: • implementing this Policy within their areas of responsibility;

	• ensuring appropriate supervision arrangements are established; • identifying, assessing and managing relevant risks; • responding appropriately to concerns and incidents; • ensuring personnel receive appropriate guidance, induction and training; and • monitoring compliance with this Policy and related procedures.
Child Safe Lead	The Child Safe Lead is responsible for: • providing advice and coordination on child safety matters; • supporting the implementation of Council's child safe governance framework; • assisting with reporting and escalation requirements; • monitoring emerging child safety risks and compliance requirements; and • supporting continuous improvement.
Council Personnel	All Council personnel must: • comply with this Policy and related Council procedures; • exercise appropriate judgement; • take reasonable steps to prevent reasonably foreseeable harm; • follow applicable supervision and risk management requirements; • report child safety concerns, incidents, complaints, disclosures and allegations; • participate in required induction, training and supervision; and • contribute to safe, respectful and inclusive environments.

5. POLICY

5.1 Duty of Care

Council personnel have a duty of care to take reasonable steps to prevent reasonably foreseeable harm arising in connection with Council services, programs, facilities, activities, events and environments involving children and young people.

Duty of care is an ongoing responsibility that requires risk-based decision-making and active management of known and reasonably foreseeable risks.

Council personnel must not rely solely on another person or organisation to manage risks that fall within Council's responsibility or control.

Council does not guarantee that harm will never occur. However, Council personnel must act reasonably to identify, prevent, reduce and respond to risks within the scope of their role and authority.

5.2 Supervision

Appropriate supervision is a key component of Council's duty of care.

Supervision arrangements must be proportionate to:
- the nature of the activity;
- the environment;
- identified risks;
- the age and vulnerability of participants; and
- Council's level of responsibility and control.

Supervision requirements must be identified during the planning and risk assessment process for relevant services, programs, activities and events.

Where legislation, regulation, professional standards or industry requirements prescribe supervision arrangements or adult-to-child ratios, those requirements must be followed.

5.3 Child Safety

Council Personnel must:
- uphold the Child Safety and Wellbeing Policy;
- comply with the Child Safe Code of Conduct;
- identify and report child safety concerns;
- take action when a child may be at risk of harm; and
- follow Council reporting and escalation requirements.

5.3 Direct supervision

Where Council personnel directly supervise children participating in a Council-managed service, program, activity or event, Council is responsible for establishing appropriate arrangements to protect their safety and wellbeing.

This includes ensuring:
- responsibilities are clearly allocated;
- appropriate supervision levels are maintained;
- personnel understand the relevant risks and controls;
- children are not placed in isolated or unsafe situations;
- arrival, departure and handover arrangements are clear where applicable;
- emergency arrangements are established;
- incidents and concerns are responded to appropriately; and
- personnel follow the Child Safe Code of Conduct.

5.4 Open and public environments

Council recognises that children may be present in open-access and public environments such as libraries, parks, playgrounds, swimming pools, visitor facilities and community venues.
In these environments, Council personnel may not hold direct or continuous responsibility for supervising individual children.

Council's duty of care may instead be met by taking reasonable steps within its control, including:
- maintaining facilities in a reasonably safe condition;
- identifying and addressing known hazards;
- establishing appropriate conditions of entry or use;

- providing signs and safety information;
- maintaining appropriate visibility and environmental controls;
- responding to unsafe or inappropriate behaviour; and
- acting on child safety concerns when they arise.

Parents, carers and guardians retain responsibility for supervising children in public or open-access settings unless Council has expressly accepted direct supervision responsibility.

5.5 Child safety

Council personnel must:

- uphold Council's Child Safety and Wellbeing Policy;
- comply with the Child Safe Code of Conduct;
- identify and report child safety concerns;
- take appropriate action when a child may be at risk of harm;
- listen to and take seriously concerns raised by children and young people; and
- follow Council's reporting and escalation requirements.

Nothing in this Policy replaces a legal obligation to report a matter to Queensland Police, the relevant child protection authority or another regulatory body.

5.6 Reasonable steps

When exercising duty of care, Council personnel must take reasonable steps to:

- provide and maintain safe environments;
- identify and assess foreseeable risks;
- implement appropriate controls;
- establish suitable supervision arrangements;
- comply with relevant legislation, policies, procedures and instructions;
- respond promptly to incidents and concerns;
- provide access to first aid and emergency assistance where required;
- seek advice where responsibilities are unclear; and
- escalate significant or unresolved risks.

What constitutes a reasonable step will depend on the particular circumstances, including the nature and likelihood of the risk, the potential seriousness of the harm and Council's ability to eliminate or reduce the risk.

5.7 Council facilities and activities

Council will take reasonable and proportionate steps to ensure that facilities, services and activities involving children and young people are managed safely and that child safety risks are appropriately controlled.

Depending on the circumstances, these steps may include:

- undertaking risk assessments;
- maintaining safe premises and equipment;
- establishing appropriate supervision arrangements;
- considering visibility, access, lighting and isolated areas;
- managing access to change rooms, toilets and private spaces;
- establishing expected standards of behaviour;
- maintaining emergency and incident response arrangements; and

- providing appropriate child safety and reporting information.

Service-specific procedures, risk assessments and operating requirements must be maintained where additional controls are required.

5.8 Contractors, hirers and third parties

Council will communicate relevant safety and child safe requirements to contractors, hirers, lessees, licensees, funded partners, event organisers and other third parties.

Relevant requirements may be included in:

- contracts;
- procurement documentation;
- funding agreements;
- facility hire agreements;
- permits;
- leases and licences;
- event approvals;
- conditions of use;
- induction processes; and
- site access requirements.

Third parties are responsible for complying with the safety and child safe obligations applying to their activities.

Where a third party delivers an activity or uses a Council facility, the third party will generally hold primary responsibility for supervising children participating in its activity. Council remains responsible for matters within its control, including the condition of Council premises and the management of identified risks within Council's area of responsibility.

Council may require corrective action, restrict or suspend access, terminate an arrangement or report a concern to an appropriate authority where relevant requirements are not met.

5.9 Standard of care

Council personnel must exercise a standard of care consistent with:

- their role and responsibilities;
- their qualifications;
- their training and experience;
- the nature of the service or activity;
- the needs and vulnerability of the children involved;
- the identified risks; and
- the circumstances in which they are operating.

Council personnel must seek advice from their supervisor, manager or the Child Safe Lead if they are unsure about the standard of care or supervision required.

5.10 Reporting and escalation

Council personnel must promptly report:

- safety and child safety concerns;
- identified or emerging risks;

- incidents and injuries;
- complaints;
- disclosures;
- suspected abuse or neglect;
- allegations of inappropriate conduct; and
- actual or suspected breaches of this Policy.

If a child or young person is in immediate danger, Council personnel must contact Queensland Police or emergency services on 000.

Internal reporting requirements must also be followed. Internal reporting does not replace any legal obligation to report a matter to an external authority.

Detailed reporting requirements are contained in Council's Child Safe Reporting Policy, Child Safe Reporting Procedure and Child Safe Complaints Policy.

5.11 Breach of duty of care

A breach of duty of care may occur where a person fails to take reasonable steps to prevent, identify, manage or respond to reasonably foreseeable harm within the scope of their role or responsibility.

A breach may include:

- failing to identify or manage a known risk;
- failing to provide appropriate supervision;
- failing to follow an established risk control;
- failing to respond to an incident or concern;
- failing to report a child safety concern;
- failing to comply with this Policy or a related procedure; or
- acting outside the person's authority, qualifications or training in a way that exposes a child to risk.

Depending on the circumstances, a breach may result in:

- corrective action;
- additional training or supervision;
- restriction or reassignment of duties;
- disciplinary action;
- termination of employment or engagement;
- contract management action;
- restriction or termination of facility access; or
- referral to Queensland Police, a child protection authority, a regulator or another external body.

6. COUNCIL EXCEPTIONS

This Policy does not apply to:

- matters that do not involve children or young people;
- complaints managed solely under Council's Corporate Complaints Policy;
- industrial or employment matters that do not involve child safety issues; or
- matters occurring entirely outside Council services, facilities, programs, events or Council-managed environments where Council has no operational responsibility

7. IMPLEMENTATION

7.1 Child Safe Governance Framework
Council will maintain a suite of child safe policies, procedures, frameworks, forms and guidance materials that support implementation of this Policy.

7.2 Risk Management
Council will identify, assess and manage child safety risks through its risk management framework and operational planning processes.

7.3 Recruitment, Screening and Training
Council will maintain recruitment, screening, induction and training processes designed to support child safe practice and legislative compliance.

7.4 Reporting and Complaints
Council will maintain child-focused processes for reporting, responding to and managing child safety concerns, disclosures, incidents, allegations and complaints.

7.5 Communication
Council will communicate this Policy and relevant child safety requirements to Council personnel and applicable contractors, volunteers, facility users and third parties.

Child-friendly and community-facing information will be made available where appropriate.

7.6 Continuous Improvement
Council will monitor child safety performance, review incidents and feedback, and regularly assess the effectiveness of its child safe systems and controls

Adopted at the October 2026 Council Meeting - Resolution Number

AGENDA
30 OCTOBER 2026 – 9:00 AM
McNAMARA BOARDROOM

2.04.04 COMMUNITY CARE POLICY SUITE

Author: Community Care Manager
Authorising Officer: Director of Community Services and Wellbeing
Disclosure of Interest: The Author and Authorising Officer declare that they do not have any conflicts of interest in relation to this item.

OFFICER'S RECOMMENDATION
That Council:
Adopt the following new and updated documents forming part of the Flinders Shire Council Community Care Policy Suite:

- Community Care Regulatory Compliance Policy
- Managing Responsible Persons Registration and Suitability Policy
- Incident Reporting, Investigation and Escalation Policy
- Community Care Feedback and Complaints Management Policy
- Assessment and Care Planning Policy
- Associated Providers Engagement and Management Policy
- Medication Management Policy
- Deterioration and Escalation of Care Policy, and;
- Community Care Clinical and Care Governance Framework; and

authorise the Chief Executive Officer to make minor administrative and formatting amendments that do not materially alter the intent of the adopted documents.

Executive Summary

Ongoing review of Council's Community Care Policy Suite has been undertaken to support the ongoing delivery of safe, person-centred and compliant aged care services.

The review responds to changes arising from the *Aged Care Act 2024*, the *Aged Care Rules 2025*, the strengthened Aged Care Quality Standards and Council's Community Care service model. It also establishes clearer governance arrangements for regulatory compliance, responsible persons, associated providers, incident management, complaints, assessment and care planning, medication support, deterioration and escalation, and clinical and care governance.

Three new policies and six updated documents are presented for adoption. Collectively, they strengthen the governance framework through which Council oversees Community Care quality, safety, rights, risks, regulatory obligations and continuous improvement.

AGENDA
30 OCTOBER 2026 – 9:00 AM
McNAMARA BOARDROOM

Background

Council delivers funded home and community aged care services, including services under the Commonwealth Home Support Programme and Support at Home arrangements. Council's policies must reflect its responsibilities as a registered aged care provider while remaining proportionate to the nature and scope of the services it delivers.

The proposed policy updates clarify Council's service boundaries, governance responsibilities, escalation requirements and oversight of services delivered by external organisations.

The following documents are presented for adoption:

- **Community Care Regulatory Compliance Policy – new.** Establishes the governance framework for identifying, managing, monitoring and reporting legislative, regulatory, contractual, funding and quality obligations applying to Community Care. It also provides for workforce compliance, regulatory monitoring, assurance activities, reporting to Council and management of actual or suspected non-compliance.
- **Managing Responsible Persons Registration and Suitability Policy – new.** Establishes arrangements for identifying Responsible Persons, assessing and monitoring suitability, maintaining the Responsible Persons Register, meeting worker-screening requirements and notifying the Aged Care Quality and Safety Commission of relevant changes.
- **Incident Reporting, Investigation and Escalation Policy – updated.** Establishes a consistent approach to reporting, assessing, responding to, investigating and learning from incidents and near misses, including compliance with applicable Serious Incident Response Scheme requirements.
- **Community Care Feedback and Complaints Management Policy – updated.** Strengthens accessible and culturally safe complaint pathways, protection from reprisal, safety triage, open disclosure, internal review, external complaint pathways and the use of feedback and complaints to improve services.
- **Assessment and Care Planning Policy – updated.** Establishes requirements for collaborative assessment, individualised care planning, dignity of risk, monitoring, formal and triggered reviews, referral, coordination and management of needs that fall outside Council's registered scope or workforce capability.
- **Associated Providers Engagement and Management Policy – new.** Establishes requirements for classifying, engaging, contracting, monitoring and exiting arrangements with organisations delivering funded aged care services on Council's behalf. It confirms that Council retains responsibility for the quality, safety and compliance of those services.
- **Medication Management Policy – updated.** Defines Council's non-clinical medication-support model and clearly distinguishes permitted prompting and practical assistance from medication administration and clinical decision-making. It also establishes assessment, planning, competency, recording, escalation and incident-management requirements.
- **Deterioration and Escalation of Care Policy – updated.** Establishes requirements for recognising, responding to, communicating and escalating changes in a client's physical health, cognition, mental health, behaviour, function, circumstances or wellbeing. The policy includes emergency, urgent, gradual, rural and after-hours escalation considerations.

- **Community Care Clinical and Care Governance Framework – updated.** Integrates clinical and care governance into Council's corporate governance arrangements and establishes accountabilities for risk management, external clinical input, workforce capability, incidents, complaints, associated providers, quality monitoring and continuous improvement.

The policy suite provides clearer separation between Council's governing-body oversight and the operational responsibilities assigned to the Chief Executive Officer, Director Community Services and Wellbeing, Community Care Team Leader, Care Managers, support workers and other personnel.

It also recognises that delegating operational functions or engaging Associated Providers does not remove Council's responsibility to maintain appropriate oversight of Community Care quality, safety and compliance.

Statutory/Compliance Matters

The new and updated documents support Council's compliance with applicable obligations and requirements, including:

- *Aged Care Act 2024*;
- *Aged Care Rules 2025*;
- Statement of Rights;
- Aged Care Code of Conduct;
- Strengthened Aged Care Quality Standards;
- Serious Incident Response Scheme requirements;

The policies are particularly relevant to strengthened requirements concerning:

- governance and accountability;
- quality systems;
- assessment and care planning;
- safe service delivery;
- communication for safety and quality;
- incident management;
- complaints and feedback;
- responsible person suitability;
- oversight of Associated Providers;
- workforce screening, training and competency;
- rights-based and person-centred care; and
- clinical governance where Council provides Category 4 care management.

Adoption of the policies provides the formal governance foundation. Compliance will also depend on implementation through operational procedures, registers, controlled forms, staff training, competency assessment, monitoring, reporting and continuous improvement.

Financial / Budget Implications

There is no immediate material budget implication arising solely from adoption of the policies.

Implementation will require staff time and operational resources for:

- workforce education and competency assessment;
- regulatory and compliance monitoring;
- maintenance of Responsible Persons and Associated Providers registers;
- incident and complaints management;
- care-plan review and assurance activities;
- policy and procedure implementation;
- audits and records management; and
- ongoing quality and governance reporting.

Where implementation identifies additional resource, system, training, contractual or service-delivery requirements outside existing budgets, these will be considered through Council's normal budget and approval processes.

Consultation/engagement

The new and updated documents have been developed following a detailed review of Council's Community Care governance arrangements, policy suite, service scope and emerging regulatory requirements.

Implementation will require ongoing engagement with Community Care workers, relevant corporate support areas, clients and supporters, Associated Providers and external health professionals.

Clients, supporters and workers will also be provided with appropriate information about changes affecting their rights, responsibilities, service arrangements, complaint pathways and safety escalation processes.

Risk Implications

The key risk is that the policy suite is adopted but not consistently implemented. This could result in unclear responsibilities, outdated procedures remaining in use, insufficient staff training, incomplete records and inconsistent oversight of Associated Providers.

These risks will be managed through final document-control checks, withdrawal of superseded policies, implementation of supporting procedures and registers, role-specific training and competency assessment, and ongoing monitoring through Community Care governance and Council reporting.

Strategic Impacts

The new and updated policies support Council's commitment to safe, sustainable and person-centred Community Care services.

The suite establishes a clearer connection between Council's corporate governance responsibilities and the operational systems used to deliver funded aged care services. It also clarifies Council's non-clinical service boundaries, responsibilities for obtaining external clinical support and expectations for Associated Providers delivering services on Council's behalf.

The Clinical and Care Governance Framework provides the overarching structure for integrating client rights, assessment, care planning, workforce capability, risk, incidents, complaints, service monitoring and continuous improvement into Council's established governance arrangements.

Conclusion

The proposed policies represent a significant update to Council's Community Care governance framework.

The suite responds to the current aged care legislative and quality environment and provides clearer arrangements for regulatory compliance, Responsible Persons, incidents, complaints, care planning, Associated Providers, medication support, deterioration and clinical and care governance.

Adoption of the nine documents is recommended to support safe, rights-based and accountable service delivery and provide Council with appropriate oversight of Community Care quality, safety, compliance and improvement.

1. OBJECTIVE

The purpose of this policy is to establish the governance framework through which Flinders Shire Council (Council) identifies, manages, monitors and reports compliance obligations relating to the delivery of Community Care services.

Council is committed to providing safe, quality and rights-based care and services and meeting its obligations under applicable legislation, regulatory requirements, funding agreements, program guidelines and quality standards.

This policy supports Council to:

- maintain effective systems for regulatory compliance and continuous improvement;
- clearly define accountability for compliance from the governing body through to operational service delivery;
- identify, monitor and respond to compliance risks and actual or suspected non-compliance;
- ensure workers understand the regulatory requirements relevant to their roles;
- maintain appropriate records and evidence of compliance;
- provide the governing body with sufficient information to exercise effective oversight of Community Care services;
- oversee services delivered on Council's behalf by Associated Providers; and
- uphold the rights, safety, wellbeing, dignity and quality of life of people receiving Community Care services.

This policy primarily supports compliance with Strengthened Aged Care Quality Standard 2: The Organisation, particularly Outcome 2.3: Accountability, quality system and policies and procedures. It also supports relevant requirements relating to governance, risk management, workforce management, complaints and feedback, incident management, continuous improvement and emergency and disaster management.

2. SCOPE

This policy applies to Council's Community Care services and to:

- Council, when exercising its governing body responsibilities;
- the Chief Executive Officer;
- the Director Community Services & Wellbeing;
- the Community Care Team Leader;
- employees and volunteers involved in Community Care;
- students and work placement participants;
- contractors and consultants, where relevant to the services they provide; and
- Associated Providers and their workers, where they deliver services on behalf of Council.

Regulatory requirements differ between aged care, disability support and other Community Care programs. Requirements under aged care legislation apply only where relevant to Council's delivery of funded aged care services.

Council's corporate policies and procedures continue to apply to Community Care unless a specific Community Care requirement imposes an additional or more specific obligation.

3. DEFINITIONS

Aged Care Worker	A person who meets the definition of an aged care worker under applicable aged care legislation.
Associated Provider	An organisation that delivers funded aged care services on behalf of Council and meets the applicable definition under aged care legislation.
Compliance	Meeting applicable legislative, regulatory, contractual, funding, professional, quality and Council requirements.
Governing Body	For the purposes of Council's aged care governance arrangements, Council as the body responsible for governing the organisation and maintaining oversight of the delivery of funded aged care services.
Non-compliance	An actual or suspected failure to meet an applicable legislative, regulatory, contractual, funding, professional, quality or Council requirement.
Quality System	Council's coordinated governance arrangements, policies, procedures, reporting, monitoring, risk management, assurance and continuous improvement processes used to support safe and quality Community Care services.
Responsible Person	A person who meets the definition of a responsible person under applicable aged care legislation.
Worker	For the purposes of this policy, an employee, volunteer, student, contractor, consultant, Associated Provider worker or other person engaged in delivering or supporting Community Care services.

4. ROLES AND RESPONSIBILITIES

Council/Governing Body	Council will: • maintain oversight of the quality, safety and regulatory compliance of funded aged care services; • set strategic expectations for safe, quality and compliant Community Care services; • consider regular reports on quality, safety, compliance, risk and service performance; • monitor significant compliance risks, incidents, breaches and corrective actions; • monitor whether appropriate resources and systems are in place to support compliant service delivery; • monitor investment in priority areas affecting the quality and safety of services; and • promote a culture of quality, safety, inclusion, accountability and continuous improvement.
CEO	The Chief Executive Officer will: • maintain executive oversight of Community Care regulatory compliance; • ensure appropriate organisational systems and resources support Community Care quality, safety and compliance;

	• ensure clear executive and operational accountability for Community Care services; • review significant compliance risks, incidents, breaches and corrective actions; • ensure material regulatory matters are escalated to Council where appropriate; and • support appropriate reporting and notification to regulators and government agencies.
Director Community Services and Wellbeing	The Director Community Services & Wellbeing will: • maintain executive oversight of the Community Care compliance and quality management framework; • ensure appropriate compliance, risk, incident, complaint and improvement registers are maintained; • monitor compliance performance and emerging regulatory risks; • ensure legislative, regulatory and program changes are assessed and incorporated into policies, procedures and operational practices; • ensure significant actual or suspected non-compliance is investigated, managed and escalated appropriately; • oversee the implementation and monitoring of corrective and improvement actions; • ensure appropriate oversight of Associated Providers; • provide regular compliance, quality, safety and risk reporting through Council's corporate reporting arrangements; and • immediately escalate material compliance concerns to the Chief Executive Officer.
Community Care Team Leader	The Community Care Team Leader will: • manage the day-to-day implementation of Community Care regulatory requirements; • maintain operational records and evidence demonstrating compliance; • monitor worker compliance with policies, procedures, screening, training, competency, licence and registration requirements; • support workers to understand the requirements relevant to their roles; • identify and escalate actual or potential compliance issues; • manage operational corrective actions and continuous improvement activities; • monitor Associated Provider compliance in accordance with contractual and governance arrangements; and • provide compliance, quality and service performance information to the Director Community Services & Wellbeing.
Workers	Workers will: • understand and comply with legislation, policies, procedures and requirements relevant to their roles; • complete required screening, induction, training and competency requirements; • maintain licences, registrations, clearances and other role-specific requirements; • notify Council of any matter that may affect their suitability, screening status, licence, registration or ability to perform their role; • report actual or suspected non-compliance, incidents, risks, complaints or concerns promptly; • participate in audits, reviews, investigations and continuous improvement

	activities as required; and • cooperate with corrective actions arising from identified compliance issues.

5. POLICY

5.1 Compliance and quality system

Council will maintain a proportionate compliance and quality system for Community Care services. The system will:

- identify relevant legislative, regulatory, contractual, funding and quality requirements;
- allocate responsibilities and accountabilities;
- establish strategic and operational expectations;
- enable Council to monitor Community Care performance;
- support the identification and management of risks;
- incorporate information from complaints, feedback, incidents, audits, workforce monitoring and service performance;
- support corrective action and continuous improvement; and
- provide evidence that relevant obligations are being monitored and managed.

5.2 Regulatory identification and monitoring

Council will:

- identify legislation, regulations, standards, funding agreements and program requirements relevant to Community Care;
- monitor information issued by relevant regulators and government agencies;
- assess the implications of regulatory and program changes for Council's services, workers, clients, governance documents and systems;
- allocate responsibility for implementing required changes; and
- communicate relevant changes to affected workers, clients, supporters and other stakeholders as appropriate.

Relevant sources may include:

- the Australian Government Department of Health, Disability and Ageing;
- the Aged Care Quality and Safety Commission;
- the NDIS Quality and Safeguards Commission;
- relevant Queensland Government departments;
- local government and legal advisory services; and
- recognised industry bodies.

5.3 Policies and procedures

Council will maintain policies and procedures appropriate to its Community Care operations. Community Care policies and procedures will:

- be consistent with applicable legislation, regulatory obligations and program requirements;
- clearly describe relevant responsibilities and operational requirements;
- be informed by contemporary evidence and practice, where applicable;
- be accessible and understandable to workers and relevant parties;
- be communicated through induction, training and operational guidance;
- be implemented and monitored; and
- be reviewed regularly and when a relevant review trigger occurs.

Workers must comply with Community Care policies and procedures applicable to their roles.

5.4 Workforce compliance

Council will maintain systems to ensure workers are suitable and appropriately qualified, skilled and supported to perform their roles. These systems will include, as applicable:

- pre-employment and pre-engagement screening;
- police certificates or other recognised worker screening clearances;
- banning order checks;
- qualification and employment history checks;
- professional registration checks;
- driver's licence and role-specific licence checks;
- induction and mandatory training;
- competency assessment and supervision;
- Code of Conduct education and monitoring; and
- periodic review of screening, registration, licence and training records.

Workers whose required screening, licence or registration has expired, been suspended or otherwise become invalid must not undertake duties requiring that clearance until the matter has been resolved.

Council will maintain appropriate records of worker screening and role-specific requirements. Screening and compliance requirements will also be applied to workers engaged through Associated Providers where required.

5.5 Responsible Persons

Council will:

- identify Responsible Persons in accordance with applicable aged care legislation;
- assess suitability before appointment or commencement in the relevant role;
- periodically reassess suitability;
- maintain appropriate records supporting suitability assessments;
- require Responsible Persons to disclose matters that may affect their suitability; and
- notify the relevant regulator of changes where required.

5.6 Associated Providers

Where Council engages an Associated Provider to deliver funded aged care services on its behalf, Council will maintain appropriate governance and oversight arrangements. These arrangements will address, where applicable:

- the scope and standard of services to be delivered;
- compliance with relevant legislation, standards, funding requirements and Council policies;
- worker screening, qualification, training and competency requirements;
- client rights, privacy and information management;
- care records and record keeping;
- complaints and feedback;
- incident and regulatory reporting;
- risk management;
- service performance reporting;
- information sharing;
- audit and assurance rights;
- corrective action requirements; and
- escalation of quality, safety and compliance concerns.

Council will monitor Associated Provider performance and address identified deficiencies in accordance with applicable agreements and governance arrangements.

5.7 Monitoring and assurance

Council will use monitoring and assurance activities to determine whether Community Care obligations are being met. Activities may include:

- compliance registers and checklists;
- internal audits and file reviews;
- worker screening and training reviews;
- client agreement and care plan reviews;
- risk and control reviews;
- complaints and feedback analysis;
- incident trend analysis;
- service delivery and funding performance monitoring;
- Associated Provider performance reviews;
- management review;
- external audits or assessments; and
- review of corrective and improvement actions.

Monitoring activities will be proportionate to the level of risk and the nature of the obligation being assessed.

5.8 Reporting to Council

Regular quality, safety, compliance and risk information will be provided to Council through established corporate reporting arrangements. Reporting may include:

- the status of key regulatory and funding obligations;
- workforce screening, mandatory training and competency;
- client agreements and care planning;
- incidents and reportable incidents;
- complaints, feedback and compliments;
- identified compliance gaps or breaches;
- Community Care risks and controls;
- audit and assurance findings;
- continuous improvement activities;
- Responsible Person requirements;
- Associated Provider performance; and
- significant regulatory or program changes.

Significant compliance events or risks will be escalated outside the normal reporting cycle where necessary. Operational reporting measures may be maintained in a compliance register, assurance framework or reporting template rather than in this policy.

5.9 Regulatory reporting and notification

Council will meet applicable regulatory reporting and notification requirements within required timeframes. Responsibility for preparing, reviewing and authorising regulatory submissions will be allocated according to:

- the nature and significance of the obligation;
- Council's delegations and administrative arrangements;
- funding and program requirements; and
- relevant regulatory directions.

Appropriate evidence of submissions, approvals and notifications will be retained in Council's records management system.

5.10 Actual or suspected non-compliance

Actual or suspected non-compliance must be reported promptly to the Community Care Team Leader or Director Community Services & Wellbeing. The matter will be assessed having regard to:

- the actual or potential impact on clients;
- the seriousness and duration of the issue;
- whether the issue is isolated or systemic;
- applicable reporting or notification requirements;
- contractual and funding implications;
- the risk of recurrence; and
- the level of organisational and reputational risk.

Council will take action proportionate to the seriousness of the matter. This may include:

- immediate action to protect affected clients;
- escalation to senior management;
- investigation and preservation of relevant evidence;
- notification to a regulator, funding body, insurer or other authority;
- open disclosure and communication with affected people;
- corrective or disciplinary action;
- changes to policies, procedures, training or systems;
- review of contracts or Associated Provider arrangements;
- recording the matter in relevant risk, incident or improvement registers; and
- monitoring corrective actions through to completion.

Significant non-compliance will be escalated to the Chief Executive Officer and, where appropriate, Council.

5.11 Continuous improvement

Council will use compliance monitoring, client and worker feedback, complaints, incidents, audits, risks and service performance information to identify opportunities for improvement. Improvement activities will, where appropriate:

- identify the issue and its underlying cause;
- describe the required action;
- allocate responsibility;
- establish a completion date;
- record evidence of completion;
- assess whether the action was effective; and
- be reported through relevant operational and governance channels.

5.12 Information for clients, supporters and workers

Council will provide relevant information about Community Care rights, responsibilities, services and regulatory changes in a form that is reasonably accessible and appropriate to the intended audience. Information may be provided through:

- client agreements and service information;
- letters and notices;
- newsletters;
- meetings and consultations;
- worker induction and training;
- Council's website;
- posters and information sheets; and
- direct communication with affected people.

Council will regularly communicate relevant quality, safety and service improvement information to clients, their supporters and workers where appropriate.

6. COUNCIL EXCEPTIONS

This policy applies only to the provision of Community Care services within the Community Services and Wellbeing directorate. Where this policy does not apply, reference should be made to the corporate policies and procedures that are intended to apply generically across all service areas of FSC.

7. IMPLEMENTATION

Community Care will maintain operational procedures, registers, reporting tools and appropriate evidence demonstrating implementation. Implementation will be supported through:

- induction and ongoing worker education;
- monitoring regulatory updates;
- policy and procedure review;
- risk and incident management;
- complaints and feedback systems;
- worker screening and competency monitoring;
- Associated Provider oversight;
- audits and quality reviews;
- continuous improvement processes; and
- management and Council reporting.

Workers will be informed of regulatory requirements relevant to their roles and of material changes affecting their responsibilities.

13. APPROVAL

Adopted at the October 2026 Council Meeting - Resolution Number.

POLICY TITLE:	Managing Responsible Persons Registration and Suitability policy
POLICY NUMBER:	
REVISION NUMBER:	1
TRIM REFERENCE:	
RESOLUTION NUMBER:	
POLICY TYPE:	Strategic
APPROVING OFFICER:	Council Adoption
DATE OF ADOPTION:	30 October 2026
TIME PERIOD OF REVIEW:	3 years
DATE OF NEXT REVIEW:	30 October 2029
RESPONSIBLE DEPARTMENT:	Community Care

1. OBJECTIVE

The purpose of this policy is to establish the governance framework through which Flinders Shire Council (Council), as a registered aged care provider:

- identifies the individuals who meet the statutory definition of a Responsible Person;
- assesses and monitors the suitability of Responsible Persons;
- ensures Responsible Persons meet applicable worker screening requirements;
- maintains complete and secure records of determinations and suitability assessments;
- responds appropriately to information that may affect a Responsible Person's suitability; and
- notifies the Aged Care Quality and Safety Commission of relevant changes within required timeframes.

This policy supports Council's compliance with the *Aged Care Act 2024*, *Aged Care Rules 2025* and applicable Aged Care Quality Standards.

It particularly supports Strengthened Aged Care Quality Standard 2: The Organisation, including Outcome 2.3: Accountability, quality system and policies and procedures.

2. SCOPE

This policy applies to:

- positions and individuals being assessed to determine whether they meet the statutory definition of a Responsible Person;
- all individuals identified as Responsible Persons of Council;
- the Chief Executive Officer;
- the Director Community Services & Wellbeing;
- the Community Care Team Leader;
- employees responsible for administering Responsible Person assessments, records and notifications; and
- Council officers authorised to review or approve suitability determinations and regulatory notifications.

Being a Councillor, executive manager or senior Council employee does not, by itself, result in an individual being designated as a Responsible Person. Each position must be assessed against the statutory definition as it applies to a government entity.

3. DEFINITIONS

Commission	The Aged Care Quality and Safety Commission.
Government Provider Management System	The Australian Government system in which registered provider information, including information about Responsible Persons, may be recorded following the Commission's processing of a notification.
Responsible Person	A person who is responsible for the strategic planning and management of aged care services or the day-to-day operations of an approved home care service, and/or a registered nurse who has responsibility for the overall management of nursing services delivered by the provider or at an approved home care service.
Responsible Persons Register	Council's controlled record of current and former Responsible Persons, assessments, relevant dates, notification status and review requirements.
Service delivery branch	A place of business through which Council delivers funded aged care services and for which a person has responsibility for day-to-day operations, as defined under applicable aged care legislation.
Suitability assessment	Council's documented consideration of the suitability matters applicable to a Responsible Person.
Suitability Matter	A matter prescribed by section 13 of the Aged Care Act 2024 or the Aged Care Rules 2025 that must be considered when determining whether a person is suitable to be a Responsible Person.
Worker Screening Requirement	Screening requirements prescribed under the Aged Care Rules 2025 that apply to responsible persons and aged care workers.

4. ROLES AND RESPONSIBILITIES

Council/Governing Body	Council will: • maintain strategic oversight of Council's compliance with Responsible Person requirements; • ensure appropriate governance arrangements are established; • consider material compliance risks through Council's established reporting arrangements; and • ensure adequate organisational resources are available to administer the requirements of this policy. Council is not responsible for undertaking individual suitability assessments or managing regulatory notifications.
Chief Executive Officer	The Chief Executive Officer will: • ensure appropriate governance arrangements support compliance with this policy; • approve Council's administrative procedure for identifying and assessing Responsible Persons;

	• review and determine material or complex suitability matters; • ensure significant compliance concerns are appropriately managed; • ensure responsibility for relevant operational functions is formally assigned; • approve regulatory notifications where required by Council's delegations or administrative arrangements; and • ensure material non-compliance is reported to Council where appropriate. Where the Chief Executive Officer is personally subject to an assessment under this policy, the assessment and approval must be undertaken by an officer or external adviser with appropriate authority and independence. Council is not responsible for undertaking individual suitability assessments or managing regulatory notifications.
Director Community Services & Wellbeing	The Director Community Services & Wellbeing will: • oversee implementation of this policy; • ensure relevant positions are assessed against the statutory definition; • ensure suitability assessments and reviews are completed; • ensure Council maintains an accurate Responsible Persons Register; • monitor changes in legislation and regulatory guidance; • ensure suitability concerns are promptly assessed and escalated; • ensure relevant notifications are submitted to the Commission within required timeframes; • provide compliance information through Council's Community Care reporting arrangements; and • ensure identified non-compliance is recorded and corrective action is monitored. Where the Director Community Services & Wellbeing is personally subject to an assessment, the assessment must be allocated to another appropriately authorised officer.
Community Care Team Leader	The Community Care Team Leader will: • provide information about Community Care functions and accountabilities to support Responsible Person identification; • advise of changes to roles, responsibilities or service delivery arrangements that may affect Council's Responsible Person determinations; • cooperate with suitability assessments and reviews;

	• identify and report information that may affect a Responsible Person's suitability; • support the maintenance of required operational records; and • implement corrective actions allocated to Community Care. A Responsible Person must not approve their own suitability assessment.
Responsible Persons	Each Responsible Person must: • provide complete and accurate information; • cooperate with initial and ongoing suitability assessments; • meet applicable worker screening requirements; • comply with the Aged Care Code of Conduct and other statutory obligations; • exercise due diligence in carrying out their responsibilities; • disclose any actual or potential conflict affecting the assessment process; • immediately advise Council of any restriction, suspension or cancellation affecting required screening, registration or credentials; and • notify Council in writing within 14 days after becoming aware of a change in circumstances relating to a suitability matter. Responsible Persons have personal obligations under aged care legislation, including complying with relevant codes and advising the provider of changes affecting their suitability

5 POLICY

5.1 Identification of Responsible Persons

Council will identify Responsible Persons by assessing:
- the functions and actual responsibilities of the position;
- the person's authority and accountability for day-to-day operations of community care service
- any responsibility held by a registered nurse for overall management of nursing services;
- Council's service delivery structure;
- position descriptions, delegations and reporting arrangements; and
- the statutory definition and current regulatory guidance.

Council will document:
- the positions and individuals assessed;
- the information considered;
- whether the statutory definition is met;
- the reasons for the determination;
- the effective date of the determination; and
- the officer who made or approved the determination.

Council will reassess its Responsible Person determinations when there is a material change to:
- Council's organisational structure;
- Community Care service delivery arrangements;
- a relevant position description;
- delegations or decision-making authority;

- nursing service management;
- service delivery branches; or
- applicable legislation or regulatory guidance.

5.2 Initial suitability assessment

Before or when an individual becomes a Responsible Person, Council will take reasonable steps to assess the person against all applicable suitability matters. The assessment will consider, where applicable:

- applicable police certificate or worker screening evidence;
- aged care banning orders;
- NDIS banning orders;
- insolvency or bankruptcy;
- disqualification from managing corporations;
- relevant civil, criminal, regulatory or disciplinary findings;
- revocation, suspension or restriction of relevant registrations or approvals;
- relevant qualifications, professional registrations and experience;
- the person's previous performance in aged care or similar services;
- relevant complaints, incidents and Serious Incident Response Scheme information;
- compliance with applicable codes of conduct;
- information provided by the individual;
- information held by Council; and
- any other reliable information materially affecting the person's ability to perform the role safely, lawfully, competently and with integrity.

The assessment will be documented and approved by an appropriately authorised officer.

5.3 Annual suitability assessment

Council will assess each Responsible Person's ongoing suitability at least once every 12 months. The annual assessment will:

- reconsider each applicable suitability matter;
- confirm continued compliance with worker screening requirements;
- verify required professional registrations and credentials;
- review relevant declarations made by the Responsible Person;
- consider relevant internal complaints, incidents and SIRS information;
- check applicable aged care and NDIS banning order information;
- consider regulatory, disciplinary, insolvency and other relevant information;
- assess changes since the previous review; and
- record the assessment outcome and reasons.

Council may conduct an additional suitability assessment at any time if relevant information becomes known.

5.4 Worker screening

Council will ensure each Responsible Person meets the worker screening requirements applying to their role. Acceptable evidence will be determined in accordance with the applicable legislation and Rules. Current Commission information identifies an eligible police certificate not more than three years old or an NDIS Worker Screening Clearance as recognised screening pathways, subject to applicable requirements.

Council will:

- verify screening evidence before or when the person becomes a Responsible Person;
- record relevant issue and expiry details;

- monitor screening currency;
- require updated evidence when necessary; and
- prevent a person from undertaking duties requiring valid screening if the applicable requirement is not met.

5.5 Consent and collection of personal information

Before submitting personal or sensitive information to the Commission, Council will:

- inform the Responsible Person of the purpose of collection and disclosure;
- provide or direct the person to relevant privacy and collection information;
- obtain consent where required;
- collect only the information reasonably necessary for the notification; and
- maintain evidence of the person's consent where applicable.

The Commission requires consent to the provision of personal information when a new Responsible Person is notified and specifies records providers must retain about suitability assessments.

5.6 Changes affecting Responsible Persons

Council must be notified where:

- a person becomes a Responsible Person;
- a person ceases to be a Responsible Person;
- a Responsible Person's duties or authority materially change;
- information arises that affects or may affect suitability;
- worker screening, registration or credentials lapse or change;
- adverse regulatory, criminal, civil, disciplinary or financial information becomes known; or
- another circumstance arises that may require reassessment or regulatory notification.

Council will promptly:

1. record the information received;
2. assess any immediate risk to clients or service delivery;
3. obtain relevant information;
4. give the person an appropriate opportunity to respond;
5. reassess suitability;
6. determine whether interim controls are required;
7. decide whether the person remains suitable;
8. notify the Commission where required; and
9. document the decision and reasons.

5.7 Notification to the Commission

Council will notify the Commission within the applicable statutory timeframe when:

- a person becomes a Responsible Person;
- a person ceases to be a Responsible Person; or
- there is a change affecting the suitability of a Responsible Person.

Current Commission guidance requires these changes to be notified within 14 days of Council becoming aware of them.

Notifications will be made using the forms and submission processes specified on the Commission website.

The authorised officer will retain:

- the completed notification;
- supporting documents;

- relevant consent;
- internal review or approval;
- evidence and date of submission;
- correspondence from the Commission; and
- evidence that Council's register and systems were updated.

5.8 Addition of a Responsible Person

When a person becomes a Responsible Person, Council will:

- document why the person meets the statutory definition;
- complete and approve the initial suitability assessment;
- verify worker screening;
- notify the person of their responsibilities;
- obtain necessary personal information and consent;
- notify the Commission within the required timeframe;
- update the Responsible Persons Register; and
- retain supporting evidence.

Where a new Responsible Person is also a member of a governing body, the Commission's current guidance states that a significant change in organisational or governance arrangements form may also be required. This requirement must be checked against the current notification guidance when preparing the submission.

5.9 Removal of a Responsible Person

When a person ceases to be a Responsible Person, Council will:

- record the effective date and reason;
- ensure relevant operational responsibility is formally reassigned;
- assess whether the change results in a gap in accountability or service risk;
- determine whether any other position or individual now meets the definition;
- notify the Commission within the required timeframe;
- update the Responsible Persons Register; and
- securely archive relevant records.

5.10 Suitability concerns

Information raising a suitability concern will be assessed according to:

- relevance to the statutory suitability matters;
- seriousness and reliability;
- the person's explanation;
- the currency of the information;
- evidence of recurrence or a pattern of conduct;
- actual or potential impact on people receiving care;
- the person's role and level of responsibility;
- available controls or conditions; and
- applicable regulatory requirements.

Council may:

- determine that the person remains suitable;
- impose appropriate monitoring or risk controls;
- temporarily reassign relevant responsibilities;
- require further information or independent advice;
- determine that the person is no longer suitable;
- commence employment, disciplinary or governance action;
- notify the Commission or another authority; or

- take other lawful and proportionate action.

Employment or disciplinary action must be managed under Council's applicable human resources policies and industrial obligations.

5.11 Register and records

Council will maintain an accurate and current Responsible Persons Register. The register will include, where applicable:

- person's name;
- position or role;
- basis on which the person meets the statutory definition;
- date the person became a Responsible Person;
- initial assessment date and outcome;
- annual assessment dates and outcomes;
- next review date;
- worker screening type, reference and relevant dates;
- professional registration information;
- notification type and date;
- Commission acknowledgement or reference;
- date and reason the person ceased to be a Responsible Person;
- identified actions or controls; and
- responsible officer.

For each suitability assessment, Council will retain:

- the name and position of the person;
- the date of the assessment;
- evidence and information considered;
- the outcome for each relevant suitability matter;
- reasons for the overall determination;
- approval of the determination;
- any identified controls or actions;
- notification and submission records; and
- the due date for the next review.

The Commission specifically requires records of the person's name, the dates suitability matters were considered, the outcome for each matter and the reasons for the outcome.

5.12 Monitoring and compliance reporting

The Responsible Persons Register will be reviewed regularly to identify:

- upcoming annual reviews;
- expiring screening or credentials;
- incomplete assessments;
- outstanding notifications;
- unresolved actions; and
- changes requiring follow-up.

Compliance information will be included in Council's Community Care compliance reporting arrangements and may include:

- current Responsible Persons;
- completed and overdue assessments;
- upcoming review dates;

- screening status;
- notifications submitted;
- unresolved suitability concerns;
- identified non-compliance; and
- corrective action status.

Material suitability concerns will be escalated to the Chief Executive Officer promptly and must not wait for the next scheduled compliance report.

6 COUNCIL EXCEPTIONS

This policy applies only to Responsible Persons

7 IMPLEMENTATION

The Director Community Services & Wellbeing is responsible for ensuring this policy is supported by an operational procedure and controlled forms.

The procedure will address:

- assessment of positions against the statutory definition;
- initial and annual suitability assessment steps;
- worker screening verification;
- approval authorities and conflicts of interest;
- collection of information and consent;
- preparation and submission of regulatory notifications;
- use of current Commission forms;
- management of adverse information;
- maintenance of the Responsible Persons Register;
- monitoring of review dates;
- record storage and access controls; and
- compliance reporting and corrective action.

Operational file paths, system instructions and individual form names will be maintained in the procedure or work instruction rather than this policy.

13. APPROVAL

Adopted at the October 2026 Council Meeting - Resolution Number

POLICY TITLE:	Incident Reporting, Investigation and Escalation Policy
POLICY NUMBER:	
REVISION NUMBER:	2
TRIM REFERENCE:	
RESOLUTION NUMBER:	
POLICY TYPE:	Strategic
APPROVING OFFICER:	Council Adoption
DATE OF ADOPTION:	October 2026
TIME PERIOD OF REVIEW:	3 Years
DATE OF NEXT REVIEW:	October 2029
RESPONSIBLE DEPARTMENT:	Community Care

1. OBJECTIVE

The purpose of this policy is to establish a consistent, person-centred and accountable approach to identifying, reporting, responding to, investigating, escalating and learning from incidents connected with the delivery of funded aged care services by FIinders Shire Council.

Council will maintain an incident management system that:

- safeguards the safety, health, wellbeing, dignity and quality of life of older people;
- supports prompt and proportionate responses to incidents and near misses;
- ensures older people and their supporters are informed, supported and involved;
- supports workers to recognise, report and respond to incidents;
- meets applicable Serious Incident Response Scheme requirements;
- supports fair, objective and timely incident assessment and investigation;
- identifies contributing factors and actions required to prevent recurrence;
- maintains accurate and secure incident records; and
- uses incident information to improve Community Care services.

This policy supports compliance with the *Aged Care Act 2024*, the *Aged Care Rules 2025* and Strengthened Aged Care Quality Standard 2, particularly Outcome 2.5: Incident management.

Outcome 2.5 requires providers to operate an incident management system that records, investigates, responds to and manages incidents and near misses, takes timely action, involves individuals and supporters, supports workers, analyses incident data and regularly improves the system

2. SCOPE

This policy applies to:

- Council's funded home and community aged care services, including services delivered under the Support at Home Program and Commonwealth Home Support Program;
- all aged care workers, employees, contractors, volunteers, agency workers, students and Responsible Persons involved in Council's funded aged care services;
- Associated Providers and their workers delivering funded aged care services on Council's behalf;
- incidents and near misses occurring in connection with the delivery, alteration or withdrawal of Council's funded aged care services; and
- allegations and suspected incidents, whether or not the relevant facts have been confirmed.

An event is not automatically an aged care incident merely because it occurs in an older person's home. There must be a sufficient connection with the delivery of funded aged care services. Events outside that scope may still require action under Council's work health and safety, complaints, safeguarding, risk, insurance, human resources or corporate incident arrangements.

Worker injuries, visitor incidents, motor vehicle incidents, property damage, environmental incidents and other corporate incidents must also be managed under the relevant Council process. A single event may require management under more than one process.

This policy does not prevent immediate reporting to emergency services, police, the Commission or another authority where required.

3. DEFINITIONS

Associated Provider	An organisation that delivers funded aged care services on behalf of Council and meets the applicable definition under aged care legislation.
Commission	The Aged Care Quality and Safety Commission.
Incident	An act, omission, event or circumstance that occurs, is alleged to have occurred or is suspected of having occurred in connection with the delivery, alteration or withdrawal of funded aged care services and that caused, or could reasonably have been expected to cause, harm to an older person. Incidents that are not reportable under SIRS must still be identified, recorded, assessed and managed through Council's incident management system where required.
Incident Management System	Council's coordinated system for preventing, identifying, recording, assessing, responding to, investigating, reporting, resolving, monitoring and learning from incidents and near misses connected with funded aged care services.
Medical or Psychological Treatment	Treatment for physical or psychological injury or discomfort that may only be provided by a medical practitioner, nurse practitioner, registered nurse, psychologist or qualified social worker.
Near Miss	An act, omission, event or circumstance that did not cause harm but had the potential to do so.
Neglect	Neglect has the meaning given under applicable aged care legislation and Rules. It may include conduct connected with funded aged care services that exposes an older person to a risk of serious injury or illness, involves reckless or intentional negligence, contributes to a significant failure or systemic pattern of poor service delivery, or amounts to grossly inadequate service delivery.
Older Person	An individual receiving funded aged care services from Council.
Open Disclosure	An open discussion with an older person, and their supporter where appropriate, about an incident that caused or may have caused harm. It includes an explanation of known facts, the immediate response, potential consequences, proposed actions and, where appropriate, an apology.
Priority 1 Reportable Incident	A reportable incident that meets the Priority 1 criteria under the *Aged Care Rules 2025*, including a reportable incident: • that caused physical or psychological injury or discomfort requiring medical or psychological treatment; • involving unlawful sexual contact or inappropriate sexual conduct; • where there are reasonable grounds to report the incident to police; • involving an unexpected death resulting from services delivered, or a failure to deliver services; or • involving an unexplained absence during service delivery where there are reasonable grounds to report the absence to police. Priority 1 incidents must be notified to the Commission within 24 hours after Council becomes aware of the incident

Priority 2 Reportable Incident	A reportable incident that does not meet the Priority 1 criteria. Priority 2 incidents must be notified to the Commission within 30 calendar days after Council becomes aware of the incident
Reportable Incident	An actual, alleged or suspected incident within one of the following eight categories: 1. unreasonable use of force against an older person; 2. unlawful sexual contact or inappropriate sexual conduct inflicted on an older person; 3. psychological or emotional abuse of an older person; 4. unexpected death of an older person; 5. stealing from, or financial coercion of, an older person by an aged care worker; 6. neglect of an older person; 7. use of a restrictive practice other than in accordance with the *Aged Care Act 2024* and *Aged Care Rules 2025*; or 8. unexplained absence of an older person in the course of delivering funded aged care services. A reportable incident includes an allegation or suspicion. Council does not need to complete an investigation or establish that the incident occurred before making a required notification. The Commission confirms that alleged and suspected incidents must be notified where they meet the reportable-incident requirements.
Responsible Person	A person who meets the definition of a responsible person under the *Aged Care Act 2024*.
Serious Incident Response Scheme	The statutory scheme for preventing, managing and reporting serious incidents connected with funded aged care services.
Supporter	A person recognised as a supporter of an older person under the *Aged Care Act 2024*, including, where relevant, a family member, carer, advocate or other person significant to the older person.
Worker	An employee, contractor, volunteer, agency worker, student or other person employed or engaged by Council or an Associated Provider to deliver or support funded aged care services.

4. ROLES AND RESPONSIBILITIES

Council	Council will: • maintain strategic oversight of the effectiveness of Community Care governance, risk and quality systems; • receive information about significant risks, incidents and incident trends through established reporting arrangements; • monitor whether adequate resources are available to support safe and compliant services; and • monitor significant or systemic issues and associated improvement action. • Council is not responsible for day-to-day incident assessment, investigation or regulatory notification.
Chief Executive Officer	The Chief Executive Officer will: • ensure appropriate organisational governance supports effective incident management; • ensure adequate resources are provided for worker training, reporting systems, investigations and improvement activities; • maintain executive oversight of significant and systemic incidents;

	• ensure material risks and compliance failures are escalated appropriately; • ensure any relevant Council disciplinary, employment, insurance, legal or governance processes are initiated; and • appoint an authorised delegate where required.
Director of Community Services and Wellbeing	The Director Community Services and Wellbeing will: • maintain executive oversight of the Community Care incident management system; • act as Council's authorised SIRS notification officer; • ensure a formally appointed delegate is available during periods of absence; • ensure reportable incidents are notified to the Commission within required timeframes; • ensure significant new information and requested final reports are submitted; • oversee significant or complex incident investigations; • escalate significant incidents and risks to the Chief Executive Officer; • ensure external reporting obligations are identified and met; • approve the closure of significant and reportable incidents; • monitor implementation and effectiveness of corrective actions; and • report significant incidents, trends, risks and improvement actions through Council's governance arrangements.
Community Care Team Leader	The Community Care Team Leader will: • coordinate the immediate operational response; • ensure the older person and other affected people are protected and supported; • ensure incidents and near misses are entered into Council's incident management system; • undertake or coordinate the initial incident and SIRS assessment; • immediately escalate actual, alleged or suspected reportable incidents to the Director or authorised delegate; • coordinate communication and open disclosure; • determine whether an investigation is required and recommend its scope; • preserve relevant records and evidence; • monitor corrective actions and follow-up; • ensure care plans and risk assessments are reviewed where required; • maintain evidence supporting classification and notification decisions; and • ensure workers and Associated Providers understand reporting pathways.
Workers	All workers must: • immediately take reasonable action to protect affected people; • contact emergency services where necessary; • report incidents and near misses as soon as possible; • report allegations and suspected incidents even where information is incomplete; • preserve relevant information and evidence; • follow lawful directions relating to the response; • cooperate with assessments and investigations; • maintain privacy and confidentiality; • treat affected people with dignity, respect and compassion; and • support older people and their supporters to participate in incident management and resolution. • Workers must not: • attempt to decide that a serious concern is "not an incident" without reporting it; • discourage or prevent another person from reporting; • confront an alleged perpetrator where doing so may increase risk or compromise evidence; or • make promises about outcomes that Council cannot guarantee.

Associated providers	Associated Providers must: • take immediate action to protect affected people; • immediately notify the Community Care Team Leader or nominated Council contact of any actual, alleged or suspected incident involving a Council client; • report near misses and emerging risks as required under their agreement with Council; • provide Council with sufficient information to meet statutory reporting timeframes; • preserve evidence and records; • cooperate with Council assessments, investigations and regulatory reporting; • implement required corrective actions; and • provide updates and final information requested by Council. • Council retains responsibility for meeting its SIRS obligations for funded aged care services delivered on its behalf.

5. POLICY

5.1 Incident management system

Council will maintain an incident management system appropriate to the nature, scale and risks of its home and community aged care services. The system will provide for:

- identification and internal reporting;
- immediate protection and support;
- recording of incidents and near misses;
- initial assessment and risk classification;
- assessment against the eight SIRS categories;
- Priority 1 or Priority 2 classification;
- external notification where required;
- communication and open disclosure;
- investigation where appropriate;
- corrective action and follow-up;
- secure record keeping;
- trend analysis and governance reporting; and
- regular review and improvement.

5.2 Reporting threshold

All actual, alleged or suspected incidents and near misses connected with Council's funded aged care services must be reported internally. Workers are not expected to make the final SIRS classification before making an internal report. A belief that:

- no harm occurred;
- the older person does not wish to complain;
- the allegation may be incorrect;
- an incident was caused by another person; or
- information is incomplete

does not remove the obligation to report the concern internally.

5.3 Immediate response

When an incident is identified, workers must, within the limits of their role and competence:

- check the immediate safety of all people involved;
- contact Triple Zero where urgent police, fire or ambulance assistance is required;
- provide first aid or arrange medical attention;
- remove or control immediate hazards where safe;
- separate affected people where required for safety;
- arrange replacement or continuation of essential services;

- notify the Community Care Team Leader or nominated manager;
- protect the older person from further harm;
- provide access to an advocate, interpreter or culturally appropriate support where required;
- preserve relevant evidence and records;
- document immediate actions; and
- follow any emergency, clinical, safeguarding, WHS or business continuity requirements that also apply.

5.4 Initial assessment and escalation

The Community Care Team Leader will promptly assess:

- what occurred, or is alleged or suspected to have occurred;
- who is affected;
- actual and potential harm;
- whether ongoing danger exists;
- immediate support and treatment needs;
- whether the event is connected with funded aged care services;
- whether any of the eight reportable-incident categories apply;
- whether the incident is Priority 1 or Priority 2;
- whether there are reasonable grounds to report the matter to police;
- whether another regulator, insurer or authority must be notified;
- whether an investigation is required;
- whether care plans, risk assessments or service arrangements require immediate amendment; and
- what information must be communicated to the older person and their supporter.

Uncertainty about classification must be escalated to the Director or authorised delegate and must not delay safety action or a potentially time-critical notification.

5.5 Police and emergency reporting

Police must be notified where:

- immediate police assistance is required;
- there are reasonable grounds to report a reportable incident to police;
- criminal conduct is alleged or suspected and reporting is required;
- an unexplained absence requires police involvement; or
- another legal requirement applies.

Where there are reasonable grounds to report a SIRS incident to police, the report must be made as soon as possible and no later than 24 hours after Council becomes aware of those grounds.

Workers must avoid disturbing potential evidence and follow police instructions where a police investigation is underway.

Reporting to police does not replace Council's obligation to notify the Commission.

5.6 SIRS reporting

The Director Community Services and Wellbeing or authorised delegate will submit SIRS notifications through the approved Commission reporting process.

- **Priority 1 -** A Priority 1 reportable incident must be notified within 24 hours after Council becomes aware of the incident. Where mandatory information is unavailable at the time of initial notification, outstanding required information must be provided within five days after the beginning of the 24-hour reporting period, unless otherwise directed by the Commission.
- **Priority 2 -** A Priority 2 reportable incident must be notified within 30 calendar days after Council becomes aware of the incident.

Further information
Council will:

- provide significant new information as soon as reasonably practicable;
- respond promptly to Commission requests;
- provide a final report within the timeframe specified by the Commission;
- record the notification reference, date, time and reporting officer; and
- retain a copy of information submitted.

SIRS classification and notification decisions must be documented, including the information considered and the reasons for the decision.

5.7 Supporting and involving the older person

Council will ensure each affected older person is supported and appropriately involved in the management and resolution of an incident. Subject to the person's preferences and applicable privacy requirements, Council will:

- advise the person what is known about the incident;
- explain immediate safety actions;
- provide information about their rights;
- assess medical, psychological, cultural, communication and advocacy needs;
- support access to treatment or other assistance;
- offer an advocate, interpreter or culturally appropriate support;
- invite the person's views about what occurred and what should happen next;
- provide regular updates;
- explain findings and outcomes;
- provide an apology where appropriate;
- advise how concerns or complaints may be raised; and
- involve the person's supporter where requested or otherwise lawfully appropriate.

A cognitive, communication or psychosocial impairment must not be treated as evidence that an incident caused no injury, discomfort or harm. The current Priority 1 guidance requires a person-centred, culturally informed and trauma-informed assessment rather than prediction of potential or worst-case impacts.

5.8 Investigation

The Community Care Team Leader, in consultation with the Director, will determine whether an investigation is required and its appropriate scope. An investigation will generally be undertaken where:

- the facts are unclear or disputed;
- actual or potential harm is significant;
- a reportable incident is alleged or suspected;
- there may be systemic or repeated failure;
- worker conduct may have contributed;
- a regulator or other authority requires an investigation;
- the incident identifies a serious control failure; or
- an investigation is otherwise necessary to determine appropriate action.

Investigations will be:

- prompt;
- proportionate to the incident;
- objective and impartial;
- conducted by a person with appropriate skills and authority;
- procedurally fair;
- coordinated with police or regulatory investigations;
- appropriately documented; and
- respectful of the affected older person.

An external investigator may be appointed for a serious, complex or sensitive incident or where independence cannot otherwise be maintained.

5.9 Investigation outcomes

An investigation will consider, as relevant:

- what occurred;
- actual and potential harm;
- the experiences and views of the affected older person;
- whether required care and services were provided;
- immediate and underlying causes;
- individual, environmental and organisational contributing factors;
- whether policies, systems and controls operated as intended;
- whether the incident could have been prevented;
- whether similar incidents or near misses have occurred;
- whether external notification is required;
- support required by affected people;
- opportunities to prevent recurrence; and
- any limitations or unresolved issues.

Findings and decisions must be supported by available evidence. The standard of proof used for an internal administrative investigation must be appropriate to the decision being made.

5.10 Corrective action and closure

Corrective action will be proportionate to the nature and seriousness of the incident and may include:

- changes to a care or service plan;
- additional support or clinical review;
- changes to service delivery arrangements;
- worker supervision, education or competency assessment;
- policy or procedure changes;
- risk-control improvements;
- changes to Associated Provider arrangements;
- referral to a professional or regulatory body;
- disciplinary or employment action;
- an apology or other open disclosure response;
- review of related client records or services; and
- broader service or systems improvement.

Each corrective action must have:

- a clearly defined action;
- an accountable owner;
- a due date;
- required evidence of completion; and
- an effectiveness review where appropriate.

The Director will approve the closure of significant and reportable incidents only when required notifications, communication, investigation, corrective action and follow-up have been appropriately addressed. Outstanding longer-term actions may remain separately tracked after incident closure where the ongoing risk is controlled.

5.11 Training

Council will provide incident management and SIRS training to relevant workers:

- at induction;
- at least annually;
- when the incident management system materially changes;

- when a person's role or responsibilities change;
- when incidents, audits or monitoring identify a knowledge or competency gap; and
- following significant legislative or regulatory changes.

Training will be appropriate to the person's duties and include:

- recognising incidents, allegations and near misses;
- immediate safety responses;
- internal reporting pathways;
- the eight reportable-incident categories;
- Priority 1 and Priority 2 escalation;
- preserving evidence;
- supporting affected older people;
- open disclosure;
- privacy and confidentiality; and
- protection from victimisation.

The strengthened Standards require regular competency-based training on SIRS requirements and support, escalation and resources appropriate to workers' roles.

5.12 Incident register and records

Council will maintain an incident register and secure supporting records. Incident records will include, as applicable:

- incident description;
- actual and potential harm;
- date, time and location of the incident;
- date and time Council became aware;
- people involved and witnesses;
- immediate protections and support;
- risk assessment;
- connection with funded aged care services;
- reportability and priority decisions;
- reasons for classification decisions;
- police and external reporting;
- communication and open disclosure;
- investigation steps, evidence and findings;
- corrective actions, owners and due dates;
- Commission notification dates, times and references;
- significant new information;
- effectiveness monitoring; and
- closure approval.

Incident records must be:

- accurate and completed promptly;
- stored in an approved Council system;
- protected from unauthorised access, change or disclosure;
- accessible for authorised audit or regulatory review; and
- retained for at least seven years from the date the record was made or received, or longer where another Council or legislative retention requirement applies.

5.13 Monitoring and continuous improvement

Community Care will regularly analyse incident and near-miss information to identify:

- recurring incident types;
- repeated involvement of particular services, locations or processes;
- emerging risks;

- preventable harm;
- delays in reporting or response;
- weaknesses in care planning or communication;
- workforce training and supervision needs;
- Associated Provider issues;
- overdue actions; and
- systemic service-delivery failures.

Incident information will feed into:

- the Community Care risk register;
- the Quality Improvement Plan;
- worker training;
- care planning;
- Associated Provider oversight;
- policy and procedure review;
- service planning; and
- reporting to management and Council.

Outcome 2.5 requires incident outcomes to be reported to individuals and workers, integrated into the provider's quality system and used to improve funded aged care services

5.14 Communication and Governance Reporting

Significant or high-risk incidents must be escalated immediately to the Director and Chief Executive Officer. Incident reporting to management and Council will be proportionate and will protect personal and sensitive information.

Reports may include:

- incident and near-miss trends;
- SIRS notifications;
- significant or systemic risks;
- overdue investigations and actions;
- Commission or police reporting;
- Associated Provider incidents;
- corrective actions;
- effectiveness reviews; and
- service improvements.

Operational incident reporting may be included in regular Community Care reporting. Significant matters must not be held over until the next scheduled report.

Older people and workers will receive appropriate information about improvements arising from incidents where this can occur without compromising privacy, procedural fairness or an investigation.

5.15 Interaction with other council processes

An aged care incident may also trigger requirements under Council's:

- Work Health and Safety framework;
- complaints and feedback system;
- safeguarding arrangements;
- human resources and disciplinary processes;
- privacy and data breach processes;
- insurance and claims processes;
- fraud and corruption controls;

- risk management framework;
- emergency and disaster arrangements; or
- records management requirements.

Reporting through one process does not automatically satisfy another reporting obligation.

The Director Community Services and Wellbeing and Director of People, Safety and Governance will coordinate concurrent processes to reduce duplication while ensuring all applicable obligations are met.

6. IMPLEMENTATION

The Director Community Services and Wellbeing is responsible for ensuring this policy is supported by an operational Incident and SIRS Procedure.

The procedure will address:

- internal reporting contacts and after-hours escalation;
- delegated SIRS notification authority;
- immediate safety response;
- SIRS assessment and decision records;
- police and external notification;
- Commission portal submission;
- open disclosure;
- investigation planning and conduct;
- response to allegations involving workers;
- Associated Provider reporting;
- corrective action and closure;
- incident-register administration; and
- management and Council reporting.

System instructions, portal steps, individual contact details and file paths will be maintained in the operational procedure rather than this policy.

11 REVIEW TRIGGER

Community Care policies are to be renewed every three years, or earlier if significant issue or change in legislation affecting this policy occurs.

12 PRIVACY PROVISION

Council respects and protects people's privacy and collects, stores, uses and discloses personal information responsibly and transparently when delivering Council services and business.

13. APPROVAL

Adopted at the October 2026 Council Meeting - Resolution Number

POLICY TITLE:	Community Care Feedback and Complaints Management Policy
POLICY NUMBER:	180
REVISION NUMBER:	3
TRIM REFERENCE:	
RESOLUTION NUMBER:	
POLICY TYPE:	Strategic
APPROVING OFFICER:	Council Adoption
DATE OF ADOPTION:	October 2026
TIME PERIOD OF REVIEW:	3 Years
DATE OF NEXT REVIEW:	October 2029
RESPONSIBLE DEPARTMENT:	Community Care

1. OBJECTIVE

Flinders Shire Council (Council) is committed to providing an accessible, fair, culturally safe and transparent system for receiving and responding to feedback, complaints and requests for review about Community Care services.

Council welcomes feedback and complaints as important sources of information about the experience, quality and safety of its services. People will be supported to raise concerns without fear of reprisal, discrimination or disadvantage.

This policy establishes Council's approach to:

- receiving and responding to feedback and complaints;
- supporting clients, supporters, workers and others to raise concerns;
- protecting people from reprisal;
- identifying and responding to immediate safety concerns;
- resolving complaints fairly and proportionately;
- using open disclosure when things go wrong;
- managing complaints about services delivered by Associated Providers;
- providing access to internal review and external complaint pathways;
- identifying complaints that also require action under incident, SIRS or whistleblower arrangements; and
- using feedback and complaints to continuously improve Community Care services.

This policy supports Council's compliance with the Aged Care Act 2024, Aged Care Rules 2025, Statement of Rights, Aged Care Code of Conduct and Strengthened Aged Care Quality Standard 2, particularly:

- Outcome 2.6a: Complaints and feedback management for aged care workers; and
- Outcome 2.6b: Complaints and feedback management for individuals.

These outcomes require providers to encourage and support individuals, supporters, workers and others to provide feedback and make complaints without reprisal, and to use complaints and feedback to improve funded aged care services.

2. SCOPE

This policy applies to Community Care services delivered by or on behalf of Council, including Commonwealth Home Support Programme and Support at Home services.

It applies to:

- Council when exercising its governing body responsibilities;
- the Chief Executive Officer;
- the Director Community Services & Wellbeing;
- the Community Care Team Leader;
- Community Care employees and aged care workers;
- volunteers and students;
- contractors;
- Associated Providers and their workers;
- Responsible Persons; and

- complaints or feedback received from clients, supporters, families, carers, advocates, workers or any other person.

Other Council complaint, workforce, conduct and governance arrangements may operate alongside this policy. They must not delay action required to protect a client, meet aged care regulatory requirements or respond to a serious Community Care concern.

3. DEFINITIONS

Associated Provider	An organisation that delivers funded aged care services on behalf of Council and meets the applicable definition under aged care legislation.
Complaint:	An expression of dissatisfaction about Council, its workers, services, service decisions or services delivered on its behalf that requires a response or resolution.
Complainant:	A person or organisation that makes a complaint.
Escalation:	Referring a complaint, risk or decision to a person or authority with a higher or independent level of responsibility because of its seriousness, complexity, risk, conflict of interest or a request for review.
Feedback:	Comments, observations, suggestions or compliments about Community Care services or Council's service delivery. Feedback may identify opportunities for improvement but does not necessarily require investigation.
Incident	An event, act, omission, allegation or circumstance requiring assessment or management under Council's Incident Reporting, Investigation and Escalation Policy.
Open disclosure:	An open and honest discussion with an affected person when something has gone wrong or may have caused harm, including acknowledging what occurred and its impact, providing an apology where appropriate, explaining actions being taken and identifying how recurrence will be prevented. The Aged Care Quality and Safety Commission identifies open disclosure as part of good complaints practice and describes restorative complaint handling in terms of remedying what went wrong, restoring trust and preventing recurrence
Reprisal:	Adverse treatment, intimidation, threats, victimisation or discrimination because a person provided feedback, raised a concern, made a complaint or participated in a complaints process.
Request for Review	A request for reconsideration of how a complaint was managed, its outcome or another Community Care service decision.
Qualifying whistleblower disclosure	A disclosure that meets the applicable requirements for protection under the aged care whistleblower provisions.

.

4. ROLES AND RESPONSIBILITIES

Council/Governing Body	Council will: • maintain strategic oversight of the effectiveness of the Community Care complaints and feedback system; • receive assurance regarding complaint trends, material risks and significant improvement activities; and • monitor whether appropriate governance arrangements and resources support an effective complaints system. This reflects the strengthened Standard's requirement that complaint and feedback outcomes be reported to the governing body and feed into the provider's quality system.
Chief Executive Officer	The Chief Executive Officer will: • maintain executive oversight where complaints involve significant organisational risk; • arrange independent review where required; • manage complaints concerning the Director Community Services & Wellbeing or where there is an identified conflict of interest; • ensure significant compliance concerns are appropriately managed; and • escalate material governance matters to Council where appropriate.
Director Community Services and Wellbeing	The Director Community Services & Wellbeing will: • oversee implementation and effectiveness of the feedback and complaints management system; • ensure significant complaints, risks and systemic issues are appropriately escalated; • determine appropriate management arrangements for serious or complex complaints; • coordinate Council's involvement in external complaint investigations; • monitor material corrective and improvement actions; and • provide complaints and feedback assurance reporting through Council's governance arrangements.
Community Care Team Leader Community Care	The Community Care Team Leader will: • ensure complaints and relevant feedback are recorded; • coordinate initial safety and risk assessment; • acknowledge or allocate complaints; • investigate complaints where appropriate; • ensure the complainant and affected client are kept reasonably informed; • coordinate open disclosure where appropriate; • identify matters requiring escalation under incident, SIRS or whistleblower arrangements; • monitor corrective actions; and • maintain the Feedback and Complaints Register.
Workers	All Community Care workers will: • listen respectfully to feedback and complaints; • provide immediate assistance where reasonably possible; • promptly record or refer matters that require further response; • identify and report immediate safety concerns;

	• protect people's privacy; • protect complainants from reprisal; • cooperate with complaint investigations; and • advise people how they can obtain assistance or make a complaint through another channel. Workers must not discourage a person from making a complaint or require the person to resolve the matter directly with a worker or Associated Provider.
Associated Providers	Associated Providers must cooperate with Council's complaints and feedback arrangements for services delivered on Council's behalf. Council will maintain appropriate oversight of complaints concerning those services. Clients will not be required to navigate between Council and an Associated Provider to have a complaint about Council-funded services addressed.

5. POLICY

5.1 Access to feedback and complaints

Council will encourage clients, supporters, families, carers, advocates, workers and others to provide feedback and raise concerns about Community Care services.

A person may:

- provide positive or negative feedback;
- make a complaint verbally or in writing;
- make an anonymous complaint;
- seek help from an advocate, interpreter or support person;
- make a complaint personally or through another person;
- withdraw a complaint; or
- contact an external complaints body.

Anonymous complaints will be assessed and addressed as far as reasonably possible using the information available.

Where a complaint is withdrawn, Council will respect the person's decision but continue any action necessary to address:

- client safety;
- abuse or neglect;
- a reportable incident;
- a whistleblower disclosure;
- a legal or regulatory obligation; or
- serious or systemic service risks.

5.2 Initial safety and risk assessment

When a complaint is received, Council will first consider whether the matter involves:

- immediate risk to a client or another person;
- abuse or neglect;
- serious harm;
- an actual, alleged or suspected incident;
- a potential SIRS reportable incident;
- a potential qualifying whistleblower disclosure;

- potential criminal conduct;
- a privacy or information-security issue;
- a significant service-delivery failure; or
- another matter requiring immediate escalation.

Necessary protective action and statutory notifications must not be delayed while the complaint is being investigated or resolved.

5.3 Acknowledging complaints

Council will aim to acknowledge complaints within two working days of receipt.

Acknowledgement may be verbal or written according to the person's needs and preferences and will be recorded.

The acknowledgement should explain:

- that the complaint has been received;
- who will manage it;
- any immediate action taken;
- what will happen next;
- the anticipated timeframe; and
- available advocacy and external complaint options.

5.4 Assessment and proportionate response

Council will begin assessing a complaint promptly, normally within seven calendar days, unless it requires earlier action.

The responsible officer will determine:

- the issues requiring response;
- what outcome the complainant is seeking;
- whether immediate protective action is required;
- the seriousness and complexity of the matter;
- whether there is a conflict of interest;
- whether investigation is necessary;
- whether the matter triggers another Council or regulatory process; and
- how the affected person will be involved.

Simple matters may be resolved without formal investigation where the relevant facts are clear and an appropriate outcome can be achieved through discussion, clarification, correction, apology or agreed action.

5.5 Investigation

Where an investigation is required, it will be:

- proportionate to the seriousness and complexity of the complaint;
- fair and impartial;
- undertaken by a person without a relevant conflict of interest;
- appropriately documented;
- respectful of confidentiality and privacy; and
- consistent with procedural fairness.

The investigation may include:

- reviewing relevant records;
- speaking with the complainant;
- speaking with the affected client and supporter where appropriate;
- obtaining responses from workers or other people involved;
- considering relevant policies, service requirements and standards;
- identifying what occurred and contributing factors; and
- recommending corrective or improvement actions.

5.6 Open disclosure and restorative response

When something has gone wrong or may have caused harm, Council will use open disclosure where appropriate.

The response may include:

- checking the person's immediate safety and support needs;
- acknowledging what occurred;
- recognising the impact;
- providing an explanation based on known information;
- apologising where appropriate;
- correcting or remedying the problem;
- identifying how recurrence will be prevented; and
- communicating relevant improvement actions.

This aligns with the Commission's current emphasis on remedy, restoration and prevention when responding to complaints.

5.7 Keeping people informed

The person managing the complaint will keep the complainant and affected client appropriately informed. Council will aim to provide a progress update within 14 calendar days.

Where resolution will take longer than expected, Council will explain:

- why additional time is required;
- action already taken;
- arrangements addressing any safety risk; and
- when a further update can be expected.

5.8 Resolution

Council will aim to resolve complaints within 30 calendar days wherever reasonably practicable.

The outcome will explain:

- the decision;
- reasons for the decision;
- action taken or proposed;
- whether corrective or improvement actions remain outstanding; and
- internal and external review options.

The outcome will be communicated in a format the person can understand.

The complaint may be closed when Council has made and communicated its decision. Outstanding corrective or improvement actions must remain separately tracked until completed.

The two-working-day, seven-day, 14-day and 30-day timeframes are FSC service commitments. They do not delay immediate responses to serious safety, compliance or regulatory matters.

5.9 Internal review

A person who is dissatisfied with:

- how their complaint was managed;
- the outcome of their complaint; or
- another Community Care service decision

may request a review.

Requests may be made verbally or in writing.

The review will, wherever practicable, be undertaken by a person who was not involved in the original decision.

The reviewer will:

- consider the original matter and outcome;
- consider relevant additional information;
- give affected people an appropriate opportunity to provide information;
- assess whether the decision and process were fair and reasonable; and
- explain the review outcome and any further options.

Where the Chief Executive Officer has been materially involved in the original matter, an independent review will be arranged through Council's appropriate governance arrangements.

5.10 External complaints and advocacy

People may contact the Aged Care Complaints Commissioner about an aged care complaint.
Council will not require a person to complete Council's internal complaint or review process before seeking external assistance.

The Aged Care Quality and Safety Commission confirms that providers must support people to make complaints and inform them how concerns may be raised with the Commission.

Council will also provide information about independent advocacy, including the Older Persons Advocacy Network where relevant.

Council will cooperate with investigations undertaken by the Aged Care Complaints Commissioner, police, Ombudsman or another authorised body.

5.11 Complaints involving workers or Councillors

Complaints about Community Care workers will be managed fairly and in accordance with this policy and relevant workforce requirements.

Workforce grievances will generally be managed under Council's workforce procedures. However, information identifying an aged care quality, safety or compliance concern must also be assessed under this policy.
Complaints involving:

- the Community Care Team Leader will be referred to the Director Community Services & Wellbeing;

- the Director Community Services & Wellbeing will be referred to the Chief Executive Officer; and
- Councillors will be managed through applicable Council conduct and governance processes.

A separate workforce or Councillor process must not delay necessary action concerning aged care safety, client rights, incidents or regulatory compliance.

5.12 Complaints concerning Associated Providers

Council remains responsible for maintaining appropriate oversight of complaints concerning funded aged care services delivered on its behalf.

The Community Care Team Leader will coordinate with the Associated Provider to:

- protect affected clients;
- obtain relevant information;
- investigate or resolve matters appropriately;
- determine any incident or regulatory implications;
- establish corrective actions; and
- monitor completion and effectiveness.

5.13 Whistleblower disclosures and incidents

When receiving or assessing a complaint, Council will determine whether the information may also involve:

- a qualifying aged care whistleblower disclosure;
- an incident under Council's incident management system;
- a SIRS reportable incident;
- suspected criminal conduct; or
- another mandatory reporting obligation.

Where another requirement applies, both processes will be managed appropriately.

A qualifying whistleblower disclosure will be handled under Council's aged care whistleblower arrangements, including applicable confidentiality, identity and protection-from-reprisal requirements.

Incident reporting or regulatory obligations continue irrespective of whether the complaint is withdrawn or resolved.

5.14 . Record Keeping and Confidentiality

Council will maintain a Feedback and Complaints Register and appropriate supporting records. Records will include, where relevant:

- date received;
- nature of the feedback or complaint;
- complainant details, where known;
- affected client;
- safety and risk assessment;
- acknowledgement;
- person responsible for managing the matter;
- investigation information and findings;
- communication with affected people;
- decision and reasons;
- open disclosure or apology;

- corrective actions;
- responsible officers and due dates;
- referrals or external notifications;
- review outcomes;
- resolution date; and
- follow-up and effectiveness monitoring.

Information must be stored securely and accessed only by authorised people.

Confidential investigation and workforce material will be maintained in the appropriate restricted records. Only information relevant to the client's care and service delivery will be placed in the client care record.

Records will be retained in accordance with applicable aged care obligations, Queensland public records requirements and Council's records management arrangements.

5.15 Governance reporting and Continuous Improvement

The Community Care Team Leader will monitor complaints, feedback and outstanding corrective actions.

The Director Community Services & Wellbeing will provide regular assurance reporting to Council through established Community Care reporting arrangements.

Reporting will include, as appropriate:

- complaint and feedback trends;
- serious, unresolved or overdue matters;
- resolution performance;
- emerging and systemic risks;
- Associated Provider concerns;
- corrective actions; and
- service improvements.

Personal information will be protected and information de-identified where appropriate. Serious safety, compliance or organisational risks must be escalated immediately and must not wait for a scheduled Council report.

Feedback and complaint information will be used to inform Council's quality system, including:

- the Continuous Improvement Register;
- risk management;
- policy and procedure review;
- worker training;
- service planning;
- Associated Provider monitoring; and
- communication of relevant improvements to clients and workers.

6.COUNCIL EXCEPTIONS

This policy applies to Community Care services within the Community Services and Wellbeing directorate. Other Council complaints policies apply where relevant, but must not delay aged care safety action, override aged care rights or restrict access to the Complaints Commissioner.

7 IMPLEMENTATION

The Director Community Services and Wellbeing is responsible for ensuring operational arrangements support this policy.

Council's complaint-management process will follow the broad sequence:
Receive → Safety triage → Record → Acknowledge → Assess → Respond/investigate → Communicate → Resolve → Review if requested → Close → Monitor improvement

This reflects the Commission's better-practice complaints model, which identifies receiving, acknowledging, recording, assessing, responding and reporting as key stages of complaints management.

Clients and workers will receive information about the complaints system:

- when commencing services or employment;
- through relevant agreements and information materials;
- through induction and training;
- through Council's published information; and
- when reasonably required to support access to the system.

Council respects and protects people’s privacy and collects, stores, uses and discloses personal information responsibly and transparently when delivering Council services and business.

13. APPROVAL

Adopted at the October 2026 Council Meeting - Resolution Number

POLICY TITLE:	Assessment and Care Planning Policy
POLICY NUMBER:	
REVISION NUMBER:	
TRIM REFERENCE:	
RESOLUTION NUMBER:	
POLICY TYPE:	Strategic
APPROVING OFFICER:	Council Adoption
DATE OF ADOPTION:	30 October 2026
TIME PERIOD OF REVIEW:	3 Years
DATE OF NEXT REVIEW:	30 October 2029
RESPONSIBLE DEPARTMENT:	Community Care

1. OBJECTIVE

Flinders Shire Council (FSC) works in partnership with each person receiving Community Care services, and with the people they choose to involve, to understand their needs, goals, preferences, strengths and risks and to plan safe, effective and coordinated care and services.

Assessment and care planning are ongoing processes that commence before or when services begin and continue throughout service delivery.

FSC will maintain assessment and care planning arrangements that:

- support the person's independence, autonomy, wellbeing, reablement and quality of life;
- reflect the person's current needs, goals, preferences, circumstances and choices;
- identify risks to health, safety and wellbeing and strategies for managing those risks;
- support dignity of risk and informed decision-making;
- involve relevant health practitioners, allied health professionals and other providers where required;
- guide workers in the safe delivery of services;
- support timely identification and escalation of changes or deterioration;
- ensure care and services remain within FSC's registration, approved service types and workforce capability; and
- support continuity and coordination between FSC, external providers and other people involved in the person's care.

This policy supports compliance with the *Aged Care Act 2024*, Statement of Rights, *Aged Care Rules 2025* and Strengthened Aged Care Quality Standards, particularly Standard 3: The Care and services and Outcome 3.1: Assessment and planning.

Outcome 3.1 requires providers to actively involve individuals and people they wish to involve in assessment and care planning, identify needs, goals, preferences and risks, involve relevant health professionals, maintain current individualised plans and review those plans when circumstances change.

Where FSC provides care management under Registration Category 4, this policy also supports the requirements of Outcome 5.1: Clinical governance. Outcome 5.1 applies to Category 4 providers that provide care management or restorative care management.

2. SCOPE

This policy applies to:

- Community Care employees and aged care workers;
- Care Managers (Partners);
- support workers;
- volunteers and students;
- contractors;
- Associated Providers and their workers;
- Responsible Persons;

- management involved in Community Care governance and service delivery; and
- assessment, planning, monitoring and review of services provided to Community Care clients.

FSC provides aged care services within its approved registration categories and service types.

FSC does not provide nursing care under Registration Category 5 and does not employ nurses to provide nursing services.

Where a person requires clinical assessment, nursing care or other health services outside FSC's authorised scope or workforce capability, FSC will facilitate referral to an appropriately qualified health professional or provider and support safe coordination of services.

Referral to an independently responsible GP, community health service or other health provider does not expand FSC's registration or authorise FSC workers to undertake clinical functions outside their role or competence.

Where a person's needs cannot safely be met within FSC's registration, approved service types or capability, FSC will work with the person and relevant providers to arrange reassessment, additional services or safe transfer to an appropriate provider.

3. DEFINITIONS

Single Standard Assessment	The Australian Government aged care assessment system used to assess eligibility for government-funded aged care and determine assessed needs, approved services, and the level of support.
Intake Assessment	FSC's structured process for gathering information required to commence and plan services. It considers assessed needs, goals, preferences, strengths, circumstances, risks, and existing supports. It is a care-management and service-planning process and does not substitute for clinical assessment by an appropriately qualified health professional where required.
Intake Assessment Bundle	Information and screening tools used to understand the person's needs and plan appropriate services. The bundle may include the Notice of Decision and Support Plan, relevant health information obtained with consent, a home safety assessment, functional screening, falls screening, nutrition screening, and an individual risk assessment. FSC-approved tools may include an adaptive version of the Barthel Index for Activities of Daily Living, Falls Risk Assessment and Mini Nutrition Screen. Tools are selected according to the person's needs and risks and repeated when relevant to review. Workers may use tools only when trained and assessed as competent, and within the tool's intended use and their role. Findings indicating clinical risk must be referred for further professional assessment where required.
Clinical assessment	Assessment requiring clinical knowledge and professional judgement to determine health status, clinical needs, diagnosis, treatment, or clinical management. Where required, FSC will facilitate assessment by an appropriately qualified registered health practitioner or allied health professional working within their professional scope.
Care Manager	An appropriately trained and competent worker responsible for undertaking care-management functions for Support at Home participants. Australian Government guidance identifies Care Managers (Partners) as the workers responsible for helping Support at Home participants choose, receive and manage services and coordinating with participants and their supporters
Care plan	An individualised document developed with the person describing assessed needs, goals, preferences, choices, agreed services, strategies to achieve goals, identified risks and management strategies, service arrangements,

	cultural and communication preferences, and monitoring and review arrangements.
Review	A collaborative process of checking whether the care plan continues to reflect current needs, goals, preferences, circumstances, risks, and approved services. Plans are monitored through ongoing care management and formally reviewed at least every 12 months, or earlier when a review trigger occurs.
Individual Risk assessment	A person-focused process to identify risks to health, safety and wellbeing and agree reasonable strategies for managing them while supporting choice and independence. Risks requiring clinical judgement must be referred to an appropriately qualified health professional.
Registered supporter	A person registered under the Aged Care Act 2024 to support an older person to make and communicate their own decisions. Registration as a supporter does not itself confer substitute decision-making authority. Any authority to make decisions for the person must be established separately under applicable law.
Dignity of Risk	Respecting a person's right to make informed choices involving reasonable risk while working with the person to understand those risks and identify appropriate risk controls.

6. ROLES AND RESPONSIBILITIES

Governing body/ Council	Council will: • approve this policy; • maintain strategic oversight of Community Care safety and quality; • endorse FSC's Clinical and Care Governance Framework; • receive assurance regarding significant assessment, care-planning, service-delivery and clinical risks; • monitor whether appropriate organisational resources and governance systems support safe and quality services; and • monitor significant or systemic non-compliance and improvement activities.
Chief Executive Officer	The Chief Executive Officer will: • maintain executive oversight of FSC's Community Care governance arrangements; • ensure appropriate organisational systems and resources support implementation of this policy; • ensure material risks and compliance concerns are appropriately managed; and • escalate significant governance matters to Council where required.
Director Community Services & Wellbeing	The Director Community Services & Wellbeing will: • oversee implementation of this policy; • maintain appropriate care and clinical governance arrangements; • ensure Community Care operates within FSC's registration and approved service scope;

	• ensure appropriate assessment, referral, escalation and review systems are established; • oversee significant risks, service gaps and compliance concerns; • monitor quality and improvement activities; and • provide appropriate assurance reporting to the Chief Executive Officer and Council.
Community Care Team Leader	The Community Care Team Leader will: • oversee operational assessment and care-planning processes; • ensure authorised workers are appropriately trained and competent; • support escalation and referral arrangements; • monitor overdue assessments, plans and reviews; • ensure identified service gaps and risks are appropriately managed; • monitor relevant Associated Provider arrangements; and • escalate significant risks and concerns.
Care Managers (Partners)	Care Managers (Partners) will: • confirm that the person's approved services can be delivered within FSC's service scope and capability; • obtain appropriate consent for collecting, using and sharing information; • obtain and review relevant program assessment and support-plan information; • undertake or coordinate assessment within their role and competence; • recognise when clinical assessment or professional advice is required; • develop the care plan collaboratively with the person; • coordinate services and relevant referrals; • undertake required ongoing care-management activities; • monitor changing needs, risks and service effectiveness; • arrange planned and triggered reviews; • communicate current information to workers and providers who require it; and • monitor referrals and agreed actions through to appropriate follow-up.
Support Workers	Support workers will: • understand and follow the person's current care plan and service instructions; • perform only tasks for which they are authorised and competent; • observe and document relevant changes during service delivery; • promptly report changes in health, function, cognition, behaviour, nutrition, mobility, skin integrity, wellbeing or circumstances;

	• immediately escalate emergencies and significant safety concerns; • participate in appropriate handover and communication; and • maintain accurate service records.
Associated Providers	Associated Providers delivering Community Care services on FSC's behalf will: • deliver services consistent with the person's current care plan and agreed service arrangements; • ensure relevant workers have appropriate care information; • promptly advise FSC of significant changes, incidents or emerging risks; • provide information required for assessment and review; • communicate information needed for care coordination and continuity; and • cooperate with FSC's monitoring and assurance arrangements.
Participation of Clients and Supporters	FSC will support each person to participate in assessment, planning and review to the extent they wish and are able. The person may choose to involve a registered supporter, family member, carer, advocate or other person. Supporters may assist the person to understand information, communicate preferences and contribute relevant information. Any authority to make decisions for the person must be separately established and verified.

5. POLICY

5.1 Eligibility and Service Acceptance

Before commencing services, FSC will confirm, as applicable:

- program eligibility and approval;
- relevant assessment and support-plan information;
- approved service types;
- available funding;
- that FSC is authorised and capable of delivering the required services;
- immediate risks affecting safe commencement;
- information required to commence safely; and
- whether external professional services or additional supports are required.

Program-specific eligibility criteria, referral processes and funding requirements will be maintained in operational procedures and verified against current government program requirements.

5.2 Assessment

Assessment will commence before or when services begin and continue throughout the person's involvement with Community Care.

Assessment will consider, as relevant:

- existing government aged care assessment information;
- the person's needs and strengths;
- goals;
- preferences and choices;
- cultural, spiritual and communication needs;
- functional abilities;
- existing formal and informal supports;
- the home and service-delivery environment;
- risks to health, safety and wellbeing;
- wellness, independence and reablement opportunities;
- relevant professional recommendations;
- service coordination requirements; and
- changes requiring further assessment, referral or escalation.

FSC may use approved assessment or screening tools where relevant to the person's identified needs and risks.

FSC will not require every available screening tool to be completed or repeated where it is not relevant to the person's circumstances.

Findings requiring clinical judgement will be referred to an appropriately qualified health professional.

5.3 Care Planning

An individualised care plan will be developed collaboratively with the person and people they choose to involve.

For Support at Home, the plan will be prepared in accordance with the person's Notice of Decision, support plan and approved services.

The care plan will include, as applicable:

- current needs;
- goals;
- preferences and choices;
- wellness and reablement strategies;
- agreed services;
- service providers;
- service frequency and timing;
- preferences relevant to service delivery;
- cultural and communication requirements;

- relevant assistive technology and home modifications;
- identified risks and agreed management strategies;
- worker instructions required for safe service delivery;
- relevant professional recommendations;
- coordination arrangements with other providers;
- review dates; and
- review triggers.

An individualised Support at Home budget will be developed and reviewed alongside the care plan where required.

5.4 Agreement and Access to the Care Plan

Care plans will be discussed in plain and accessible language.

FSC will:

- provide communication assistance or interpreters where required;
- seek acknowledgement that the person has participated in and understands the plan;
- record the person's agreement, concerns or areas of disagreement;
- provide or offer the person an accessible copy;
- make current information available to relevant workers; and
- share information with supporters and other providers in accordance with the person's wishes, consent and lawful information-sharing requirements.

Services will not be withheld solely because a person is unable or chooses not to sign a care plan.

Where agreement cannot be reached, FSC will document:

- the issues discussed;
- the person's views;
- outstanding risks;
- steps taken to resolve the matter; and
- any alternative arrangements required.

5.5 Monitoring

Care plans will guide the delivery of Community Care services and will be monitored through ongoing care management and service delivery.

Workers will observe, document and report changes that may affect:

- the person's needs;
- goals or preferences;
- safety;
- functional ability;
- cognition or behaviour;
- mobility;
- nutrition and hydration;

- skin integrity;
- wellbeing;
- informal support;
- service delivery; or
- identified risks.

5.6 Planned and Triggered Reviews

A formal care-plan review will occur at least every 12 months or earlier where circumstances require.

An earlier review will occur where relevant when:

- the person or appropriately authorised supporter requests one;
- needs, goals or preferences change;
- the current plan is no longer effective;
- function, cognition, behaviour, nutrition, mobility, health or wellbeing significantly changes;
- an existing risk increases or a new risk arises;
- an incident or near miss affects service delivery;
- the person is admitted to or discharged from hospital and there are changes to their care needs;
- responsibility for care changes between providers or other people;
- informal care arrangements change;
- approved services or funding materially change;
- assistive technology or home modifications affect the service arrangement;
- an aged care pathway commences or concludes;
- a health practitioner recommends a relevant change; or
- other information indicates that the existing plan may no longer safely or effectively meet the person's needs.

5.7 Deterioration and Escalation

Workers must promptly report signs that may indicate a significant change or deterioration.

Where there is a suspected emergency, workers must call 000 immediately and provide assistance within their training. Workers must not delay emergency assistance while waiting for management approval or completion of an assessment or review.

For non-emergency concerns requiring professional assessment, FSC will facilitate timely referral to an appropriate health professional or health service according to the nature and urgency of the concern.

Workers will document:

- observations;
- relevant date and time;
- escalation contacts;
- advice received;
- actions taken;
- required follow-up; and
- resulting changes to the person's plan.

Operational escalation pathways will be established through FSC's Deterioration and Escalation Procedure.

5.8 Clinical Assessment and External Health Services

FSC recognises the limits of its Category 4 role.

Where clinical assessment, diagnosis, treatment or nursing care is required, FSC will facilitate access to an appropriately qualified external practitioner or provider.

FSC will, where relevant:

- obtain consent for information sharing;
- communicate relevant assessment and care information;
- clarify respective service responsibilities;
- obtain relevant professional recommendations;
- incorporate recommendations affecting FSC's services into the care plan;
- communicate updated instructions to affected workers;
- follow up referrals and agreed actions; and
- support continuity during transitions between services.

5.9 Associated Providers

Where an Associated Provider delivers funded aged care services on FSC's behalf, FSC will maintain appropriate oversight of:

- service alignment with the person's care plan;
- worker competence relevant to the services being delivered;
- information sharing;
- incidents and emerging risks;
- changes in the person's needs;
- service quality;
- referrals and follow-up; and
- corrective actions.

FSC's accountability for services delivered on its behalf is not removed by engaging an Associated Provider.

5.10 Needs Outside FSC's Service Scope

Where assessment or review identifies needs outside FSC's registration, approved services or workforce capability, FSC will discuss this with the person and support appropriate:

- reassessment;
- referral;
- additional services;
- change of provider;
- service transition; or
- other safe alternative arrangements.

Immediate risks will be managed through an interim plan while longer-term arrangements are established.

5.11 Clinical and care governance

FSC will maintain clinical and care governance arrangements proportionate to the risks arising from its Community Care activities.

FSC will:

- identify clinical and service-delivery risks arising through assessment and care management;
- ensure workers operate within the scope of their defined roles and level of competence;
- maintain appropriate escalation pathways;
- clarify responsibilities with external health professionals and providers;
- incorporate relevant professional recommendations into service planning;
- monitor referral and follow-up processes;
- monitor relevant incidents, complaints and service outcomes;
- use findings to inform continuous improvement; and
- report significant or systemic risks through Council's governance arrangements.

5.12 Governance monitoring and continuous improvement

Community Care will monitor the effectiveness of assessment and care-planning arrangements.

Monitoring may include:

- current and overdue care plans;
- planned and triggered reviews;
- monthly Support at Home care-management activity;
- assessment and referral delays;
- identified unmet needs;
- deterioration and escalation events;
- incidents and complaints relating to assessment or care planning;
- Associated Provider issues;
- transitions between providers;
- outstanding corrective actions; and
- recurring or systemic service gaps.

Identified improvement actions will be recorded, assigned to a responsible officer, monitored and reviewed for effectiveness.

Significant or systemic risks will be escalated through FSC's Community Care governance arrangements.

6. COUNCIL EXCEPTIONS

This policy applies only to Community Care services within the Community Services and Wellbeing directorate. If this policy does not apply to a situation, staff must follow the general corporate policies and procedures used across all Council service areas.

7. IMPLEMENTATION

FSC will implement assessment and care planning generally through the following sequence:

> **Program approval → Service acceptance → Assessment → Risk assessment → Care plan and budget where applicable → Worker briefing → Service delivery → Ongoing monitoring → Care-management activity → Triggered or annual review**

Operational procedures will identify:

- approved intake and assessment processes;
- screening tools;
- competency requirements;
- recordkeeping requirements;
- referral pathways;
- My Aged Care processes;
- escalation processes;
- Support at Home care-management requirements;
- program-specific requirements; and
- approved care-plan and budget templates.

Operational processes and forms may be updated without Council amending this policy, provided they remain consistent with legislation, applicable program requirements and this policy.

Community Care policies are to be renewed every three years, or earlier if significant issue or change in legislation affecting this policy occurs.

12 PRIVACY PROVISION

Council respects and protects people's privacy and collects, stores, uses and discloses personal information responsibly and transparently when delivering Council services and business.

RESOLUTION NUMBER:	
POLICY TYPE:	Strategic

RESPONSIBLE DEPARTMENT:	Community Care

1. OBJECTIVE

The purpose of this policy is to establish the governance framework through which Flinders Shire Council (Council) identifies, engages, manages, monitors and, where necessary, exits arrangements with Associated Providers delivering funded aged care services on Council's behalf.

Council will maintain oversight of Associated Providers so that people receiving Community Care services receive safe, reliable, rights-based and culturally safe services that:

- are consistent with their assessed needs, goals and preferences;
- comply with applicable legislation, regulatory requirements, funding requirements and quality standards;
- are delivered by suitable, screened and competent workers;
- are supported by clear responsibilities, service instructions and information-sharing arrangements;
- are appropriately monitored;
- provide reliable evidence of service delivery and expenditure;
- respond promptly to incidents, complaints, service failures and compliance concerns; and
- support continuity of care when an arrangement changes or ends.

Council remains responsible for the quality, safety and compliance of funded aged care services delivered on its behalf. Council cannot transfer its registered-provider obligations through a contract, subcontracting arrangement or other form of agreement.

The Aged Care Quality and Safety Commission confirms that registered providers remain responsible for services delivered by Associated Providers, including compliance with the Aged Care Code of Conduct, and must have effective oversight mechanisms.

This policy supports compliance with:

- the *Aged Care Act 2024*;
- the *Aged Care Rules 2025*;
- the Statement of Rights;
- the Aged Care Code of Conduct;
- applicable Strengthened Aged Care Quality Standards; and
- relevant funding, registration and program requirements.

It particularly supports Standard 2: The Organisation, including Outcome 2.3: Accountability, quality system and policies and procedures, and relevant requirements concerning risk management, workforce oversight, incidents, complaints, information management and continuous improvement.

Where Council provides Category 4 care management or restorative care management, relevant clinical governance requirements also apply.

2. SCOPE

This policy applies to:

- Council when exercising its governing body responsibilities;
- the Chief Executive Officer;
- the Director Community Services & Wellbeing;
- the Community Care Team Leader;
- Responsible Persons, where their statutory duties are relevant;
- employees involved in classifying, approving, procuring, managing, monitoring or paying for externally delivered Community Care services;
- relevant procurement, finance, governance, human resources, privacy, risk and records-management officers;
- Associated Providers and their workers;
- subcontractors approved to deliver services through an Associated Provider; and
- funded aged care services delivered by an external organisation on Council's behalf.

This policy applies to funded aged care services within Council's approved registration categories and service types, including services provided under the Commonwealth Home Support Programme and Support at Home, where applicable.

This policy does not automatically apply to:

- independent health services delivering services under their own funding and clinical responsibility;
- labour-hire organisations supplying workers who operate under Council's direction;
- providers of corporate services such as accounting, legal advice, staff training or management support;
- suppliers of goods that do not deliver funded aged care services;
- organisations providing services to people that are not funded aged care services; or
- individuals engaged as aged care workers rather than as a separate organisation delivering services on Council's behalf.

Each external arrangement must be assessed according to its actual nature and operation.

3. DEFINITIONS

Aged Care Worker	A person who meets the definition of an aged care worker under applicable aged care legislation. Workers of an Associated Provider who deliver funded aged care services on Council's behalf are aged care workers for the purposes of applicable aged care obligations.
Associated provider	An organisation with which Council has an arrangement to deliver funded aged care services on Council's behalf.

	An Associated Provider may also be a registered provider in its own right. That separate registration does not remove Council's accountability for services delivered on Council's behalf. The Commission defines Associated Providers as organisations that deliver funded aged care services on behalf of registered providers. It distinguishes these organisations from aged care workers, labour-hire suppliers and providers of corporate services.
Associated Provider Register	Council's controlled record of current and former Associated Provider arrangements, including classification decisions, services, agreements, risk ratings, assurance requirements, regulatory notifications, reviews and current status.
Registered provider	An entity registered by the Aged Care Quality and Safety Commission to deliver specified funded aged care services. An associated provider may be registered or unregistered.
Aged care worker	An individual employed or otherwise engaged by a registered or associated provider to deliver funded aged care services, including relevant volunteers and contractors.
Funded aged care service	A service within the Aged Care Service List delivered under the Commonwealth aged care funding arrangements.
Due diligence	Checks made before engagement and during the agreement to establish capability, suitability, compliance and risk.
Service evidence	Records showing what was authorised, delivered, by whom, when and at what cost, including care notes, attendance records and relevant reports.
Commission	Aged Care Quality and Safety Commission.
Corrective action	Documented action taken to address an identified service, safety, quality, contractual or compliance problem, remove or reduce its cause and prevent recurrence.

4. ROLES AND RESPONSIBILITIES

Council/Governing Body	Oversee quality and safety, ensure adequate resources, review significant risks and performance, and act on unresolved concerns
Chief Executive Officer	Ensure governance and procurement arrangements support this policy. Approve or delegate agreements within Council's delegations and act on significant compliance concerns.
Director Community Services & Wellbeing	Oversee implementation, approve risk controls within delegation, ensure required Commission notifications, coordinate serious breaches and report to Council.
Community Care Team Leader	Classify arrangements, complete due diligence, maintain the register and evidence, coordinate referrals and induction, monitor performance, reconcile service evidence and escalate concerns.
Compliance officer	Support procurement, delegations, contract review, insurance checks, privacy, records and payment controls. Verify expenditure and funding requirements.
Associated Providers	Deliver agreed services safely; provide competent, screened workers; maintain evidence; report concerns and changes promptly; cooperate with Council and regulators; complete corrective actions.
All staff of Associated Provider and Aged Care Workers	Respect client rights and privacy, follow care instructions, keep accurate records and immediately report incidents, missed care and concerns.

5. **POLICY**

5.1 Classification of External Arrangements

Council will assess each external service arrangement to determine whether it constitutes an Associated Provider arrangement.

The assessment will consider:

- whether an organisation or an individual is delivering the service;
- whether the service is a funded aged care service;
- whether the service is delivered on Council's behalf;
- the funding source;
- who directs and controls service delivery;
- who holds responsibility for the client's care arrangements;
- whether the arrangement is labour hire;
- whether the service is an independent referral;
- whether the arrangement supports Council's corporate or governance functions; and
- applicable Commission guidance.

An organisation will generally be classified as an Associated Provider where it delivers funded aged care services on Council's behalf.

An individual personally engaged to deliver aged care services will generally be managed as an aged care worker rather than an Associated Provider.

The classification decision and reasons must be documented.

5.2 Due Diligence

Before engaging an Associated Provider, Council will undertake and document due diligence proportionate to the proposed services and risks.

Due diligence will consider, as relevant:

- legal identity, trading name and Australian Business Number;
- ownership and authorised representatives;
- registration status and applicable conditions;
- capability, experience, capacity and geographic coverage;
- service response times and replacement-worker arrangements;
- professional qualifications, registrations and licences;
- worker screening and banning-order arrangements;
- workforce training, competence and supervision;
- insurance;
- service-quality and safety systems;
- cultural safety;
- infection prevention and control;
- incident and complaint management;
- privacy, information security and recordkeeping;
- regulatory history, findings, restrictions or adverse information;
- conflicts of interest;
- business continuity;
- subcontracting;
- financial and operational risk; and
- risks associated with the proposed service or affected client group.

Due diligence will assess the relevance, currency and seriousness of available information rather than relying solely on provider declarations.

Identified risks, controls, approval decisions and review requirements must be documented.

An arrangement must not commence where Council is not reasonably satisfied that the authorised services can be delivered safely and in accordance with applicable requirements.

5.3 Worker Assurance

Council will maintain reasonable assurance that workers delivering funded aged care services through an Associated Provider:

- meet applicable identity and worker-screening requirements;
- are not subject to a relevant banning order or restriction;
- hold required qualifications, licences or professional registration;
- are trained and competent for assigned tasks;
- receive appropriate supervision; and
- comply with requirements applicable to their roles.

Council will require Associated Providers to maintain current records demonstrating worker compliance with applicable screening, qualification, registration and competency requirements. Associated Providers must provide a statutory declaration confirming that these records are current and appropriately monitored. FSC may request supporting evidence for assurance, audit or compliance purposes.

Registered providers are responsible for ensuring that aged care workers delivering services through Associated Providers meet applicable screening requirements.

Associated Providers must immediately notify Council where:

- a worker's screening, registration or licence expires, is suspended or becomes invalid;
- a worker becomes subject to a relevant banning order or restriction;
- a worker's suitability is called into question;
- competency concerns arise; or
- another matter affects the worker's ability to safely deliver services.

Affected workers must be removed from relevant service delivery until Council is satisfied that the issue has been appropriately resolved.

5.4 Service Agreement

An Associated Provider arrangement must be supported by a service agreement approved in accordance with Council's procurement and delegation arrangements before services commence.

The agreement will address, as applicable:

- parties and authorised contacts;
- commencement, review, extension and end dates;
- service types, tasks, exclusions and locations;
- respective roles and responsibilities;
- relevant client care and service requirements;
- clinical responsibility where applicable;
- service-quality and performance expectations;
- client rights, consent and supported decision-making;
- communication needs and cultural safety;
- screening, qualifications, training and competency;

- laws, standards, program requirements and Council policies;
- pricing and payment;
- service evidence and recordkeeping;
- client charges and financial controls;
- incidents, missed care, complaints and safeguarding;
- SIRS and other regulatory reporting;
- aged care whistleblower obligations;
- privacy, information sharing and information security;
- insurance;
- business continuity and emergency arrangements;
- conflicts of interest;
- change-notification requirements;
- Council evidence-access and audit rights;
- further subcontracting;
- corrective action;
- dispute resolution;
- suspension and termination; and
- continuity and safe transfer of care.

The agreement must provide Council with sufficient access to records and evidence to meet its registered-provider obligations.

5.5 Associated Provider Register

Council will maintain a current Associated Provider Register.

The register will record, as applicable:

- legal name, trading name and Australian Business Number;
- contact details;
- services and relevant program;
- agreement commencement, review and end dates;
- due-diligence status;
- insurance status;
- approved subcontracting;
- performance-review dates;
- regulatory notification status;
- restrictions, conditions or corrective actions; and
- arrangement status.

5.6 Regulatory Notification

Council will provide information about its Associated Providers to the Aged Care Quality and Safety Commission when required, including as part of registration or registration renewal processes and when a notifiable change occurs.

Required notifications will be submitted within the applicable regulatory timeframe using the current process specified by the Commission.

Council will maintain evidence of notifications and update the Associated Provider Register accordingly.

5.7 Client Service Arrangements

Before an Associated Provider begins delivering services to a client, Council will:

- discuss the proposed arrangement with the client;
- obtain and record relevant agreement, consent and information-sharing authority;
- explain who will deliver the service;
- consider client preferences and communication requirements;
- confirm the service commencement date;
- confirm relevant worker and contingency arrangements;
- provide necessary care and risk information securely;
- confirm that the provider understands current service instructions; and
- explain how the client can contact Council or raise concerns.

The referral or service order will identify, as applicable:

- authorised services;
- service frequency and duration;
- relevant risks;
- client communication and cultural requirements;
- relevant care-plan instructions;
- reporting requirements; and
- escalation contacts.

Relevant arrangements will be reflected in the client's service agreement, care plan and statements where required by the applicable program. Commission guidance says service agreements and monthly statements must identify services delivered by Associated Providers.

5.8 Provider Induction

Council will provide Associated Providers with information relevant to their responsibilities, including:

- applicable Council policies and procedures;
- client rights;
- Code of Conduct requirements;
- reporting contacts;
- after-hours escalation;
- emergency arrangements;
- incident and SIRS reporting;
- complaints and feedback;
- whistleblower protections;
- privacy and information security;
- care documentation;
- service evidence;
- invoicing;
- business continuity; and
- requirements for notifying Council of changes.

5.9 Monitoring and Assurance

Council will monitor Associated Provider arrangements according to service risk, volume, client impact and provider performance.

Monitoring may include:

- confirmation of service delivery;
- client feedback;
- service records and care notes;
- missed, late or changed services;

- complaints and incidents;
- worker-screening and competency assurance;
- invoice and service-evidence review;
- insurance and registration status;
- performance against service standards;
- subcontracting arrangements;
- outstanding corrective actions; and
- emerging or systemic risks.

Council's normal operational control will include monthly review of active arrangements for key service, safety, complaints, incident, records and financial exceptions.

Higher-risk arrangements will be subject to more frequent or intensive monitoring where identified through the risk assessment.

A documented performance and due-diligence review will occur:

- at least annually;
- before renewal;
- following significant non-compliance;
- where complaints or incidents indicate a possible systemic issue;
- where services or subcontracting materially change; or
- where other information indicates that the arrangement may no longer be suitable.

The review will determine whether the arrangement should continue, change, be restricted, be suspended or end.

5.10 Service Evidence, Payment and Claims

Payments and claims must be supported by reliable evidence demonstrating that the authorised service was delivered.

Council will verify provider invoices against:

- the written agreement;
- authorised service orders;
- applicable client care plans;
- service-delivery evidence;
- approved pricing; and
- applicable funding and program requirements.

Unsupported, duplicate, undelivered, ineligible or unauthorised services must not be approved for payment or claimed against aged care funding.

Identified discrepancies will be investigated and documented. Incorrect payments or claims will be corrected or recovered where appropriate.

Detailed service-evidence and invoice requirements will be maintained through Council's contract, finance and provider-management procedures.

5.11 Incidents, Complaints and Non-Compliance

Associated Providers must immediately report:

- serious safety concerns;
- actual, alleged or suspected reportable incidents;
- suspected abuse or neglect;

- missed essential care;
- significant service disruption;
- complaints;
- privacy or information-security incidents;
- worker-screening concerns; and
- material non-compliance.

Council will not wait for an Associated Provider's investigation or routine report before:

- protecting an affected client;
- arranging emergency or replacement services;
- assessing SIRS or other regulatory reporting;
- notifying police or another authority where required;
- commencing open disclosure;
- responding to a complaint; or
- taking interim risk-control action.

Council will coordinate complaints about services delivered on its behalf. Clients will not be required to navigate between Council and an Associated Provider to have their concern addressed.

Associated Provider incidents and complaints will be managed consistently with Council's:

- Incident Reporting, Investigation and Escalation Policy;
- Community Care Feedback and Complaints Management Policy;
- aged care whistleblower arrangements;
- privacy and information-security requirements; and
- regulatory reporting obligations.

Non-compliance will be recorded and assessed having regard to:

- actual or potential client harm;
- seriousness and duration;
- recurrence;
- systemic risk;
- regulatory significance;
- funding and contractual implications; and
- provider responsiveness.

Corrective actions will identify:

- the issue and underlying cause;
- immediate controls;
- required action;
- responsible person;
- due date;
- completion evidence; and
- effectiveness review.

Serious, repeated or unresolved non-compliance will be escalated promptly to the Director Community Services & Wellbeing and Chief Executive Officer.

5.12 Change, Suspension and Termination

Council will assess the effect on clients before materially changing, suspending or ending an Associated Provider arrangement.

Where immediate suspension is necessary to protect a client, Council will first take reasonable action to secure the client's safety and arrange appropriate interim or replacement services.

Change or exit arrangements will address:

- client communication;
- continuity and replacement services;
- transfer of relevant care information;
- open incidents and complaints;
- unresolved corrective actions;
- final service and payment reconciliation;
- recovery of records or Council property;
- removal of physical and system access;
- privacy and record-retention obligations;
- applicable contractual notices; and
- required regulatory notification.

An arrangement will not be treated as fully closed while material incidents, complaints, investigations, recoveries or corrective actions remain unresolved.

5.13 Records Management

Council will maintain records demonstrating the classification, approval, management, monitoring and closure of Associated Provider arrangements.
Records may include:

- classification decisions;
- due-diligence checks;
- risk assessments;
- approvals and delegations;
- signed agreements;
- worker-assurance evidence;
- regulatory notifications;
- provider induction;
- client referrals and service orders;
- service-delivery evidence;
- invoices and payment verification;
- monitoring and performance reviews;
- complaints and incidents;
- corrective actions;
- client-transition arrangements; and
- termination or closure records.

Records will be maintained in Council's authorised records-management system.

Retention and disposal will comply with applicable aged care requirements, Queensland retention and disposal schedules and any legal hold or investigation requirements.

6. IMPLEMENTATION

The Director Community Services & Wellbeing is responsible for ensuring operational arrangements support this policy.

Implementation will be supported by:

- an Associated Provider Handbook;
- an arrangement-classification assessment;
- the Associated Provider Register and Due Diligence Checklist;
- an approved agreement template;

- provider induction records;
- client referral or service-order templates;
- service-evidence and invoice controls;
- a performance-review template;
- corrective-action processes;
- exit and transition controls; and
- governance reporting arrangements.

The operational process will follow the broad sequence:

Classify arrangement → Assess risk and complete due diligence → Approve → Execute written agreement → Record and notify → Arrange client services → Monitor delivery and evidence → Review performance → Correct, vary, suspend, renew or exit

Operational forms, system instructions, reporting tools and templates may be updated without Council amending this policy, provided the changes remain consistent with the policy, applicable legislation and Council delegations.

Adopted at the October 2026 Council Meeting - Resolution Number

POLICY TITLE:	Medication Management Policy
POLICY NUMBER:	
REVISION NUMBER:	
TRIM REFERENCE:	
RESOLUTION NUMBER:	
POLICY TYPE:	Strategic
APPROVING OFFICER:	Council Adoption
DATE OF ADOPTION:	30 October 2026
TIME PERIOD OF REVIEW:	3 Years
DATE OF NEXT REVIEW:	30 October 2029
RESPONSIBLE DEPARTMENT:	Community Care

1. OBJECTIVE

The purpose of this policy is to establish the framework through which Flinders Shire Council supports the safe use of medicines by people receiving Community Care services.

Council will provide person-centred, non-clinical medication support within its registered service scope and the demonstrated competence and authority of its workers.

Council will:

- support clients to retain control of their medicines and make informed decisions, including decisions to decline support;
- clearly define the medication-support tasks Council workers may and may not undertake;
- ensure medication support is individually assessed, agreed and documented;
- arrange appropriate alternative support when a client's needs exceed Council's service scope or workforce capability;
- reduce medication errors and service omissions through current information, clear care plans, accurate records and reliable communication;
- recognise and promptly escalate medication concerns, adverse effects, deterioration and situations requiring clinical advice;
- respect cultural needs, communication preferences, privacy, consent and supported decision-making;
- maintain appropriate worker training, competency assessment and supervision;
- manage medication-related incidents and near misses; and
- use medication-safety information to support continuous improvement.

Council is registered to provide Category 4 services. Standards 1–4 of the Strengthened Aged Care Quality Standards apply to these services. Outcome 5.1 Clinical governance also applies where Council provides care management or restorative care management.

Outcome 5.3: Safe and quality use of medicines does not automatically apply to Council's Category 4 services. However, Council will use its principles and the Australian Government's Guiding Principles for Medication Management in the Community as practice references for safe, person-centred medication support and coordination. Those principles are intended to support organisations assisting people to manage medicines in their homes and communities.

An activity being permitted under Queensland medicines legislation does not automatically make it an authorised FSC worker task. FSC determines the medication activities its workers may undertake having regard to applicable law, its registered service scope, client needs, task risk and worker competence.

2. SCOPE

This policy applies to:

- Council's Community Care services;
- the Chief Executive Officer;
- the Director Community Services & Wellbeing;
- the Community Care Team Leader;
- Care Managers (Partners);
- support workers;
- scheduling and administration staff;
- volunteers and students;
- contractors;
- Associated Providers and their workers, where relevant to services delivered on Council's behalf; and
- any worker involved in planning, coordinating, delivering, recording, monitoring or reviewing medication support.

This policy covers:

- medication prompting;
- observation of self-administration;
- limited practical assistance;
- coordination of medication supply;
- identification and reporting of observable medication concerns;
- referral and escalation;
- medication-support records; and
- medication-related incidents and near misses.

FSC does not employ nurses to provide nursing services. The absence of employed nurses does not, by itself, determine whether a medication-support activity may be undertaken by an FSC support worker. Medication activities are authorised according to applicable Queensland law, FSC's service scope, the individual client's assessed needs, task risk and the worker's documented competence and authorisation.

Where a client requires medication support that FSC has not authorised its workers to provide, or requires nursing assessment, clinical medication review or another service involving professional clinical judgement, FSC will facilitate referral to an appropriately qualified health professional or other suitable provider.

3. DEFINITIONS

Medication Administration	Administration has the meaning given under the *Medicines and Poisons Act 2019* (Qld) and includes introducing a medicine into a person's body or giving a dose of medicine to a person to take immediately. Queensland medicines legislation provides circumstances in which a person lawfully helping a patient may administer medicine in accordance with the medicine's approved label. An activity being lawful under Queensland medicines legislation does not automatically make it an authorised FSC worker task. FSC workers may only undertake medication activities specifically authorised by FSC, documented in the client's care plan and within the worker's demonstrated training and competence.
Medication	Prescription and non-prescription medicines, including: • tablets and capsules; • liquids; • topical preparations; • eye and ear preparations;

	• inhaled medicines; • patches; • complementary medicines; and • supplements relevant to the client's care.
Prompting	A verbal or other agreed reminder to a client who can safely self-administer. The client remains responsible for identifying, selecting and taking their medicine. A prompt does not involve a worker selecting or giving a dose.
Practical assistance	Limited assistance that enables a client to manage their own medicines while the client retains responsibility for selecting and taking the medicine. Practical assistance may include activities specifically assessed and authorised in the client's care plan and within the worker's documented competence. Where the worker selects, prepares, applies or gives a medicine to the client for immediate use, the activity may constitute medication administration and must be assessed against applicable Queensland medicines legislation and FSC's authorised medication-support arrangements.
Self-administration	The client controls the selection and use of their own medicine. Prompting or practical assistance is appropriate only where the client can safely perform the essential medication tasks and retains control over whether and how the medicine is taken.
Storage of medications	This refers to the storage of medicines in a home. Medicines need to be kept dry and intact. Some medicines will need to be stored in a fridge to maintain stability, potency and effectiveness.
Medication Competent Staff	A worker whose role-relevant training, observed competency and authority to perform the medication-support tasks assigned to them have been verified and recorded by Council. Holding, studying towards or completing a Certificate III qualification does not, by itself, establish competence or authority to undertake medication-support tasks.
Medication sheet	A record of the support provided, including prompts, practical assistance, observed self-administration, client-reported use, refusal, concerns and escalation. It is not an administration record for doses given by FSC workers.
Current medication list	A dated list verified with the client and, with consent or other lawful authority, their pharmacist or prescriber. It includes medicine name, strength, form, dose, route, timing and relevant instructions, plus known allergies and adverse reactions.
Exceptional Medication Support (Good Samaritan Rule)	A one-off situation where a client has an immediate medication-related need because their usual support is unexpectedly unavailable and delaying assistance may place the client at risk. The worker must promptly escalate the situation to the Community Care Team Leader or nominated manager. Appropriate advice or alternative support must be arranged through a pharmacist, prescriber, health service or emergency service where required. Any assistance provided by an FSC worker must remain within the worker's training, demonstrated competence, lawful authority and FSC's approved service scope. Manager approval does not authorise a worker to undertake an otherwise unauthorised medication activity.

4. ROLES AND RESPONSIBILITIES

Council/Governing Body	Council will: • maintain strategic oversight of Community Care quality and safety; • endorse the Clinical and Care Governance Framework where required; • receive assurance regarding significant medication-related risks, incidents, trends and improvement activities; and • monitor whether appropriate resources and governance systems support safe Community Care services.
Chief Executive Officer	The Chief Executive Officer will: • maintain executive oversight of Community Care governance; • ensure appropriate organisational systems and resources support implementation of this policy; • review material or systemic medication-safety concerns; and • escalate significant governance matters to Council where appropriate.
Director Community Services and Wellbeing	The Director Community Services & Wellbeing will: • oversee implementation of this policy; • confirm Council's medication-support model remains consistent with its registration, funding requirements and applicable Queensland law; • maintain appropriate external clinical assessment, advice and referral arrangements; • ensure Council has sufficient trained and competent workers; • ensure appropriate procedures, records and escalation arrangements are maintained; • oversee significant medication incidents and service risks; • monitor audit, incident and client-feedback information; • ensure corrective and improvement actions are implemented; and • provide appropriate assurance reporting to the Chief Executive Officer and Council.

Community Care Team Leader	The Community Care Team Leader will: • maintain operational oversight of Council's medication-support arrangements; • ensure workers are trained, assessed as competent and authorised before independently providing medication support; • ensure trainees are appropriately supervised; • arrange annual observed competency reassessment; • arrange earlier reassessment following a relevant incident, change in tasks or identified performance concern; • maintain current escalation contacts and fallback pathways; • monitor medication-support records; • coordinate medication-related incident management; • monitor service availability and backup arrangements; • identify and escalate systemic risks; and • report medication-safety trends through Community Care governance arrangements.
Care Managers (Partners)	Care Managers (Partners) will: • assess whether Council's medication-support model is appropriate for the client; • obtain consent or other lawful authority for relevant information collection and sharing; • obtain current medication information relevant to Council's service role; • develop the Medication Support Plan with the client; • involve relevant supporters according to the client's wishes and lawful arrangements; • obtain external professional advice where clinical judgement is required; • establish client-specific escalation and backup contacts; • ensure the plan clearly identifies authorised worker tasks; • communicate current instructions to affected workers; • monitor changes affecting safe self-administration; • facilitate external clinical or medication review where indicated; • follow up referrals and outstanding actions; • review the plan following changes, incidents or other review triggers; and • arrange continuity or alternative services where the client's needs exceed Council's scope.
Administration	Scheduling and administration workers will: • roster workers whose documented competency and authority match the planned medication-support tasks; • schedule visits consistently with the client's agreed plan;

	• promptly escalate missed or delayed visits that may affect medication safety; and • support appropriate records and communication processes.
Support workers	Support workers will: • review the current Medication Support Plan before providing support; • confirm the client's identity; • explain the proposed support and seek the client's agreement; • provide only the tasks expressly authorised in the plan; • remain within their training, competence and role; • maintain accurate and timely records; • observe and report relevant changes or concerns; • follow applicable escalation instructions; • report medication errors, near misses and service omissions; and • participate in training, supervision and competency assessment. • Support workers must not: ○ independently resolve conflicting medication information; ○ provide clinical advice; ○ recommend treatment changes; ○ decide whether a missed or uncertain dose should be taken; ○ determine whether symptoms are caused by a medicine; or ○ perform an unauthorised task because regular clinical or family support is unavailable
Clients and Families	Council will support clients to retain control of their medicines and participate in decisions about medication support. Clients may choose to involve family members, carers, registered supporters, advocates or other people. Supporters may: • provide relevant information; • assist the client to understand and communicate decisions; • raise concerns; and • participate in reviews according to the client's wishes and lawful authority. Their involvement does not transfer Council's responsibility for the safety and quality of services Council provides.
Associated Providers	Where an Associated Provider delivers medication-related support on Council's behalf, Council will ensure the arrangement: • remains within Council's registration and approved services; • specifies the medication tasks to be delivered; • establishes worker qualifications, screening, competency and supervision requirements; • clarifies clinical and non-clinical responsibilities; • requires prompt reporting of medication incidents and concerns;

	• provides Council with appropriate access to records and assurance evidence; and • is monitored under Council's Associated Provider Engagement and Management Policy.

5. POLICY

5.1 Assessment and Medication Support Planning

Before medication support begins, the Care Manager will assess:

- the client's needs and preferences;
- consent;
- communication requirements;
- cognitive and functional ability relevant to self-administration;
- vision and dexterity;
- swallowing concerns;
- previous errors, missed doses or uncertainty;
- the type of assistance requested;
- dose-administration aids or packaging;
- timing requirements;
- available family and other supports;
- arrangements between Council visits;
- relevant environmental or storage issues; and
- escalation and backup arrangements.

Where clinical judgement is required, or safe self-administration is uncertain, the Care Manager will obtain assessment or advice from an appropriately qualified health professional before establishing or continuing the affected medication-support task.

A medication list alone is not sufficient evidence that the client can safely self-administer with prompting or practical assistance.

The Medication Support Plan must specify:

- the exact task Council will perform;
- the relevant medicine, packaging or dose-administration aid, where necessary to identify the authorised support;
- timing;
- the client's role;
- the worker's role;
- relevant risks;
- signs or concerns requiring escalation;
- escalation contacts;
- after-hours or fallback arrangements;
- support between Council visits;

- recordkeeping requirements; and
- review triggers.

Council will not substitute prompting or practical assistance for medication administration when the client cannot safely self-administer.

5.2 Authorised Medication Support Activities

FSC workers may provide medication support only where:

- the client's medication-support needs have been assessed;
- the activity is consistent with applicable Queensland medicines legislation;
- the medicine has been lawfully supplied for the client;
- current medication instructions are available;
- the activity is documented in the client's care plan;
- the worker has completed relevant training and demonstrated competence;
- the worker has been authorised by FSC to undertake the activity; and
- appropriate escalation arrangements are in place.

Authorised activities may include prompting, observation, practical assistance and any other medication-support activity specifically approved under FSC's Medication Support Procedure.

FSC will maintain a controlled records identifying which medication-support activities workers may undertake and the competency requirements applying to each activity.

5.3 Activities Requiring Specific Authorisation or Excluded from FSC's Service Model

Medication activities involving administration must not be undertaken by an FSC worker unless the activity:

- is lawful under applicable Queensland medicines legislation;
- is an activity FSC has expressly authorised;
- is included in the client's current medication-support arrangements; and
- is within the worker's documented competence and task authorisation.

Unless specifically approved through FSC's Medication Support Procedure, support workers must not:

- select or change a prescribed dose;
- determine whether a PRN medicine is clinically required;
- calculate a variable dose;
- alter a dose-administration aid;
- crush or alter a medicine unless supported by appropriate authorised instructions;
- substitute one medicine for another;
- independently withhold, cease or recommence treatment;
- resolve conflicting medication instructions;
- undertake clinical medication reconciliation;
- undertake clinical medication review;
- prescribe or recommend medicines; or

- make another medication decision requiring professional clinical judgement.

FSC may designate particular medication-administration activities as outside its service model based on risk, workforce capability, registration, insurance or governance considerations even where the activity is not prohibited by Queensland medicines legislation.

5.4 Exceptional Medication Support / Contingency Arrangements

A one-off situation where a client has an immediate medication-related need because their usual support is unexpectedly unavailable and delaying assistance may place the client at risk.

The worker must immediately escalate the situation to the Community Care Team Leader or nominated manager and obtain appropriate clinical, pharmacy or emergency advice where required.

Any assistance provided must be lawful, within the worker's demonstrated competence and consistent with applicable medication instructions. The provision does not authorise a worker to undertake a medication activity prohibited by law or outside their competence.

5.5 Consent and Refusal

Council will explain the proposed medication support in a way the client can understand.

Council will use communication assistance, interpreters, advocates or supported decision-making arrangements where required.

Workers must not:

- force or threaten a client;
- conceal medicines;
- misrepresent the purpose of a medicine;
- assume that a family member can consent for the client; or
- continue repeated prompting where the client has clearly refused and further prompting would become coercive.

Refusal will be recorded and escalated according to:

- the individual Medication Support Plan;
- the nature of the medicine;
- known clinical instructions; and
- the apparent level of risk.

Repeated refusal, inability to communicate a decision or a change in the client's ability to self-administer requires review.

Where decision-making ability or substitute authority is uncertain, Council will facilitate appropriate assessment and verify the person's lawful authority before relying on substitute consent.

5.6 Medication Information

At intake and when medication support is established, Council will obtain information relevant to its service role with the client's consent or other lawful authority.

Council will record:

- the source of the information;
- the date obtained;
- information relevant to the authorised support task;

- known allergies and adverse reactions; and
- client-specific escalation instructions.

Current information relevant to Council's role will be sought from the client and, where authorised, the pharmacist, prescriber or relevant health service.

Council workers must not undertake clinical medication reconciliation.

Conflicting medication lists, labels, dose-administration aids or instructions must be referred to an appropriate pharmacist or prescriber. Workers must not decide which source is correct or advise the client to stop or change treatment.

Medication information must be reviewed and updated where relevant following:

- hospital discharge or another transition of care;
- commencement or change of a medicine;
- an identified discrepancy;
- an incident or near miss;
- a change in the client's condition;
- deterioration in cognition or function;
- new swallowing difficulty; or
- a change in the client's ability to self-administer.

Following a transition of care, Council will confirm that information relevant to its medication-support role has been updated before continuing an affected task where available information is unclear or inconsistent.

The Commonwealth's medication-management guidance supports continuity of medication information across health settings and providers.

5.7 Medicine Supply and Access

Council may support agreed arrangements for:

- prescription-renewal coordination;
- pharmacy collection;
- pharmacy delivery; and
- communication of supply concerns to the client, Care Manager or relevant service.

Council will allow reasonable lead time for routine supply but must escalate where:

- supply is running low;
- delivery fails;
- there is a time-critical need;
- the usual pharmacy or prescriber is unavailable; or
- interruption may create a safety risk.

Council workers must not prescribe, recommend substitute medicines or make treatment decisions.

Where the client's medicine needs exceed the support Council can safely provide, Council will coordinate appropriate alternative arrangements.

5.8 Medication Storage

Workers may identify and report observable storage concerns, including:

- damaged or compromised packaging;

- medicines that appear to be expired;
- unsafe access;
- storage inconsistent with the dispensing label or documented instructions;
- refrigeration issues; and
- confusion between current and discontinued supplies.

Workers must not independently determine:

- medicine stability;
- medicine potency;
- whether a medicine remains suitable for use; or
- whether a damaged or incorrectly stored medicine may still be taken.

Pharmaceutical or clinical questions must be referred to a pharmacist or prescriber.

With the client's agreement, Council may assist the client to obtain pharmacy advice or arrange return of unwanted medicines through an appropriate service.

Workers must not alter or dispose of doses from a dose-administration aid.

5.9 Providing Prompting and Practical Assistance

Before providing support, the worker must:

1. confirm the client's identity;
2. review the current Medication Support Plan;
3. confirm the agreed task and visit time;
4. explain the proposed support;
5. obtain the client's agreement;
6. ask whether the medicine may already have been taken;
7. check for an obvious discrepancy, damaged pack or significant change affecting safe self-administration; and
8. stop and escalate where the support cannot be safely provided as planned.

Workers will provide only the level of medication support authorised in the client's Medication Support Plan.

For prompting or assistance with self-administration, the client remains responsible for selecting and taking the medicine.

Where FSC has authorised a specific medication-administration activity, the worker must follow the applicable Medication Support Procedure, medication instructions and task-specific competency requirements.

Workers must stop and escalate where:

- instructions are unclear;
- medication information conflicts;
- the client's condition has changed;
- the task exceeds their authority or competence; or
- the medicine cannot be safely supported as planned.

5.10 Concerns and Escalation

Each Medication Support Plan must identify:

- the usual pharmacist;
- the usual prescriber;
- other relevant external health services;
- the Community Care Team Leader;
- after-hours or fallback contacts;
- who is responsible for seeking advice; and
- who is responsible for follow-up.

Emergency

Call 000 immediately for severe or rapidly worsening symptoms, including:

- collapse;
- breathing difficulty;
- suspected stroke;
- severe allergic reaction;
- choking;
- unresponsiveness; or
- another apparent emergency.

Workers will provide first aid within their training, follow emergency instructions and notify Council as soon as immediate safety has been addressed.

Workers do not require prior management approval to call emergency services.

Suspected overdose or poisoning

Call 000 if the client is seriously unwell.

Otherwise, obtain urgent advice from the Poisons Information Centre on 13 11 26, as appropriate to the circumstances.

Keep available medicine packaging and relevant information for emergency or clinical responders.

Missed, duplicate or uncertain dose

Contact the pharmacist, prescriber or other service identified in the client's plan according to the level of urgency.

Workers must not advise the client to:

- take an additional dose;
- skip a dose;
- change the timing;
- change the dose; or
- restart or stop treatment.

Refusal

Respect the client's decision and follow the client-specific escalation plan.

Do not use repeated prompting in a manner that becomes coercive.

Suspected adverse effect

Seek prompt clinical advice according to the nature and severity of the concern.

Workers must describe observed signs and client-reported symptoms factually and must not diagnose the cause.

Deterioration or reduced ability to self-administer

Arrange appropriate assessment where there is:

- new swallowing difficulty;
- confusion;
- marked drowsiness;
- reduced vision or dexterity;
- repeated errors;
- inability to manage packaging;
- significant change in cognition or function; or
- another deterioration affecting safe medication use.

Stop the affected FSC support task if it cannot be performed safely. Do not advise the client to stop prescribed treatment.

5.11 Professional Medication Review

Council does not undertake clinical medication reviews.

Where information indicates that professional review may be warranted, the Care Manager will facilitate referral to an appropriate pharmacist, prescriber or other health professional.

Referral triggers may include:

- repeated medication errors or missed doses;
- hospital discharge or another care transition;
- significant deterioration in cognition or function;
- new swallowing difficulties;
- substantial medication changes;
- repeated refusal;
- apparent adverse effects;
- inconsistent medication information;
- difficulty managing medicines or packaging; or
- changes indicating that prompting or practical assistance is no longer sufficient.

Council will follow up the referral and incorporate relevant professional recommendations affecting Council's services into the client's care plan.

Outcome 5.3 identifies medicine changes, care transitions, deterioration, acute illness and medicine-related adverse events as circumstances relevant to professional medication review. Council uses these matters as referral triggers rather than undertaking the clinical review itself.

5.12 Medication Support Records

Workers must record:

- date and time;

- worker identity;
- authorised task;
- support provided;
- actual outcome;
- refusal or inability to complete the task;
- concerns identified;
- person or service contacted;
- advice received;
- action taken; and
- follow-up responsibility.

Records must clearly distinguish between:

- prompting;
- practical assistance;
- observed self-administration;
- client-reported medication use;
- refusal;
- an unwitnessed outcome; and
- a medication discrepancy or incident.

Workers must not record that:

- Council administered a medicine; or
- the client took a medicine,

unless that description is factually accurate and reflects what was actually observed.

Records must not be signed retrospectively as though the worker witnessed an event that was not witnessed.

A late entry must be identified as a late entry and include:

- the time of the event;
- the time of the entry; and
- the reason for the delay.

Original records must not be obscured, backdated or improperly amended.

5.13 Medication Incidents and Near Misses

Medication errors, service-related omissions, near misses and adverse events must be reported through Council's incident-management system.

Immediate priorities are to:

- protect the client;
- obtain appropriate clinical or emergency advice;
- prevent further harm;
- preserve relevant information; and
- communicate with the client and authorised supporters.

Council will:

- assess whether open disclosure is required;
- investigate proportionately;
- identify contributing factors;
- determine whether the support plan remains appropriate;
- assess whether worker competency requires review;
- implement corrective action;
- monitor effectiveness; and
- consider SIRS or other notification obligations.

A medication incident is not automatically a SIRS reportable incident. The circumstances must be assessed under Council's Incident Reporting, Investigation and Escalation Policy and applicable SIRS requirements.

5.14 Contingency and Continuity

Where usual medication support is unavailable, the Community Care Team Leader will activate the client's agreed backup arrangements or arrange suitable alternative support.

A client request, staffing shortage or manager approval does not independently authorise a medication activity. Workers may only undertake activities that are lawful, authorised by FSC, documented in the client's care arrangements and within their demonstrated competence. Exceptional circumstances must be managed through FSC's escalation and contingency arrangements.

Where an unmet need is time-critical, Council will obtain prompt advice from the pharmacist, prescriber, relevant health service or emergency service according to risk.

Council will:

- record the service gap;
- document actions taken;
- notify affected people as appropriate;
- confirm alternative arrangements;
- monitor continuity; and
- report a service-related incident where required.

5.15 Review of Medication Support

Medication support will be reviewed:

- during scheduled care-plan reviews;
- when a medicine or medication-support arrangement changes;
- following hospital discharge or another care transition;
- following an incident or near miss;
- when the client's health, cognition, function or communication changes;
- where swallowing concerns arise;
- where consent or decision-making arrangements change;

- where supports between Council visits change;
- following repeated refusal or missed doses;
- where workers identify difficulty providing the authorised task; or
- where the client or an authorised supporter requests review.

Where prompting or practical assistance is no longer sufficient, Council will arrange appropriate assessment and alternative support without an avoidable gap in care.

5.16 Clinical and Care Governance

Council will integrate medication-support risks into its Clinical and Care Governance Framework and broader corporate governance arrangements.

Council will:

- maintain clear medication-support boundaries;
- establish appropriate external clinical and pharmacy relationships;
- clarify responsibilities with health professionals and external providers;
- maintain referral and escalation arrangements;
- monitor medication incidents, near misses, complaints and service omissions;
- monitor worker competency and supervision;
- review medication-support records;
- analyse trends;
- identify systemic risks;
- monitor corrective actions; and
- use findings to improve policies, procedures, training and service arrangements.

Outcome 5.1 requires governance systems that ensure workers are competent and operate within their defined role and that the provider and health professionals agree on their respective roles and protocols.

5.17 Training and Competency

Workers must complete training relevant to their authorised medication-support tasks and demonstrate competence before independently providing medication support.

Training will include:

- differences between prompting, practical assistance and administration;
- worker role and service boundaries;
- consent and refusal;
- supported decision-making;
- dose-administration aids;
- safe practical assistance;
- current medication information;
- medication-storage concerns;
- identifying discrepancies;
- observing and reporting change;

- deterioration and emergency response;
- missed, duplicate or uncertain doses;
- documentation;
- incident and near-miss reporting;
- privacy and confidentiality; and
- escalation pathways.

Competency assessment must:

- reflect the actual tasks the worker will perform;
- include observed practice;
- include realistic escalation scenarios;
- be undertaken by a person with appropriate expertise;
- be documented; and
- result in clear authorisation of permitted tasks.

External clinical expertise will be used where the competency assessment requires it.

Annual refresher training and observed reassessment are required under this policy.

Earlier reassessment will occur following:

- a relevant medication incident;
- a change in assigned tasks;
- a change in procedure;
- a significant legislative or regulatory change;
- a period of absence from the task; or
- an identified performance concern.

Training, assessment, supervision and authorisation records will be maintained.

6. IMPLEMENTATION

The Director Community Services & Wellbeing is responsible for ensuring this policy is supported by an operational Medication Support Procedure.

Implementation will be supported through:

- client assessment;
- an individual Medication Support Plan;
- current medication information relevant to Council's role;
- worker training and competency assessment;
- clear task authorisation;
- accessible escalation contacts;
- medication-support records;
- pharmacy and clinical referral arrangements;
- service continuity plans;
- incident reporting;

- audits;
- trend analysis; and
- continuous improvement.

The operational process will follow the broad sequence:

Assess need → Confirm FSC scope → Obtain relevant information → Develop Medication Support Plan → Allocate competent worker → Provide authorised support → Record → Escalate concerns → Monitor → Review

System instructions, forms, contact details and detailed work steps will be maintained in the Medication Support Procedure rather than this policy.

Operational forms and procedures may be updated without Council amending this policy, provided the changes remain consistent with this policy, applicable law and Council's registration and delegations.

12. APPROVAL

Adopted at the October 2026 Council Meeting - Resolution Number

POLICY TITLE:	Deterioration and Escalation of Care Policy
POLICY NUMBER:	
REVISION NUMBER:	
TRIM REFERENCE:	
RESOLUTION NUMBER:	
POLICY TYPE:	Strategic
APPROVING OFFICER:	Council Adoption
DATE OF ADOPTION:	30 October 2026
TIME PERIOD OF REVIEW:	3 Years
DATE OF NEXT REVIEW:	30 October 2029
RESPONSIBLE DEPARTMENT:	Community Care

1. OBJECTIVE

The purpose of this policy is to establish how Flinders Shire Council (FSC) Community Care recognises, responds to, communicates and escalates changes or deterioration in a client's health, function, cognition, mental health, behaviour, circumstances or wellbeing.

FSC will maintain systems that support workers to:

- recognise changes from a client's usual condition or function;
- listen and respond to concerns raised by clients and supporters;
- take immediate action where there is a risk to safety;
- obtain emergency assistance without unnecessary delay;
- communicate concerns clearly and promptly;
- facilitate access to appropriate external clinical assessment and health services;
- follow up referrals and unresolved concerns;
- review care and service arrangements following significant changes;
- document observations, escalation and outcomes accurately; and
- use deterioration, escalation and referral information to improve services.

FSC workers must operate within their role, training and competence. Non-clinical workers do not diagnose illness or substitute their judgement for clinical assessment.

This policy supports compliance with the Aged Care Act 2024, Aged Care Rules 2025, Statement of Rights and Strengthened Aged Care Quality Standards, particularly:

- Outcome 3.1: Assessment and planning;
- Outcome 3.2: Delivery of funded aged care services;
- Outcome 3.3: Communicating for safety and quality; and
- Outcome 5.1: Clinical governance, where applicable.

Outcome 3.2 specifically requires providers to support aged care workers to recognise risks and deterioration in physical, mental and cognitive health and function and respond and escalate in a timely manner.

Outcome 3.3 requires systems to communicate critical information in a timely way and processes by which clients, supporters and health professionals can escalate concerns about health, safety and wellbeing.

2. SCOPE

This policy applies to:

- Community Care management;
- Care Partners;
- support workers;
- administration staff where relevant;
- volunteers and students;
- contractors;
- Associated Providers and their workers delivering services on FSC's behalf; and
- other FSC workers involved in planning, coordinating, delivering or monitoring Community Care services.

It applies to Community Care clients during:

- in-home service delivery;
- community-based service delivery;
- transport or other authorised Community Care activities;
- telephone or remote interactions undertaken as part of service delivery; and
- care coordination and follow-up.

FSC does not provide continuous clinical monitoring.

Community Care workers observe and respond to changes identified in the course of their work. Clients and supporters will be provided with information about:

- FSC service availability;
- FSC escalation processes;
- emergency assistance;
- relevant after-hours arrangements; and
- how to raise concerns.

3. DEFINITIONS

Deterioration	A sudden or gradual worsening from the client's usual physical health, cognition, mental health, behaviour, function or wellbeing. It may include confusion, reduced alertness, breathing difficulty, pain, reduced mobility, falls, poor intake or weight loss. Environmental or social changes may also increase risk and require escalation.
Mental health deterioration	A change in emotions, thinking, behaviour or functioning that adversely affects wellbeing or safety, including severe distress or risk of self-harm.
Escalation	Seeking appropriate assistance when a change or risk is identified, communicating the concern directly, confirming the response and pursuing further help when the concern remains unresolved.
Acute condition	An illness or health problem that develops suddenly or over a short period. Acute conditions may cause deterioration and may be serious or life-threatening. Staff must respond according to the symptoms and urgency.

Baseline	The client's usual condition, abilities and presentation, recorded in the care plan and informed by the client and those they wish to involve.
Clinical Assessment	Assessment requiring the knowledge and judgement of an appropriately qualified health professional. Observation and reporting by support workers do not replace clinical assessment.

4. ROLES AND RESPONSIBILITIES

Elected members and governing body	• Approve this policy and, where Outcome 5.1 applies, endorse the clinical governance framework. • Provide resources for safe services, workforce competence and reliable escalation arrangements. • Receive reports on deterioration responses, referral delays, incidents and improvement actions; address non-compliance.
Management	• Implement this policy and maintain a current primary, backup and after-hours escalation contact list accessible to workers. • Agree roles and referral protocols with external health professionals and services, including urgent access and follow-up arrangements. • Ensure associated providers meet agreed responsibilities and workers understand role limits. • Monitor policy effectiveness and arrange clinical expertise for governance review where needed. • Communicate service hours and escalation processes through accessible client information and maintain training and competency records.
Care Managers	• Receive and acknowledge concerns, coordinate appropriate external clinical advice and assessment, and implement immediate service safety measures within their role. • Do not treat lack of nursing employment as a reason to delay obtaining clinical assistance. • Discuss concerns with the client and authorised or chosen supporters as appropriate; obtain and record relevant consent. • Confirm referrals are received, follow up assessment outcomes and re-escalate unresolved concerns. • Update care and services plans with the client and relevant health professionals; communicate changes to affected workers and other providers with lawful authority. • Arrange handover, follow-up support, incident assessment and relevant management reporting.
Carers and Support Staff	• Recognise changes from the client's usual condition and listen to concerns raised by the client or supporters. • Call 000 immediately for a suspected medical emergency and follow operator instructions. • For other concerns, use the escalation pathway, obtain acknowledgement and seek further help if there is no response or the client worsens. • Provide first aid and assistance only within training and role. Use approved resources without delaying help. • Record factual observations, client statements, contacts, advice and actions. Volunteers must immediately alert the designated worker or manager and follow the emergency pathway when necessary.
External health professionals	• External clinicians undertake assessment and treatment within their professional scope and provide advice and follow-up recommendations under agreed arrangements. • FSC coordinates access and implements service changes within its role; it must not assume a clinician has accepted responsibility merely because a referral was sent.

Clients and Families	• Clients are supported to share concerns and participate in decisions. Family members and other supporters participate according to the client's preferences, consent and any lawful decision-making authority. These responsibilities do not transfer FSC's provider obligations to clients or families.

5. POLICY

5.1 Recognising Change and Deterioration

Workers will remain attentive to changes observed during Community Care service delivery.

Changes may be:

- sudden or gradual;
- physical;
- cognitive;
- psychological;
- behavioural;
- functional;
- environmental; or
- social where these affect health, wellbeing or safe service delivery.

Workers will:

- consider the client's known baseline;
- ask the client about observed changes;
- listen to concerns;
- consider relevant care-plan information;
- report meaningful changes;
- take immediate action where required; and
- document observations factually.

FSC will not require unqualified workers to undertake clinical observations or assessments beyond their role and competence.

Inability to obtain a measurement or complete an assessment must not delay escalation where the client appears seriously unwell.

5.2 Emergency Response

Workers must call 000 immediately where an emergency is suspected.

Examples may include:

- severe breathing difficulty;
- chest pain or symptoms suggesting a serious cardiac event;
- signs suggesting stroke;
- collapse;
- significantly reduced consciousness;
- severe bleeding;
- seizure;

- choking;
- serious injury;
- severe allergic reaction;
- immediate risk of suicide or serious self-harm; or
- another situation presenting an apparent immediate threat to life or health.

These examples are not exhaustive.

Workers will:

1. call 000;
2. provide the client's location and access information;
3. describe observed signs and circumstances;
4. follow emergency-service instructions;
5. provide first aid within their training;
6. remain with the client where safe and practicable until responsibility is handed over;
7. provide relevant client information to responders where lawfully appropriate;
8. notify FSC management when immediate safety permits; and
9. document and report the event.

Emergency action must not wait for:

- management approval;
- family permission;
- completion of documentation;
- completion of an assessment or screening tool; or
- routine referral processes.

5.3 Urgent Non-Emergency Concerns

A new or worsening concern that does not clearly require emergency assistance must still be escalated promptly.

Examples may include:

- worsening pain;
- substantially reduced food or fluid intake;
- suspected infection;
- medication concerns;
- new confusion;
- repeated falls;
- new wounds;
- functional decline; or
- other meaningful change.

Workers will contact the Care Partner, Team Leader or approved escalation contact promptly during the service interaction where immediate follow-up is required.

The Care Manger will facilitate appropriate professional advice or assessment.

Where:

- the usual contact is unavailable;

- the referral cannot be actioned within a timeframe appropriate to the concern;
- the client's condition worsens; or
- serious concern remains,

FSC will use the alternative escalation pathway or call 000 where an emergency is suspected.

An urgent concern must not be communicated solely through a routine progress note, voicemail or electronic message.

5.4 Gradual Changes

Gradual changes without immediate warning signs must still be documented and communicated.

The Care Manager will consider whether the change requires:

- further client discussion;
- professional assessment;
- care-plan review;
- risk assessment;
- formal aged care reassessment;
- changes to services;
- support for family or informal carers; or
- another referral.

Outcome 3.1 requires review where physical, mental or cognitive function deteriorates or changes, carers' ability to provide support changes, transitions occur or new risks emerge.

Gradual deterioration is not automatically an incident. Where the circumstances also meet FSC's incident-management criteria, the matter must be managed through both processes.

5.5 Structured Communication and Handover

Workers will communicate deterioration and safety concerns in a clear and structured manner.

FSC may use an approved structured communication method such as ISBAR:

- Identify: worker and client;
- Situation: immediate concern;
- Background: relevant baseline and circumstances;
- Assessment/observations: factual observations within the worker's role; and
- Recommendation/request: the assistance being sought.

Workers must describe observations rather than provide an unsupported diagnosis.

Important information will be communicated to relevant:

- clients;
- supporters;
- FSC workers;
- Associated Providers;
- registered health practitioners;
- allied health professionals; and
- other services involved in the person's care,

subject to consent and lawful information sharing.

This reflects Outcome 3.3's requirement for structured and timely communication of critical information between individuals, workers, supporters and health professionals.

5.6 Unavailable Contacts and After-Hours Arrangements

FSC will maintain:

- primary escalation contacts;
- backup contacts;
- appropriate external health-service pathways;
- emergency-service arrangements; and
- after-hours information relevant to periods when FSC services are delivered.

Workers must not allow an unresolved serious concern to remain solely as:

- voicemail;
- email;
- electronic alert;
- referral submission; or
- progress note.

Where appropriate assistance cannot be obtained and the client remains unsafe or deteriorates, workers must escalate further.

FSC will clearly explain its service availability to clients and supporters and will not represent intermittent home-care services as continuous clinical availability.

5.7 Rural, Remote and Communication Contingencies

Given FSC's service environment, escalation planning will consider:

- distance from health services;
- travel time;
- road or weather disruptions;
- mobile coverage;
- communication failure;
- worker isolation;
- property access;
- precise client-location information; and
- availability of alternative health services.

For rural or isolated visits, workers will have access to applicable communications and escalation arrangements.

Where telephone or remote communication is used, workers should confirm the client's location and available callback details where this is relevant to safety.

Where the client cannot be contacted and there are reasonable grounds to suspect immediate danger, workers will follow FSC's welfare-check procedure and seek emergency assistance where appropriate.

5.8 Consent, Refusal and Decision-Making

Clients will be supported to understand:

- the concern;
- proposed assistance;
- available options; and

- foreseeable risks of declining assistance.

A client with decision-making capacity may refuse assessment, treatment or other assistance.

Workers must not coerce the client.

Where assistance is refused, FSC will:

- respect the client's decision;
- explain concerns within the worker's role;
- offer reasonable alternatives;
- obtain professional advice where indicated;
- consider service-delivery risks;
- document the discussion and decision; and
- establish reasonable follow-up.

Where decision-making capacity is in doubt, FSC will facilitate appropriate assessment and apply relevant Queensland supported or substitute decision-making requirements.

A diagnosis of dementia does not, by itself, establish lack of capacity.

Emergency assistance must not be delayed merely while FSC attempts to contact family.

5.9 Advance Care Planning and Goals of Care

Where current advance care planning, Advance Health Directive or goals-of-care information is relevant to FSC's services, it will be recorded or made appropriately accessible in accordance with consent, privacy and lawful information-sharing requirements.

FSC workers must not independently determine:

- whether an Advance Health Directive is legally applicable;
- whether treatment should be withheld;
- whether a client is for resuscitation; or
- the clinical meaning of an unclear treatment limitation.

Where instructions are uncertain, workers will obtain appropriate professional advice.

A limitation on resuscitation does not automatically mean that assessment, treatment, comfort care or other appropriate support should be withheld.

5.10 Referral, Acceptance and Follow-Up

Where FSC facilitates external assessment or care, the responsible worker will record:

- reason for referral;
- urgency;
- information shared;
- consent or other lawful basis;
- service contacted;
- date and time;
- whether the referral was accepted;
- expected assessment or response;
- person responsible for follow-up; and
- resulting advice or service changes.

Where follow-up is necessary for client safety, FSC will confirm that the referral has been received and establish

who will respond and when.

If the service cannot respond appropriately, FSC will pursue another option according to the level of risk.

A referral is not considered effectively resolved merely because it has been sent.

5.11 Transitions and Return from Hospital

Following hospitalisation or another significant transition, FSC will review information relevant to its services before continuing affected care where changes may have occurred.

The Care Manager will, as applicable:

- obtain relevant authorised handover information;
- review changed needs;
- review medication information relevant to FSC's service role;
- identify new risks or restrictions;
- update the care plan;
- communicate changed instructions to affected workers;
- confirm external service arrangements; and
- arrange reassessment where the client's current approvals or services no longer meet their needs.

Although the strengthened Standards' specific Outcome 7.2 applies to the residential community, its emphasis on continuity, timely current information and clear accountability across organisations provides useful practice guidance for FSC's service transitions

5.12 Needs Beyond FSC's Capability

Where a client's needs exceed FSC's registration, service scope, worker competence or available capacity, FSC will support appropriate:

- clinical assessment;
- reassessment;
- referral;
- additional external services;
- change of provider;
- transfer; or
- interim service arrangements.

FSC will not abruptly withdraw essential support where doing so would create an unmanaged risk.

Outcome 3.2 requires timely and appropriate referrals to health professionals and to My Aged Care for reassessment where required.

5.13 Documentation

Progress notes and escalation records will document, where relevant:

- client identity;
- location;
- date and time;
- known baseline;
- observed change;
- onset or last known usual condition where known;
- client-reported concerns;

- factual observations;
- immediate safety action;
- contacts attempted and times;
- advice received and source;
- consent or refusal;
- referral and acceptance;
- handover;
- responsible follow-up person;
- agreed timeframe;
- outcome; and
- resulting care-plan or service changes.

Workers must distinguish:

- what they observed;
- what the client reported;
- what another person reported; and
- what a health professional advised.

Records will be completed as soon as practicable after immediate safety needs have been addressed.

5.14 Incidents, Near Misses and SIRS

FSC will use its incident-management system where deterioration is associated with:

- an incident;
- fall;
- medication incident;
- harm or potential harm;
- missed essential service;
- delayed or failed escalation;
- service-related neglect concern;
- near miss; or
- another matter meeting Council's incident-reporting requirements.

Deterioration alone is not automatically a reportable incident.

An ambulance transfer alone is not automatically a SIRS incident.

The responsible manager will assess actual, alleged or suspected reportable incidents under Council's Incident Reporting, Investigation and Escalation Policy and current SIRS requirements.

Where a reportable incident is identified, applicable statutory notification requirements apply. Immediate client care must not be delayed for regulatory reporting.

5.15 Clinical and Care Governance

FSC will maintain care and clinical governance arrangements proportionate to the risks arising from its Category 4 services.

Council will ensure:

- deterioration and escalation risks are identified;
- workers have clearly defined responsibilities and role boundaries;
- workers are appropriately trained and competent;
- reliable emergency and external clinical pathways are available;
- FSC and external health professionals understand their respective responsibilities;
- referrals and unresolved concerns are followed up;
- incidents, complaints, referral delays and other safety information are monitored;
- significant risks are escalated;
- relevant information informs the Community Care risk and continuous-improvement systems; and
- governance arrangements are regularly reviewed.

Outcome 5.1 applies to Category 4 providers that deliver care management or restorative care management and requires clinical governance to be integrated with corporate governance, including defined worker roles and agreed responsibilities with health professionals.

.

6. COUNCIL EXCEPTIONS

This policy applies to Community Care services within the Community Services and Wellbeing directorate. When a situation is not specifically addressed, workers must take immediate safety action and escalate to management and appropriate health services. Corporate procedures may supplement this policy but must not displace applicable aged care obligations or delay emergency assistance.

7. IMPLEMENTATION

The Director Community Services & Wellbeing will ensure this policy is supported by an operational Deterioration and Escalation Procedure.

The broad FSC escalation model is:

Observe or receive concern → Compare with baseline → Immediate safety check → Emergency? Call 000 → If not emergency, escalate according to urgency → Communicate structured information → Confirm response/referral → Follow up → Re-escalate if unresolved → Update care plan → Record → Incident assessment where applicable

Operational procedures will specify:

- emergency actions;
- escalation contacts;
- backup contacts;
- after-hours pathways;
- structured handover;
- mental-health escalation;
- welfare checks;
- remote/lone-worker arrangements;
- referral and follow-up;
- transition processes;
- applicable decision-support resources;
- incident and SIRS interfaces; and
- documentation requirements.

Contact details and changing operational pathways will be maintained in a controlled escalation directory rather than hard-coded into the strategic policy.

8. RELATED LEGISLATION

- Aged Care Act 2024

ABOUT FLINDERS SHIRE COUNCIL

Flinders Shire Council (FSC) has served the central North Queensland region since 1882, evolving in line with successive legislation and boundary changes. The Flinders Shire Council Community Care Program is an established FSC service designed to support frail older people, people living with disability and their carers to live safely and independently in their own homes. The program promotes health, wellbeing, independence and community connection, enabling older residents to remain at home for as long as possible. Community Care services are available to eligible clients throughout the Flinders Shire region.

Our Vision
Flinders Shire – a place of discovery, opportunity and lifestyle

Our Mission
To promote quality of life through leadership, attitude and respect

Our Values
- A Caring Philosophy
- Pursuit of Excellence
- Teamwork
- Local Ownership
- Communication
- Leadership
- Recognition

BACKGROUND AND CONTEXT

FSC is committed to maintaining a robust Clinical and Care Governance Framework that supports its workforce to deliver safe, high-quality, rights-based and person-centred Community Care services.

The framework recognises that FSC primarily delivers non-clinical home and community care services within Registration Category 4, including care management.

FSC does not employ nurses to provide nursing services and does not independently provide Category 5 nursing care. FSC operates within its registered service types, funding arrangements and workforce capability and coordinates access to appropriately qualified external health professionals where required.

FSC protects and promotes the health, wellbeing, independence and quality of life of clients by:
- Listening to clients, carers, supporters, workers and community members;
- Planning services around each person's needs, goals, preferences and risks;
- Monitoring and measuring service quality, safety and performance;
- Acting promptly when risks, changes, incidents or deterioration are identified;
- Coordinating clinical input where needs exceed FSC's non-clinical role; and
- Embedding a culture of accountability, cultural safety, open reporting and continuous improvement.

This framework applies to:
- Council when exercising its governing-body responsibilities;
- the Chief Executive Officer;
- the Director Community Services & Wellbeing;
- the Community Care Team Leader;
- Care Partners;
- Community Care workers and volunteers;
- contractors;
- Associated Providers and their workers; and
- others involved in planning, delivering, monitoring or improving services delivered by or on behalf of FSC.

Council's governing body and leadership team are responsible for establishing and maintaining a culture of safety, accountability, cultural respect, transparency and continuous improvement.

Uncontrolled October 2026

REGULATORY CONTEXT

Standards 1 to 4 of the Strengthened Aged Care Quality Standards apply to Category 4 services.

Outcome 5.1: Clinical governance also applies where a Category 4 provider delivers care management or restorative care management. The Aged Care Quality and Safety Commission confirms that the governing body must endorse the Clinical Governance Framework and monitor clinical-system safety and performance.

This framework also supports:

- Outcome 2.3: Accountability, quality system and policies and procedures, through governing-body oversight, clear accountability, worker participation, evidence-based monitoring, open disclosure and continuous improvement;
- Outcome 3.1: Assessment and planning, through individualised assessment, care planning, risk identification and review;
- Outcome 3.2: Delivery of funded aged care services, through safe service delivery, timely referral and worker recognition of deterioration and risk; and
- Outcome 3.3: Communicating for safety and quality, through timely communication of critical information between clients, workers, supporters and health professionals.

Other Standard 5 outcomes do not automatically apply merely because FSC delivers Category 4 services. FSC may use relevant principles from other Standard 5 outcomes as practice references where they assist Council to manage an identified risk. Use of those principles doeds not:

- extend FSC's registration;
- authorise Category 5 nursing services;
- authorise a worker to perform a clinical task;
- remove the need for professional clinical assessment; or
- transfer clinical responsibility from an external health professional to FSC.

Any proposed change to FSC's service scope must be assessed against registration, workforce, funding, insurance, clinical-governance and other legal requirements before implementation.

CLINICAL QUALITY, SAFETY, AND GOVERNANCE PRINCIPLES

This framework defines how FSC leads, monitors and improves safe, person-centred care.

It integrates clinical and care governance into Council's corporate governance arrangements and establishes responsibilities for:

- recognising and managing risks;
- coordinating external clinical input;
- delivering authorised services;
- supporting client rights and decision-making;
- monitoring performance;
- responding to incidents and complaints;
- verifying workforce capability;
- overseeing Associated Providers; and
- confirming whether corrective and improvement actions are effective.

Service scope of practice:

FSC will clearly identify:

- activities workers may perform;
- activities requiring task-specific training and authorisation;

Updated October 2026

- activities requiring clinical assessment or instruction;
- services outside FSC's registration or workforce capability; and
- arrangements for external referral, reassessment or transfer.

A qualification or competency certificate does not, by itself, authorise a worker to undertake a clinical task.

Workers may:

- recognise and report changes;
- follow current care plans;
- follow authorised instructions within their role;
- provide first aid within their training;
- escalate risks and emergencies;
- communicate factual observations; and
- coordinate care within their authorised responsibilities.

Clinical assessment, diagnosis, prescribing, treatment and professional clinical decisions remain the responsibility of appropriately qualified health professionals.

The absence of employed nurses does not remove FSC's responsibility for:

- safe service delivery;
- recognising and managing risk;
- accessing external clinical advice;
- referral and follow-up;
- care coordination;
- transitions;
- incident and complaint management;
- Associated Provider oversight; or
- governing-body assurance.

FSC will not accept or continue a service activity that cannot be delivered safely within its registration, workforce capability and available governance arrangements.

Core quality and safety goals:

- Care is safe, coordinated, effective, culturally safe and aligned with each person's needs, goals and preferences.
- Clients are supported to exercise their rights and participate in decisions to the extent they choose.
- Risks are identified early, escalated promptly and managed within FSC's service scope.
- Qualified clinical input is accessed where required.
- Workers understand their roles, limitations and escalation obligations.
- Critical information is communicated effectively and in a timely manner.
- Incidents, complaints, risks and poor outcomes are used to improve systems and services.
- Council receives appropriate evidence that quality and safety controls are operating effectively.

Element	Strategy
Leadership, Accountability and Culture	• We allocate sufficient resources for the services we undertake and prioritise dignity, independence, inclusion and cultural safety. Leaders model the Statement of Rights and the Aged Care Code of Conduct. Council endorses this framework, communicates quality and safety priorities, receives assurance reports and acts on significant risks. Operational delegation does not transfer the governing body's accountability. • We maintain an open reporting culture, protect people who raise concerns and address discrimination, racism, bullying and unsafe practice. Council and management maintain the knowledge and skills needed to oversee care governance, including access to clinical

	expertise.
Client Partnerships, Rights and Person-Centred Care	• We develop and review care plans with older people and anyone they choose to involve. Participation in service design, committees, surveys and care decisions is voluntary. We provide accessible information, interpreters and communication support when needed, and enable access to independent advocacy and complaints processes without reprisal. • We support informed consent, choice, refusal of care and dignity of risk. A registered supporter assists the person to make and communicate decisions and does not automatically have substitute decision-making authority. Where substitute decision-making is required, the service verifies and records the person's legal authority and its limits under applicable law. Workers seek appropriate advice when capacity or consent is uncertain. • Cultural safety, trauma-aware and healing-informed practice are reflected in assessment, communication and service delivery. Older people's cultural identity, language, relationships, connection to Country and personal preferences are respected. • Care plans document needs, goals, preferences, risks, agreed activities, responsible providers, authorised instructions, consent and review arrangements. Plans are available to workers who need them and shared with the older person in an accessible format. The service is responsible for accurate documentation. • We review plans regularly at intervals matched to need and risk, and at least annually as a service minimum. An earlier review occurs following deterioration or another change in condition, an incident, an emerging risk, hospital discharge or another transition, changed preferences, changes in carers or providers, or evidence that the plan is ineffective. Urgent safety action is not delayed pending a formal review. • Where needs exceed service scope or available support, we facilitate clinical referral and, where appropriate, aged care reassessment. We document interim safety arrangements and follow up outstanding referrals. Advance care planning is supported if the older person wishes, with clinical advice and legally valid documentation as appropriate.

Updated October 2025

Organisational Systems	• We maintain current policies for assessment and care planning, medication support, deterioration and escalation, infection prevention and control, consent, privacy, complaints, open disclosure, incident management and continuity of care. Controls are proportionate to the activities delivered and individual risks. • Each high-risk policy has an owner, implementation requirements, training and audit arrangements, and an annual review or earlier review when evidence, legislation, incidents or service changes require it. Our risk register records controls, owners, residual risk, review dates and escalation thresholds. Restrictive practices must not be introduced as a routine risk control; any proposed use requires specific legal and clinical review. • We maintain secure, current and accessible care records, role-based access, lawful information-sharing processes, retention arrangements and downtime procedures. We are working towards a digital clinical information system that supports nationally agreed digital records, national Healthcare Identifiers, terminology and digital health standards, interoperability and lawful access. Progress, barriers and resource requirements are reviewed through an improvement plan.
Monitoring, Reporting and Improvement	• We promote a service culture in which incident reporting is safe, expected and valued. • We meet all Serious Incident Response Scheme obligations, including timely reporting and follow-up actions. • Our risk register captures key clinical risks, including infection control, medication management and falls.
Effective Workforce	• We roster sufficient workers with appropriate skills to meet assessed needs and maintain continuity wherever practicable. Workforce planning considers leave cover, supervision, rural access limitations, service disruptions and changing client needs. We do not accept activities that cannot be safely supported. • Position descriptions define role boundaries, reporting lines and escalation responsibilities. Screening, qualifications, registrations and relevant restrictions are verified before engagement and monitored thereafter according to expiry dates, renewal requirements and risk. The relevant credentials of contractors and visiting practitioners are verified through agreed arrangements. • Induction and ongoing learning cover applicable Standards 1–4 and Outcome 5.1, rights, cultural safety, consent, privacy, deterioration, first aid, infection prevention, incidents, complaints and role-specific risks. Competence is assessed before task authorisation, reviewed at least annually for high-risk activities, and reassessed following changes, incidents or performance concerns. Training records and evidence of practical assessment are maintained. • Medication support is limited to lawful, documented and authorised activities within each worker's role. The service distinguishes prompting, assistance, administration and tasks requiring clinical judgement. Workers must not alter doses or make clinical medication decisions. Concerns are referred to an appropriate prescriber, pharmacist or nurse through the medication policy. • The Red Book, relevant flowcharts and other resources are used only for their intended audience and authorised activities. Resource versions and limitations are identified. They do not replace qualified clinical assessment or expand worker scope. Workers may decline and escalate tasks they cannot safely perform.

Updated October 2026

Communication, Coordination and Relationships	• We use standardised templates to consistently record and communicate client information. • The service fosters strong relationships through regular home visits and ongoing engagement with clients. • Our leaders participate in relevant meetings with care partners to support coordinated care and effective collaboration. • We provide information in a range of formats to meet clients' cultural, personal and literacy needs. • We practice open disclosure when things go wrong, including incidents in which a client is harmed and complaints from clients (refer to the Open Disclosure Policy).

ROLES AND RESPONSIBILITIES

Achieving quality services and outcomes for our clients requires everyone at every level of the organisation to play a role in clinical and care governance processes.

Level of Accountability

Client (including family, carer or representative)	• Older people may share their needs, goals and preferences, participate in decisions and provide feedback to the extent they choose. • The service supports understanding of rights and ensures information is documented. • Family, carers, supporters and representatives are involved with consent or verified lawful authority. Access to services is not conditional on participation in governance activities.
Staff and volunteers (including visiting practitioners and contracted service providers)	• Workers complete induction and required training, maintain relevant credentials and competence, follow care plans and authorised instructions, protect privacy and work within their roles. • They recognise and report changes and concerns, escalate urgent risks without delay and contribute to improvement. • External practitioners remain accountable for their professional assessment, clinical advice, treatment and any clinical delegation they undertake.
Care Management Officer	• Coordinate client assessment, care planning and review. • Support client participation, choice and supported decision-making. • Monitor changing needs, risks and the effectiveness of care arrangements. • Coordinate and follow up referrals, including clinical, allied health and aged care reassessment where required. • Ensure relevant information, professional recommendations and service changes are reflected in care plans and communicated to workers and providers. • Document consent and information-sharing arrangements. • Escalate unresolved service gaps, clinical-access issues and significant safety concerns to the Community Care Team Leader. •
Community Care Team Leader (CCTL)	• The CCTL leads day-to-day implementation, coordinates the workforce and care plans, confirms task authorisation and monitors risks, incidents, referrals and outcomes. • The CCTL maintains access to clinical advice, monitors associated providers, prepares quality reports, leads audits and tracks corrective actions. A nominated backup performs these coordination and reporting functions during absences. • Clinical decisions are referred to appropriately qualified practitioners.

Updated October 2026

Director of Community Services and Wellbeing (DCSW)	• The DCSW provides visible leadership, establishes operational and policy systems, allocates resources and oversees service performance. The DCSW verifies that external clinical arrangements and escalation pathways work, reviews assurance reports, addresses unresolved risks and reports to Council. Serious risks are escalated promptly outside the routine reporting cycle.
Council / Responsible Persons	• Council sets direction and priorities, endorses the framework, ensures sufficient resources and monitors quality and safety through reports and inquiry. It delegates operational responsibilities while retaining oversight and accountability. It records decisions and follows up significant issues until controls and outcomes are verified. • The provider maintains a register identifying responsible persons under the Act, with role mapping and suitability review and notification arrangements. Relevant responsible persons exercise applicable due diligence obligations. Governance arrangements address the provider's statutory duty under section 179 and the duty of certain responsible persons under section 180; statutory duties are not transferred by delegation.

Committee Structures

The accountabilities and membership of committees supporting the clinical governance framework are defined in the relevant terms of reference. The committees listed below support implementation of the framework and should:

- ensure effective governance of systems and client outcomes at the service level;
- clearly designate responsibility and accountability for evaluating and improving the quality and safety of care at the service level across the organisation; and
- ensure effective communication between staff and management at the service level and across the organisation.

Each committee or meeting has terms of reference defining its purpose, membership, chair, quorum where relevant, responsibilities, reporting, confidentiality and action-tracking requirements. Each action identifies an owner, due date and evidence of completion. Urgent risks bypass meeting schedules.

Council	• Council meets monthly, chaired by the Mayor. It oversees the framework and receives quality and service reports, unresolved risks and resource proposals. Public minutes and papers protect personal information through de-identification or lawful confidential handling. Endorsement and subsequent material changes are recorded through Council's approval arrangements.
Voices of Community Care	• Voices of Community Care meets every six months and is chaired by a Councillor. • It provides a dedicated forum for Community Care clients, families, carers and supporters to: • raise issues and matters of concern; • provide feedback on their experience of Community Care services; • identify opportunities for service improvement; • contribute ideas about access, communication, rights and service delivery; and • receive updates about Community Care services and relevant changes. • Participation is voluntary and accessible, with clients able to involve a supporter or advocate where appropriate. • Matters requiring urgent action are escalated immediately and do not wait for the next meeting. • Meeting minutes record recommendations and agreed actions. • Minutes and recommendations are presented to Council through the

Updated October 2026

	Director Community Services & Wellbeing for consideration and adoption of recommended actions, where appropriate. • Outcomes and relevant responses are communicated back to participants. •
Community Care Quality and Safety Committee	• The Community Care Quality and Safety Committee meets quarterly and provides structured oversight of Community Care quality, safety and continuous improvement. • Membership includes relevant FSC Community Care representatives, consumer representatives and representatives from local health services where participation arrangements have been agreed. • The Committee reviews: • significant and emerging care and service risks; • incidents, near misses and relevant SIRS matters; • complaints and feedback trends; • deterioration, escalation and referral issues; • medication and other identified care risks; • workforce capability and competency issues; • Associated Provider performance and risks; • audit and assurance findings; • significant service gaps; • corrective actions and overdue actions; and • quality improvement opportunities. • The Committee monitors whether identified actions are implemented and whether significant corrective actions have been effective. • Clinical matters requiring professional judgement are referred to appropriately qualified health professionals. Participation of health-service representatives does not transfer clinical responsibility to FSC. • Urgent quality or safety concerns are escalated immediately and do not wait for the quarterly meeting. • Meeting minutes record recommendations, actions, responsible officers and due dates. • Minutes and recommendations are presented to Council through the Director Community Services & Wellbeing for consideration and adoption of recommended actions, where appropriate.
Program Leadership Team Meetings	• Membership includes DCSW and CCTL • Provides strategic leadership for implementing the framework and ensuring that effective clinical and care governance is established and maintained. • Ensures performance-monitoring systems are in place and improvement actions are implemented. • Ensures management structures and processes support good clinical and care governance and enable staff to provide high-quality care. • Monitors and reports on the effectiveness of the clinical and care governance framework, compliance with legislative and regulatory obligations and industry standards, and the adoption of best practice. • Analyses and reports on incident data. • Meeting frequency: weekly.
Continuity of Care Meeting	• Meetings occur fortnightly or as required. Membership includes the CCTL, Care Management Officer and, subject to agreed availability, the MPHS nurse, doctor and relevant allied health professional or supervised allied health assistant. The meeting coordinates care for high-risk or complex needs and reviews clinical recommendations, transitions and outstanding referrals. • Clinical concerns are directed to the appropriate qualified practitioner; the CCTL coordinates implementation and follow-up. Minutes identify the clinician responsible for clinical decisions and the person responsible for

Updated October 2026

	each action. Urgent concerns follow immediate escalation procedures. Partner participation and fallback arrangements are documented; the meeting is not a substitute for timely access to clinical advice.

MONITORING AND REPORTING

The CCTL maintains a quarterly quality and safety dashboard.

The DCSW reviews the dashboard before reporting to Council at its meeting. Serious harm, unsafe service capability, urgent unresolved clinical concerns or significant compliance failures are escalated immediately to the DCSW and the relevant governing body contact. Prompt protective action is taken and statutory notifications are made where required.

Measure	Evidence and review
Authorised and competent workforce	All workers undertaking high-risk tasks have current authorisation and competence evidence. Review exceptions, expired credentials and task audits monthly.
Timely escalation and referral follow-up	Review deterioration events, referral and response times, unresolved concerns and communication failures. Act on urgent concerns immediately.
Current care plans	Audit scheduled reviews and reviews following changes, incidents or transitions. Record and correct overdue or ineffective plans.
Incident and complaint management	Review all events and near misses, SIRS classifications and notification timeframes, open disclosure, complaint outcomes and recurring issues.
Individual care risks and outcomes	Review relevant falls, medication support incidents, infection risks, skin integrity, nutrition or swallowing concerns and preventable deterioration within service scope.
Older person participation and rights	Local target: at least 90% of responding clients report that they are involved to the extent they choose. Review accessibility, exclusions, concerns and resulting actions.
Safety culture	Local target: at least 85% of responding workers express confidence in the safety culture. Review response rates, concerns about speaking up and follow-up actions.
Improvement and assurance	Review audit findings, overdue actions, partner performance and digital system progress. Verify effectiveness before closing significant actions.

Survey percentages are local improvement targets, not statutory thresholds. Reports state the number of respondents, response rate and limitations. Incident rates are interpreted in the context of service activity, trends and severity; low reporting alone is not evidence of safe care.

Every improvement action records the issue, intended outcome, owner, due date and evidence of completion. Significant actions require an effectiveness check. Findings and changes are communicated to workers, older people and relevant partners in accessible ways that protect privacy. Adverse outcomes and overdue actions trigger further review and escalation.

Updated October 2026

REVIEW PROCESS

The CCTL and DCSW evaluate the framework's effectiveness annually using performance data, feedback, incident and complaint trends, audits, clinical partner input and improvement outcomes. A formal document review occurs at least every two years, and earlier following significant service, workforce, legislative or regulatory changes, serious incidents, or evidence that the arrangements are ineffective.

Council approves the framework and material revisions before reissue. The controlled document register records the version, approval date, resolution reference, implementation date, owner and next review date. A revised draft is not recorded as approved until Council has made its decision. Changes are communicated to affected workers, clients and partners, and relevant training is completed.

LEGISLATION, STANDARDS & SUPPORTING DOCUMENTS

- Aged Care Act 2024 (Cth), as amended, including the Statement of Rights, relevant registration conditions, incident and complaint obligations, personal information protections and applicable statutory duties.
- Aged Care Rules 2025 (Cth), as amended, including the applicable strengthened Aged Care Quality Standards and Aged Care Code of Conduct.
- Provider registration conditions, approved service types and relevant Support at Home, CHSP or other funding and program requirements, according to the services actually delivered.
- Applicable Queensland privacy, health information, consent, guardianship, medication, local government and work health and safety requirements, and relevant professional standards.

2.05 PEOPLE, SAFETY AND GOVERNANCE

2.05.01 COUNCIL TRADING IN PUBLIC PLACES (ROADS AND COUNCIL CONTROLLED LAND) POLICY

Author: Compliance Administration Officer
Authorising Officer: Chief Executive Officer
Disclosure of Interest: The Author and Authorising Officer declare that they do not have any conflicts of interest in relation to this item.

OFFICER'S RECOMMENDATION
That Council:
Adopts the amended Council Trading in Public Places (Roads and Council Controlled Land) Policy as presented.

Executive Summary

This report seeks Council's adoption of the Trading in Public Places (Roads and Council Controlled Land) Policy. The policy establishes a transparent, risk-based framework for assessing and managing commercial activities on Council roads, road reserves and Council controlled land. It supports local enterprise and activation of public spaces while safeguarding road users, pedestrians, public amenity, Council assets and equitable access to shared places.

Background

Council receives requests from mobile vendors, pop-up traders and other commercial operators seeking to use roads, road reserves, parks, reserves and facilities. Without a consolidated policy, applicants and officers may have limited guidance on application requirements, assessment criteria, standard conditions and the relationship between Council approval and other statutory permissions. The proposed policy provides a consistent pathway for one-off and ongoing activities, including food vans, roadside sales, stalls, commercial fitness activities, equipment hire and tours.

Statutory/Compliance Matters

The policy operates as an administrative framework and does not replace or amend legislation, Council local laws, planning controls or statutory permits. Its implementation must remain consistent with the Local Government Act 2009 and the local government principles, including transparent and effective decision-making in the public interest, good governance, sustainable management and ethical and legal conduct.

- **Local laws:** approvals are to be issued and enforced under Council's applicable local laws and subordinate local laws regulating roads, public places, commercial use and prescribed activities. Before implementation, the final policy and forms should be checked against Council's current certified local laws, delegations and authorised-person arrangements.

- **Road regulation:** roadside vending must not conflict with State road-management legislation. Where a site is on or affects a State-controlled road, the applicant must obtain any permit or concurrence required by the Department of Transport and Main Roads before operating.

- **Food safety:** food operators remain responsible for compliance with the Food Act 2006 and the Australia New Zealand Food Standards Code. A mobile food business may hold a licence issued by another Queensland local government; officers should verify the licence rather than require duplicate licensing.

- **Planning and land use:** an approval under this policy does not remove any need for a development approval, event approval, liquor licence, building approval, environmental authority or landowner consent.

- **Work health and safety:** operators retain duties under applicable work health and safety legislation, including safe plant, electrical equipment, gas systems and work practices.

- **Information privacy and records:** personal information must be collected only as necessary, stored securely and managed under Council's information privacy and records obligations.

- **Natural justice and review:** decisions to refuse, condition, vary, suspend or revoke an approval should be documented, supported by reasons, made under valid delegation and communicated with any applicable review or appeal rights.

Compliance should be proportionate to risk and guided by education and voluntary correction in the first instance where appropriate. Immediate or escalated action may be required for serious safety risks, obstruction, unlicensed food activity, environmental harm, repeated breaches or non-compliance with an authorised officer's direction. Records should include the application, assessment, approvals from other agencies, inspection outcomes, complaints, warnings and enforcement decisions.

Financial/Budget Implications

Implementation can be managed within existing regulatory and administrative functions, subject to application volumes and site complexity. Application, permit and occupation fees should be set through Council's adopted Fees and Charges Schedule and reviewed to support reasonable cost recovery without creating an unnecessary barrier to entry. Complex traffic, engineering or legal assessments may create additional costs and should be recovered where lawfully permitted or considered during annual budget preparation.

Consultation/Engagement

Internal consultation should include Regulatory Services, Environmental Health, Infrastructure/Roads, Parks and Facilities, Planning, Finance, Governance and Customer Service. External consultation should be proportionate to the policy's impacts and may include existing traders, the local business community, event organisers, insurers and the Department of Transport and Main Roads. If the policy materially changes existing approval arrangements, affected operators should receive direct notice and a reasonable transition period.

Risk Implications

Risk	Key controls
Public and road safety	Site plans, location assessment, clear pedestrian routes, safe customer service points, operating conditions and TMR approval where relevant.
Legal and regulatory non-compliance	Verification of licences and permits, current delegations, documented reasons, authorised conditions and scheduled review.
Public liability and asset damage	Minimum public liability insurance, indemnity, inspection and recovery of repair costs.
Amenity and environmental impacts	Controls for waste, wastewater, noise, smoke, odour, signage and removal of temporary structures.
Inconsistent or unfair decisions	Published criteria, standard application material, proportional conditions, conflict-of-interest management and recordkeeping.
Reputational risk	Clear communications, reasonable transition arrangements, complaint handling and transparent enforcement.

Strategic Impacts

Strategic area	Impact of adoption
Economic opportunity and prosperity	Provides a clear pathway for small business, mobile vendors and innovative commercial activities, helping activate places and broaden local services while managing impacts on established businesses.
Connected and liveable communities	Supports well-managed public spaces, community choice and appropriate activation while protecting pedestrian access, amenity and equitable use.
Safe and resilient infrastructure	Introduces location, traffic, access, insurance and asset-protection controls to reduce risk to road users, customers and Council infrastructure.
Environment and place	Requires waste, wastewater, emissions, noise and site-cleanliness controls, reducing nuisance and environmental impacts.
Governance and service excellence	Creates consistent criteria, documented decisions, standard conditions and review triggers, supporting transparent, efficient and defensible administration.

Conclusion

Adoption of the policy will provide a practical and consistent framework that balances economic activation with Council's responsibilities for safety, amenity, asset management and lawful administration. Subject to the implementation actions and statutory checks outlined above, the policy is suitable for adoption.

1. Objective

The purpose of this policy is to support small business and local activation of public spaces while making sure trading on roads, road reserves and Council controlled land is safe, fair and well managed. Council encourages appropriate trading in public places where it meets community need and can be undertaken without creating risks, nuisance or unreasonable interference with other users of the area.

At a glance:

- Encourage suitable trading that activates public spaces and supports the local economy.
- Protect public safety, including safe vehicle and pedestrian movement.
- Provide a clear, simple approval pathway with consistent conditions.

2. Scope

This policy applies to any person or business that proposes to sell goods or supply services for profit (including food and drink) on:

- a Council road (including the road reserve);
- a park, reserve, facility or other land that is owned, occupied, managed or controlled by Council.

This policy does not apply to trading on private land. Separate approvals may be required under other laws (for example, food business licensing, event permits, liquor licensing or development approvals) depending on the activity.

3. Legislative basis

Council regulates trading in public places under its local laws, including Local Law No. 10 (Roads). In particular, Council must regulate the use of roads and road reserves to prevent nuisances and interference with the safe movement of traffic. This policy provides practical guidance for applicants and staff when considering approvals under that framework.

Where a proposed trading location involves a State-controlled road, additional permissions may be required from the Department of Transport and Main Roads (TMR).

4. Definitions

For the purposes of this policy:

Council – Flinders Shire Council.

Council controlled land – Land that is owned, occupied, managed or controlled by Council (including parks, reserves and facilities).

Mobile trading – Trading where the operator travels from place to place and supplies goods or services in response to customers flagging them down (e.g. an ice-cream van).

Stationary trading – Trading from an identified place (or places) for a set period of time, including stalls, vans or trailers (e.g. a coffee van).

Public place trading – Any commercial activity conducted on a road, road reserve or Council controlled land, including vending, hiring equipment, running tours or similar activities.

5. Policy principles

Council supports trading in public places when it is safe and adds value to the community. Decisions will be made with a focus on safety and amenity, while keeping the approval process as straightforward as possible. In practice, Council will apply the following principles:

- Safety first – the activity must not create hazards for vehicles, pedestrians or nearby premises.
- Reasonable amenity – the activity must not cause unreasonable noise, waste, odour, visual clutter or disruption.
- Fair access – public areas are shared spaces; approvals will be managed to avoid congestion and conflict.
- Support local enterprise – approvals should encourage innovation and small business without creating unreasonable impacts on established operators nearby.
- Consistency and transparency – similar applications should be treated in similar ways, using clear conditions.

6. When an approval is required

A Council approval is required before a person or business may trade in a public place. This includes (but is not limited to) vending, roadside sales, pop-up stalls, food vans, commercial fitness classes, equipment hire, tours and similar commercial activities on Council roads or Council controlled land.

Approvals may be issued for one-off activities (e.g. a short-term activation) or for ongoing trading at approved times and locations. Council may set limits on the number of approvals in particular areas to manage safety, amenity and fair access.

7. Application requirements

To keep things simple, Council uses a single application form for trading in public places. An application is considered “properly made” when it includes the required information and the relevant fee has been paid.

Applicants must provide:

- A completed application form, including proposed location(s), days and hours of operation.
- A simple site plan or map showing where the trading will occur and how customers will safely access the activity.
- Evidence of current public liability insurance (minimum $20 million).
- Any relevant licences (e.g. food business licence, if applicable).
- An executed indemnity in favour of Council (and TMR where relevant).

Council may request additional information where needed to properly assess safety and impacts (for example, traffic management arrangements for higher risk locations or larger set-ups).

8. Assessment criteria (how Council will decide)

Council will assess each application on its merits. The following criteria will usually be considered. These are not intended to be a barrier to entry; they are practical checks to keep the public safe and the space usable for everyone.

8.1 Safety and access

The proposed trading must not interfere with the safe movement of traffic or pedestrians. Council will consider factors such as visibility, road environment, speed environment, parking demand, proximity to intersections and crossings, and whether customers can be served safely.

Typical outcomes may include conditions requiring:

- serving customers from the non-traffic side of a vehicle or stall;
- maintaining clear pedestrian paths and not blocking driveways or kerb ramps;
- using only approved parking bays and complying with any signed restrictions.

8.2 Amenity and environmental management

Trading must not cause unreasonable nuisance, inconvenience or annoyance to nearby residents, businesses or other users. This includes managing noise, waste, smoke, odours and visual clutter. Council may also consider the sensitivity of the location (e.g. near homes, schools or health facilities).

8.3 Fairness and nearby business impacts

Council recognises that mobile and pop-up trading can add vibrancy and choice. Council will also consider whether the proposal would create substantial or unreasonable impacts for operators of businesses trading from fixed premises in the immediate locality. Where appropriate, this may be managed through location choice, time limits or other conditions rather than refusal.

8.4 Suitability of the location

Council must be satisfied that the physical characteristics of the place are suitable for the activity. For example, the area must have enough space for the set-up, safe customer queuing, and access for emergency or maintenance vehicles where relevant.

8.5 Compliance with other laws

Applicants are responsible for complying with all applicable laws and approvals. Where food is sold, the activity must comply with the Food Act 2006 and the Food Standards Code. Where the activity uses a vehicle, the vehicle must be roadworthy and registered.

9. Standard conditions of approval

Approvals will include conditions that are proportionate to the nature and location of the trading. Council's standard conditions are set out in Attachment A. In summary, conditions typically cover:

- operating location(s), days and hours;
- public safety and maintaining access;
- cleanliness and waste management;
- restrictions on signage, structures and use of power;
- insurance and indemnity;
- Council's ability to amend, suspend or revoke an approval if required.

10. Insurance and indemnity

All applicants must hold public liability insurance for a minimum of $20 million per occurrence for personal injury and property damage for the period of the approval. Applicants must also indemnify Council against claims arising from the activity, including claims connected with the applicant's employees, contractors or customers.

Where trading is proposed on a State-controlled road or land, Council may also require an indemnity in favour of the State and evidence of any approvals required by TMR.

11. Fees and charges

Council will charge an application and/or permit fee as adopted in Council's Fees and Charges Schedule. Depending on the nature of the activity, Council may also charge a site or occupation fee (for example, where a trader is granted priority use of a high-demand location).

12. Compliance, enforcement and review

Council may monitor compliance with approval conditions and may take action where conditions are breached or where an activity creates a safety risk or nuisance. Council may vary, suspend or revoke an approval where it is reasonable to do so, including where circumstances change (e.g. roadworks, events, safety issues) or where the operator has not complied with conditions.

This policy will be reviewed every two years or earlier if required due to legislative change or operational need.

13. Privacy

Council respects privacy and handles personal information responsibly and transparently when assessing applications and managing approvals.

14. Attachments

Attachment A – Standard Conditions (Summary)
The following standard conditions may be applied (and adjusted) to individual approvals. Not all conditions will apply to every approval.

A1. Operating requirements

- Trade only at the approved location(s) and during approved days and hours.
- Do not obstruct vehicle lanes, pedestrian paths, kerb ramps, driveways or access to public facilities.
- Serve customers from the safe side of the vehicle/stall, away from moving traffic.
- Comply with parking restrictions and directions from authorised officers.

A2. Amenity and cleanliness

- Keep the site clean and tidy; remove litter generated by the activity from the site and surrounding area.
- Do not discharge waste or wastewater to stormwater or the environment; dispose of waste appropriately.
- Manage noise and other emissions so they do not cause unreasonable nuisance.

A3. Structures, signage and power
Temporary fixtures (e.g. umbrellas, bins, stools) must be safe, stable and removed at the end of trading.
Do not place signs or advertising devices on public land without specific approval.
Use of Council power or water requires specific approval; self-sufficient operations are preferred.

A4. Insurance, liability and damage

- Maintain public liability insurance of at least $20 million for the approval period.
- Indemnify Council against all claims, demands, losses and costs arising from the activity.
- Repair or pay for any damage to Council assets caused by the activity.

A5. General

- Comply with all relevant laws and licences (including food safety requirements where applicable).
- Council may suspend or revoke the approval if conditions are breached or if the activity creates a safety risk or nuisance.
- The approval does not automatically authorise trading at separately approved events unless the event organiser has granted permission.

Attachment B – Applicant Checklist

- Completed application form
- Map/site plan and photos (if available)
- Public liability insurance certificate ($20m minimum)
- Indemnity signed
- Food business licence (if applicable)
- Vehicle registration details (if applicable)
- Fee paid (per Fees & Charges Schedule)

15. REVIEW TRIGGER

Policy is to be reviewed every 2 years.

16. PRIVACY PROVISION

Council respects and protects people's privacy and collects, stores, uses and discloses personal information responsibly and transparently when delivering Council services and business.

2.05.02 REQUEST FOR COUNCIL VIEWS – RENEWAL OF LEASES: LOT 4 ON DG212, AND LOT 23 ON DG137

Author: Director People, Safety, & Governance
Authorising Officer: Director People, Safety, & Governance
Disclosure of Interest: The Author and Authorising Officer declare that they do not have any conflicts of interest in relation to this item.

OFFICER'S RECOMMENDATION
That Council:
1. Notes the Department of Natural Resources and Mines, Manufacturing and Regional and Rural Development's request for views regarding the renewal of State term leases TL242758 and TL210222; and
2. Advise that Council is not prepared to offer a Trustee Lease or Trustee Permit at the expiry of the existing lease; and
3. Offer no objection to the renewal of the current leases over reserves Lot 4 on DG212 and Lot 23 on DG137 upon expiry in 2027, on the condition that weeds and pest are controlled as per requirements under the *Biosecurity Act 2014,* and Flinders Shire Council's Biosecurity Plan.

Executive Summary

The Department of Natural Resources and Mines, Manufacturing and Regional and Rural Development (the Department) has requested Council's views on the future tenure of two State term leases over reserve land under Council trusteeship. Council must advise whether it would be prepared to offer the current lessee a trustee lease or trustee permit under the *Land Act 1994*, or whether it supports the granting of a new State term lease. The response is due by 2 November 2026.

Background

The leases relate to Lot 4 on DG212, tenure reference TL242758, and Lot 23 on DG137, tenure reference TL210222. Both are held by David Graham Cairns and expire in the second half of 2027.

The Department has asked if Council has any issues that the Minister should consider in respect of the renewal of this lease, any views or requirements that may affect the future use of the land and your comments with regard to the following –

- On expiry of the existing lease, would Council as Trustee be prepared to offer the current lessee a Trustee Lease or Trustee Permit over the subject area in accordance with Section 57 of the *Land Act 1994* and Operational Policy SLM/2013/495 – Leases over reserves; AND

- If entering into a Trustee Lease or Trustee Permit is not an option, advise Council views or requirements to the granting of a new Term Lease over the subject area.

As part of the renewal, the Department will consider if it is appropriate to increase the existing term of the lease up to a maximum of 30 years.

The Department has advised that, if Council wishes to issue a trustee lease or trustee permit, the Department will advise the lessee that the State term lease will not be renewed and direct the lessee to contact Council to negotiate the new tenure arrangement.

As part of the renewal, the Department will consider if it is appropriate to increase the existing term of the lease up to a maximum of 30 years.

Traditionally Council has **NOT** supported the granting of a Trustee Lease or Trustee Permit.

Statutory/Compliance Matters

- *Biosecurity Act 2014*
- *Land Act 1994*
- *Local Government Act 2019*
- Department of Natural Resources and Mines, Manufacturing and Regional and Rural Development document - *Operational Policy SLM/2013/495 – Leases over reserves*

Financial / Budget Implications

While Trustee Leases may generate rental income, there is no certainty that the income generated would offset the costs associated with administering the tenure.

Potential costs include:

- legal advice;
- valuation advice;
- surveying requirements;
- lease preparation and registration;
- staff time associated with administration;
- compliance inspections;
- dispute management;
- record management; and
- enforcement action where required.

There is also a risk that Council may incur future remediation, rehabilitation or legal costs if issues arise during the occupation of the land.

For a rural local government with limited resources, the financial exposure may exceed any measurable financial benefit.

Risk Implications

Governance and Trustee Responsibility Risk

As trustee of reserve land, Council has a primary obligation to ensure that the land continues to be managed in a manner consistent with the reserve purpose and the public interest. A Trustee Lease or Trustee Permit would transfer the day-to-day tenure management responsibilities from the State to Council. This would require Council to undertake ongoing administration, compliance monitoring, enforcement, dispute resolution, lease reviews and renewal processes.

Failure to adequately perform these obligations could expose Council to criticism from the Department, adverse audit findings, complaints from stakeholders and potential legal challenge. Unlike the current State-administered arrangement, Council would become directly accountable for all decisions and actions relating to the occupancy of the reserve land.

This represents a significant increase in governance responsibility and creates an ongoing administrative obligation extending for the duration of the tenure.

Legal and Compliance Risk

Should Council issue a Trustee Lease or Trustee Permit, it becomes responsible for ensuring that:

- the tenure is lawful and consistent with the reserve purpose;
- all required approvals have been obtained;
- lease conditions are appropriately drafted and enforceable;
- tenure boundaries and occupation areas are correctly identified;
- native title, cultural heritage and environmental obligations are appropriately managed; and
- any breaches of conditions are identified and addressed.

There is a risk that Council may incur legal costs or become involved in disputes arising from lease administration, interpretation of conditions, enforcement action or future requests for compensation or tenure variation.

Unlike a State-administered lease, Council would be required to allocate resources to manage these risks throughout the life of the arrangement.

Operational and Resource Risk

Council currently has no dedicated lease management function responsible for administering trustee leases over reserve land.
Should Council elect to become the lessor, responsibility would fall across a number of functional areas including:

- Governance;
- Rural Lands;
- Finance;
- Engineering;
- Compliance; and
- Executive Management.

Council would need to establish and maintain systems for:

- rent administration;
- lease monitoring;
- inspections;
- file management;
- insurance monitoring;
- lease reviews;
- breach notices;
- renewals; and
- reporting.

The ongoing resourcing commitment would create additional workload pressures without providing a corresponding operational advantage to Council.

Strategic Land Management Risk

A Trustee Lease or Trustee Permit may restrict Council's future flexibility in managing the reserve land.

Whilst there is no immediate strategic requirement for the land, Council must consider potential future needs including:

- infrastructure projects;
- environmental management initiatives;
- community use opportunities;
- emergency management purposes;
- stock route management; and
- other public purposes.

By taking responsibility for the tenure, Council assumes the risk of managing future competing interests and potential conflicts between the lessee's expectations and Council's future requirements.

Public Liability and Reputational Risk

As the issuing authority, Council would be perceived as having direct responsibility for the management of the leased area.

Any disputes, complaints, land management issues, environmental degradation, safety incidents or allegations of preferential treatment may have reputational impacts on Council.

There is also a risk that members of the community may view the arrangement as allowing private occupation of public land without sufficient public benefit, particularly where the reserve purpose is not readily apparent to the public.

Strategic Impacts

If Council Supports a State Lease

Council:

- retains its trustee role;
- maintains strategic influence through consultation processes;
- avoids becoming the tenure administrator;
- retains organisational flexibility;
- avoids additional governance obligations; and
- minimises long-term resource commitments.

If Council Issues a Trustee Lease or Trustee Permit

Council:

- becomes the tenure manager;
- assumes ongoing administration and compliance responsibilities;
- creates a precedent for future reserve tenures;
- reduces flexibility over future land use;
- increases governance and reputational exposure; and
- commits finite resources to a non-core function.

From a strategic perspective, there has not been identified a compelling organisational, community or economic benefit that would justify assuming responsibility for the direct administration of a Trustee Lease or Trustee Permit over the subject reserve land. While trustee-managed tenure would provide greater local control, it would also reduce future land-use flexibility, create a precedent for future reserve tenure management and increase Council's long-term governance and administrative obligations. Accordingly, Council considers that continuation of a State-administered tenure arrangement represents the option most consistent with sound governance, prudent resource management and Council's strategic objectives

Conclusion

Following a review of Council's obligations as trustee and the requirements associated with administering a Trustee Lease or Trustee Permit, it is considered that Council would assume a significant level of ongoing governance, legal, financial and operational responsibility that is currently managed by the State.

Importantly, Council has not identified any strategic, financial or operational advantage that would justify accepting these additional responsibilities and risks. Council does not have a demonstrated need to exercise direct control over the subject land, nor has it identified any future land use requirements that would necessitate a trustee-managed tenure arrangement at this time.

Conversely, a State-administered lease enables the continued management of the land through an established tenure framework while minimising Council's exposure to lease administration, compliance monitoring, enforcement action, legal disputes and associated resource commitments.

For these reasons, the preferred and lowest-risk option is for Council to advise the Department that it is not prepared to offer a Trustee Lease or Trustee Permit for the subject reserve land.
